Not My Kid Sinikka Elliott 2012-08-13 Teenagers have sex. While almost all parents understand that many teenagers are sexually active, there is a paradox in many parents' thinking: they insist their own teen children are not sexual, but characterize their children's peers as sexually-driven and hypersexual. Rather than accuse parents of being in denial, Sinikka Elliott teases out the complex dynamics behind this thinking, demonstrating that it is rooted in fears and anxieties about being a good parent, the risks of teen sexual activity, and teenagers' future economic and social status. Parents—like most Americans—equate teen sexuality with heartache, disease, pregnancy, promiscuity, and deviance and want their teen children to be protected from these things. Going beyond the hype and controversy, Elliott examines how a diverse group of American parents of teenagers understand teen sexuality, showing that, in contrast to the idea that parents are polarized in their beliefs, parents are confused, anxious, and ambivalent about teen sexual activity and how best to guide their own children's sexuality. Framed with an eye to the debates about teenage abstinence and sex education in school, Elliott also links parents' understandings to the contradictory messages and broad moral panic around child and teen sexuality. Ultimately, Elliott considers the social and cultural conditions that might make it easier for parents to talk with their teens about sex, calling for new ways of thinking and talking about teen sexuality that promote social justice and empower parents to embrace their children as fully sexual subjects.

Love As God Had Intended: A High School Science Teacher Is Given Lessons in Goodness By Native American Teenagers Harry Cralle This is a true story about the kind of love for one another that God had intended. It is a love that arose between a young white man, the author, and a group of Native American high school students in an experimental school in Chicago in the early 1970s. I was a volunteer, general science teacher who attempted to teach science with a spiritual dimension within the guide lines of a public school. There are many instances of humorous and serious classroom events. However, most of the book is devoted to dramatic events outside the school involving sports, violence, crime, police, sexual abuse, attempted suicide, attempted murder, and great acts of self-sacrificing love. On two occasions adult Native Americans put me in mortal danger. I was saved in one case by two male Native American teenagers, ages 14 and 15, and in the other case by the 15 year old male and a 14 year old female. They risked their lives to save my life. These experiences show how the love that God had intended overcame all social and historical barriers, all anger and jealousy, all bitterness and resentment to generate goodness and the courage to battle and defeat evil. When we see the moon or planets, we see the reflected light of the Sun. In the love and goodness of these heroes, I saw the reflection of the love and goodness of God From 1983 to 2017 I had a professorship in teaching and research at Texas A&M University in the Department of Soil & Crop Sciences. In my 34 years at TAMU, I taught more than 13,000 students and supervised more than 300 graduate teaching assistants. I taught

courses in agricultural ethics, history of farming in the Great Plains, world food and fiber crops, sustainable crop production, agricultural extension, and international agricultural development. My research areas were the interaction of crops and weeds, biological nitrogen fixation, and the distribution of the products of photosynthesis within plants. I am now retired. In this book I show how deeply my teaching and understanding of life was affected by these young Native Americans.

Why Is My Child in Charge? Claire Lerner 2021-09-02 Solve typical toddler challenges with eight key mindshifts that will help you parent with clarity, calmness and self-control. Through stories from her practice, Claire Lerner shows parents how making critical mindshifts—seeing their children's behaviors through a new lens—empowers parents to solve their most vexing childrearing challenges. This process puts parents back in the driver's seat, where they belong and where their children need them to be. These real life stories provide a roadmap for how to tune into the root causes of children's behavior and how to create and implement strategies that are tailored to the unique needs of each child and family. Through these stories, Claire provides a treasure trove of practical solutions that are based in science and which work in real life. *Why Is My Child In Charge?* picks up where other books have left parents hanging. Most parenting books offer solutions that sound good on paper but don't work in practice. They are aspirational rather than achievable, or they offer one-size-fits-all approaches that don't meet the needs of an individual child. They can compound parents' feelings of frustration and thus, can be counterproductive. Case by case, Claire unpacks the individualized process she guides parents through to solve the most common challenges such as throwing tantrums in public; delaying bedtime for hours; refusing to participate in family mealtimes; and resisting potty training. Employing a relatable story-telling approach, Claire elucidates: The faulty mindsets that pose obstacles to parents seeing the situation more objectively The essential mindshifts that enable parents to quickly identify the root causes of the problem The development of an action plan tailored to each unique child and family *Why is My Child in Charge?* is like having a child development specialist in your home. It shows how you can develop "win-win" strategies that translate into adaptable, happy kids and calm, connected and in-control parents. It will help you be the parent you want to be.

Raising a Strong Daughter in a Toxic Culture Meg Meeker 2019-12-31 Parents have never had a tougher job than now. Our culture bombards our daughters with unhealthy role models, misleads them about the consequences of early sexual activity, and even adds to the confusion of adolescences by encouraging them to question their "gender." Meg Meeker has been a pediatrician for more than thirty years, is a mother and a grandmother, and has seen it all. She knows what makes for strong, happy, healthy young women—and what puts our daughters at risk. In this book, you will learn: The four biggest questions every daughter has—and that you must answer Why it's the quality, not the quantity, of your daughter's friends that matters The essential, complementary roles that mothers and fathers play The dangers of social media—and how to help your daughter navigate them What every daughter needs to know about God Why depression is often a "sexually transmitted disease" How to launch your daughter into successful womanhood If you have a daughter, and worry about

The Best Kept Secret Roberta L. Coles 2009-03-16 The Best Kept Secret studies the often-overlooked group of single, African American custodial fathers. While the media focuses on the increase of single mothers and the decline in marriage in the black community, Roberta Coles paints a nuanced picture of single black dads. Based on qualitative research, the author looks at the parenting experience of these fathers, who may have become single parents through nonmarital births, divorce, widowhood and adoption. The fathers, ranging in age from 20 to 76, discuss their motivations for taking custody of their children, what roles they enact as parents, what they hope for their children, how they socialize their children in a diverse society, how parenting daughters differs from sons, and what parenting has done for them personally. Coles then recommends policy changes to improve the situations for children and single parents-particularly often-unseen fathers. Filled with dynamic interviews and intriguing case studies, The Best Kept Secret shows that single black custodial fathers do exist and looks at the ways raising children has shaped their lives.

International Exposure Lisa Z. Sigel 2005-01-03 International Exposure demonstrates the wealth of desires woven into the fabric of European history: desires about empire and nation, about self and other, about plenty and dearth. By documenting the diverse meanings of pornography, senior scholars from across disciplines show the ways that sexuality became central to the individual, to the nation, and to the transnational character of modern society. The ten essays in the volume engage a rich array of topics, including obscenity in the German states, censorship in France's Third Republic, "she-male" internet porn, the rise of incestuous longings in England, the place of the Hungarian video revolution in the global market, and the politics of pornography in Russia. Taken together, the essays illustrate the latest approaches to content, readership, form, and delivery in modern European pornography. A substantial discussion of the broad history and state of the field complements the ten in-depth case studies that examine a wide range of sources from literature to magazines, video to the internet. By tackling the highbrow and lowdown of the pornographic form, this volume lays the groundwork for the next surge of studies in the field.
