

Sexuality And German Fascism 2004 12 01

Brutality and Desire - D. Herzog 2008-12-11

Tracing sexual violence in Europe's twentieth century from the Armenian genocide to Auschwitz and Algeria to Bosnia, this pathbreaking volume expands military history to include the realm of sexuality. Examining both stories of consensual romance and of intimate brutality, it also contributes significant new insights to the history of sexuality.

The Cambridge World History of Genocide: Volume 1, Genocide in the Ancient, Medieval and Premodern Worlds - Ben Kiernan 2023-01-31

Volume I offers an introductory survey of the phenomenon of genocide. The first five chapters examine its major recurring themes, while the further nineteen are specific case studies. The combination of thematic and empirical approaches illuminates the origins and long history of genocide, its causes, consistent characteristics, and the connections linking various cases from earliest times to the early modern era. The themes examined include the roles of racism, the state, religion, gender prejudice, famine, and climate crises, as well as the role of human decision-making in the causation of genocide. The case studies cover events on four continents, ranging from prehistoric Europe and the Andes to ancient Israel, Mesopotamia, the early Greek world, Rome, Carthage, and the Mediterranean. It continues with the Norman Conquest of England's North, the Crusades, the Mongol Conquests, medieval India and Viet Nam, and a panoramic study of pre-modern China, as well as the Spanish conquests of the Canary Islands, the Caribbean, and Mexico.

Sexuality and German Fascism - Dagmar Herzog 2005

"The interrelationship of fascism and sexuality has attracted a great deal of interest for some time now. This collection offers fresh perspectives by leading scholars on the history of sexuality under national socialism on such topics as the persecution of Jewish-gentile sex in the "race defilement" trials, homophobic propaganda and the prosecution of same-sex activity within the Wehrmacht and SS, representations of female sexuality in film, prostitution on home and battle fronts, sexual relations between Germans and foreign forced laborers, and reproductive practices among Jewish survivors. Moreover, the authors provide new insights into the relationships between Nazi sexual politics and antisemitism and challenge assumptions of Nazism as sexually repressive ; instead they emphasize the interrelationships between incitement to sexual activity and persecution and mass murder." --book jacket.

How Sex Got Screwed Up: The Ghosts that Haunt Our Sexual Pleasure - Book Two - Jon Knowles 2019-06-28

The ghosts that haunt our sexual pleasure were born in the Stone Age. Sex and gender taboos were used by tribes to differentiate themselves from one another. These taboos filtered into the lives of Bronze and Iron Age men and women who lived in city-states and empires. For the early Christians, all sex play was turned into sin, instilled with guilt, and punished severely. With the invention of sin came the construction of women as subordinate beings to men. Despite the birth of romance in the late middle ages, Renaissance churches held inquisitions to seek out and destroy sex sinners, all of whom it saw as heretics. The Age of Reason saw the demise of these inquisitions. But, it was doctors who would take over the roles of priests and ministers as sex became defined by discourses of crime, degeneracy, and sickness. The middle of the 20th century saw these medical and religious teachings challenged for the first time as activists, such as Alfred Kinsey and Margaret Sanger, sought to carve out a place for sexual freedom in society. However, strong opposition to their beliefs and the growing exploitation of sex by the media at the close of the century would ultimately shape 21st century sexual ambivalence. Book Two of this two-part publication traces the history of sex from the Victorian Era to present day. Interspersed with 'personal hauntings' from his own life and the lives of friends and relatives, Knowles reveals how historical discourses of sex continue to haunt us today. This book is a page-turner in simple and plain language about 'how sex got screwed up'

for millennia. For Knowles, if we know the history of sex, we can get over it.

[The Anatomy of Fascism](#) - Robert O. Paxton 2011-12-01

Fascism was the major political invention of the twentieth century and the source of much of its pain. How can we try to comprehend its allure and its horror? Is it a philosophy, a movement, an aesthetic experience? What makes states and nations become fascist? Acclaimed historian Robert O. Paxton shows that in order to understand fascism we must look at it in action - at what it did, as much as what it said it was about. He explores its falsehoods and common threads; the social and political base that allowed it to prosper; its leaders and internal struggles; how it manifested itself differently in each country - France, Britain, the low countries, Eastern Europe, even Latin America as well as Italy and Germany; how fascists viewed the Holocaust; and, finally, whether fascism is still possible in today's world. Offering a bold new interpretation of the fascist phenomenon, this groundbreaking book will overturn our understanding of twentieth-century history.

