Researching Gender Violence - Tina Skinner 2013-01-11

In this edited collection leading authors in the field draw on their experience to address key methodological questions and challenges that have arisen from the recent proliferation of research projects and government funded initiatives on violence against women. Topics include: evaluation research and feminist methodology; using quantitative and qualitative approaches; ethics, safety and access in sensitive research; interviewing practitioners, perpetrators, policy makers, and survivors (including children, women and young people); utilising discourse analysis to interpret data; undertaking cross national and comparative research; practical guidelines for practitioners/academics wishing to consult with women survivors; gearing research to facilitate positive change in policy and practice; and using the media for dissemination. increased focus on gender related violence politically and academically this book addresses head on the complex methodological issues involved leading experts in the field as contributors

Encyclopedia of Women in Today's World - Mary Zeiss Stange
2011-02-23

This work includes 1000 entries covering the spectrum of defining women in the contemporary world.

Breaking Women - Jill A. McCorkel 2013-08-05

Since the 1980s, when the War on Drugs kicked into high gear and prison populations soared, the increase in women's rate of incarceration has steadily outpaced that of men. In *Breaking Women*, Jill A. McCorkel draws upon four years of on-the-ground research in a major US women's prison to uncover why tougher drug policies have so greatly affected those incarcerated there, and how the very nature of punishment in women's detention centers has been deeply altered as a result. Through compelling interviews with prisoners and state personnel, McCorkel reveals that popular so-called "habilitation" drug treatment programs force women to accept a view of themselves as inherently damaged, aberrant addicts in order to secure an earlier release. These programs work to enforce stereotypes of deviancy that ultimately humiliate and degrade the women. The prisoners are left feeling lost and alienated in the end, and many never truly address their addiction as the programs' organizers may have hoped. A fascinating and yet sobering study, *Breaking Women* foregrounds the gendered and racialized assumptions behind tough-on-crime policies while offering a vivid account of how the contemporary penal system impacts individual lives. Jill A. McCorkel is Associate Professor of Sociology at Villanova University.

The Oxford Handbook of Ethnographies of Crime and Criminal Justice - Sandra M. Bucerius 2022

Despite ethnography's long and distinguished history in the social sciences, its use in criminology is still relatively rare. Over the years, however, ethnographers in the United States and abroad have amassed an impressive body of work on core criminological topics and groups, including gang members, sex workers, drug dealers, and drug users. Ethnographies on criminal justice institutions have also flourished, with studies on police, courts, and prisons providing deep insights into how these organizations operate and shape the lives of people who encounter them. *The Oxford Handbook of Ethnographies of Crime and Criminal Justice* provides critical and current reviews of key research topics, issues, and debates that crime ethnographers have been grappling with for over a century. This volume brings together an outstanding group of ethnographers to discuss various research traditions, the ethical and pragmatic challenges associated with conducting crime-related fieldwork, relevant policy recommendations for practitioners in the field, and areas of future research for crime ethnographers. In addition to exhaustive overview essays, the handbook also presents case studies that serve as exemplars for how ethnographic inquiry can contribute to our understanding of crime and criminal justice-related topics.

Controversies in Critical Criminology - Martin Schwartz 2014-09-25

These original essays introduce students to the complex and influential

field of critical criminology. It presents many of the theories of critical criminology — Marxist, Feminist, Left Realist, Postmodern, Constitutive, Peacemaking, and Restorative Justice — and explores how, despite their distinctions, each theory is rooted in radical criminology, and all are critical of mainstream criminology.

Girls, Women, and Crime - Meda Chesney-Lind 2013

A compilation of journal articles on the female offender written by leading researchers in the field of criminology and women's studies. Reveals the complex worlds females in the criminal justice system must often negotiate.

