New Directions in Islamic Thought - Kari Vogt 2011-02-25

This is an important and prestigious volume showcasing leading progressive Islamic thinkers. It includes new essays by controversial public intellectual and Muslim scholar Tariq Ramadan. It offers strong appeal to policymakers and as well as students and scholars of religion and the Middle East. How are Muslims to reconcile their beliefs with the pressures and imperatives of the modern world? How should they handle the tension between their roles as private citizens and their religious affiliations and identities? This groundbreaking volume shows in what ways prominent Muslim intellectuals have themselves attempted to bridge the gap by recasting traditional Islamic notions in the light of contemporary understandings of equality, justice and pluralism. The contributors to the book examine the tradition that they seek to reform in relation to the human rights ethic of the modern world. The new wave of Islamic thinking which they represent emerges as multi-stranded rather than defined by a single trend or doctrine. Themes covered include a deconstruction of patriarchal interpretations of the Qur'an; the distinctions between universal and context-specific parts of Islamic texts; a re-contextualisation of Shari'a law; and a critique of religious jurisprudence, particularly where this impacts on matters of sex and gender. Old texts are re-interpreted through the lived situations of real people today. The result is an indispensable portrayal of progressive Islamic thought in the twenty-first century, which will be an invaluable resource for students and scholars of religion, ethics and Middle East studies.

Spaces of Care - Loraine Gelsthorpe 2020-04-16

The collection examines the ways in which the emerging interdisciplinary study of care provokes a reassessment of the connections and disjuncture between care and governance, ethics, and public, personal and professional identities. Evolving from a project coordinated by the Cambridge Socio-Legal Group, Spaces of Care brings together leading international scholars to articulate what we may consider to be a useful analytic of care. Lawyers, anthropologists, sociologists and criminologists reflect on specific aspects of conceptualising caring relations in 'spaces'. These spaces include: communities of care and abandonment; self-care and kinship care; spaces as 'gaps' in care; the meanings of marketised care; and the ways in which care is constructed and constrained in different ways in venues such as homes, prisons, workplaces and virtual spaces. Common themes include temporality (historical specificity) and the dynamics of care across time and place; subjectivity (including different experiences of care); the economies of care (including the commodification of care; public and private manifestations of care; privatised 'care'); disruptions of care (which generate vulnerabilities with regard to continuities of care); eligibility (those deemed to be deserving and undeserving of care); relationalities of care (collective and individual agency in caring relations, kinship

care), and technologies and imaginaries of care (as in new notions of care forged by those in online virtual worlds such as Second Life).

Legal Perspectives on State Power - Chris Ashford 2016-12-14

The issue of consent and criminal law commonly focuses on consent in sports, sexual activity, and medical treatment. The notion of consent and the influence of state control in this context, however, are pervasive throughout the criminal justice process from the pre-trial stage to rehabilitation. This edited collection charts an important and original pathway to understanding these important issues, pre-, during, and post-trial, from a range of perspectives, including doctrinal, socio-legal, intersectional, medico-legal, feminist, critical legal, and queer theoretical viewpoints. The collection addresses the complex inter-relationship between consent and state control in relation to private authorisation and public censure; sexual behaviour; the age of consent; queering consent; Pro-LGBTI Refugee cases; rape by fraud; male rape; undercover policing; prisons and consent; compulsory treatment for sex offenders; sex offenders with high functioning autism and the suitability of sex offender treatment programmes; and, the criminalisation of HIV transmission. This multi-disciplinary approach draws together a variety of experts from legal and medical academia and practice in order to confront the issues raised by these subjects, which are likely to remain controversial and in need of reform for years to come.

Criminality at Work - Alan Bogg 2020-02-27

From the Master and Servant legislation to the Factories Acts of the 19th century, the criminal law has always had a vital yet normatively complex role in the regulation of work relations. Even in its earliest forms, it operated both as a tool to repress collective organizations and enforce labour discipline, while policing the worst excesses of industrial capitalism. Recently, governments have begun to rediscover criminal law as a regulatory tool in a diverse set of areas related to labour law: 'modern slavery', penalizing irregular migrants, licensing regimes for labour market intermediaries, wage theft, supporting the enforcement of general labour standards, new forms of hybrid preventive orders, harassment at work, and industrial protest. This volume explores the political and regulatory dimensions of the new 'criminality at work' from a wide range of disciplinary perspectives, including labour law, immigration law, and health and safety regulations. The volume provides an overview of the regulatory terrain of 'criminality at work', exploring whether these different regulatory interventions represent politically legitimate uses of the criminal law. The book also examines whether these recent interventions constitute a new pattern of criminalization that operates in preventive mode and is based upon character and risk-based forms of culpability. The volume concludes by reflecting upon the general themes of 'criminality at work' comparatively, from Australian, Canadian, and US perspectives. *Criminality at Work* is a timely, rich and ambitious piece of scholarship that examines the many intersections between criminal law and work relations from a historical and contemporary vantage-point.

Sex, Politics and Society - 2014-05-22

A pioneering study which has become an established classic in its field, *Sex, Politics and Society* provides a lucid and comprehensive analysis of the transformations of British sexual life from 1800 to the present. These changes are firmly located in the wider context of social change, from industrialization and the experience of Empire through the establishment of the welfare state to the rise of new social movements, such as feminism and gay liberation, and new forms of social conservatism. Now fully revised and updated, and with a new chapter bringing the story right up to date, this new edition considers: the transformation of the sexual world through globalization and the internet; the changing impact of the AIDS pandemic over the last thirty years; the influence of new currents in social and cultural theory on the study of sexuality; the gradual depoliticization and mainstreaming of sexuality within historical study. Combining rich empirical detail with innovative theoretical insights, *Sex, Politics and Society* remains at the cutting edge of the subject and this third edition will inspire and provoke a whole new generation of readers in history, sociology, social policy, and the study of sexuality.

