

In The Shadow Of The Tower Sex Fear And Politics On A Southern Campus

Passionate Politics - Jeff Goodwin 2009-03-09

Emotions are back. Once at the center of the study of politics, emotions have receded into the shadows during the past three decades, with no place in the rationalistic, structural, and organizational models that dominate academic political analysis. With this new collection of essays, Jeff Goodwin, James M. Jasper, and Francesca Polletta reverse this trend, reincorporating emotions such as anger, indignation, fear, disgust, joy, and love into research on politics and social protest. The tools of cultural analysis are especially useful for probing the role of emotions in politics, the editors and contributors to *Passionate Politics* argue. Moral outrage, the shame of spoiled collective identities, or the joy of imagining a new and better society, are not automatic responses to events. Rather, they are related to moral institutions, felt obligations and rights, and information about expected effects, all of which are culturally and historically variable. With its look at the history of emotions in social thought, examination of the internal dynamics of protest groups, and exploration of the emotional dynamics that arise from interactions and conflicts among political factions and individuals, *Passionate Politics* will lead the way toward an overdue reconsideration of the role of emotions in social movements and politics generally. International Film and TV Yearbook - 1976

In the Shadow of the Tower, 2nd Edition - Marjorie Hacker 2010-08-09

The secret motive for the assassination of John F. Kennedy lies deep within Renier University. The university president uses Renier as his playground and to advance his political career. He was designated to replace Lyndon Johnson on the 1964 Democratic Party ticket. Through the experiences of faculty wife, Liz Hunter, we get a snapshot of life under his leadership.

Library Journal - Melvil Dewey 1967

Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Also issued separately.

Violence and Nonviolence - Gregg Barak 2003-02-24

Violence and Nonviolence: Pathways to Understanding is the first book to provide an integrative, systematic approach to the study of violence and nonviolence in one volume. Eminent scholar and award-winning author Gregg Barak examines virtually all forms of violence—from verbal abuse to genocide—and treats all of these expressions of violence as interpersonal, institutional, and structural occurrences. In the context of recovery and nonviolence, Barak addresses peace and conflict studies, legal rights, social justice, and various nonviolent movements. Employing an interdisciplinary framework, Barak emphasizes the importance of culture, media, sexuality, gender, and social structure in developing a comprehensive theory of these two separate, but inseparable phenomena.

Utopia - Thomas More 2019-03-18

Utopia (Libellus vere aureus, nec minus salutaris quam festivus, de optimo rei publicae statu deque nova insula Utopia, "A little, true book, both beneficial and enjoyable, about how things should be in the new island Utopia") is a work of fiction and socio-political satire by Thomas More (1478-1535), written in Latin and published in 1516. The book is a frame narrative primarily depicting a fictional island society and its religious, social, and political customs. Many aspects of More's description of Utopia are reminiscent of life in monasteries.

Fear of Crime in the United States - Jodi Lane 2014

Fear of Crime in the United States: Causes, Consequences, and Contradictions examines the nature and extent of crime-related fear. The authors describe and evaluate key research findings in the specific areas of methodology; gender, age, race and ethnicity, and socioeconomic status; contextual predictors; and the consequences of fear of crime.

They discuss the improvement of fear of crime measures over time; the consistent finding that women are more afraid of crime; the impact of age, race and ethnicity, and socioeconomic status on fear; and the importance of environmental factors (such as witnessing crime and perceptions of diversity, disorder, and decline) and indirect victimization (through acquaintances and the media) on fear. The book also describes the physical, psychological, behavioral, and social effects of fear of crime. In the end, the authors tie the findings together to suggest important policy and research implications from the wealth of available research. There is no other book of which I am aware that so masterfully reviews empirical studies on fear of crime during the past half century to show how the research has changed and will continue to evolve. As long as there is crime, there will be perceptions of risk and fear of victimization; and Lane et al. help one to sift through the research with conceptual precision to formulate the most scientifically valid conclusions about the phenomena. The book is a hedgehog view of the research but points the way to needed research on topics such as fear of terrorism and how social context shapes perceptions of crime. The book is must-reading for those involved in research on victimization or fear of crime. - Kenneth F. Ferraro, Distinguished Professor of Sociology and Director of the Center on Aging and the Life Course, Purdue University This book consolidates the literature on fear of crime in a way that is unprecedented and that lends much-needed coherence to the area. It is *Bodies that Matter* - Judith Butler 1993

The author of "Gender Trouble" further develops her distinctive theory of gender by examining the workings of power at the most material dimensions of sex and sexuality. Butler examines how the power of heterosexual hegemony forms the matter of bodies, sex, and gender.