Sexed Work - Lisa Maher 1997

This is the first detailed account of the economic lives of women drug users. It is located at the boundaries of three disciplines - criminology, anthropology, and sociology - and based on three years of in-depth ethnographic fieldwork in New York City. Set in a neighbourhood plagued by drug use and AIDS, the book reveals the economic lives of a group of women whose options have been severely circumscribed, not only by drug use, but also by poverty, racism, violence, and enduring marginality. It is a fascinating account, with Maher drawing extensively on the women's own words, describing how structures and relations of gender, race and class, are articulated by divisions of labour in the street-level drug economy. The book challenges the impoverished set of characterizations which dominate the literature, critiquing both feminist and non-feminist representations that view women lawbreakers as driven by forces beyond their control. It graphically illustrates the role of the drug economy as a site of cultural reproduction by drawing attention to the specific practices by which gender and race dimensions of inequality are constituted and contested in street-level drug markets. This is a rich, nuanced, and theoretically sophisticated study of "crime as work" which will be compelling reading for all those interested in the ways in which women deal with the intersection of gender, race, and work.

Gender, Heterosexuality, and Youth Violence - James W. Messerschmidt 2012-03-16

Gender, Heterosexuality, and Youth Violence explores why some boys and girls engage in assaultive or sexual violence while others do not. Acclaimed criminologist James W. Messerschmidt shares six compelling life histories of boys and girls to address the relationship among gender, heterosexuality, violence, and non-violence.

The Gender of Crime - Dana M. Britton 2011

A teacher resource for *A Midsummer Night's Dream* Online, providing scaffolded activities focusing on key scenes in the play and incorporating ways for teachers to use the multiple resources and learning tools (multimedia, etc.) on the *A Midsummer Night's Dream* Online website. Also includes notes on over 50 strategies for active learning and critical inquiry (e.g., hot seating, film analysis and interpretation, choral reading, image interpretation, etc.).

The Handbook of Drugs and Society - Henry H. Brownstein 2015-12-14

This handbook provides a comprehensive examination of the past and present roles of drugs in society with a focus on theory, research, policy, and practice. Includes 28 original chapters with multi-disciplinary and international perspectives by top social and behavioral scientists. Reviews current knowledge in the field, including key research findings, theoretical developments, and methodological debates. Identifies ongoing controversies in the field, emergent topics, and areas in need of further inquiry. Discusses individual drugs as well as topics like physiological theories of drug use and abuse, public health implications of drugs, patterns of drugs and crime, international drug trade and trafficking, and designer drugs.

Offending Youth - Kerry Carrington 2009

Rates of female delinquency, especially for violent crimes, are increasing in most common law countries. At the same time the growth in cyber-bullying, especially among girls, appears to be a related global phenomenon. While the gender gap in delinquency is narrowing in Australia, United States, Canada and the United Kingdom, boys continue

to dominate the youth who commit crime and have a virtual monopoly over sexually violent crimes. Indigenous youth continue to be vastly over-represented in the juvenile justice system in every Australian jurisdiction. The Indigenisation of delinquency is a persistent problem in other countries such as Canada and New Zealand. Young people who gather in public places are susceptible to being perceived as somehow threatening or riotous, attracting more than their share of public order policing. Professional football has been marred by repeated scandals involving sexual assault, violence and drunkenness. Given the cultural significance of footballers as role models to thousands, if not millions, of young men around the world, it is vitally important to address this problem. *Offending Youth* explores these key contemporary patterns of delinquency, the response to these by the juvenile justice agencies and moreover what can be done to address these problems. The book also analyses the major policy and legislative changes from the nineteenth to twenty first centuries, chiefly the shift the penal welfarism to diversion and restorative justice. Using original cases studied by Carrington twenty years ago, *Offending Youth* illustrates how penal welfarism criminalised young people from socially marginal backgrounds, especially Aboriginal children, children from single parent families, family-less children, state wards and young people living in poverty or in housing commission estates. A number of inquiries in Australia and the United Kingdom have since established that children committed to these institutions, supposedly for their own good, experienced systemic physical, sexual and psychological abuse during their institutionalisation. The book is dedicated to the survivors of these institutions who only now are receiving official recognition of the injustices they suffered. The underlying philosophy of juvenile justice has fundamentally shifted away from penal welfarism to embrace positive policy responses to juvenile crime, such as youth conferencing, cautions, warnings, restorative justice, circle sentencing and diversion examined in the concluding chapter. *Offending Youth* is aimed at a broad readership including policy makers, juvenile justice professionals, youth workers, families, teachers, politicians as well as students and academics in criminology, policing, gender studies, masculinity studies, Indigenous studies, justice studies, youth studies and the sociology of youth and deviance more generally.

