Secrets of "Men are from Mars, Women are from Venus" PAUL CARNEGIE 2019-11-25 Reading through the book Men Are From Mars, Women Are From Venus which was written by American author and relationship counselor John Gray, after he had earned degrees in meditation and taken a correspondence course in psychology. The book was published on January 1, 1992. It provides a practical and proven way for men and women to improve their communication by acknowledging the differences between their needs, desires, and behaviors. Absolutely, there is no other relationship guide on the market that will give you the same level of evidence-based insight sure to help you strengthen and nurture your relationships for years to come more than this book. In the book Men Are From Mars, Women Are From Venus, the author opines that most prevalent relationship challenges between men and women are as a result of fundamental psychological differences between the sexes, which the author demonstrates by means of its eponymous metaphor: that men and women are from separate planets, that is, men are from Mars while women are from Venus; and that each sex is wont to its own planet's society and customs, but not to those of the other. One example John Gray gave was that men's complaint that if they offer solutions to problems that women bring up in conversation, the women are not necessarily interested in solving those problems, but mainly want to discuss about them. The book avers each sex can be understood in terms of their unique ways they respond to stress and stressful situations. In the book, the author wrote: "When a man can listen to a woman's feelings without getting angry and frustrated, he gives her a wonderful gift. He makes it safe for her to express herself. The more she is able to express herself, the more she feels heard and understood, and the more she is able to give a man the loving trust, acceptance, appreciation, admiration, approval, and encouragement that he needs." This explains that when a man genuinely listens to the emotions of a woman by not being upset, he is showing her she is safe with him and understood as well. And she reciprocates this gesture with love, trust and encouragement a man needs. Likewise, when he stated that, "Men are motivated when they feel needed while women are motivated when they feel cherished." This is just the basic fact of a successful relationship or marriage by the author. In the world of many self-help books we are, there are very few titles that can be compared with the popularity of John Gray's Men Are From Mars, Women Are From Venus. Interestingly, when this title was first published in 1992, it not only helped educate countless men and women from around the globe, but it managed to nestle its way into popular culture and become an instant classic. In spite of the fun, metaphoric and catchy title, this book essentially tackles a very serious relationship issues in many male or female relationships we have today -which can be said to be a lack of effective communication. In lieu of focusing blame on one person or one gender, this book dives into some of the inherent differences between the way males and females communicate. As it is a well known fact that communication is one of the most central factors in finding the right balance, genuine love and loyalty in a long term relationship. Well, based on the concept that men and women are living on different "planets," this book helps to not only identify these differences for the opposing gender, but to offer solutions on how both men and women can meet in the middle to have better, more productive communication strategies. The author deliberately lays big emphasis placed on love - since it is a relationship advice book. One of the biggest takeaways about love from the book actually has nothing to do with talking, it is all about showing. This is one of the biggest keys to keeping the love alive in long-term relationships. This is a very important lesson to note throughout the book, Men Are From Mars, Women Are From Venus, as communication isn't always about talking or telling someone something, it is often about showing them or using non-verbal communication in order to get your message across. According to Men Are From Mars, Women Are From Venus, men will give and give until they are pleased with what they have done. This can be with emotions, money, effort, work, or physical objects. However, women will typically give with the hope that the man will return the gesture. This is where a lot of disconnect can happen. Now, let's take a vivid look at where communication falls short. Where communication falls short Both man and woman may feel as though they are doing everything they can to show their love and that they are giving love the way they want to receive it. But, the opposing party may not recognize this, and may actually think that their partner is not showing love at all. This is one tip that both men and women should keep in the back of their minds as they continue to take John Gray's relationship advice, as many communication disconnects or crumbles, it may actually stem from this one major issue. If both parties can understand that