The Battle for Spain - Antony Beevor

2012-08-23

'Fascination lies in the human drama, superbly captured by Beevor ... A vivid chronicle of a dreadful time and place' Max Hastings, Sunday

Times 'A moving masterpiece' TLS The civil war that tore Spain apart between 1936 and 1939 and attracted liberals and socialists from across the world to support the cause against Franco was one of the most hard-fought and bitterest conflicts of the 20th century: a war of atrocities and political genocide and a military testing ground before WWII for the Russians, Italians and Germans, whose Condor Legion so

notoriously destroyed Guernica. Antony Beevor's account narrates the origins of the Civil War and its violent and dramatic course from the coup d'etat in July 1936 through the savage fighting of the next three years which ended in catastrophic defeat for the Republicans in 1939. And he succeeds especially well in unravelling the complex political and regional forces that played such an important part in the origins and history of the war.

[The Brief Wondrous Life of Oscar Wao](#) - Junot Diaz 2008-09-04

Things have never been easy for Oscar. A ghetto nerd living with his Dominican family in New Jersey, he's sweet but disastrously overweight. He dreams of becoming the next J.R.R. Tolkien and he keeps falling hopelessly in love. Poor Oscar may never get what he wants, thanks to the Fukú - the curse that has haunted his family for generations. With dazzling energy and

insight Díaz immerses us in the tumultuous lives of Oscar; his runaway sister Lola; their beautiful mother Belicia; and in the family's uproarious journey from the Dominican Republic to the US and back. Rendered with uncommon warmth and humour, *The Brief Wondrous Life of Oscar Wao* is a literary triumph, that confirms Junot Díaz as one of the most exciting writers of our time.

Sentencing Law and Policy - Nora V. Demleitner 2004

Four leading sentencing scholars have produced the first and only text with enough up-to-date material to support a full course or seminar on sentencing. Other texts offer only partial coverage or out-of-date examples. The chapters in *Sentencing Law and Policy: Cases, Statutes, and Guidelines* present examples from three distinct types of sentencing guideline-determinate, and capital. The materials draw on the full spectrum of legal institutions, from the U.S. Supreme Court To The state court level, with close consideration of the role of legislatures and sentencing commissions. The

only current, full-course text on sentencing, this new title offers: an 'intuitive', conceptually-based organization that looks at the essential substantive components and procedural steps following the sequence of decisions that typically occurs in every criminal sentencing examples covering three distinct areas of sentencing, with chapter materials based on guideline-determinate, indeterminate, and capital sentencing materials from a range of institutions, including decision from the U.S. Supreme Court, state high courts, federal appellate courts, and some foreign jurisdictions - along with statutes and guideline provisions, and reports from various sentencing commissions and agencies in-text notes on sentencing policies that explain common practices in U.S. jurisdictions, then ask students to compare different institutional practices and consider the relationship between sentencing rules, politics, And The broader aims of criminal justice

The Bizarre Careers of John R. Brinkley - R. Alton Lee 2014-10-17

By 1926, it seemed that John R. Brinkley's experimental rejuvenation cure—transplanting goat glands into aging men—had taken the nation by storm. Never mind that "Doc" Brinkley's medical credentials were shaky at best and that he prescribed medication over the airwaves via his high-power radio stations. To most in the medical field, he was a quack. But to his many patients and listeners, he was a brilliant surgeon, a savior of their lost manhood and youth. His rogue radio stations, XER and its successor XERA, eventually broadcast at an antenna-shattering 1,000,000 watts and not only were a megaphone for Brinkley's lucrative quackery but also hosted an unprecedented number of then-unknown country musicians and other guests. The Bizarre Careers of John R.

Brinkley tells the story of the infamous "Goat Gland Doctor"—a controversial medical charlatan, groundbreaking radio impresario, and prescient political campaigner—and recounts his amazing rags-to-riches-to-rags career. A master manipulator and skilled con artist, Brinkley left behind a patchwork of myths and unreliable personal accounts that many writers have merely perpetuated—until now. Alton Lee brings Brinkley's infamous legacy to the forefront, exploring how he ruthlessly exploited the sexual frustrations of aging men and the general public's antipathy toward medical doctors. Lee leaves no stone unturned in this account of a man who changed the course of American institutions forever.

Lefstein 2011

For the criminal justice system to work, adequate resources must be available for police, prosecutors and public defense. This timely, incisive and important book by Professor Norman Lefstein looks carefully at one leg of the justice system's "three-legged stool" public defense and the chronic overload of cases faced by public defenders and other lawyers who represent the indigent. Fortunately, the publication does far more than bemoan the current lack of adequate funding, staffing and other difficulties faced by public defense systems in the U.S. and offers concrete suggestions for dealing with these serious issues.

Sing, Whisper, Shout, Pray! - M. Jacqui Alexander 2003

Sing, Whisper, Shout, Pray! is an indispensable guide to the progressive politics of race, class, and gender in the new millennium from leading feminist writers of our time. Collecting essential

writings of the last two decades right through the events of September 2001, the anthology provides a definitive reference work for academics and activists committed to deep and unflinching inquiry into the mechanisms of global justice in the post-Cold War world. This timely volume offers uncompromising examinations of the exploitation of Third World women under NAFTA; the real costs of the Colombian drug war; the inner dynamics of white supremacy; Zionism and anti-Semitism; ecological racism; indigenous sovereignty struggles in the U.S., Canada, and Puerto Rico; and much more. Contributors include Toni Morrison, Audre Lorde, Edwidge Danticat, Cherrie Moraga, Gloria Anzaldúa, Angela Y. Davis, Winona LaDuke, and vital, new voices from an emerging activist culture. A Breed Apart - Eddie Michel 2012-09

The Texas Rangers are an iconic symbol of both Texas and the American West. As citizen soldiers and lawmen the Rangers have left an indelible mark in the annals of history and American culture. This book offers a balanced and informative history of the Ranger corps. The author integrates both the traditionalist view of the Rangers as heroic defenders of Texan liberty and justice with the revisionist scholarship of more recent historians which has exposed a darker side to the corps including instances of

brutality, corruption, racism and on occasion exceptionally high levels of violence. *A Breed Apart: The History of the Texas Rangers* explores the history, character and development of the Texas Rangers from their creation as an irregular frontier force to their current status as highly trained and well respected agents of law enforcement. The book provides an excellent resource for any reader wishing to understand why the Texas Rangers remain such powerful historical symbols and continue to exert such fascination in the public imagination.
