Code It! Create It! - Sarah Hutt 2017-10-31
Come up with the perfect coding-powered project in this informative, interactive journal published in partnership with the nonprofit organization Girls Who Code! Think being creative has nothing to do with computer coding? Think again! Coding is all about creativity. The video games you play, the photo-sharing apps you love, the animated movies you watch—they're all made with code. And the coolest part? YOU can make anything with code, too! The possibilities for coding projects are limitless, so use these pages to get inspired, jot down ideas, doodle, play coding games, and

more. Let your imagination run wild—you just might come up with the most awesome coding project ever.

Girls Who Code - Reshma Saujani 2017-08-24
NEW YORK TIMES BESTSELLER! Crack the code to your future dreams Since 2012, the organization Girls Who Code has been leading the charge to get girls interested in technology and coding. Now its founder, Reshma Saujani, wants to inspire you to be a girl who codes! Bursting with dynamic artwork, down-to-earth explanations of coding principles, and real-life stories of girls and women working at places like Pixar and NASA, this graphically animated book shows what a huge role computer science plays in our lives and how much fun it can be. No matter your interest—sports, the arts, baking, student government, social justice—coding can

help you do what you love and make your dreams come true. Whether you're a girl who's never coded before, a girl who codes, or a parent raising one, this entertaining book, printed in bold two-color and featuring art on every page, will have you itching to create your own apps, games, and robots to make the world a better place.

Code Girls - Liza Mundy 2017-10-10

The award-winning New York Times bestseller about the American women who secretly served as codebreakers during World War II--a "prodigiously researched and engrossing" (New York Times) book that "shines a light on a hidden chapter of American history" (Denver Post). Recruited by the U.S. Army and Navy from small towns and elite colleges, more than ten thousand women served as codebreakers during World War II. While their brothers and boyfriends took up arms, these women moved to Washington and learned the meticulous work of code-breaking. Their efforts shortened the war, saved countless

lives, and gave them access to careers previously denied to them. A strict vow of secrecy nearly erased their efforts from history; now, through dazzling research and interviews with surviving code girls, bestselling author Liza Mundy brings to life this riveting and vital story of American courage, service, and scientific accomplishment.

Baby Code! Play - Sandra Horning 2018-07-17

It's never too early to get little ones interested in computer coding with this unique series of board books! How do you explain coding in playtime to a baby? By showing how it's all around them, and how they can take part in it, of course! By using items and experiences in a baby's world, like an electric swing or a ride at the amusement park, this charming board book full of bright, colorful illustrations is the perfect introduction to coding in active play for babies and their caregivers--and is sure to leave them wanting to learn more!

Team BFF - Stacia Deutsch 2019

Sophia and her coding club BFFs have the best time together. Sure, they work on coding projects, but they also gossip about crushes, eat cookies, and act silly. Now they're about to participate in their first robot hackathon--a full day of coding robots and meeting other coders--so it's time to step up their game! But when a change of plans threatens to tear their group apart, will Sophia and her friends have one another's backs, or are they destined for an epic fail? They know that coding is all about teamwork and problem solving--maybe friendship is, too!

increase your creativity? Notebooks are a quick and effective way to easily accomplish all this and much more. If you loved writing in notebooks in the past, recapture those feelings of inspiration and passion with the GIRLS WHO CODE RULE NOTEBOOK! Increase Creativity Writing by hand has been associated with boosting creativity. Increased creativity translates to better code and more fun. Whether you're searching for the next big algorithm or for creative applications to code, writing in a notebook can give your creative juices more punch. This means coming up with better ideas more quickly and easier than ever before. Imagine the how a boost in creativity will make you feel at work, home or at school. Your next great idea may be write at the tips of your fingers waiting to be expressed on the pages of the GIRLS WHO CODE RULE NOTEBOOK. Improve Your Memory Writing by hand with a pen or pencil has been shown to improve the strength and length of memories. Manual note

taking has an advantage over digital notes. The Association for Psychological Science proclaimed "taking notes by hand is better than taking notes on a laptop". How will you take advantage of this knowledge to gain an edge on your competition at school, work, or your business? How will better comprehension improve your coding? Typing helps you take fast notes, but does little for comprehension. Remember, you're not taking notes to refer to later, you're writing it down to remember it now! Because you desire comprehension and understanding rather than simple transcription, the GIRLS WHO CODE RULE NOTEBOOK is a must. Achieve Your Goals and Organize Your Life Write down accomplishments with your hobbies, weight loss, and other life goals. Look back feel good about yourself and all you've done. Besides capturing goals and dreams, capture important tasks, notes, and phone numbers. Use the GIRLS WHO CODE RULE NOTEBOOK to organize your life. Increase Your

IQ Through Journaling A report by the University of Victoria indicated that writing related to language has a positive correlation with intelligence. Journaling is also a way to process and manage emotions, improve self-awareness, and to develop empathy. This translates to a better understanding of others and higher levels of emotional intelligence. Evoke Mindfulness Journaling tends to evoke a state of mindfulness in the writer. A greater state of mindfulness means a greater sense of well being, improved physical health, and improved mental health. This correlates to relief from depression, anxiety, and stress. How important is the right frame of mind when coding? How will you benefit from a greater state of mindfulness you achieve from journaling in the GIRLS WHO CODE RULE NOTEBOOK? What Really Matters? Think about the importance of your birth certificate, marriage certificate, property deeds, or even the laws that govern our society...the stuff that really matters goes onto paper! Stop

limiting yourself and start generating better ideas, more mindfulness, and better code now with the GIRLS WHO CODE RULE NOTEBOOK. Buy the GIRLS WHO CODE RULE NOTEBOOK today, make what you write matter!

Spotlight on Coding Club! #4 - Michelle Schusterman 2018-10-02

Perfect for fans of The Babysitters Club and anyone interested in computer science, this series is published in partnership with the organization Girls Who Code! It's almost time for the talent show at school, and Erin couldn't be more excited. It's her time to take center stage! Plus, she and her friends from coding club are putting together an awesome coding program for the show. But Erin has a big secret: she has anxiety. And when things start piling up at home

and school, she starts having trouble handling everything. Her friends from coding club have always been there for her, but will they be as understanding when the going gets tough? Sometimes in coding--like in friendship--things don't go exactly as planned, but the outcome can be even better than you'd imagined.

Lights, Music, Code! #3 - Jo Whittlemore
2018-03-13

Perfect for fans of The Babysitters Club and anyone interested in computer science, this series is published in partnership with the organization Girls Who Code! Maya and her friends from coding club have an exciting new

project: they're coding lights and music for the winter dance! But when Maya's old troublemaking friend Maddie moves to town, Maya starts spending a lot of time with her, and less time with her coding friends. Maddie just gets her in a way that her other friends don't. Will Maya get swayed by Maddie's wayward ways, or will she stay true to her "permanent group" from coding club? And will she come through on her part for the light and music coding project? Maybe coding--like friendship--is about being there for your friends when they need you the most.

Lights, Music, Code! - Jo Whittlemore 2019
It's almost time for the winter dance, and Maya and her BFFs are in charge of coding the lights and music! Of course they'll use what they've learned in coding club to make it super-cool, though figuring out their plan isn't easy. And Maya's friends aren't listening to any of her ideas. But Nicole, Maya's old friend, is happy to listen to her. Before long, Maya finds herself in