the other partner simply has a different interpretation of what it means to show and give love, they can move forward. To cap it all, everyone has a different love language. How To Improve Communication In A Relationship There are so many little things that men and women can both do in order to improve their communication lines, yet one of the classic disconnects between these two genders often comes when women are not as direct with men while communicating. There is an old story about men and women communicating that perfectly depict how this lack of directness can cause misunderstandings. A man and a woman are driving down the street. The woman points at the ice cream store and says "look! The ice cream store is open." The man says "Yes, it is," and keeps driving. Later that evening, the woman is upset and asks "Why didn't you stop for ice cream when I asked?" The man is confused and says, "I never heard you ask to stop for ice cream." It may be either small or inconsequential example, but it is one that many people in male or female relationships can relate to. What went wrong? Both parties thought they said and heard different things in the same conversation. This is one of the reasons why communication tends to be more effective when women are more direct. According to John Gray, if a woman wants to go do something with a man, she shouldn't just ask him what he wants to do. She should, instead, tell him what she wants to do, and then ask him to join. This is an instance of direct communication that doesn't blur the lines and allows both parties to communicate more clearly. How to make communication work The following scenario was suggested by: - The woman gives the man three options of what she wants to do on a date, a week in advance. - The man gets to decide, but doesn't tell the woman until the date happens. - This allows the woman to anticipate the date all week, while the man gets to feel as though he made a decision, while still receiving clear communication on what types of dates the woman wanted to go on. It may sound like a lot of work, but the key is to start with direct communication on the woman's part. It can open up new doorways to successful interaction that both parties may have never thought were possible. In addition, emotions have great impact as regards how we communicate. They can entice us to say certain things, hold different things in, or even respond in ways we may have never thought we would. Emotions can also alter our body language and the way we give off signals to one another, even when we don't realize we are doing it. Yes, it can be safe to state that women's emotions go up and down and have really high-highs and really low-lows. In general, women's emotions tend to fluctuate more than men's do. Men tend to be a bit steadier with their emotions, which can be both positive and negative. While they may not have as deep of a dive into depression, they may also not experience as high of a high when they are happy. All this now depend on how each sex processes "alone time." As well, men are much more prone to want alone time when they feel scared or uncomfortable. Men need to be left alone where they feel safe. It scientifically helps them to build up their testosterone and think more clearly. If given the time to retreat to his safe space, a man will come out of this "alone time" once he has handled the problem internally and finally. On the other hand, a woman may feel better by talking it out. She may not understand why her male partner wants to spend time alone processing the issue. Allowing women and men to process emotions in a way that is comfortable and natural to them is an essential component to keeping communications lines free and open. You Should Learn To Show Appreciation So much of Men Are From Mars, Women Are From Venus is about the differences between men and women, but there is one big similarity between men and women in relationships—showing understanding is key. Men and women are different. They are different physically, biologically, emotionally, almost in every way. Yet, the reason so many of these relationships can work out in the end is because these differences provide a balance. You just need to find that balance. Get to know your partner more intimately If you sincerely take the time to really get to understand your partner, it can go a long way in helping them feel loved, valued, and appreciated. Men and women are different, and it is important to accept and understand this. You may be speaking different languages, but if you take the time to really talk to your partner and attempt to understand the place they are coming from it can speak volumes. For instance, take the time to do things like ask questions, put yourself in the other person's shoes, or even read relationship advice books, like Men Are From Mars, Women Are From Venus, to show the other person that you want to understand them better because you appreciate who they are and that you want to communicate more clearly and effectively. Mind you, this can help restore energy in your romantic relationship so that you and your partner can continue to keep your relationship as healthy as possible.

