Trust Issues in Relationships - Ashley Simmons 2020-10

Are your fears and insecurities driving your partner away? Is he thinking about someone else? If I open up, I will only get hurt again. She's going to leave me, for sure. Do these statements sound like the thoughts in your head? Are these thoughts affecting how you interact with your partner? While it's normal to occasionally have doubts about your spouse or lover, when these doubts become a constant point of contention,

there may be serious consequences to your relationship. Frequent snooping, monitoring, and questioning are signs of a lack of trust. Without trust, a relationship is on a shaky foundation and will inevitably fail. You don't mean to be so possessive and controlling, but it may come off that way to your partner. Why Is My Partner So Jealous?

- Michael Wright 2014-08-26
Jealousy is a relationship killer. It is rooted in having a low self image of oneself, insecurity and the fear that your partner will wake up one day and realize there is someone better out there. If you are the jealous party suspicious thoughts began to enter your mind and you begin to question your partner's action or become too needy of your partner's time and attention. If you are the one that's on the receiving end of this jealousy it can become a nightmare for you. The constant questioning, the suspicion, and the doubts begin to erode the previous confidence that you had in the relationship and self doubt creeps in and you wonder if it is even worth continuing the relationship. You are at the proverbial crossroad. You need a solution if you are to continue the relationship. In his book entitled *Why is My Partner So Jealous?* Author Michael

Wright covers in detail how to identify and effectively deal with jealousy, insecurity, low self-esteem and trust issues in your relationship. You will learn the following:

- How jealousy negatively affects your relationship.
- The many sources from which jealousy might arise.
- Ineffective (or damaging) ways to deal with jealousy that can end up making the problem worse and should be avoided.
- Important considerations you will have to make before confronting the problem.
- Effective strategies for confronting jealousy in a healthy and constructive way.
- How to build a strong relationship that will be more resistant to jealousy and other issues in the future, and;
- Signs that can help you identify when your relationship is starting to become strong and healthy. And Much Much More.....

What Makes Love Last? -

John Gottman 2013-09-10
"One of the foremost relationship experts at work today applies the insights of science toward understanding

the real meaning of trust between a couple. He decodes the "why" behind betrayal and shows how partners can avoid or recover from unfaithfulness and maintain a loving relationship. Dr. John Gottman, the country's pre-eminent researcher on marriage, is famous for his Love Lab at the University of Washington in Seattle where he deciphers the mysteries of human relationships through scientific research. His thirty-five years of exploration have earned him numerous major awards, including from the National Institute of Mental Health, the American Psychological Association, and the American Association for Marriage and Family Therapy. Now, Dr. Gottman offers surprising findings and advice on the characteristic that is at the heart of all relationships: Trust. Dr. Gottman has developed a formula that precisely calculates any couple's loyalty level. The results determine a relationship's likely future, including the potential for one or both partners to stray. A

Love You Can Trust shows couples how to bolster their trust level and avoid what Dr. Gottman calls the "Roach Motel for Lovers." He describes how the outcome of--"sliding door moments," small pivotal points between a couple, can lead either to more emotional connection or to discontent. He suggests a new approach to handling adultery and reveals the varied and unexpected non-sexual ways that couples often betray each other. A Love You Can Trust guides couples through an empirically tested, trust-building program that will let them repair and maintain a long-term, intimate, and romantic relationship"--

Daring to Trust - David Richo
2011-07-26

The best-selling author of *How to Be an Adult in Relationships* explains how to build trust—the essential ingredient in successful relationships—in spite of fear or past betrayals. Most relationship problems are essentially trust issues, explains psychotherapist David Richo. Whether it's fear of commitment, insecurity,

jealousy, or a tendency to be controlling, the real obstacle is a fundamental lack of trust—both in ourselves and in our partner. *Daring to Trust* explores the importance of trust throughout our emotional lives: how it develops in childhood and how it becomes an essential ingredient in healthy adult relationships. It offers key insights and practical exercises for exploring and addressing our trust issues in relationships. Topics include:

- How we learn early in life to trust others (or not to trust them)
- Why we fear trusting
- Developing greater trust in ourselves as the basis for trusting others
- How to know if someone is trustworthy
- Naïve trust vs. healthy, adult trust
- What to do when trust is broken

Ultimately, Richo explains, we must develop trust in four directions: toward ourselves, toward others, toward life as it is, and toward a higher power or spiritual path. These four types of trust are not only the basis of healthy relationships, they are also the foundation of

emotional well-being and freedom from fear.

The #1 Reason Why You Have Trust Issues and Why Feeling Messed Up Doesn't Mean You'll Never Find Real Love Let's face it - we're all messed up.

Unless you've never been in a relationship before or you don't have questionable family dynamics, chances are that some type of betrayal has happened in your life. So, what do we do about such problems? We usually dump all of that baggage on people who have nothing to do with our screwed up past. Raise your hand if you've been betrayed before and you're taking it out on your current partner now. You're not alone! Betrayal trauma makes us many unpleasant things - jealous, anxious, whiny, needy, insecure... Trust issues are detrimental for one more key reason: self-sabotage.