Gender and Crime - Karen Heimer 2006

Resource added for the Criminal Justice - Law Enforcement 105046 and Professional Studies 105045 programs.

The Handbook of Measurement Issues in Criminology and Criminal Justice - Beth M. Huebner 2016-06-13

This volume of the series was designed to provide a comprehensive primer on the existing best practices and emerging developments in the study and design research on crime and criminology. The work as a whole includes chapters on the measurement of criminal typologies, the offenders, offending and victimization, criminal justice organizations, and specialized measurement techniques. Each chapter is written by experts in the field and they provide an excellent survey of the literature in the relevant area. More importantly, each chapter provides a description of the various methodological and substantive challenges presented in conducting research on these issues and denotes possible solutions to these dilemmas. An emphasis was placed on research that has been conducted outside of the United States and was designed to give the reader a broader more global understanding of the social context of research. The goal of this volume is to provide a definitive reference for professionals in the field, researchers, and students. This volume in the *Handbooks in Criminology and Criminal Justice* series identifies the principal topical areas of research in this field and summarizes the various methodological and substantive challenges presented in conducting research on these issues. In each chapter, authors provide a summary of the prominent data collection efforts in the topical area, provide an overview of the current methodological work, discuss the challenges in the measurement of central concepts in the subject area, and identify new horizons emerging in data collection and measurement. We encouraged authors to discuss work conducted in an international context and to incorporate discussion of qualitative methodologies when appropriate.

Gender and Crime: Oxford Bibliographies Online Research Guide - Oxford University Press 2010-05-01

This ebook is a selective guide designed to help scholars and students of criminology find reliable sources of information by directing them to the best available scholarly materials in whatever form or format they appear from books, chapters, and journal articles to online archives, electronic data sets, and blogs. Written by a leading international authority on the subject, the ebook provides bibliographic information

supported by direct recommendations about which sources to consult and editorial commentary to make it clear how the cited sources are interrelated. A reader will discover, for instance, the most reliable introductions and overviews to the topic, and the most important publications on various areas of scholarly interest within this topic. In criminology, as in other disciplines, researchers at all levels are drowning in potentially useful scholarly information, and this guide has been created as a tool for cutting through that material to find the exact source you need. This ebook is a static version of an article from Oxford Bibliographies Online: Criminology, a dynamic, continuously updated, online resource designed to provide authoritative guidance through scholarship and other materials relevant to the study and practice of criminology. Oxford Bibliographies Online covers most subject disciplines within the social science and humanities, for more information visit www.oxfordbibliographies.com.

Masculinities and Crime - James W. Messerschmidt 2018-07-30

James W. Messerschmidt's *Masculinities and Crime* quickly became a classic text for social scientists examining the relationship between masculinities and crime. The book is completely revised and unique in its focus on Messerschmidt's most important research and theorizing accomplished over the last twenty-five years.

Invisible No More - Andrea J. Ritchie 2017-08-01

"A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence." —Michelle Alexander, author of *The New Jim Crow*
Invisible No More is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

Understanding Drug Dealing and Illicit Drug Markets - Tammy C. Ayres 2023-07-31

This book examines the drug dealer in contemporary society from an interdisciplinary perspective and considers the increasingly blurred demarcation between illegitimate and legitimate drug markets. It explores the motives and drivers of those involved in drug supply and dispels common and stereotypical myths and misconceptions surrounding illegal drug markets and those who operate within them. The drug dealer has become one of our foremost contemporary 'folk devils'. Those who trade in substances prohibited by law are the subject of array of inaccurate myths and urban legends. Criminology has tended either to shoehorn drug dealers into neat typologies or portray them as 'victims' of an uncaring, predatory post-modern society. In reality, we know relatively little about the complex and diverse world of drug markets and our concentration inevitably falls on low-end 'retail' dealers who operate in the most visible sectors of the illegal economy. Bringing together an international group of experts, this book considers perspectives from around the world, including UK, USA, South America, Spain, India and Australia. This book will be of interest to students and researchers across criminology, law, sociology, criminal justice and public health, and will be essential reading for those taking courses on drugs, drug markets and substance misuse.

