Mini Meadows - Mike Lizotte
2019-02-19

The word “meadow” conjures images of wide expanses of land, but a mini meadow — a kind of informal flower garden started with seed sown directly into the soil — can be any size; plus, it’s fun, easy to grow, and good for the planet. With as little as 50 square feet and for less than \$20, gardeners can plant a colorful meadow that demands little in the way of space, mowing, or maintenance, uses less water than a traditional lawn, and provides habitat for pollinators — not to mention a natural exploration space for children. From choosing the right variety of seeds, preparing the soil, sowing evenly, and watering well, author Mike Lizotte guides readers through the process of successfully creating a miniature meadow that suits their climate, soil, and growing goals, whether planting to

Five walks are presented from each of Georgia's four geographic regions: Cumberland Plateau/Ridge and Valley (northwestern Georgia); Blue Ridge (northeastern Georgia); Piedmont (Georgia foothills and fall line); and Coastal Plain (all of Georgia below the fall line).

The Food Explorer - Daniel Stone 2018-02-20

The true adventures of David Fairchild, a turn-of-the-century food explorer who traveled the globe and introduced diverse crops like avocados, mangoes, seedless grapes—and thousands more—to the American plate.

“Fascinating.”—The New York Times Book Review • “Fast-paced adventure writing.”—The Wall Street Journal • “Richly descriptive.”—Kirkus • “A must-read for foodies.”—HelloGiggles In the nineteenth century, American meals were about subsistence, not enjoyment. But as a new century approached, appetites broadened, and David Fairchild, a young botanist with an insatiable lust to explore and experience the world, set out in search of foods that would enrich the American farmer and enchant the American eater. Kale from Croatia, mangoes from India, and hops from Bavaria.

Peaches from China, avocados from Chile, and pomegranates from Malta. Fairchild’s finds weren’t just limited to food: From Egypt he sent back a variety of cotton that revolutionized an industry, and via Japan he introduced the cherry blossom tree, forever brightening America’s capital. Along the way, he was arrested, caught diseases, and bargained with island tribes. But his culinary ambition came during a formative era, and through him, America transformed into the most diverse food system ever created. “Daniel Stone draws the reader into an intriguing, seductive world, rich with stories and surprises. The Food Explorer shows you the history and drama hidden in your fruit bowl. It’s a delicious piece of writing.”—Susan Orlean, New York Times bestselling author of *The Orchid Thief* and *The Library Book*

White House have been an unwitting witness to history—kings and queens have dined there, bills and treaties have been signed, and presidents have landed and retreated. Throughout it all, the grounds have remained not only beautiful, but also a powerful reflection of American trends. In *All the Presidents' Gardens* bestselling author Marta McDowell tells the untold history of the White House grounds with historical and contemporary photographs, vintage seeds catalogs, and rare glimpses into Presidential pastimes. History buffs will revel in the fascinating tidbits about Lincoln's goats, Ike's putting green, Jackie's iconic roses, Amy Carter's tree house, and Trump's controversial renovations. Gardeners will enjoy the information on the plants whose favor has come and gone over the years and the gardeners who have been responsible for it all. As one

head gardener put it, "What's great about the job is that our trees, our plants, our shrubs, know nothing about politics."

Crashpad - Gary Panter
2021-02-23

This fine art monograph/faux underground comic facsimile is a psychedelic trip through the hippie movement. In 2017, Gary Panter created an art installation, *Hippie Trip*, inspired by his first visit to a head shop in 1968. It expanded his mind to the possibilities of psychedelic art and music, analog crafts and drug culture. *Crashpad* is an extension of that installation and a riff on underground comics creators such as Zap's R. Crumb, Victor Moscoso, Robert Williams, and other icons of that era.
