**Families in Context** - Gene H. Starbuck 2015-11-17

The most thoroughly updated edition yet, this book offers students perspectives of changes in marriage and family over time, including the impact of the Great Recession and of new media technologies. A hallmark of Families in Context remains the well-researched, data-driven quality of the text. Beyond presenting thoroughly updated statistics and literature, each chapter examines new trends and assesses their implications for students' lives. The underlying presentation remains balanced, theoretically grounded, and accessible to a wide variety of classes, allowing students of all ages and family backgrounds to draw their own conclusions about controversial topics. Features of the new edition include coverage of the Affordable Care Act; new social media and families; the latest trends in poverty, education, social mobility, gender, identities and healthcare; updated 'In the News' features and author-created PowerPoint slides.

**Gender Violence** - Laura L. O'Toole 1997-03

How gender and sexuality can be life threatening Though violence against women has received increasing attention from scholars and the general public alike, much of the literature on the subject is scattered in monographs, journals, and books focusing on specific forms of gender violence. In their path-breaking anthology Gender Violence: Interdisciplinary Perspectives, editors Laura L. O'Toole and Jessica Schiffman have brought together central articles and authors to construct a remarkably broad understanding of the gender-related manifestations of violence. Gender Violence is composed of three sections—one examining the roots of male violence and victimization of women, another exploring forms of sexual coercion and violence, and a third offering a number of perspectives on promoting nonviolence in the context of gender relations. Chapters consider topics including sexual harassment, rape, children and gender violence, battering in intimate relationships, and pornography. The list of contributors includes such diverse and well known scholars as Friedrich Engels, bell hooks, Diana Scully, Harry Brod, and Linda Gordon, and poets such as Audre Lorde and Margaret Randall. The book also contains a number of original pieces with novel approaches to subjects such as domestic violence and its effects on children. With its interdisciplinary perspective and wide-ranging subject matter, Gender Violence is an excellent primary text as well as an invaluable reference for scholars in the field of women and violence.

**Campus Violence** - Leighton Whitaker 2014-02-04

This timely book shows how the rapidly increasing phenomenon of violence in the U.S. is invading college and university campuses. Campus Violence shows what colleges, universities, and other schools can do to deconstruct the violence culture and begin to educate for a better society. The chapters assist educators in determining the nature of both external and internal violence and what to do about it. Readers will benefit from the experiences of many institutions of higher learning as communicated by various outstanding contributors to this book. By becoming sharply aware of the issues and solutions, administrators may engage in better, more realistic long-range planning, as well as get help for the myriad daily questions and problems inherent to running today's campuses. As a whole, the book is devoted to highlighting important kinds, causes, and cures of violence destructive to living and learning opportunities. The contributors address the full range of issues from conceptualization to practical ways of handling violent behaviors. Section I: Addresses the broadest, most far-reaching views of campus violence: the conceptualization of campus violence, administration perspectives, the destructive concoction of alcohol and other drugs and morbidity, and the commercial promotion of mindless violence. Section II: Addresses specific kinds of violence. Section III: Focuses on the most frequent immediate perpetrators--male college students--and how their behavior can be dealt with and improved. Section IV: Focuses very specifically on how the college counselor or psychotherapist can be a consultant to staff and faculty in regard to disruptive students. Campus Violence depicts the need to nurture and develop atmospheres for learning, respect, and constructive action--arguably the most pressing topic in education today. Counselors, therapists, security

officers, deans, and presidents can begin to counter the rapidly increasing phenomenon of violence in American colleges and universities and cultivate a positive leadership atmosphere. The implications of the contributing authors reach to the primary and secondary schools in our nation--the training grounds for college life and education--and provoke some questions which begin to create a better learning environment.

**Feminist Issues** - Nancy Mandell 2001

Appropriate for courses in Introduction to Women's Studies; Sociology of Women and Sociology of Gender at the university level. Of interest to students and instructors of courses in women's studies, the sociology of women, and the sociology of gender, collection has been thoroughly revised and reflects a current overview of contemporary topics, while introducing new perspectives on emerging issues. Each chapter questions the prevailing myths and stereotypes about women's past and current lives.

