Genocide and Gender in the Twentieth Century Amy E. Randall  
2022-01-13 Revised edition of Genocide and gender in the twentieth century, 2015.

Rape, Sexual Violence and Transitional Justice Challenges Janine Natalya Clark 2017-09-01 It is estimated that 20,000 people were subjected to rape and other forms of sexual violence during the 1992-1995 Bosnian war. Today, these men and women have been largely forgotten. Where are they now? To what extent do their experiences continue to affect and influence their lives, and the lives of those around them? What are the principal problems that these individuals face? Such questions remain largely unanswered. More broadly, the long-term consequences of conflict-related rape and sexual violence are often overlooked. Based on extensive interviews with male and female survivors from all ethnic groups in Bosnia-Herzegovina (BiH), this interdisciplinary book addresses a critical gap in the current literature on rape and sexual violence in conflict situations. In so doing, it uniquely situates and explores the legacy of these crimes within a transitional justice framework. Demonstrating that transitional justice processes in BiH have neglected the long-term effects of rape and sexual violence, it develops and operationalizes a new holistic approach to transitional justice that is based on an expanded conception of 'legacy' and has a wider application beyond BiH.

**Historical Dictionary of Human Rights** Jacques Fomerand  
2021-02-25 The second edition of Historical Dictionary of Human Rights explores both the theory and the practice of international human rights with a focus on the norms and institutions that make up the "architecture" of the global human rights regime and

the tools, processes and procedures through which such norms are realized and “enforced.” Particular attention is given to the contextual political and sociological factors that shape and constrain the operation and functioning of international human rights institutions and their state and non-state actors. This is done through a chronology, an introduction, and an extensive bibliography. The dictionary section has more than 1.000 cross-referenced entries on terminology, conventions, treaties, intergovernmental organizations in the United Nations, and non-governmental organizations, as well as some of the pioneers and defenders. This book is an excellent resource for students, researchers, and anyone wanting to know more about human rights.

**Rethinking Peacekeeping, Gender Equality and Collective Security** G. Heathcote 2014-09-01 This book examines how the Security Council has approached issues of gender equality since 2000. Written by academics, activists and practitioners the book challenges the reader to consider how women's participation, gender equality, sexual violence and the prevalence of economic disadvantages might be addressed in post-conflict communities.

*An Introduction to Transitional Justice* Olivera Simić 2016-11-25 An Introduction to Transitional Justice provides the first comprehensive overview of transitional justice judicial and non-judicial measures implemented by societies to redress legacies of massive human rights abuse. Written by some of the leading experts in the field it takes a broad, interdisciplinary approach to the subject, addressing the dominant transitional justice mechanisms as well as key themes and challenges faced by scholars and practitioners. Using a wide historic and geographic range of case studies to illustrate key concepts and debates, and featuring discussion questions and suggestions for further reading, this is an essential introduction to the subject for students.

**Transitional Justice in Law, History and Anthropology** Lia

Kent 2020-06-09 Transitional justice seeks to establish a break between the violent past and a peaceful, democratic future, and is based on compelling frameworks of resolution, rupture and transition. Bringing together contributions from the disciplines of law, history and anthropology, this comprehensive volume challenges these frameworks, opening up critical conversations around the concepts of justice and injustice; history and record; and healing, transition and resolution. The authors explore how these concepts operate across time and space, as well as disciplinary boundaries. They examine how transitional justice mechanisms are utilised to resolve complex legacies of violence in ways that are often narrow, partial and incomplete, and reinforce existing relations of power. They also destabilise the sharp distinction between 'before' and 'after' war or conflict that narratives of transition and resolution assume and reproduce. As transitional justice continues to be celebrated and promoted around the globe, this book provides a much-needed reflection on its role and promises. It not only critiques transitional justice frameworks but offers new ways of thinking about questions of violence, conflict, justice and injustice. It was originally published as a special issue of the Australian Feminist Law Journal.

