The Magic of Ordinary Days - Ann Howard Creel 2002-06-25

Olivia Dunne, a studious minister's daughter who dreams of being an archaeologist, never thought that the drama of World War II would affect her quiet life in Denver. An exhilarating flirtation reshapes her life, though, and she finds herself banished to a rural Colorado outpost, married to a man she hardly knows. Overwhelmed by loneliness, Olivia tentatively tries to establish a new life, finding much-needed friendship and solace in two Japanese American sisters who are living at a nearby internment camp. When Olivia unwittingly becomes an accomplice to a crime and is faced with betrayal, she finally confronts her own desires. Beautifully written and filled with memorable characters, Creel's novel is a powerful exploration of the nature of trust and love.

Would You Rather? - Katie Heaney 2018-03-06

A collection of poignant, relatable essays from the author of *Never Have I Ever* about coming out in her late twenties, entering into her first relationship, and figuring out what it means to be an adult. When Katie Heaney published her first book of essays, chronicling her singledom up to age twenty-five, she was still waiting to meet the right guy. Three years later, a lot changed. For one thing, she met the right girl. Here, for the first time, Katie opens up about realizing at the age of twenty-eight that she is gay. In these poignant, funny essays, she wrestles with her

shifting sexuality and identity, and describes what it was like coming out to everyone she knows (and everyone she doesn't). As she revisits her past, looking for any "clues" that might have predicted this outcome, Katie reveals that life doesn't always move directly from point A to point B—no matter how much we would like it to. In a warm and relatable voice, Katie tackles everything from the trials of dating in New York City to the growing pains of her first relationship, from obsessing over Harry Styles (because, actually, he does look a bit like a lesbian) to learning to accept herself all over again. Exploring love and sexuality with her neurotic wit and endearing intimacy, Katie Heaney shares the message that it's never too late to find love—or yourself. Praise for *Would You Rather?* "[Katie] Heaney's not afraid to examine her past for 'clues' to what she realizes is her truth in the present, and reflects on her changing identity with honesty and wit."—NYLON "An honest, endearing, and laugh-out-loud account of coming to terms with one's sexual identity."—W Magazine "*Would You Rather?* is an extraordinarily generous and affecting book. Katie Heaney has written something with a remarkable amount of room in it—enough for anyone to spread out and connect with. It's deeply felt, clear-eyed, joyful, and illuminating."—Mallory Ortberg, author of *Texts from Jane Eyre: And Other Conversations with Your Favorite Literary Characters* "Whether you're single or in a relationship, whether you're queer, straight, or questioning, whether or not you're partial to Harry Styles—you will discover something relatable and self-affirming in this honest, heartfelt, hilarious memoir."—Camille Perri, author of *The Assistants*

Divining the Etruscan World - Jean MacIntosh Turfa 2012-07-16

The Etruscan Brontoscopic Calendar is a rare document of omens foretold by thunder. It long lay hidden, embedded in a Greek translation within a Byzantine treatise from the age of Justinian. The first complete

English translation of the Brontosopic Calendar, this book provides an understanding of Etruscan Iron Age society as revealed through the ancient text, especially the Etruscans' concerns regarding the environment, food, health and disease. Jean MacIntosh Turfa also analyzes the ancient Near Eastern sources of the Calendar and the subjects of its predictions, thereby creating a picture of the complexity of Etruscan society reaching back before the advent of writing and the recording of the calendar.

When penniless businessman Mr Bedford retreats to the Kent coast to write a play, he meets by chance the brilliant Dr Cavor, an absent-minded scientist on the brink of developing a material that blocks gravity. Cavor soon succeeds in his experiments, only to tell a stunned Bedford the invention makes possible one of the oldest dreams of humanity: a journey to the moon. With Bedford motivated by money, and Cavor by the desire for knowledge, the two embark on the expedition. But neither are prepared for what they find - a world of freezing nights, boiling days and sinister alien life, on which they may be trapped forever.

