Why Beautiful People Have More Daughters - Alan Miller

2007-09-04

Now available in paperback? a provocative new look at biology, evolution, and human behavior ?as disturbing [as it is] fascinating? (Publishers Weekly). Why are most neurosurgeons male and most kindergarten teachers female?

Why aren't there more women on death row? Why do so many male politicians ruin their careers with sex scandals? Why and how do we really fall in love? This engaging book uses the latest research from the field of evolutionary psychology to shed light on why we do the things we do?from life plans to everyday decisions. With a healthy disregard for political correctness, Miller and Kanazawa reexamine the fact that our brains and bodies are hardwired to carry out an evolutionary mission? an inescapable human nature that actually stopped evolving about 10,000 years ago.

Reckless - janet elizabeth henderson

The new London office of Benson Security hasn't even opened its doors yet and already it's neck deep in its first case... If the mission doesn't kill him, his sexy partner just might. Dimitri Raast and Megan Donaldson have a common enemy—the head of an organisation that specialises in human trafficking and sexual slavery. They have

similar motivation—Dimitri's sister was taken by the organisation, and Megan's sister is threatened by it. They have the same goal—eliminate their enemy and save their sisters. Given they have so much in common, you would think working together would be a piece of cake. You would be wrong. While Dimitri brings skills and experience from years as a US army ranger to their partnership, Megan brings a background in failed career choices and an ability to cause trouble wherever she goes. Yet, even with so much at stake, Dimitri can't resist Megan's particular brand of crazy. She's wild, she's sexy and she's fearless. An irresistible combination for a man who lives his life completely in control. Now, after almost a year with one all-consuming focus, Dimitri finds himself torn between rescuing his sister and protecting the woman he wants from herself. Before she gets them both killed.

Sex-hungry and book-hungry, they would navigate the girl-less sixth form together, trading in affectations, in-jokes, rumour and wit. Maybe Adrian was a little more serious than the others, certainly more intelligent, but they all swore to stay friends for life. Now Tony is retired. He's had a career and a single marriage, a calm divorce. He's certainly never tried to hurt anybody. Memory, though, is imperfect. It can always throw up surprises, as a lawyer's letter is about to prove. Now a major film

Adventure To Revenge And Everything In Between

~~WOMEN'S STUDIES. Why do~~
women have sex? Is it purely for pleasure or the desire to reproduce? Cindy Meston and David Buss investigate the underlying sexual desires of women and identify 237 distinct motivations for sex. Drawing on more than a thousand intensive interviews conducted solely for the book, as well as their pioneering research on physiological response and evolutionary emotions, Meston and Buss give us a remarkably complex and nuanced portrait of female sexuality. They explore the use of sex as a defensive tactic against a man's infidelity (protection), as a ploy to boost self-confidence (status), as a barter for gifts (resource acquisition), or even as a cure for a headache (medication). "Why Women Have Sex" explores the deep-seated psychology and biology of female sexuality, and promises to inform every woman's - and her partner's - awareness of her relationship to sex and her own sexuality.

Demonic Males - Richard W.
Wrangham 1996

Whatever their virtues, men are more violent than women. Why do men kill, rape, and wage war, and what can be done about it? Drawing on the latest discoveries about human evolution and about our closest living relatives, the great apes, "Demonic Males" offers some startling new answers to these questions.

The Evolution of Desire -

David M. Buss 2016-12-27

A "drop-dead shocker" (Washington Post Book World) that uses evolutionary psychology to explain human mating and the mysteries of love If we all want love, why is there so much conflict in our most cherished relationships? To answer this question, we must look into our evolutionary past, argues prominent psychologist David M. Buss. Based one of the largest studies of human mating ever

undertaken, encompassing

more than 10,000 people of all ages from thirty-seven cultures worldwide, *The Evolution of Desire* is the first work to present a unified theory of human mating behavior.

Drawing on a wide range of examples of mating behavior — from lovebugs to elephant seals, from the Yanomamö tribe of Venezuela to online dating apps — Buss reveals what women want, what men want, and why their desires radically differ. Love has a central place in human sexual psychology, but conflict, competition, and manipulation also pervade human mating — something we must confront in order to control our own mating destiny. Updated to reflect the very latest scientific research on human mating, this definitive edition of this classic work of evolutionary psychology explains the powerful forces that shape our most intimate desires.