Handbook of Race-Ethnicity and Gender in Psychology - Marie L. Miville 2014-02-06

Multicultural aspects of psychology have received some attention in the literature in the last decade. A number of texts currently address these significant concerns, for example, *Counseling the Culturally Different* (Sue & Sue, 2008); *Handbook of Multicultural Counseling* (Poterotto et al., 2009); and *Handbook of Multicultural Counseling Competencies* (Pope-Davis & Coleman, 2005). In their most recent editions, several of these books address more nuanced complexities of diversity, for example, the intersections of gender or social class with race-ethnicity. Meanwhile, other texts have addressed gender issues in psychology (*Handbook of Counseling Women, Counseling Men*), with some attention paid to racial-ethnic and other diversity concerns. Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology. However, no book currently exists that fully addresses the complexities of race-ethnicity and gender together. Better understanding of the dual impact

of race-ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues, such as domestic violence, addictions, health-related behaviors and achievement. Exploring the impact of race-ethnicity and gender also may provide a broader understanding of self-in-community, as this affects individuals, families and other social groups and work and career development. Topics of interest may include identity development, worldviews and belief systems, parenting styles, interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities. Today's world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health. We believe that utilizing unidimensional conceptual models (e.g. focusing solely on race-ethnicity or gender) no longer adequately addresses psychological concerns that are dynamic, complex and multi-faceted. The proposed Handbook will focus on timely topics which historically have been under-addressed for a number of diverse populations.

Get a Job - Robert D. Crutchfield 2014-05-02

Are the unemployed more likely to commit crimes? Does having a job make one less likely to commit a crime? Criminologists have found that individuals who are marginalized from the labor market are more likely to commit crimes, and communities with more members who are marginal to the labor market have higher rates of crime. Yet, as Robert Crutchfield explains, contrary to popular expectations, unemployment has been found to be an inconsistent predictor of either individual criminality or collective crime rates. In *Get a Job*, Crutchfield offers a carefully nuanced understanding of the links among work, unemployment, and crime. Crutchfield explains how people's positioning in the labor market affects their participation in all kinds of crimes, from violent acts to profit-motivated offenses such as theft and drug trafficking. Crutchfield also draws on his first-hand knowledge of growing up in a poor, black neighborhood in Pittsburgh and later

working on the streets as a parole officer, enabling him to develop a more complete understanding of how work and crime are related and both contribute to, and are a result of, social inequalities and disadvantage. Well-researched and informative, *Get a Job* tells a powerful story of one of the most troubling side effects of economic disparities in America.

Encyclopedia of Criminological Theory - Francis T. Cullen 2010-09-23
'Consistently excellent.... The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond' - Adam Toccock, Reference Reviews
In discussing a criminology topic, lecturers and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on, as if assuming their student audience possesses the necessary background to appreciate and integrate the reference. However, university reference librarians can tell you this is often far from the case. Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics - the who, what, where, how and why, if you will. And reference librarians often find it difficult to guide these students to a quick, one-stop source. In response, SAGE Reference is publishing the two-volume *Encyclopedia of Criminological Theory*, available in both print and electronic formats. This serves as a reference source for anyone interested in the roots of contemporary criminological theory. Drawing together a team of international scholars, it examines the global landscape of all the key theories and the theorists behind them, presenting them in the context needed to understand their strengths and weaknesses. In addition to interpretations of long-established theories, it also offers essays on cutting-edge research as one might find in a handbook. And, like an unabridged dictionary, it provides concise, to-the-point definitions of key concepts, ideas, schools, and figures. Coverage will include: contexts and concepts in criminological theory the social construction of crime policy implications of theory diversity and intercultural contexts conflict theory rational choice theories conservative criminology feminist theory.
