Exploring/Teaching the Psychology of Women - Michele A. Paludi 1990-03-16

The first of its kind, this manual presents educational approaches and processes which reflect feminist principles for teachers and leaders of courses and workshops in the psychology of women. Sample syllabi, outlines, references, lists of audio-visual material, organizations, discussion

questions, and experiential exercises reflect the content areas typically covered in these courses: achievement, sexuality, health, adjustment, psychotherapy, communication, victimization, methodology, life-style choices, work, and development.

Women in World History -

Anne Commire 1999

Presents biographical profiles of significant women from throughout the history of the world, each with birth and death dates when known, a time line, quotation, and references; arranged alphabetically from Maa-Mei.

The Library Journal Book

Review - 1975

The Genius of Birds - Jennifer Ackerman 2017-04-11

“Lovely, celebratory. For all the belittling of ‘bird brains,’ [Ackerman] shows them to be uniquely impressive machines . . .” —New York Times Book Review “A lyrical testimony to the wonders of avian intelligence.” —Scientific American An award-winning science writer tours the globe to reveal what makes birds capable of such extraordinary

feats of mental prowess Birds are astonishingly intelligent creatures. According to revolutionary new research, some birds rival primates and even humans in their remarkable forms of intelligence. In *The Genius of Birds*, acclaimed author Jennifer Ackerman explores their newly discovered brilliance and how it came about. As she travels around the world to the most cutting-edge frontiers of research, Ackerman not only tells the story of the recently uncovered genius of birds but also delves deeply into the latest findings about the bird brain itself that are shifting our view of what it means to be intelligent. At once personal yet scientific, richly informative and beautifully written, *The Genius of Birds* celebrates the triumphs of these surprising and fiercely intelligent creatures. Ackerman is also the author of *Birds by the Shore: Observing the Natural Life of the Atlantic Coast*.

Three Women Lives Of Sex And Genius

Bernhard Günther 1997

Ambitious Heights - Norma Clarke 2022-09-12

How did the Victorian woman cope with the image of herself as a writer? What were the constraints on female friendships in a world centred on the pre-eminence of the husband? How significant for an ambitious woman were her politics about men? At the heart of this book, originally published in 1990, is a friendship between two women: Jane Carlyle and the novelist Geraldine Jewsbury. But it was a difficult friendship, and in its difficulty lies much that is illuminating: about nineteenth-century domestic ideology; about writing for a market, and female fame; and about the complex ambivalences between women. Examining aspects of their lives, writing, and relationships, alongside those of two other writers - Felicia Hemans and Geraldine's sister, Maria Jane - Norma Clarke provides a subtle and illuminating discussion of the

possibilities that were open to women in the Victorian age.

Lou von Salome - Julia Vickers 2014-11-29

The daughter of an illustrious Russian general, Lou von Salome left her home in the heart of Tsarist Russia to conquer intellectual Europe at the tender age of 18.

Eventually settling in Germany, she became a best-selling novelist, a groundbreaking essayist, and a well-known literary critic. In addition to all this, Salome was a real-life muse for some of the most brilliant men of her time. This biography tells the story of Salome's entire life and career, focusing on her young adulthood; celibate marriage with linguistics scholar Carl Friedrich Andreas; rumored affairs with Friedrich Nietzsche, Rainier Maria Rilke, and several other authors and poets; and her relationship with Sigmund Freud, which was marked most notably by their contrasting views of psychoanalysis.

Women's Studies - Esther F. Lanigan 1979
Annotated bibliography, women, - research on social and cultural anthropology and education of women, literature and fine arts, sport, sexual and political participation, philosophy and psychology, feminist interest groups, women's movement, woman workers, sex discrimination, etc., And guide to information sources.

LJ, Library Journal - 1975

Hannah Coulter - Wendell Berry 2005-10-10
Hannah Coulter is Wendell Berry's seventh novel and his first to employ the voice of a woman character in its telling. Hannah, the now-elderly narrator, recounts the love she has for the land and for her

community. She remembers each of her two husbands, and all places and community connections threatened by twentieth-century technologies. At risk is the whole culture of family farming, hope redeemed when her wayward and once lost grandson, Virgil, returns to his rural home place to work the farm.

Women Artists Newsletter -

Three Women Lives Of Sex And Genius

scholarship and inquiry on four women who experienced both entrenched sexual discrimination and political upheaval, which affected their lives and influenced composers of subsequent generations.

Women Artists and Writers - Bridget Elliott 1994

In this beautifully illustrated and provocative study, Bridget Elliott and Jo-Ann Wallace reappraise women's literary and artistic contribution to Modernism. An important study in twentieth-century cultural history. In this beautifully illustrated and provocative study, Bridget Elliott and Jo-Ann Wallace reappraise women's literary and artistic contribution to Modernism. Through

comparative case studies, including Natalie Barney, Virginia Woolf, Vanessa Bell and Gertrude Stein, the authors examine the ways in which women responded to Modernism and created their artistic identity, and how their work has been positioned in relation to that of men. Bringing together women's studies, visual arts and literature, *Women Writers and Artists* makes an important contribution to 20th century cultural history. It puts forward a powerful case against the academic division of cultural production into departments of Art History and English Studies, which has served to marginalize the work of female Modernists.