Beyond the Breakup Andrew Aitken 2015-04-21 Written by a man with extensive experience on the topic, *Beyond the Breakup* explains how men think about breakups, their ex-girlfriend, and how they perceive her behavior in the wake of a relationship's end. It also explains the implications this has for girls who are going through a breakup: what will and won't have an emotional effect on him, how to maximize your chances of getting him back, how and when you should contact him, what you should (and shouldn't) say, how to deal with seeing him again, and much more. The list of the chapter titles below give a good overview of the content. This book is not written for women with a weak spirit. It isn't going to tell you how to mitigate the pain you feel in the wake of a breakup, and it isn't going to tell you that everything is going to be fine. And while it will tell you how to maximize your chances of getting your ex back, it isn't going to pretend that there are any 'tricks' to make that outcome likely. However, it will do something much more important: it will give you a strong insight into your ex's state of mind and male psychology in general. This will give you the foundation you need to navigate the breakup and - more importantly - propel yourself into honest and successful relationships with the men in your future. How To Get Any Man You Want Michael Trudeau 2020-08-13 How to Start a Relationship With The Man You Want and How to Avoid The Bad Eggs When looking for a serious and passion filled relationship, the key factors that men look for in a woman is her ability to be self-sufficient, confident and driven, in other words they want to be faced with a high-quality woman. When certain men come across high-quality women, they would treat her with the utmost respect, and they give her their time and attention to the fullest. These are what's known as high-quality men. When a woman shows this type of confident behavior, it becomes much easier for men to realize that she is not just a one-night stand. It is this type of unique attitude that high-quality men go crazy with desire for, the kind of desire that encourages men to become committed to the woman and take the relationship to the next level. How to Keep Him Interested and Sustain His Desire Whether you are in a relationship or not, you shouldn't put your life on hold. That means that you shouldn't be available all the time. A man might end up thinking it's too easy for him to get what he wants from you, which will set a strong foundation for negative behavior in the future. Don't allow yourself to be taken for granted, be seen as a pushover or have decisions made for you and about you without being consulted. You don't want to give the impression that you do not have a social life outside of the man you're dating. If you have a long-standing appointment with yourself, don't be shy to say no. This should intrigue him further and intensify his efforts to worm his way to the top of your to-do list. After all, time apart gives him a chance to miss you. How to Keep The Romance Alive in a Relationship Romance is one of the few things that differentiate a sexual relationship from other types of close relationships. ROMANSWERS Carl E. Pickhardt Ph.D. 2001-05-03 ROMANSWERS - Practical answers to common questions troubling relationships, romance, and marriage. by Carl Pickhardt Ph.D. In a fast changing, increasingly complex world, committed caring relationships seem harder to maintain than ever before, yet the desire for these unions remains strong, whether in dating, cohabitation, significant partnerships, or marriage. Although about half of marriages end in divorce, more than half divorced people elect to remarry. From answering questions about relationships over the internet for a year and a half (for Cox Interactive Media/Austin 360), certain abiding concerns kept recurring. Not only did people want answers; they also wanted instruction about the nature of certain problems built into the nature of chosen caring relationships, problems that in many cases won't go away. In response to this desire for help in managing these basic problems, ROMANSWERS was written. Each of the twenty-seven sections in the book is built around a topic of concern that is subjected to four questions, the answers to which provide understandings many people seek. A list of all the sections and questions that are answered follow. ABUSE § "When I give everything to a man, and do everything he wants, why do I end up getting pushed around, demeaned, and cheated on?" § "When my boyfriend loses his temper, cuts me down in anger, later says he's sorry and didn't mean what he said, should I accept his apologies when he keeps doing it again?" § "Why does a man from a loving, healthy, and giving family background keep getting into relationships with women who turn out to be exploitive, even turning abusive when they don't get their way?" § "After two abusive wives, is it just a matter of time before I get over my hurt and general anger at women?" AFFAIRS § "To regain my trust, should my husband be completely honest and describe the sexual details of his affair so we can get through this unhappiness and start moving on?" § "Is it the wife's fault when her husband has an affair, and how does the couple recover the marriage?" § "How am I ever going to get beyond superficial relationships with women after my fiancée, whom I love more than ever, broke off our engagement by having an affair?" § "When your wife comes back from a high school reunion having had a fling (not sexual) with an old flame, what needs to happen to make the marriage okay?" ATTRACTION § "Why would a stunning, dynamic, confident, and high salaried woman put off the kind of men she wants to meet, and attract the kind she doesn't?" § "Although I would never cheat on someone I was involved with and still care about, do you think it's okay to date her best friend now that I've broken up with my ex?" § "When the woman I'm ready to marry says she wants a man who can offer her everything from A to Z, and some un-definable Z is lacking in me, what is missing in my attractiveness to her?" § "What should I do about a man I first met on the internet who, without asking me, is now planning a future for us, a guy it turns out I don't really know, who doesn't really know me?" BREAKING UP § "Since my girlfriend has broken up with me and I don't know why, is it worthwhile my finding out, or is it better to avoid further hurt and just let the relationship go?" § "How do you break up without causing the other person a lot pain, and then go from being romantic to just being good friends?" § "Why is breaking up so hard to do, and why would a man act so angry when he is really feeling hurt?" § "How do I recover my self-respect and remove a man from my life who convinced me I was crazy to doubt his word when he kept lying to me, and who won't let me go now that I've broken off with him?" CHANGE § "Is it okay, once a couple becomes married, to change and take each other for granted, not acting romantic anymore?" § "Is my boyfriend going to continue his dis

Lean In Sheryl Sandberg 2013-03-12 Sheryl Sandberg's *Lean In* is a massive cultural phenomenon and its title has become an instant catchphrase for empowering women. The book soared to the top of bestseller lists internationally, igniting global conversations about women and ambition. Sandberg packed theatres, dominated opinion pages, appeared on every major television show and on the cover of *Time* magazine, and sparked ferocious debate about women and leadership. Ask most women whether they have the right to equality at work and the answer will be a resounding yes, but ask the same women whether they'd feel confident asking for a raise, a promotion, or equal pay, and some reticence creeps in. The statistics, although an improvement on previous decades, are certainly not in women's favour - of 197 heads of state, only twenty-two are women. Women hold just 20 percent of seats in parliaments globally, and in the world of big business, a meagre eighteen of the Fortune 500 CEOs are women. In *Lean In*, Sheryl Sandberg - Facebook COO and one of *Fortune* magazine's Most Powerful Women in Business - draws on her own experience of working in some of the world's most successful businesses and looks at what women can do to help themselves, and make the small changes in their life that can effect change on a more universal scale.