What Do Women Want? -

Daniel Bergner 2013-06-20

In this headline-making book, Daniel Bergner turns

everything we thought we knew about women's desire on its head. Drawing on extensive research and interviews with renowned behavioural scientists, sexologists, psychologists and everyday women, Daniel Bergner asks: - Do women really crave intimacy and emotional connection? - Are women more disposed to sex with strangers or multiple partners than either science or society have ever let on? - And is 'the fairer sex' actually more sexually aggressive and anarchic than men?

Sex, Drugs & Chocolate -

Paul Martin 2008

"In Sex, Drugs Chocolate, Paul Martin looks at changing attitudes to pleasure over the centuries, including religious and legal attempts to control it, together with the biological and psychological drivers behind our hedonistic impulses. He considers sensation-seekers from Nero to Elvis, pleasure's opposites boredom, unhappiness and pain - and chemical pleasures from caffeine and cannabis to

~~alcohol and heroin. He writes~~
about sex in all its many forms, both social and solitary; the mysteries of the orgasm; shopping, eating, gambling and other behavioural pleasures; addiction and the darker side of pleasure's many moons; and finally the modest and undervalued pleasures of everyday life, such as gardening, sleeping and, of course, chocolate."--BOOK JACKET.

The Murderer Next Door -

David M. Buss 2005

Featuring a detailed study of 400 murders, plus FBI files, this title will appeal to readers interested in profiling, true crime and murder mysteries, and the inner workings of the human mind. Based on groundbreaking research, this is a psychologist's fascinating investigation of why everyone is "wired to kill."

Bad Men - David M. Buss

2021-07-01

Sexual conflict permeates ancient religions, from injunctions about thy neighbor's wife to the sexual obligations of marriage. It is

Why Women Have Sex Understanding Sexual Motivation From

Adventure To Revenge And Everything In Between

etched in written laws that dictate who can and cannot have sex with whom. Its manifestations shape our sexual morality, evoking approving accolades or contemptuous condemnation. It produces sexual double standards that flourish even in the most sexually egalitarian cultures on earth. And although every person alive struggles with sexual conflict, most of us see only the tip of the iceberg: dating deception, a politician's unsavory grab, the slow crumbling of a once-happy marriage, a romantic breakup that turns nasty. *Bad Men* shows that this "battle of the sexes" is deeper and far more pervasive than anyone has recognized, revealing the hidden roots of sexual conflict - roots that originated over deep evolutionary time -- which characterise our sexual psychology. Providing novel insights into our minds and behaviours, *Bad Men* presents a unifying new theory of sexual conflict and offers practical advice for men and women seeking to avoid it.

~~The Dangerous Passion - David M. Buss 2000-02-14~~
Why do men and women cheat on each other? How do men really feel when their partners have sex with other men? What worries women more -- men who turn to other women for love or men who simply want sexual variety in their lives? Can the jealousy husbands and wives experience over real or imagined infidelities be cured? Should it be? In this surprising and engaging exploration of men's and women's darker passions, David Buss, acclaimed author of *The Evolution of Desire*, reveals that both men and women are actually designed for jealousy. Drawing on experiments, surveys, and interviews conducted in thirty-seven countries on six continents, as well as insights from recent discoveries in biology, anthropology, and psychology, Buss discovers that the evolutionary origins of our sexual desires still shape our passions today. According to Buss, more men than women want to have sex with multiple

Why Women Have Sex Understanding Sexual Motivation From

Adventure To Revenge And Everything In Between

partners. Furthermore, women who cheat on their husbands do so when they are most likely to conceive, but have sex with their spouses when they are least likely to conceive. These findings show that evolutionary tendencies to acquire better genes through different partners still lurk beneath modern sexual behavior. To counteract these desires to stray -- and to strengthen the bonds between partners -- jealousy evolved as an early detection system of infidelity in the ancient and mysterious ritual of mating. Buss takes us on a fascinating journey through many cultures, from pre-historic to the present, to show the profound evolutionary effect jealousy has had on all of us. Only with a healthy balance of jealousy and trust can we be certain of a mate's commitment, devotion, and true love.

