Living Art as Life, and Life as Art - David Cavagnaro 2023-06-21

About the Book In the late 1930s, with World War II looming, the famous German Bauhaus art school closed, and many of its teachers migrated to America, greatly influencing the course of modern art and architecture in the 1940s and 1950s. Influenced by the work of Bauhaus painters such as Lyonel Feininger, Paul Klee, and Wassily Kandinsky, a young artist named Milton Cavagnaro began what would become a lifetime art career in San Francisco that spanned abstract painting, commercial design, college

teaching, jewelry making, gardening and landscaping. During this journey, many famous mid-century artists, beginning their own careers, would grace his family's life as friends or visitors, including photographers Ansel Adams, Imogen Cunningham, Ernest Braun; Margaret Bourke White and Yohana Meith, the first women photographers for Life; and close associates of Diego Rivera and Frida Kahlo. Milton's history, as told here by son David Cavagnaro, became in the writing the much larger story of five generations in the family, all passing along the torch of creativity via a plethora of media. Lavishly illustrated, this journey demonstrates that the definition and expression of art can permeate all of life, if we also live life itself as art. About the Author DAVID CAVAGNARO is the author of six previous books and a widely published writer and photographer in the fields of natural history and horticulture. Having spent most of his life in Northern California, his former home and land in Northeast Iowa have become The Pepperfield Project, a nonprofit devoted to sustainable food gardening, seed-saving, and personal growth, body, mind, and spirit. His work and activities may be viewed at www.naturalight.net.

Life's Little Lessons Forever: - James E. Smith
Ph. D. 2023-08-22

Life's Little Lessons Forever: The Rhythm and Reason for Life James E. Smith, Ph. D. This book is the third in a series of the lessons learned during my life. The first volume, *Life's Little Lessons* - with some not so little was primarily situated during the adolescent years up until college. That book was about those experiences that we all most likely encounter in our own way during those developmental years. The second book, *Life's Little Lessons, too - A Proper Life with a Career*, starts off where the first one ended extending those life lessons learned while developing and executing a professional career. As in both volumes, it is the individuals you interact with all around you, plus the social, physical, and clearly professional environments

you live in that impact who you are now and who you will become in the future. While these lessons, collectively, are all unique influences in your personal development, it turns out these factors are only part of a set of what I refer to as lessons that everyone is exposed to and allowed to integrate into their personality, at their choosing. Together they essentially become the building blocks of your existence and help to determine how well you will, and can, participate in your ever-changing social, personal, and professional environments. It is in the responses and reactions created through our experienced stories where we learn to understand who we really are and how best we are to live and work in the complex and interwoven environments that we exist in. This book consists of a series of prepared thoughts on what I think are life's most important issues: love, spirituality, leadership, family and friends, passion and intimacy, plus some thoughts less specific. It also includes several quotes and sayings used to reinforce ideas for my friends, family members, and students. It is hoped that reading this book will help the reader realize the importance of these lessons and how attention to their details in your own life will enhance and encourage your continued professional, personal, and social development.

The Promised Piece - Marilyn Emery
 2017-07-11

The Promised Piece is the inspirational journey of two girls, Ford (Carol Ford Jennings) and Lucky (Marilyn Lutke Emery) who have remained lifetime friends. From elementary school to present park bench conversations as active retirees, you will travel with and experience Carol and Marilyn's forever friendship journey. Ford and Lucky share their

conversations and events while attending grades K-12 at Godfrey-Lee Public School in Grand Rapids, Michigan. Included are their experiences with the Lee High School (LHS) group of sisters called Draco. The group, known in adulthood as The Ten, continued a longtime friendship through college, careers, marriages, birth of children, and family issues, with a sharing and caring attitude. The LHS classmates who graduated with Carol and Marilyn in 1960 also became forever friends. You will read about the five-year class reunions and other dinners held over the years. God led the way for Carol, Marilyn, and their friends as they were planted, nourished, grew, and bloomed through healthy lifestyles, joys, and sorrows, to become one large family. You'll realize the fun they experienced and how a lifetime relationship became such a precious gift. Marilyn documented Carol's and her past experiences and read the manuscript aloud until Carol was physically able to contribute to the storyline. Carol shared her ideas with additional details about her life, health issues, and survival. The Ten and also a few male classmates submitted pieces for The Promised Piece as well. Upon conclusion of the friendship story, Carol compared the process to that of birthing a baby. The usual nine months became ten years for the project to fully develop, with additional time for the book to be published. Marilyn felt the writing process from beginning to end was like an artist painting a beautiful canvas of flowers. It took time to get the proper perspective by patiently sketching then painting each petal, adding color, tone, and texture, and finally upon perfection, the artistic piece was framed and enjoyed. The project concluded with thankfulness to God for giving Carol and Marilyn the motivation and determination to finish The Promised Piece, thus fulfilling their promise to each other.