**Violence in Dating Relationships** - Maureen Pirog-Good 1989-05-19

This extremely valuable collection of fourteen chapters is divided into two sections, with the first section covering research on physical abuse in dating relationships and the second section covering the issue of sexual abuse in dating relationships. With the increasing public awareness of and concern about acquaintance rape, this is an excellent and timely book. It should be in the library of any researcher who studies violence against women and it would also be an invaluable resource for any college faculty or administrator who seeks to provide a healthy educational environment for all students. The Community Psychologist Fourteen significant articles on physical and sexual abuse in dating relationships provide a comprehensive, interdisciplinary review of the subject. The contributors to this anthology examine every aspect of the serious, but usually hidden social problems of dating violence. The articles create a theoretical framework for understanding physical and sexual abuse and chronicle the antecedents and consequences of different types of abusive behavior. State of the art research on dating violence provides the reader with extensive material. Each chapter ends with policy implications and directions for future research.

Educators, researchers, and practitioners in sociology, criminology, psychology, psychiatry, and women's studies will find valuable information on this important subject. The first part of the collection presents statistical information and compares dating violence with cohabitating and marital violence. Such subjects as courtship aggression and the effects of gender identity and self-esteem on dating violence are explored. One study suggests two types of courtship violence--predatory violence and relational violence. Another addresses patterns in help seeking behavior by those abused. The second part of the book deals with sexual aggression in dating relationships. Victimization, as well as the prevalence, risk factors, and long term consequences of date rape are presented. Other topics include predictors of sexual aggression, dating behaviors and their relationship to the risk of date rape, and acquaintance rape.

**Physical Violence in American Families** - Murray Straus 2017-09-04

The informative and controversial findings in this book are based on two path-breaking national surveys of American families. Both show that while the family may be the central locus of love and support, it is also the locus of risk for those who are physically assaulted. The book provides a wealth of information on gender differences and similarities in violence, and on the effects of gender roles and inequality. Two landmark American studies of violence from the National Family Violence survey form the basis of this book. Both show that while the family may be the central locus of love and support, it is also the locus of risk for those who are being physically assaulted. This is particularly true for women and children, who are statistically more at risk of assault in their own homes than on the streets of any American city. Physical Violence in American Families provides a wealth of information on gender differences and similarities in violence, and on the effects of gender roles and inequality. It is essential for anyone doing empirical research or clinical assessment.

*Coercive Control* - Evan Stark 2009-03-01

One of the most important books ever written on domestic violence, *Coercive Control* breaks through entrenched views of physical abuse that have ultimately failed to protect women. Evan Stark, founder of one of America's first battered women's shelters, shows how "domestic violence" is neither primarily domestic nor necessarily violent, but a pattern of controlling behaviors more akin to terrorism and hostage-taking. Drawing on court records, interviews, and FBI statistics, Stark details coercive strategies that men use to deny women their very personhood, from "beeper games" to food logs to micromanaging dress, speech, sexual activity, and work. Stark urges us to move beyond the injury model and focus on the real victimization that allows men to violate women's human rights with impunity. Provocative and brilliantly argued, *Coercive Control* reframes abuse as a liberty crime rather than a crime of assault and points the way to bringing "real" equality for women in line with their formal rights to personhood and citizenship, freedom and safety.

**Sexual Abuse of Children** - Roger J. R. Levesque 1999

This book considers how human rights law can help define what could and should be done to protect children from sexual maltreatment. The volume explores diverse forms of sexual maltreatment, compares societal responses to existing research and policies, uncovers basic themes, and proposes directions for future action. Roger Levesque places particular emphasis on the ways abusive activities in different countries and societies are linked with one another and the way diverse societal views of children place them at risk.

*Unmarried Couples, Law, and Public Policy* - Cynthia Grant Bowman 2010

In this work, Cynthia Grant Bowman explores legal recognition of opposite-sex cohabiting couples in the United States. The author argues that the many benefits attendant upon formal marriage should be extended to cohabitants who have lived together for more than two years or give birth to a child.

**Advances in Criminological Theory** - 2003

*Confronting Rape and Sexual Assault* - Mary E. Odem 1998

Professors Mary Odem and Jody Clay-Warner examine the complex and painful issue of sexual violence from various social science perspectives. With contributors from a wide range of fields, including sociology, psychology, criminology, law, anthropology, public health, and women's studies, this interdisciplinary volume presents the leading classic and recent scholarship on the subject. Yet the book's greatest strength lies in its broad sociological exploration of its subject. *Confronting Rape and Sexual Assault* looks beyond the stereotypical idea of rape - a woman attacked by an unknown assailant in a dark alley. Topics include sexual violence against men, date rape, marital rape, the effects of pornography, and the racial-ethnic issues surrounding rape. Not only does this invaluable collection define and examine the prevalence of rape and sexual assault, but it analyzes social and institutional factors that contribute to their occurrence and provides strategies for prevention and change. *Confronting Rape and Sexual Assault* has appeal for professors, students, and scholars in the social sciences as well as for general readers concerned with this troubling issue.