*Gender and War* Solange Muthaan 2019 This book explores and challenges common assumptions about gender, conflict, and post-conflict situations. It critically examines the gendered aspects of international and transitional justice processes by subverting traditional understandings of how wars are waged, the power dynamics involved, and the experiences of victims. The book also highlights the gendered stereotypes that underpin the

(mis)perceptions about gender and war in order to reveal the multi-dimensional nature of modern conflicts and their aftermaths. Featuring contributions from academics in law, criminology, international relations, politics and psychology, as well as legal practitioners in the field, *Gender and War* offers a unique and multi-disciplinary insight into contemporary understandings of conflict and explores the potential for international and transitional justice processes to evolve in order to better acknowledge diverse and gendered experiences of modern conflicts. This book provides the reader with international and interdisciplinary perspectives on issues of international law, conflict, gender and transitional justice.

**The Gender of Reparations** Ruth Rubio-Marin 2009-07-31 This text articulates approaches to gender in the design and implementation of reparations for victims of human rights violations.

*Gender Politics in Transition: Women's Political Rights after the January 25 Revolution* Claudia Ruta 2012

*Transitional Justice and Reconciliation* Martina Fischer 2015-11-06 Scholars and practitioners alike agree that somehow the past needs to be addressed in order to enable individuals and collectives to rebuild trust and relationships. However, they also continue to struggle with critical questions. When is the right moment to address the legacies of the past after violent conflict? How can societies address the past without deepening the pain that arises from memories related to the violence and crimes committed in war? How can cultures of remembrance be established that would include and acknowledges the victims of all sides involved in violent conflict? How can various actors deal constructively with different interpretations of facts and history? Two decades after the wars, societies in Bosnia, Serbia and Croatia – albeit to different degrees – are still facing the legacies of the wars of the 1990s on a daily basis. Reconciliation between and within these societies remains a formidable challenge, given

that all three countries are still facing unresolved disputes either at a cross-border level or amongst parallel societies that persist at a local community level. This book engages scholars and practitioners from the regions of former Yugoslavia, as well as international experts, to reflect on the achievements and obstacles that characterise efforts to deal with the past. Drawing variously on empirical studies, theoretical discussions, and practical experience, their contributions offer invaluable insights into the complex relationship between transitional justice and conflict transformation.

*Justice and Economic Violence in Transition* Dustin N. Sharp  
2013-09-14 This book examines the role of economic violence (violations of economic and social rights, corruption, and plunder of natural resources) within the transitional justice agenda. Because economic violence often leads to conflict, is perpetrated during conflict, and continues afterwards as a legacy of conflict, a greater focus on economic and social rights issues in the transitional justice context is critical. One might add that insofar as transitional justice is increasingly seen as an instrument of peacebuilding rather than a simple political transition, focus on economic violence as the crucial “root cause” is key to preventing re-lapse into conflict. Recent increasing attention to economic issues by academics and truth commissions suggest this may be slowly changing, and that economic and social rights may represent the “next frontier” of transitional justice concerns. There remain difficult questions that have yet to be worked out at the level of theory, policy, and practice. Further scholarship in this regard is both timely, and necessary. This volume therefore presents an opportunity to fill an important gap. The project will bring together new papers by recognized and emerging scholars and policy experts in the field.

**Peoples' Tribunals and International Law** Andrew Byrnes

**Sexual Violence and Armed Conflict** Janie L. Leatherman

2013-04-26 Every year, hundreds of thousands of women become victims of sexual violence in conflict zones around the world; in the Democratic Republic of Congo alone, approximately 1,100 rapes are reported each month. This book offers a comprehensive analysis of the causes, consequences and responses to sexual violence in contemporary armed conflict. It explores the function and effect of wartime sexual violence and examines the conditions that make women and girls most vulnerable to these acts both before, during and after conflict. To understand the motivations of the men (and occasionally women) who perpetrate this violence, the book analyzes the role played by systemic and situational factors such as patriarchy and militarized masculinity. Difficult questions of accountability are tackled; in particular, the case of child soldiers, who often suffer a double victimization when forced to commit sexual atrocities. The book concludes by looking at strategies of prevention and protection as well as new programs being set up on the ground to support the rehabilitation of survivors and their communities. Sexual violence in war has long been a taboo subject but, as this book shows, new and courageous steps are at last being taken at both local and international level - to end what has been called the "greatest silence in history".