You Only Fall in Love Three Times - Kate Rose
 2020-01-14

Discover the three types of love--and the key to finding the one you're truly meant to be with. We love and we love again -- sometimes our hearts get broken but, somehow, we find the courage to dive back in. In this soul-searching book, relationship expert Kate Rose guides readers down the path to a deeper understanding of who they are, what they want, and finally, to the

discovery of their Twin Flame. According to Rose, love is a journey of self-discovery and every relationship we have in our lives teaches us something that we need to learn about ourselves and what will make us truly happy. She introduces readers to the three types of love we will all experience: The Soulmate introduces us to the dream of love, but somehow what seemed like it would be "happily ever after" wasn't meant to last forever. We are so consumed with making The Karmic Love work that we often fail to question whether it should work. As painful as it is to accept, this love that felt so right in the beginning is actually all wrong. The Twin Flame comes into our lives and often we don't even know it's love because . . . it's too easy. This is the love who helps us to accept ourselves just as we are because this is precisely what they do. In *You Only Fall in Love Three Times*, Kate Rose shows us that happy endings may not happen quite the way they do in fairytales-- but they happen nonetheless.

The Art of Teaching Children - Phillip Done
2023-07-18

An essential guide for teachers and parents that's destined to become a classic, *The Art of Teaching Children* is one of those rare and masterful books that not only defines a craft but offers a magical reading experience. After more than thirty years in the classroom, award-winning teacher Phillip Done decided that it was time to retire. But a teacher's job is never truly finished, and he set out to write the greatest lesson of his career: a book for educators and parents that would pass along everything he learned about working with kids. From the first-day-of-school jitters to the last day's tears, Done writes about the teacher's craft, classrooms and curriculums, the challenges of the profession, and the reason all teachers do it—the children. Drawing upon decades of experience, Done shares time-tested tips and sage advice: Real learning is messy, not linear. Greeting kids in

the morning as they enter the classroom is an important part of the school day. If a student is having trouble, look at what you can do differently before pointing the finger at the child. Ask yourself: Would I want to be a student in my class? When children watch you, they are learning how to be people, and one of the most important things we can do for our students is to model the kind of people we would like them to be. Done tackles topics you won't find in any other teaching book, including Back to School Night nerves, teacher pride, the Sunday Blues, Pinterest envy, teacher guilt, and the things they never warn you about in "teacher school" but should, like how to survive recess duty, field trips, and lunch supervision. Done also addresses some of the most important issues schools face today: bullying, excessive screen time, the system's obsession with testing, teacher burnout, and the ever-increasing demands of meeting the diverse learning needs of students. But *The Art of Teaching Children* is more than a guide to educating today's young learners. These pages are alive with inspiration, humor, and tales of humanity. Done welcomes us like visitors at Open House Night to the world of elementary school, where we witness lessons that go well and others that flop, periods that run smoothly and ones that go haywire when a bee flies into the room. We meet master teachers and new ones, librarians and lunch supervisors, principals and parents (some with too much time on their hands). We get to know kids who want to hold a ball and those who'd rather hold a marker, students with difficult home lives and children with disabilities, youngsters who need drawing out and those who happily announce (in the middle of a math lesson) that they have a loose tooth. With great wit and wisdom, irresistible storytelling, and boundless compassion, *The Art of Teaching Children* is the new educator's bible for teachers, parents, and all who work with kids and care about their learning and success.