How to Become the Man Every Woman Wants Tatyana Jacques 2013-12 Why do some men find it easy to succeed with women...while others don't? What is the distinguishing feature between these two types of men? Individual differences...every man is attractive to specific women. Both men and women who might be considered unattractive to the average person succeed in attracting and winning highly desirable mates every day, everywhere. Your own experiences may suggest many such cases. Taste and preference in love is infinite. However, there is something in certain men that acts as a magnet in attracting different women! I have two pieces of news for you: one piece of news is good and the other is even better. 1. Good men are constantly in demand. Statistics show that for every single man there are several available women. In some countries there are ten or twenty available women to every single man. In reality women have to fight to get a good man. They have serious competition to win the heart of an eligible bachelor. 2. Age is no barrier. In comparison to their female counterparts, men in their later years who are of good character are much sought after. A good man can get a woman in any age group. Unfortunately, women fade quicker than men do. Often, their looks as well as their figure-shape diminish with age. How many books have been written on how to get or seduce a woman quickly? Many hundreds I would imagine-but what a waste of time! The secret formula for a successful man in the dating world is to become that good, attractive and desirable man. So, Let's Decode this Formula. Every woman likes good qualities in a man's personality, including confidence, honesty, power, generosity, as well as being resourceful and masculine. Also a sense of humor, the ability to lead with a combination of gentleness and kindness, and the ability to love and demonstrate commitment-yes, commitment-will attract most women. Even contemporary professional or businesswomen who have focused on their careers throughout their lives want love and devotion. As evidenced in the movie *Sex and the City*, here is a good example of how, eventually, even "loose" women would have only one man in their lives, to be loved and be faithful to him alone. In addition, it is important to understand what a woman needs from a relationship, and what she values in a male. What qualities attract her to particular men, and what standards does she have? What does a man need to do to be delicately attuned to her ideals? One important element for any happy relationship (when a man chooses a woman) is that looks count, but his personality is what makes the woman stick around. The reality of attraction is finding out what works with different women. What draws women to a particular man and why do they choose to create a relationship with him? Another criteria for successful outcomes in dating for men is an ability to understand what qualities he is looking for in a woman when developing a relationship, and what level of commitment each party is prepared to invest in the relationship. Invest? Yes, creating a healthy relationship takes time, energy, affection, emotions, feelings and other resources. Some people fall in love many times throughout their lives. They become attracted to the opposite sex initially through appearance, but over time, they develop a loving relationship based on qualities of character and personality as well as values. Despite the fact that we all have our preferences when trying to attract the opposite sex, you have to remember, it is a male's personality and character traits that draw women like a magnet. Even money or a handsome appearance cannot help to build a good relationship with a desirable woman if the man is abusive, mean, or unfaithful. To become effective in dating, you may need to learn new behavior skills and develop a new attitude that will catch the attention of desirable women. By knowing the fundamental principles of what attracts females, you can then focus on becoming an attractive male yourself

The Truth About Men Will Set You Free Patricia Allen 2009-06 This is a book for women who are looking to improve their dating experience. More effective dating happens by accepting, versus ignoring, our evolutionary design. Understanding our brain wiring and body reaction differences with men explains a lot. Ever wonder why you get so attached to a man, yet he can remain so casual about your relationship? Or why break-ups are so very hard to get over? This breakthrough book helps you understand exactly how a man's mind (and body) works when it comes to intimacy, and the reasons why dealing with a man can sometimes be so exasperating or emotionally painful. Knowing them helps you realize he may not be doing it you deliberately, and what genetic mechanisms give you more power than you've ever had before in building a strong, loving intimate relationship. For example, scientific