**Women Documented. Women and Public Life in Bosnia and Herzegovina in the 20th Century** 2014

*Lola's War* Olivera Simic 2023-06-01 This longitudinal study is based on the story of Lola, who was gang raped during the war in Bosnia and Herzegovina in 1992. At the time, she was in a detention camp with her young children. Only one of Lola's several perpetrators was convicted but his sentence of six years of imprisonment has never been actioned by the Bosnian

judiciary. Lola's rapist is still free and she lives in continual fear that he will retaliate against her and her children for her role in his trial.

*Sexualised Crimes, Armed Conflict and the Law* Hannah

Baumeister 2018-06-04 From ancient to modern times, sexualised war violence against women was tolerated if not encouraged as a means of reward, propaganda, humiliation, and terror. This was and is in defiance of international laws that have criminalised acts of sexualised war violence since the 18th century. Ad hoc international tribunals have addressed especially war rape since the 15th century. The International Criminal Court (ICC), however, is the first independent, permanent, international criminal court that recognises not only war rape but also sexual slavery and other sexualised crimes as crimes against humanity, war crimes, and acts of genocide in its statute and supporting documents. This book explores how the ICC definitions of rape and forced marriage came about, and addresses the ongoing challenge of how to define war rape and forced marriage in times of armed conflict in a way that adequately reflects women's experiences, as well as the nature of the crimes. In addition to deepening the understanding of the ICC negotiations of war rape and forced marriage, and of the crimes themselves, this volume highlights relevant factors that need to be considered when criminalising acts of sexualised war violence under international law. *Sexualised Crimes, Armed Conflict and the Law* draws on feminist and constructivist theories and offers a comprehensive theoretical and empirical examination of the definition of rape and forced marriage. It presents the latest state of knowledge on the topic and will be of interest to researchers, academics, policymakers, officials and intergovernmental organisations, and students in the fields of post-conflict law and justice, international law, human rights law, international relations, gender studies, politics, and criminology.

*International Law in the Transition to Peace* Carina Lamont

2021-11-14 This book proposes a normative framework specifically designed for the complex and legally uncertain time period between armed conflicts and peace. As such, it contributes both to the furthering of a jus post bellum framework, and to enhanced legal clarity in complex and legally uncertain environments. This, in turn, contributes to strengthened protection engagements, and thus to improved prospects of enabling sustainable peace and security in both national and international perspectives. The book offers a novel but persuasive argument for a legal framework specific for transitional environments. Such legal framework, it is argued, is warranted in order to enable legal clarity to contemporary and outstanding legal issues, as well as to furthering peace efforts in complex environments. The legal framework suggested proposes a dividing line between applicable legal frameworks that, it is submitted, enhances both legal clarity on protection engagements and the quest for sustainable peace. The framework proposed is founded on a legal analysis of the protective nature and function of law. It thus provides a rare but important perspective on law that is of value in the quest for sustainable peace and security. The research draws uniquely on both contemporary legal debates, and on peace and conflict research. It does so in order to enable legal analysis that is both legally sound, as well as appropriate and adequate in today's peace and security realities. The book provides a valuable resource for academics, researchers and policy-makers in the areas of Public International Law, International Humanitarian Law, International Human Rights Law, (the law of) Peace Operations, and Peace and Security Studies.

*Reparations and War* Luke Moffett 2023-01-13 War devastates the lives of those who are caught up in it. For thousands of years, reparations have been used to secure the end of war and alleviate its deleterious consequences. More recently, human rights law has established that victims have a right to reparations. Yet, in

the face of conflicts that last for decades with millions of victims, how feasible are reparations? And what are the obstacles to delivering them? Using interviews with hundreds of victims, ex-combatants, government officials, and civil society actors from six post-conflict countries, *Reparations and War* examines the history, theoretical justifications, and practical challenges of implementing reparations after war. It examines the role of non-state armed groups in making reparations, the role of victim mobilisation, the evolving use of reparations, and the political instrumentalization of redress. Luke Moffett offers a measured and honest account of what reparations can and cannot do. This book sheds new light on how reparations can be politically manipulated, or used to reward those loyal to the State, rather than to achieve justice for the victims who suffer.