*Crime and Criminal Behavior* - William J. Chambliss 2011-05-03

Resource added for the Criminal Justice - Law Enforcement 105046 and Professional Studies 105045 programs.

**Voices of the Survivors** - Patricia Weiser Eastal 1994

Powerful and moving stories from survivors of sexual assault.

**Intimate Violence** - Emilio Viano 1992

Examines the practical and theoretical issues and concerns in domestic violence from an international perspective. It includes contributions from researchers in a wide variety of associated fields.

**Social Learning Theory and the Explanation of Crime** - Ronald L. Akers 2017-07-28

Social learning theory has been called the dominant theory of crime and delinquency in the United States, yet it is often misrepresented. This latest volume in the distinguished *Advances in Criminological Theory* series explores the impact of this theory. Some equate it with differential association theory. Others depict it as little more than a micro-level appendage to cultural deviance theories. There have been earlier attempts to clarify the theory's unique features in comparison to other theories, and others have applied it to broader issues. These efforts are extended in this volume, which focuses on developing, applying, and testing the theory on a variety of criminal and delinquent behavior. It applies the theory to treatment and prevention, moving social learning into a global context for the twenty-first century. This comprehensive volume includes the latest work, tests, and theoretical advances in social learning theory and will be particularly helpful to criminologists, sociologists, and psychologists. It may also be of interest to those concerned with current issues relating to delinquency, drug use/abuse, and drinking/alcohol abuse.

*Masculinities and Crime* - James W. Messerschmidt 1993-08-24

Challenging the common masculinist character of criminological research, James W. Messerschmidt develops an elaborate scrutiny of the gender roles that, along with class and race, influence the occurrence and types of crimes in our society.

*Living Apart Together* - Cynthia Grant Bowman 2020-12-29

Argues for legal reforms to protect couples who live apart but perform many of the functions of a family *Living Apart Together* is an in-depth look at a new way of being a couple and "doing family"—living apart together (LAT)—in which committed couples maintain separate residences and finances. In Bowman's own 2016 national survey, 9% of respondents reported maintaining committed relationships while living apart, typically spending the weekend together, socializing together, taking vacations together, and looking after one another in illness, but maintaining financial independence. The term LAT stems from Europe, where this manner of coupledness has been extensively studied; however, it has gone virtually unnoticed in the United States. *Living Apart Together* aims to remedy this oversight by presenting original research derived from both randomized surveys and qualitative interviews. Beginning with the large body of social science literature from outside the US, Cynthia Bowman examines the prevalence of this lifestyle, the demographics of people who live apart, their reasons for doing so, and how these individuals manage finances, care during illness, and many other aspects of family life. She focuses in particular detail on three key demographics—women, gay men, and the elderly—and how individuals from these groups engage in LAT behavior. She finds that while these living arrangements are more common than previously believed, there are virtually no legal protections for the people involved. Bowman concludes by proposing a number of legal reforms to support the caregiving functions LAT partners perform for each other. *Living Apart Together* makes an important case for formal recognition of this growing but largely overlooked family structure.

**Encyclopedia of Domestic Violence** - Nicky Ali Jackson 2007

Collects entries on domestic violence that cover topics that include ritual abuse-torture and domestic violence against women with disabilities.

**Family, Law, and Community** - Margaret F. Brinig 2010-05-15

In the wake of vast social and economic changes, the nuclear family has lost its dominance, both as an ideal and in practice. Some welcome this shift, while others see civilization itself in peril—but few move beyond ideology to develop a nuanced understanding of how families function in society. In this provocative book, Margaret F. Brinig draws on research from a variety of disciplines to offer a distinctive study of family dynamics and social policy. Concentrating on legal reform, Brinig examines a range of subjects, including cohabitation, custody, grandparent visitation, and domestic violence. She concludes that conventional legal reforms and the social programs they engender ignore social capital: the trust and support given to families by a community. Traditional families generate much more social capital than nontraditional ones, Brinig concludes, which leads to clear rewards for the children. Firmly grounded in empirical research, *Family, Law, and Community* argues that family policy can only be effective if it is guided by an understanding of

the importance of social capital and the advantages held by families that accrue it.