research finds that evolution designed you to become biochemically addicted -- to his smell. Biology also drives men sexually, but their main "addiction" is to seek multiple mating partners. Evolution also wisely provides that if a certain hormone gets produced in his brain, he'll become just as bonded as you are. There are rules for a successful relationship. Women feel that guys evade them. Guys feel that women invade them. To have a satisfying love life, or a fulfilling dating experience, know how to play by the rules, and play to win! Dr. Pat Allen, Ph.D, MFT, has helped women, men and couples do this for over 30 years; and her workshops have helped tens of thousands of relationships to succeed. After a lifetime studying the SCIENCE of relationships, the energies that drive men and women, and how those energies can be balanced in harmony, you now have access to her latest discoveries. This research refutes many of today's pop theories about relationships, and dismantles basic assumptions of the feminist movement. It's not the first time Dr. Pat Allen offered such contrarian advice. In her bestseller, "Getting to 'I Do'," she described how women can achieve satisfying marital relationships. In this new book, she describes the genetics of what MEN do in their quest for sex (and love), and how women consciously and unconsciously react to these actions. It's time for women to have their consciousness raised about male sexual behaviors, based on scientific research into human mating practices. When you know the evolutionary sources of such behavior, you are empowered to claim the high ground, adopt effective counter-behaviors, and rise above any victim mentality. Knowing the truth about men and their sexual responses will free you to implement new, scientifically proven mating strategies that will increase your chances for developing a loving relationship. Creating solid and lasting relationships means accepting each other's differences instead of denying them. After you've learned the Truth About Men, you'll finally have the information you need to venture forth, make informed choices -- and embrace true Feminine Empowerment.

What Do Men and Women Really Want from Each Other in a Relationship Joe L Gathers 2021-03-10 The book is about relationships and the quest to achieve it. Women are always demanding, men to tell them what he really wants from her. And on the other hand, men are asking how he can measure up to her laundry list of specifications. Funny huh, because each are looking for the same thing as they pursuit love but are expressing their wants in so many ways. The key to all relations is communications, understanding, respect and trust. But men and women do not need to rush into anything without having their eyes wide open, and not be in denial when something is not working. Another thing to remember, is do not get into a relationship until you are truly ready and prepared to deal with being on a team, and you are willing to work extremely hard. When you are unsure about the relationship and you have a strong gut feeling that something does not feel right, or he is not the person you want, know that you have options and not being held hostage in any relationship. Please people out there, stay focus and watch for the red flags, signs, and signals of his or her behaviors. A relationship requires two not one and women you must always know your worth, always be a woman about your business and know that there is no controlling in a relationship, and in the end, there must be trust and respect. Make no mistake about it, men want sex and a beautiful woman in his arms, and women want love, security and eventually marriage. But how they achieve it is a different subject, because sometimes it appears the message from both gets lost in translation.

His radical new approach, that he sometimes calls “self-help in a shot glass” is easy, real, and to the point. He helps people make changes to their lives so that personal growth happens organically, just by living. Let’s face it, therapy is a luxury. Few of us have the time or money to devote to going to an office every week. With anecdotes illustrating principles in action (in relatable and sometimes irreverent fashion) and stand-alone practices and exercises, Kim gives readers the tools and directions to focus on what's right with them instead of what's wrong. When John Kim was going through the end of a relationship, he began blogging as The Angry Therapist, documenting his personal journey post-divorce. Traditional therapists avoid transparency, but Kim preferred the language of "me too" as opposed to "you should." He blogged about his own shortcomings, revelations, views on relationships, and the world. He spoke a different therapeutic language —open, raw, and at times subversive — and people responded. The Angry Therapist blog, that inspired this book, has been featured in The Atlantic Monthly and on NPR.