**Transitional Justice and the Public Sphere** Chrisje Brants

2017-11-02 Transparency is a fundamental principle of justice. A cornerstone of the rule of law, it allows for public engagement and for democratic control of the decisions and actions of both the judiciary and the justice authorities. This book looks at the question of transparency within the framework of transitional justice. Bringing together scholars from across the disciplinary spectrum, the collection analyses the issue from socio-legal, cultural studies and practitioner perspectives. Taking a three-part approach, it firstly discusses basic principles guiding justice globally before exploring courts and how they make justice visible. Finally, the collection reviews the interface between law, transitional justice institutions and the public sphere.

Gendered Wars, Gendered Memories Ayşe Gül Altınay 2016-04-06

The Introduction of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781315584225> The twentieth century has been a century of wars, genocides and violent political conflict; a century of militarization and massive

destruction. It has simultaneously been a century of feminist creativity and struggle worldwide, witnessing fundamental changes in the conceptions and everyday practices of gender and sexuality. What are some of the connections between these two seemingly disparate characteristics of the past century? And how do collective memories figure into these connections? Exploring the ways in which wars and their memories are gendered, this book contributes to the feminist search for new words and new methods in understanding the intricacies of war and memory. From the Italian and Spanish Civil Wars to military regimes in Turkey and Greece, from the Armenian genocide and the Holocaust to the wars in Abkhazia, East Asia, Iraq, Afghanistan, former Yugoslavia, Israel and Palestine, the chapters in this book address a rare selection of contexts and geographies from a wide range of disciplinary perspectives. In recent years, feminist scholarship has fundamentally changed the ways in which pasts, particularly violent pasts, have been conceptualized and narrated. Discussing the participation of women in war, sexual violence in times of conflict, the use of visual and dramatic representations in memory research, and the creative challenges to research and writing posed by feminist scholarship, *Gendered Wars, Gendered Memories* will appeal to scholars working at the intersection of military/war, memory, and gender studies, seeking to chart this emerging territory with 'feminist curiosity'.

*Amnesty, Serious Crimes and International Law* Josepha Close  
2019-05-16 *Amnesty, Serious Crimes and International Law* examines the permissibility of amnesties for serious crimes in the contemporary international order. In the last few decades, there has been a growing tendency to consider that amnesties are prohibited in respect of certain grave crimes. However, the question remains controversial as there is no explicit treaty ban and general amnesties continue to be frequently issued in post-conflict and transitional contexts. The first part of the book explores the use of amnesties from antiquity to the present day. It

reviews amnesty traditions in ancient societies and provides a global picture of modern amnesties. In parallel, it traces the development of the accountability paradigm underpinning the current prohibitive stance on amnesties. The second part assesses the position of modern international law on amnesties. It comprehensively analyses the main arguments supporting the existence of a general amnesty ban, including the duty to prosecute international crimes, the right to redress of victims of human rights violations, international standards and trends in state practice, and the mandate of international criminal courts. The book argues that, while international legal or policy requirements restrict the freedom of states to extend amnesty in respect of serious crimes, or the effectiveness of amnesty measures in preventing the prosecution of such crimes, these restrictions do not add up to an absolute and universal prohibition.

**The Women in Blue Helmets** Lesley J. Pruitt 2016-06-28 The Women in Blue Helmets tells the story of the first all-female police unit deployed by India to the UN peacekeeping mission in Liberia in January 2007. Lesley J. Pruitt investigates how the unit was originated, developed, and implemented, offering an important historical record of this unique initiative. Examining precedents in policing in the troop-contributing country and recent developments in policing in the host country, the book offers contextually rich examination of all-female units, explores the potential benefits of and challenges to women's participation in peacekeeping, and illuminates broader questions about the relationship between gender, peace, and security.