China's Cosmopolitan Empire - Kwoh-Ting Li Professor in Chinese Culture Mark Edward Lewis 2009

The Tang dynasty is often called China's "golden age," a period of commercial, religious, and cultural connections from Korea and Japan to the Persian Gulf, and a time of unsurpassed literary creativity. Mark Lewis captures a dynamic era in which the empire reached its greatest geographical extent under Chinese rule, painting and ceramic arts flourished, women played a major role both as rulers and in the economy,

and China produced its finest lyric poets in Wang Wei, Li Bo, and Du Fu. The Chinese engaged in extensive trade on sea and land. Merchants from Inner Asia settled in the capital, while Chinese entrepreneurs set off for the wider world, the beginning of a global diaspora. The emergence of an economically and culturally dominant south that was controlled from a northern capital set a pattern for the rest of Chinese imperial history. Poems celebrated the glories of the capital, meditated on individual loneliness in its midst, and described heroic young men and beautiful women who filled city streets and bars. Despite the romantic aura attached to the Tang, it was not a time of unending peace. In 756, General An Lushan led a revolt that shook the country to its core, weakening the government to such a degree that by the early tenth century, regional warlordism gripped many areas, heralding the decline of the Great Tang.

Wedding Toasts I'll Never Give - Ada Calhoun 2017-05-16

Seven essays celebrating the beauty of the imperfect marriage. We hear plenty about whether or not to get married, but much less about what it takes to stay married. Clichés around marriage—eternal bliss, domestic

harmony, soul mates—leave out the real stuff. After marriage you may still want to sleep with other people. Sometimes your partner will bore the hell out of you. And when stuck paying for your spouse's mistakes, you might miss being single. In *Wedding Toasts I'll Never Give*, Ada Calhoun presents an unflinching but also loving portrait of her own marriage, opening a long-overdue conversation about the institution as it truly is: not the happy ending of a love story or a relic doomed by high divorce rates, but the beginning of a challenging new chapter of which "the first twenty years are the hardest." Calhoun's funny, poignant personal essays explore the bedrooms of modern coupledness for a nuanced discussion of infidelity, existential anxiety, and the many other obstacles to staying together. Both realistic and openhearted, *Wedding Toasts I'll Never Give* offers a refreshing new way to think about marriage as a brave, tough, creative decision to stay with another person for the rest of your life. "What a burden," Calhoun calls marriage, "and what a gift."

Cosmopolitan Archaeologies - Lynn Meskell 2009-04-17

An important collection, *Cosmopolitan Archaeologies* delves into the politics of contemporary archaeology in an increasingly complex international environment. The contributors explore the implications of applying the cosmopolitan ideals of obligation to others and respect for cultural difference to archaeological practice, showing that those ethics

increasingly demand the rethinking of research agendas. While cosmopolitan archaeologies must be practiced in contextually specific ways, what unites and defines them is archaeologists' acceptance of responsibility for the repercussions of their projects, as well as their undertaking of heritage practices attentive to the concerns of the living communities with whom they work. These concerns may require archaeologists to address the impact of war, the political and economic depredations of past regimes, the livelihoods of those living near archaeological sites, or the incursions of transnational companies and institutions. The contributors describe various forms of cosmopolitan engagement involving sites that span the globe. They take up the links between conservation, natural heritage and ecology movements, and the ways that local heritage politics are constructed through international discourses and regulations. They are attentive to how communities near heritage sites are affected by archaeological fieldwork and findings, and to the complex interactions that local communities and national bodies have with international sponsors and universities, conservation agencies, development organizations, and NGOs. Whether discussing the toll of efforts to preserve biodiversity on South Africans living near Kruger National Park, the ways that UNESCO's global heritage project universalizes the ethic of preservation, or the Open Declaration on Cultural Heritage at Risk that the Archaeological Institute of America sent to the U.S. government before the Iraq invasion, the contributors provide nuanced assessments of the ethical implications of the discursive production, consumption, and governing of other people's pasts. Contributors. O. Hugo Benavides, Lisa Breglia, Denis Byrne, Chip Colwell-Chanthaphonh, Alfredo González-Ruibal, Ian Hodder, Ian Lilley, Jane Lydon, Lynn Meskell, Sandra Arnold Scham
