**From Sex Appeal to Self Appeal** - Susan Bremer O'Neill 2014-02-22

What happens when a middle-aged scientist gets sober, then embarks on a second career-as a stripper? This is the story of one woman's sexual odyssey as she turns the microscope on herself and looks inward to determine what is real and what is not, what is merely dogma and childhood and cultural indoctrination. Uprooted and shuffled around in a military family, Susan turned to drugs and boys. Although she was intelligent and beautiful outwardly, internally she was chaotic, confused, hollow, and disconnected. At 34 she sobered up. Then, desperate to escape her drab twelve-year career in science and having bought into the culture's fixation on appearance, sex, and money as a way to happiness, she became an exotic dancer. This is when "Vixen" was born and Susan's real scientific journey began. From Sex Appeal to Self Appeal chronicles Susan's life as her sexually-empowered, carefree night persona is pitted against her good-girl, people-pleasing, repressed daytime self, and she confronts feelings and actions she always considered unacceptable. Ultimately, her exploration grounds her in a morality and value system of her own choosing and her two selves merge. She learns how to stay grounded in and with herself and how to resurrect a relationship with her body, mind, and sexuality that will serve her well for the rest of her life. Susan's story is a powerful and compelling memoir about sexuality, self-respect, and Self Appeal.

**Erotic Capital** - Catherine Hakim 2011-09-06

Catherine Hakim's theory of "erotic capital" is controversial, not least because women tend to believe that relying on looks and charm to catch a man or get a promotion are subterfuges best left behind in the 1950s. With little apparent fear of running deeply against popular thought, Hakim, a social scientist, proposes that all women should become as attractive as possible and then exploit their sexual power. She explains that the "male sex deficit," the idea that men always want more sex than they get, raises the value of women's erotic capital. Hakim claims that radical feminists, religion and patriarchal society currently foil this feminine advantage. Although the beauty bias is not a new concept, Hakim's reinterpretation raises the stakes. Alas, though she supports women in general, Hakim proves consistently unkind to males, Americans, lesbians, feminists, the overweight and the religious. Nonetheless, for a new perspective on the advantages of attractiveness and on the gender conversation, get *Abstract* suggests Hakim's thought-provoking thesis.