*International Law and Post-Conflict Reconstruction Policy* Matthew Saul 2015-05-15 The trend for international engagement in post-conflict reconstruction has produced a host of best-practice postulates on topics such as local involvement in decision-making, accountability for past atrocities, sensitivity to context, and the construction of democratic institutions of

governance. International law has potential relevance for many of these themes, yet the question of how the implementation of best-practice policy recommendations might be affected by international law remains under-examined. This book offers a fuller understanding of the role of international law in the practice of post-conflict reconstruction. It explores how international legal issues that arise in the post-conflict period relate to a number of strands of the policy debate, including government creation, constitution-making, gender policy, provision of security, justice for past atrocities, rule of law development, economic recovery, returning displaced persons, and responsibilities of international actors. The chapters of the book work to reveal the extent to which international law figures in the policy of internationally enabled post-conflict reconstruction across a range of sectors. They also highlight the scope for international law to be harnessed in a more effective manner from the perspective of the transition to peace and stability. The book lays out a basis for future policy making on post-conflict reconstruction; one that is informed about the international legal parameters, and more aware of how international law can be utilized to promote key objectives.

**Postgenocide** Klejda Mulaj 2021-03-15 This edited volume studies the after-effects of genocide, exploring the ways in which societies are shaped by a history of such extreme violence. Contributions from a variety of perspectives, including law, political science, sociology, and ethnography, explore previously overlooked themes and cases to reassess existing assumptions in the field.

### **Cognitive Behaviour Therapy for Children and Families**

Philip Graham 2013-03-14 "The book is primarily written for child mental health professionals, especially psychologists, psychiatrists, mental health nurses, social workers and psychotherapists as well as those training in these fields. The book will also be found helpful by paediatricians and general

psychiatrists. It is suitable both for trainees and for those with a more advanced knowledge of the subject"--Provided by publisher. *Divided Dreamworlds?* Peter Romijn 2012 With its unique focus on how culture contributed to the blurring of ideological boundaries between the East and the West, this important volume offers fascinating insights into the tensions, rivalries and occasional cooperation between the two blocs. Encompassing developments in both the arts and sciences, the authors analyze focal points, aesthetic preferences and cultural phenomena through topics as wide-ranging as the East- and West German interior design; the Soviet stance on genetics; US cultural diplomacy during and after the Cold War; and the role of popular music as a universal cultural ambassador. Well positioned at the cutting edge of Cold War studies, this important work illuminates some of the striking paradoxes involved in the production and reception of culture in East and West.

*Self-Determination, International Law and Post-Conflict Reconstruction* Manuela Melandri 2018-10-03 The right to self-determination has played a crucial role in the process of assisting oppressed people to put an end to colonial domination. Outside of the decolonization context, however, its relevance and application has constantly been challenged and debated. This book examines the role played by self-determination in international law with regard to post-conflict state building. It discusses the question of whether self-determination protects local populations from the intervention of international state-builders in domestic affairs. With a focus on the right as it applies to the people of an independent state, it explores how self-determination concerns that arise in the post-conflict period play out in relation to the reconstruction process. The book analyses the situation in Somalia as a means of drawing out the impact and significance of the legal principle of self-determination in the process of rebuilding post-conflict institutions. In so doing, it seeks to highlight how the relevance of self-determination is often

overlooked in this context.