The Routledge Companion to Nazi Germany - Roderick Stackelberg 2007-12-12

The Routledge Companion to Nazi Germany combines a concise narrative overview with chronological, bibliographical and tabular information to cover all major aspects of Nazi Germany. This user-friendly guide provides a comprehensive survey of key topics such as the origins and consolidation of the Nazi regime, the Nazi dictatorship in action, Nazi foreign policy, the Second World War, the Holocaust, the opposition to the regime and the legacy of Nazism. Features include: detailed chronologies a discussion of Nazi ideology succinct historiographical overview with more detailed information on more than sixty major historians of Nazism biographies of 150 leading figures of Nazi Germany a glossary of terms, concepts and acronyms maps and tables a concise thematic bibliography of works on the Third Reich. This indispensable reference guide to the history and historiography of Nazi Germany will appeal to students, teachers and general readers alike.

Fascism: A Very Short Introduction - Kevin Passmore 2014-05-29

What is fascism? Is it revolutionary? Or is it reactionary? Can it be both? Fascism is notoriously hard to define. How do we make sense of an ideology that appeals to streetfighters and intellectuals alike? That is overtly macho in style, yet attracts many women? That calls for a return to tradition while maintaining a fascination with technology? And that preaches violence in the name of an ordered society? In the new edition of this Very Short Introduction, Kevin Passmore brilliantly unravels the paradoxes of one of the most important phenomena in the modern world—tracing its origins in the intellectual, political, and social crises of the late nineteenth century, the rise of fascism following World War I, including fascist regimes in Italy and Germany, and the fortunes of 'failed' fascist movements in Eastern Europe, Spain, and the Americas. He also considers fascism in culture, the new interest in transnational research, and the progress of the far right since 2002. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Gendering Modern German History - Karen Hagemann 2008-08

To provide a critical overview in a comparative German-American perspective is the main aim of this volume, which brings together experts from both sides of the Atlantic. Through case studies, it demonstrates the extraordinary power of the gender perspective to challenge existing interpretations and rewrite mainstream arguments.

Queer 1950s - H. Bauer 2012-10-15

Leading sexuality scholars explore queer lives and cultures in the first full post-war decade through an array of sources and a range of perspectives. Drawing out the particularities of queer cultures from the

Finland and New Zealand to the UK and the USA, this collection rethinks preconceptions of the 1950s and pinpoints some of its legacies.

Love in the Time of Communism - Josie McLellan 2011-09

This pioneering study explores the surprising extent and limits of the GDR's forgotten sexual revolution.

After The History of Sexuality - Scott Spector 2012-07-18

Michel Foucault's seminal *The History of Sexuality* (1976–1984) has since its publication provided a context for the emergence of critical historical studies of sexuality. This collection reassesses the state of the historiography on sexuality—a field in which the German case has been traditionally central. In many diverse ways, the Foucauldian intervention has governed the formation of questions in the field as well as the assumptions about how some of these questions should be answered. It can be argued, however, that some of these revolutionary insights have ossified into dogmas or truisms within the field. Yet, as these contributions meticulously reveal, those very truisms, when revisited with a fresh eye, can lead to new, unexpected insights into the history of sexuality, necessitating a return to and reinterpretation of Foucault's richly complex work. This volume will be necessary reading for students of historical sexuality as well as for those readers in German history and German studies generally who have an interest in the history of sexuality.

Postwall German Cinema - Mattias Frey 2013-05-30

Since the fall of the Berlin Wall, there has been a proliferation of German historical films. These productions have earned prestigious awards and succeeded at box offices both at home and abroad, where they count among the most popular German films of all time. Recently, however, the country's cinematic take on history has seen a significant new development: the radical style, content, and politics of the New German Cinema. With in-depth analyses of the major trends and films, this book represents a comprehensive assessment of the historical film in today's Germany. Challenging previous paradigms, it takes account of a postwall cinema that complexly engages with various historiographical forms and, above all, with film history itself.

Hitler's Dancers - Lilian Karina 2004

The Nazis burned books and banned much modern art. However, few people know the fascinating story of German modern dance, which was the great exception. Modern expressive dance found favor with the regime and especially with the infamous Dr. Joseph Goebbels, the Minister of Propaganda. How modern artists collaborated with Nazism reveals an important aspect of modernism, uncovers the bizarre bureaucracy which controlled culture and tells the histories of great figures who became enthusiastic Nazis and lied about it later. The book offers three perspectives: the dancer Lilian Karina writes her very vivid personal story of dancing in interwar Germany; the dance historian Marion Kant gives a systematic account of the interaction of modern dance and the totalitarian state, and a documentary appendix provides a glimpse into the twisted reality created by Nazi racism, pedantic bureaucrats and artistic ambition.

Modern German Midwifery, 1885-1960 - Lynne Fallwell 2015-10-06

Between the late 18th and the early 20th century, the industrialized world experienced a transition in birth practices. While in many countries this led to a separation of midwifery from modern medicine, in Germany new standards of health care were embraced. Fallwell's study explores this transition and sets it in its wider historical context.

Sexuality in Austria - Anton Pelinka 2017-07-05

Scholars have increasingly been investigating human sexuality as an important field of social history in particular national cultures. This volume examines both continuities and changing patterns of sexual behavior in Austria.