Forthcoming Books - Rose Army 1999

In the Shadow of the Tower - Marjorie Hacker 2012-01-04

This fictional novel is based on a true story. This story of abuse of power centers on a faculty wife and her family who became the object of that abuse. After the coupe d'etat also known as the Kennedy assassination, robbed Tom McDowell of the Presidency of the United States, he took refuge as President of Renier University. He would wait for another chance while keeping his name out front. Renier was in the process of recruiting, training, and resume enhancement of homosexual faculty and administrators to be later exported to other American universities. What followed were embellishment, blackmail, child abuse, and sexual and financial misconduct. Liz the faculty wife, became heavily involved when the manager of the newly formed faculty recreational park mistreated the children. For this she paid a heavy price. She was betrayed by her husband, rejected by the community who labeled her as "crazy" and forced into isolation. The power of the University community became evident when she had exhausted all of her legal and psychological options to no avail. She then turned to writing to clear her mind and to determine what was real and what was imaginary.

Contemporary Issues in Victimology - Carly M. Hilinski-Rosick 2018-01-25

Contemporary Issues in Victimology: Identifying Patterns and Trends examines current topics in victimology and explores the main issues surrounding them. Key topics include: intimate partner violence and dating violence, rape and sexual assault on the college campus, Internet victimization, elder abuse, victimization of inmates, repeat and poly-victimization, fear of crime and perceived risk of crime, human trafficking, mass shootings, and child-to-parent violence. Each chapter includes information about the specific topic, including the nature of the issues, trends, current research, policy, current issues, and future challenges.

Fear of Crime - Kenneth F. Ferraro 1995-01-01

This is an examination of the factors that contribute to the risk of being victimized, such as crime rates and environmental and personal variables.

Reimagining our futures together - International Commission on the Futures of Education 2021-11-06

The interwoven futures of humanity and our planet are under threat.

Urgent action, taken together, is needed to change course and reimagine our futures.

How Democracies Die - Steven Levitsky 2019-01-08

NEW YORK TIMES BESTSELLER • “Comprehensive, enlightening, and terrifyingly timely.”—The New York Times Book Review (Editors' Choice) WINNER OF THE GOLDSMITH BOOK PRIZE • SHORTLISTED FOR THE LIONEL GELBER PRIZE • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The Washington Post • Time • Foreign Affairs • WBUR • Paste Donald Trump’s presidency has raised a question that many of us never thought we’d be asking: Is our democracy in danger? Harvard professors Steven Levitsky and Daniel Ziblatt have spent more than twenty years studying the breakdown of democracies in Europe and Latin America, and they believe the answer is yes. Democracy no longer ends with a bang—in a revolution or military coup—but with a whimper: the slow, steady weakening of critical institutions, such as the judiciary and the press, and the gradual erosion of long-standing political norms. The good news is that there are several exit ramps on the road to authoritarianism. The bad news is that, by electing Trump, we have already passed the first one. Drawing on decades of research and a wide range of historical and global examples, from 1930s Europe to contemporary Hungary, Turkey, and Venezuela, to the American South during Jim Crow, Levitsky and Ziblatt show how democracies die—and how ours can be saved. Praise for *How Democracies Die* “What we desperately need is a sober, dispassionate look at the current state of affairs. Steven Levitsky and Daniel Ziblatt, two of the most respected scholars in the field of democracy studies, offer just that.”—The Washington Post “Where Levitsky and Ziblatt make their mark is in weaving together political science and historical analysis of both domestic and international democratic crises; in doing so, they expand the conversation beyond Trump and before him, to other countries and to the deep structure of American democracy and politics.”—Ezra Klein, Vox “If you only read one book for the rest of the year, read *How Democracies Die*. . . . This is not a book for just Democrats or Republicans. It is a book for all Americans. It is nonpartisan. It is fact based. It is deeply rooted in history. . . . The best commentary on our politics, no contest.”—Michael Morrell, former Acting Director of the Central Intelligence Agency (via Twitter) “A smart and deeply informed book about the ways in which democracy is being undermined in dozens of countries around the world, and in ways that are perfectly legal.”—Fareed Zakaria, CNN