*The Body of War* Dubravka Žarkov 2007-08-13 DIVIn *The Body of War*, Dubravka Žarkov analyzes representations of female and male bodies in the Croatian and Serbian press in the late 1980s and in the early 1990s, during the war in which Yugoslavia disintegrated. Žarkov proposes that the Balkan war was not a war between ethnic groups; rather, ethnicity was produced by the war itself. Žarkov explores the process through which ethnicity was generated, showing how lived and symbolic female and male bodies became central to it. She does not posit a direct causal relationship between hate speech published in the press during the mid-1980s and the acts of violence in the war. Instead, she argues that both the representational practices of the “media war” and the violent practices of the “ethnic war” depended on specific, shared notions of femininity and masculinity, norms of (hetero)sexuality, and definitions of ethnicity. Tracing the links between the war and press representations of ethnicity, gender, and sexuality, Žarkov examines the media’s coverage of two major protests by women who explicitly identified themselves as mothers, of sexual violence against women and men during the war, and of women as militants. She draws on contemporary feminist analyses of violence to scrutinize international and local feminist writings on the war in former Yugoslavia. Demonstrating that some of the same essentialist ideas of gender and sexuality used to produce and reinforce the significance of ethnic differences during the war often have been invoked by feminists, she points out the political and theoretical drawbacks to grounding feminist strategies against violence in ideas of female victimhood./div

**Introducing Intercultural Communication** Shuang Liu

**Gender and International Criminal Law** Indira Rosenthal

2022-06-16 The last few decades have seen remarkable developments in international criminal justice, especially in relation to the pursuit of individuals responsible for sexual violence and other gender-based crimes. Historically ignored, justified, or minimised, this category of crimes now has a heightened profile in the international political and judicial arena. Despite this, gender is poorly understood, and blind spots, biases, and stereotypes prevail. This book brings together leading feminist international criminal and humanitarian law academics and practitioners to examine the place of gender in international criminal law (ICL). It identifies and analyses past and current narrow understandings of gender, before considering how a limited conceptualization affects accountability efforts. The

authors consider how best to implement a more nuanced understanding of gender in the practice of international criminal law by identifying possible responses, including embedding a sophisticated gender strategy into the practice of ICL, the gender-sensitive application of international human rights and humanitarian law, and encouraging a gender-competent approach to judging in ICL. The authors' aim is to strengthen efforts for accountability for all atrocity crimes-war crimes, crimes against humanity, genocide, and aggression.

Twelve Feminist Lessons of War Cynthia Enloe 2023-09-19

Renowned scholar-activist Cynthia Enloe lays out the lessons that women activists have drawn from their immediate experiences of war. *Twelve Feminist Lessons of War* draws on firsthand experiences of war from women in places as diverse as Ukraine, Myanmar, Somalia, Vietnam, Rwanda, Algeria, Syria, and Northern Ireland to show how women's wars are not men's wars. With her engaging trademark style, Cynthia Enloe demonstrates how patriarchy and militarism have embedded themselves in our institutions and our personal lives. Enloe reveals how the social and political influences that shape war--from military recruitment and economic collapse to sexual assault and reproductive rights (and their denial)--are deeply gendered and pervade women's lives before, during, and in the aftermath of war. Her razor-sharp analysis, at once accessible and provocative, highlights how women's emotional and physical labor is used to support government policies and how women's rights activists--against all odds--remain committed in the midst of armed violence. *Twelve Feminist Lessons of War* is the gritty and grounded book we need to understand what is happening to our world.

UN Territorial Administration and Human Rights Gjylbehare Bella Murati 2020-04-30 This book offers an original and insightful analysis of the human rights inadequacies that arise in the practice of UN territorial administration by analysing and assessing the practice of UNMIK. It provides arguments based on

law and principles to support the thesis that a comprehensive legal framework governing the activities of the UN mission is a crucial prerequisite for its proper functioning. This is complemented by a discussion of several emerging issues surrounding the UN activity on the ground, namely, its legislative, judicial, and executive power. The author offers an extensive and well-documented analysis of the UN's capacity as a surrogate state administration to respond to the needs of the governed population and, above all, protect its fundamental rights. Based on her findings, Murati concludes that only a comprehensive mandate can serve the long term interests of the international community's objective to efficiently promote, protect, and fulfil human rights in a war-torn society. UN Territorial Administration and Human Rights provides a detailed critical legal analysis of one of the major UN administrations of territory after the Cold War, namely, the UN administration of Kosovo from 1999 to 2008. The analysis in this book will be beneficial to international law and international relations scholars and students, as well as policymakers and persons working for international organisations. The analysis and the lessons learned through this study shed light on the challenges entailed in governing territories and rebuilding state institutions while upholding the rule of law and ensuring respect for human rights.