The Routledge History of Sex and the Body - Sarah Toulalan 2013-03-20

The Routledge History of Sex and the Body provides an overview of the main themes surrounding the history of sexuality from 1500 to the present day. The history of sex and the body is an expanding field in which vibrant debate on, for instance, the history of homosexuality, is developing. This book examines the current scholarship and looks towards future directions across the field. The volume is divided into fourteen thematic chapters, which are split into two chronological sections 1500 – 1750 and 1750 to present day. Focusing on the history of sexuality and the body in the West but also interactions with a broader globe,

these thematic chapters survey the major areas of debate and discussion. Covering themes such as science, identity, the gaze, courtship, reproduction, sexual violence and the importance of race, the volume offers a comprehensive view of the history of sex and the body. The book concludes with an afterword in which the reader is invited to consider some of the 'tensions, problems and areas deserving further scrutiny'.

Including contributors renowned in their field of expertise, this ground-breaking collection is essential reading for all those interested in the history of sexuality and the body.

Nazisploitation! - Daniel H. Magilow 2012-01-01

A brilliant line-up of international contributors examine the implications of the portrayals of Nazis in low-brow culture and that culture's re-emergence today

Sex after Fascism - Dagmar Herzog 2007-01-22

What is the relationship between sexual and other kinds of politics? Few societies have posed this puzzle as urgently, or as disturbingly, as Nazi Germany. What exactly were Nazism's sexual politics? Were they repressive for everyone, or were some individuals and groups given sexual license while others were persecuted, tormented, and killed? How do we make sense of the evolution of postwar interpretations of Nazism's sexual politics? What do we make of the fact that scholars from the 1960s to the present have routinely asserted that the Third Reich was "sex-hostile"? In response to these and other questions, *Sex after Fascism* fundamentally reconceives central topics in twentieth-century German history. Among other things, it changes the way we understand the immense popular appeal of the Nazi regime and the nature of antisemitism, the role of Christianity in the consolidation of postfascist conservatism in the West, the countercultural rebellions of the 1960s-1970s, as well as the negotiations between government and citizenry under East German communism. Beginning with a new interpretation of the Third Reich's sexual politics and ending with the revisions of Germany's past facilitated by communism's collapse, *Sex after Fascism* examines the intimately intertwined histories of capitalism and communism, pleasure and state policies, religious renewal and secularizing trends. A history of sexual attitudes and practices in twentieth-century Germany, investigating such issues as contraception, pornography, and theories of sexual orientation, *Sex after Fascism* also demonstrates how Germans made sexuality a key site for managing the memory and legacies of Nazism and the Holocaust.

Anti-discriminatory Practice in Mental Health Care for Older People - Pauline Lane 2017-02-21

Exploring the key issues around anti-discriminatory practice for professionals working in mental health services, this book looks at ways to improve the health and social care of older people from minority and excluded communities. The chapters explore the issues involved in working with individuals from a range of minority groups, such as LGBT people, people with learning disabilities, people from black and minority ethnic communities, homeless people and people with dementia. The chapters cover important theory and research into discrimination, ageing and identity. Contributions from experts in the fields of mental health and working with minority groups provide practical insights into developing anti-discriminatory practice. There is also practical advice on culturally appropriate support for carers, cultural competency in end of life care, working with interpreters, and celebrating diversity, accompanied by supporting practical resources. This comprehensive book will provide mental health practitioners and students with an essential understanding of anti-discriminatory practice.

Lessons and Legacies VII - Dagmar Herzog 1991

"In the courtroom and the classroom, in popular media, public policy, and scholarly pursuits, the Holocaust—its origins, its nature, and its implications—remains very much a matter of interest, debate, and controversy. Arriving at a time when a new generation must come to terms with the legacy of the Holocaust or forever lose the benefit of its historical, social, and moral lessons, this volume offers a richly varied, deeply informed perspective on the practice, interpretation, and direction of Holocaust research now and in the future. In their essays the authors—an international group including eminent senior scholars as well as those who represent the future of the field—set the agenda for Holocaust studies in the coming years, even as they give readers the means for understanding today's news and views of the Holocaust, whether in court cases involving victims and perpetrators; international, national, and corporate developments; or fictional, documentary, and historical accounts. Several of the essays—such as one on nonarmed "amidah" or resistance and others on the role of gender in the behavior of perpetrators and victims—provide innovative

and potentially significant interpretive frameworks for the field of Holocaust studies. Others; for instance, the rounding up of Jews in Italy, Nazi food policy in Eastern Europe, and Nazi anti-Jewish scholarship, emphasize the importance of new sources for reconstructing the historical record. Still others, including

essays on the 1964 Frankfurt trial of Auschwitz guards and on the response of the Catholic Church to the question of German guilt, bring a new depth and sophistication to highly charged, sharply politicized topics. Together these essays will inform the future of the Holocaust in scholarly research and in popular understanding."--De l'éditeur.