The Fear of Crime - Wesley G. Skogan 1977

A history and categories of cybercrime -- Basic cybercrime terms -- Birth of the White Hats -- The origin of the Black Hat label in the United States and Britain -- Y2K : fears emerge about cyberterrorism -- Post-Y2K incidents exacerbating cyberterrorist fears -- Countering cyberterrorists : the U.S. Homeland Security Act of 2002 -- Incidents exacerbating cyberterrorism anxieties -- The importance of social engineering to cybercriminals -- Categories of cybercrime : harm to property and/or to persons -- Criminal liability and the coincidence of four elements -- The increasing complexity of property cybercrime -- Cybercrimes against persons -- The nonoffenses of cybervigilantism and hacktivism -- Issues, controversies, and solutions -- Overview of the number of reported incidents of computer system intrusions, government agencies, and institutions -- Methods used to commit cybercrime, cases, and countermeasures -- Controversies surrounding intellectual property rights, copyright, and the Digital Millennium Copyright Act -- Controversial "non-cases" of cracking -- Overview of system vulnerabilities and related controversies -- How chief operating officers worldwide are feeling about their systems? vulnerabilities and why -- A case study : outlining the "real" threat of a possible coordinated terror attack -- Using honeypots to better know "the enemy", and controversies

surrounding them -- More question of interest : operating systems software--are some more vulnerable to cracking exploits than others? -- Global legislative countermeasures and controversies : the Council of Europe Convention on Cybercrime -- Chronology -- Biographical sketches -- Cybercrime legal cases -- A summary of recent U.S. anti-terror and anti-cybercrime legislation -- General observations about recent trends in cybercrime -- Timeline and description of recent computer crimes prosecuted under the U.S. Computer Crime Statute U.S.C. section 1030. *The Sexual Victimization of College Women* - Bonnie Fisher 2000

Stalking in America - Patricia Godeke Tjaden 1998

American Book Publishing Record - 1968

Campus Sexual Violence - Sarah Prior 2022-09-27

Campus Sexual Violence: A State of Institutionalized Sexual Terrorism conceptualizes sexual violence on college campuses as a form of sexual terrorism, arguing that institutional compliance and inaction within the neoliberal university perpetuate a system of sexual terrorism. Using a sexual terrorism framework, the authors examine a myriad of examples of campus sexual violence with an intersectional lens and explore the role of the institution and the influence of neoliberalism in undermining sexual violence prevention efforts. The book utilizes Carole Sheffield’s five components of sexual terrorism (ideology, propaganda, amorality, perceptions of the perpetrator, and voluntary compliance) to describe how the "ivory tower stereotype" and adoption of neoliberal values into education contribute to an environment where victimization is painfully common. Cases such as those from Michigan State University and Baylor University are used as examples to highlight institutional culpability and neoliberal value systems within higher education, as well as illustrating the pervasiveness of rape culture that contributes to a system of sexual terrorism. Crucially, the book focuses on systems of inequality and oppression, and uses an intersectional perspective that recognizes victimization experienced by multiple marginalized groups including women, LGBTQ+, and racially minoritized people. Building on campus violence research and institutional harm research, the authors define campus sexual violence as a serious social problem based in structural inequality and advocate for civic responsibility at the institutional level and the development of institutional advocates. Weaving together theoretical and practical perspectives, the book will be of great interest to students and scholars of sociology, criminal justice, women’s and gender studies, social/political policy, victimology, and education. It will also be of use to those working in higher education administration and other student life and student health professions.

The Far Right Today - Cas Mudde 2019-10-25

The far right is back with a vengeance. After several decades at the political margins, far-right politics has again taken center stage. Three of the world’s largest democracies – Brazil, India, and the United States – now have a radical right leader, while far-right parties continue to increase their profile and support within Europe. In this timely book, leading global expert on political extremism Cas Mudde provides a concise overview of the fourth wave of postwar far-right politics, exploring its history, ideology, organization, causes, and consequences, as well as the responses available to civil society, party, and state actors to challenge its ideas and influence. What defines this current far-right renaissance, Mudde argues, is its mainstreaming and normalization within the contemporary political landscape. Challenging orthodox thinking on the relationship between conventional and far-right politics, Mudde offers a complex and insightful picture of one of the key political challenges of our time.