Blairism and the War of Persuasion - Deborah Lynn Steinberg 2004

Tony Blair's use of the state to impose and manage the United Kingdom's global and individual identities, which not only defines New Labour but is doctrine in its own right, is analyzed in this look at the Contemporary Labour Party. Compared to Margaret Thatcher's market-led policies driven by social authoritarianism, Blairism is a political construct that persuades with hopes of social progressivism while maintaining the necessary disciplines of global capital. Showing how Blairism invites trust and advocates dialogue but hollows out party democracy to pursue pre-set objectives, this critique clarifies Blair's agenda in order to contest its forms of passive revolution with active construction of alternatives.

Global Perspectives on Prostitution and Sex Trafficking - Rochelle L. Dalla 2011-04-08

This book is part of a two-volume set that examines prostitution and sex trafficking on a global scale, with each chapter devoted to a particular country in one of seven "geo-cultural" areas of the world. Each of the 18 chapters in this volume provides a distinct perspective from which to contemplate the global commercial sex industry as well as a spectrum of implications for continued scholarship and research, legislative maneuvers and policy change, and suggestions for collaboration across NGOs, clinicians, and service providers.

Sex Before the Sexual Revolution - Simon Szreter 2010-10-14

What did sex mean for ordinary people before the sexual revolution of the 1960s and 1970s, who were often pitied by later generations as repressed, unfulfilled and full of moral anxiety? This book provides the first rounded, first-hand account of sexuality in marriage in the early and mid-twentieth century. These award-winning authors look beyond conventions of silence among the respectable majority to challenge stereotypes of ignorance and inhibition. Based on vivid, compelling and frank testimonies from a socially and geographically diverse range of individuals, the book explores a spectrum of sexual experiences, from learning about sex and sexual practices in courtship, to attitudes to the body, marital ideals and birth control. It demonstrates that while the era's emphasis on silence and strict moral codes could for some be a source of inhibition and dissatisfaction, for many the culture of privacy and innocence was central to fulfilling and pleasurable intimate lives.

Sexuality and Equality Law - SuzanneB. Goldberg 2017-07-05

Sexual rules and regulations are among society's oldest yet it is only in recent decades that this once-stigmatized field has become the focus of scholarly attention. This volume, which includes some of the most thought-provoking and hard-to-find essays in the field, covers a diverse range of topics from sexual orientation and gender identity to intersexuality and commercial sex, and from HIV/AIDS and trafficking to polygamy. Through historical, political and critical-theoretical lenses, and through a global focus, the selections ask how we conceptualize the groups and acts subjected to sexual regulation and how regulations in the field implicate and produce understandings of sexuality and identity. By placing this variety of works together, Sexuality and Equality Law invites fresh insights into commonalities and synergies across regulatory arenas that are often isolated from one another. The volume's introduction situates all of these works in the broader field and offers readers an extensive bibliography.

The Price of Sex - Belinda Brooks-Gordon 2013-06-17

As a society we are buying more sex than ever before. Adult sex shops now take their place amongst retailers in the high street and lap dancing clubs compete for an increased share of the leisure economy; hotel chains offer sexually explicit films as part of their standard service, the party selling of adult toys to women in their homes has become a mainstream activity; and at the traditional end of the sexual service economy, prostitution has experienced new growth. Along with this has come new legal measures and attempts to regulate the sexual leisure economy, and far more comprehensive plans than ever before to regulate prostitution, in particular in the form of the new Sex Offences Act. This book seeks to address the range of issues and contemporary debates on the sex industry, including the demand by customers who buy sex, the policing of women who work in the street sex industry, and the violence that pervades prostitution. It shows how these issues have been addressed in policy terms, the problems that have emerged in this, and how a social policy might be formulated to minimize harm and enhance public understanding. Overall the book aims to provide a critical perspective on prostitution policies and the legal chaos and complexities that surround this.

Sexuality Repositioned - Belinda Brooks-Gordon 2004-06-10

Despite the advent of new sexual knowledges, new perspectives, new experiences even, we do not routinely or habitually reflect on the interface of social and legal dimensions of sexuality. Rather, the law is periodically reviewed in response to some crisis or campaign. The idea for the book thus came from awareness that it is important to explore some of the social and moral censures, contours and controversies that shape and mark the boundaries of sexuality. The production of the book has coincided with a major review and new legislation concerning sexual offences, fuelling the authors' concerns and making their explorations timely. Interdisciplinary in scope, drawing in biological, psychological, sociological and historical perspectives to set out the new battlegrounds of sexuality, for instance, but with particular emphasis on socio-legal issues, the book examines the following areas: the development of sexuality and the right to define one's sexuality; genetic maps and sexual politics; sexuality and same sex relationships in law; the law in relation to intersecting oppressions concerning lesbians, gay men and trans people; the sexual abuse of children and the limitations of the law; the contours of regulation concerning young people, 'sexual health', and prostitution; sexual freedoms versus protectionist debates; sexuality, desire and embodied performances in the workplace; sexuality, film and the law, and the law on sexuality in the everyday practice of the Care Standards Tribunal. The book also reviews the recent reform of sexual offences and examines the current vogue for psychological treatment interventions for sexual offenders. This book offers a highly original and exciting new exploration of contemporary socio-legal issues in relation to different sexual positions.
