F*ck the Insecurities - J C Ragners 2020-08-03

Have a Heart-to-Heart With Your Insecurities and Make Them get Off For Good. For as long as humans have existed, they have been preyed upon by a powerful enemy. One that targets both males and females, old and young. It doesn't care how much money you have, where you live, or how successful you are. It can sicken your mind, make your day a living hell, and hinder your career. And it affects every single person on the planet. Yes, we're talking about self-doubt. It is one of the strongest feelings in the world, one that can take down even the most powerful individuals and can cause mayhem in anyone's life. There are many causes of insecurity, and it doesn't manifest the same in everyone. Some people hide themselves behind baggy clothes because they don't feel pretty enough. Others stay at home and avoid social events, worried that they might say something "stupid" and embarrass themselves. No matter what form your insecurity takes, the result is always the same: you are missing out on life. You could be out there, making friends, finding love, getting promoted, if your self-doubt wasn't holding you back. It's a tough rival to beat. But just like any other predator, self-doubt has a natural enemy, one that conquers it every time: confidence. Yes, confidence is the king of the jungle. Once you arm yourself with it, you're ready for the battle, and insecurities have no chance against this power. But becoming a strong, confident individual is easier said than done. Or is it? In this book, you'll discover: Simple techniques to break free from those hardwired negative thoughts that are poisoning your mind How to stop comparing yourself to others and eliminate destructive pangs of jealousy Why being perfect sucks, and how you can use your imperfections to your advantage Shocking revelations on self-sabotage, and how to recognize when you're doing it (hint: prepare to be surprised) How to use powerful tools such as CBT and self-talk to fight social anxiety, and rejoin the world How you are unconsciously projecting your insecurity to others by acting a certain way Strategies for boosting your defense mechanism and creating a shield of confidence no insecurity can penetrate And much more. A healthy dose of self-doubt has never hurt anyone. In fact, research suggests it can even help you progress and make you a better, more confident individual. But insecurities are subtle. They start slow, like you hiding your tummy on a beach, or avoiding public speaking. If left unchecked, they can grip you extremely fast and leave you vulnerable, self-conscious, and unsure in your own abilities. But if you react in time and employ confidence as your ally, self-doubt doesn't stand a chance. If you're ready to meet your insecurities on the battlefield, and emerge victorious, then scroll up and click the "Add to Cart" button right now.
