The Handmaid's Tale - Margaret Atwood 2017

Nevada - Imogen Binnie 2022-06-09

Maria, a trans woman in her thirties, is going nowhere. She spends her aimless days working in a New York bookstore, trying to remain true to a punk ethos while drinking herself into a stupor and having a variety of listless and confusing sexual encounters. After her girlfriend cheats on her, Maria steals her car and heads for the Pacific, embarking on her version of the Great American Road Trip. Along the way she stops in Reno, Nevada, and meets James, a young man who works in the local Wal-Mart. Maria recognizes elements of her younger self in James and the pair quickly form an unlikely but powerful connection, one that will have big implications for them both. *Nevada* is a hilarious, groundbreaking cult classic from Imogen Binnie that inspired a whole literary movement, and is now published in the UK for the very first time. Part of the Picador Collection, a new series showcasing the best of modern literature.

A History of the Vampire in Popular Culture - Violet Fenn 2021-05-12

An exploration of the continuing appeal of vampires in cultural and social history. Our enduring love of vampires—the bad boys (and girls) of paranormal fantasy—has persisted for centuries. Despite being bloodthirsty, heartless killers, vampire stories commonly carry erotic overtones that are missing from other paranormal or horror stories. Even when monstrous teeth are sinking into pale, helpless throats—especially then—vampires are sexy. But why? In *A History Of The Vampire In Popular Culture*, author Violet Fenn

takes the reader through the history of vampires in “fact” and fiction, their origins in mythology and literature, and their enduring appeal on TV and film. We’ll delve into the sexuality--and sexism--of vampire lore, as well as how modern audiences still hunger for a pair of sharp fangs in the middle of the night.

Watching the English - Kate Fox 2005-04-11

In "Watching The English" anthropologist Kate Fox takes a revealing look at the quirks, habits and foibles of the English people. She puts the English national character under her anthropological microscope, and finds a strange and fascinating culture, governed by complex sets of unspoken rules and byzantine codes of behaviour. The rules of weather-speak. The ironic-gnome rule. The reflex apology rule. The paranoid-pantomime rule. Class indicators and class anxiety tests. The money-talk taboo and many more ...Through a mixture of anthropological analysis and her own unorthodox experiments (using herself as a reluctant guinea-pig), Kate Fox discovers what these unwritten behaviour codes tell us about Englishness.

Language, Society and Power - Annabelle Mooney 2010-12-14

Language, Society and Power is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and

attitudes towards language use. This third edition of this bestselling book has been completely revised to include recent developments in theory and research and offers the following features: a range of new and engaging international examples drawn from everyday life: beauty advertisements, conversation transcripts, newspaper headlines reporting on asylum seekers, language themed cartoons, and excerpts from the television programme South Park and satirical news website The Onion new activities designed to give students a real understanding of the topic a new chapter covering 'Student Projects' - giving readers suggestions on how to further explore the topics covered in the book updated and expanded further reading sections for each chapter and a glossary. While it can be used as a stand-alone text, this edition of Language, Society and Power has also been fully cross-referenced with the new companion title: The Language, Society and Power Reader. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

Innocents and Others - Dana Spiotta 2017-01-12

'Spiotta is a wonder.' - George Saunders, author of *Lincoln in the Bardo* Meadow Mori and Carrie Wexler grew up together in Los Angeles, and both became film-makers. Meadow makes challenging documentaries; Carrie makes successful feature films with a feminist slant. The two friends have everything in common - except their views on sex, power, movie-making and morality. And yet their loyalty trumps their different approaches to film and to life. Until, one day, a mysterious woman with a unique ability to cold-call and seduce powerful men over the phone - not through sex, but through listening - becomes the subject of one of Meadow's documentaries. Her downfall, and what makes her so extraordinarily moving, is that she pretends to be someone she is not. The fallout from this challenges their friendship like nothing before. Heart-breaking and insightful, *Innocents and Others* by Dana Spiotta is an astonishing novel about friendship, identity, loneliness and art.

How to be a Woman - Caitlin Moran 2011

1913 - Suffragette throws herself under the King's horse. 1969 - Feminists storm Miss World. NOW - Caitlin Moran rewrites *The Female Eunuch* from a bar stool and demands to know why pants are getting smaller. There's never been a better time to be a woman: we have the vote and the Pill, and we haven't been burnt as witches since 1727. However, a few nagging questions do remain... Why are we supposed to get Brazilians? Should you get Botox? Do men secretly hate us? What should you call your vagina? Why does your bra hurt? And why does everyone ask you when you're going to have a baby? Part memoir, part rant, Caitlin Moran answers these questions and more in *How To Be A Woman* - following her from her terrible 13th birthday ('I am 13 stone, have no friends, and boys throw gravel at me when they see me') through adolescence, the workplace, strip-clubs, love, fat, abortion, TopShop, motherhood and beyond.