Mating Intelligence Unleashed - Glenn Geher PhD 2013-01-30
Psychologists often paint a picture of human mating as visceral, instinctual. But that's not the whole story. In

Why Women Have Sex Understanding Sexual Motivation From

Adventure To Revenge And Everything In Between

courtship and display, sexual competition and rivalry, we are also guided by what Glenn Geher and Scott Barry Kaufman call Mating Intelligence--a range of mental abilities that have evolved to help us find the right partner. Mating Intelligence is at work in our efforts to form, maintain, and end relationships. It guides us in flirtation, foreplay, copulation, finding and choosing a mate, and many other behaviors. In *Mating Intelligence Unleashed*, psychologists Geher and Kaufman take readers on a fascinating tour of the crossroads of mating and intelligence, drawing on cutting-edge research on evolutionary psychology, intelligence, creativity, personality, social psychology, neuroscience, and more. The authors show that despite what you may read in the latest issue of *Maxim*, *Playboy*, *Vogue*, or *GQ*, physical attractiveness isn't the whole story. Human mating draws on a range of mental skills and attributes--from the creative use of pick-

up lines, to displays of charisma, intelligence, humor, personality, and compassion. Along the way, the authors shed new light on age-old questions, such as: What role does personality play in mating? Which traits are attractive--and which traits repulse? How do people really choose mates? How do men and women deceive each other? How important is emotional intelligence? Why do people create art--and does it have anything to do with sex? Do nice guys really finish last? Since Glenn Geher coined the term Mating Intelligence in 2006, it has drawn a great deal of media attention, ranging from a *Psychology Today* cover story to articles in the *New Scientist*, the *Washington Times*, the *Huffington Post*, and elsewhere. Now, in *Mating Intelligence Unleashed*, readers will have the first full account of this revolutionary new approach to dating, mating, and love.

An unparalleled exploration of

Why Women Have Sex Understanding Sexual Motivation From

Adventure To Revenge And Everything In Between

the mysteries underlying women's sexuality that rivals the culture-shifting Kinsey Report, from two of America's leading research psychologists Do women have sex simply to reproduce or display their affection? When University of Texas at Austin clinical psychologist Cindy M. Meston and evolutionary psychologist David M. Buss joined forces to investigate the underlying sexual motivations of women, what they found astonished them. Through the voices of real women, Meston and Buss reveal the motivations that guide women's sexual decisions and explain the deep-seated psychology and biology that often unwittingly drive women's desires—sometimes in pursuit of health or pleasure, or sometimes for darker, disturbing reasons that a woman may not fully recognize. Drawing on more than a thousand intensive interviews conducted solely for the book, as well as their pioneering research on physiological response and evolutionary emotions, Why Women Have

~~Sex uncovers an amazingly~~ complex and nuanced portrait of female sexuality. They delve into the use of sex as a defensive tactic against a mate's infidelity (protection), as a ploy to boost self-confidence (status), as a barter for gifts or household chores (resource acquisition), or as a cure for a migraine headache (medication). Why Women Have Sex stands as the richest and deepest psychological understanding of female sexuality yet achieved and promises to inform every woman's (and her partner's) awareness of her relationship to sex and her sexuality.

The Color of Kink - Ariane Cruz
2016-10-04

Winner of the MLA's 2016 Alan Bray Prize for Best Book in GLBTQ Studies How BDSM can be used as a metaphor for black female sexuality. The Color of Kink explores black women's representations and performances within American pornography and BDSM (bondage and discipline, domination and submission, and sadism and masochism)

Why Women Have Sex Understanding Sexual Motivation From

~~Adventure To Revenge And Everything In Between~~

from the 1930s to the present, revealing the ways in which they illustrate a complex and contradictory negotiation of pain, pleasure, and power for black women. Based on personal interviews conducted with pornography performers, producers, and professional dominatrices, visual and textual analysis, and extensive archival research, Ariane Cruz reveals BDSM and pornography as critical sites from which to rethink the formative links between Black female sexuality and violence. She explores how violence

becomes not just a vehicle of pleasure but also a mode of accessing and contesting power. Drawing on feminist and queer theory, critical race theory, and media studies, Cruz argues that BDSM is a productive space from which to consider the complexity and diverseness of black women's sexual practice and the mutability of black female sexuality. Illuminating the cross-pollination of black sexuality and BDSM, *The Color of Kink* makes a unique contribution to the growing scholarship on racialized sexuality.