**Independent Theatre in Contemporary Europe** Manfred Brauneck 2017-07-11 Over the past 20 years European theatre underwent fundamental changes in terms of aesthetic focus, institutional structure and in its position in society. The impetus for these changes was provided by a new generation in the independent theatre scene. This book brings together studies on the state of independent theatre in different European countries, focusing on the fields of dance and performance, children and youth theatre, theatre and migration and post-migrant theatre. Additionally, it includes essays on experimental musical theatre, and different cultural policies for independent theatre scenes in a

range of European countries.

**Sex in Peace Operations** Gabrielle Simm 2013-04-25 This book critically re-evaluates the problem of sex between international personnel and local people and offers regulatory solutions to legal problems.

**Historical Dialogue and the Prevention of Mass Atrocities**

Elazar Barkan 2020-04-06 This book brings together a diverse range of international voices from academia, policymaking and civil society to address the failure to connect historical dialogue with atrocity prevention discourse and provide insight into how conflict histories and historical memory act as dynamic forces, actively facilitating or deterring current and future conflict. Established on a variety of international case studies combining theoretical and practical points of view, the book envisions an integrated understanding of how historical dialogue can inform policy, education, and the practice of atrocity prevention. In doing so, it provides a vital basis for the development of preventive policies sensitive to the importance of conflict histories and for further academic study on the topic. It will be of interest to all scholars and students of history, psychology, peace studies, international relations and political science.

**#MeToo, Weinstein and Feminism** Karen Boyle 2019-11-04

This book provides a feminist analysis of #MeToo and the sexual assault allegations against celebrity perpetrators which have emerged since the Weinstein story of October 2017. It argues for the importance of understanding #MeToo in relation to an ongoing history of Anglo-American feminist activism, theory and interdisciplinary research. Boyle investigates how speaking out about rape, sexual assault and harassment on social media can be understood in relation to second-wave feminist traditions of consciousness-raising. Her argument explores the media depiction of feminism – and feminists – in the wake of Weinstein and the cultural values associated with men’s abuse, particularly within the film and television industries. The book concludes with an exploration of what the #MeToo era has meant for men as victims/survivors and as alleged perpetrators, in relation to narratives of victimisation and of monstrosity.

**Surviving Peace** Olivera Simić 2014 "How do you pick up the pieces after your life is shattered by war? How do you continue living when your country no longer exists, your language is no longer spoken and your family is divided. What happens when your old identity is taken from you and a new one imposed, one that you never asked for?"

Silenced Victims of Wartime Sexual Violence Olivera Simic

2018-03-09 The condemnation of wartime sexual violence as a gross violation of human rights has received widespread support.

While rape and other forms of sexual violence have attracted considerable local and international attention, this often excludes wartime sexual violence among women belonging to so-called ‘perpetrator’ war-torn nations. This book explores the silence surrounding women’s experiences of wartime sexual violence within academic, legal and public discourses. Olivera Simić argues that the international criminal law and feminist legal discourse on wartime sexual violence can construct a problematic victim hierarchy that excludes and misrecognises certain women’s experiences of sexual violence during and after armed conflict. The book focuses on the experiences of Bosnian Serb women, where the collapse of the former Yugoslavia led to brutal war and gross human rights violations throughout the 1990s. Two decades after the war, women in Bosnia and Herzegovina are still facing the legacies of the violence in the 1990s. Through this case Simić argues that while all women survivors of rape face problems of stigma, shame and lack of political visibility, their legal and symbolic status differ according to their ethno-national identity. Drawing on interviews with Bosnian Serb women survivors of rape in Bosnia and Herzegovina, feminist activists, local media, documentary and archival sources, the book examines ‘post-conflict justice’ as it is seen, lived and interpreted by women who belong to ‘perpetrator’ nations and will be of great interest and use to researchers, students and practitioners within post-conflict law and justice, international criminal law, security studies and gender studies.
