

The Loves Of Chaercas And Callirrhoe Volume 1

The Novel, Volume 1 - Franco Moretti 2022-04-12

Nearly as global in its ambition and sweep as its subject, Franco Moretti's *The Novel* is a watershed event in the understanding of the first truly planetary literary form. A translated selection from the epic five-volume Italian *Il Romanzo* (2001-2003), *The Novel*'s two volumes are a unified multiauthored reference work, containing more than one hundred specially commissioned essays by leading contemporary critics from around the world. Providing the first international comparative reassessment of the novel, these essential volumes reveal the form in unprecedented depth and breadth--as a great cultural, social, and human phenomenon that stretches from the ancient Greeks to today, where modernity itself is unimaginable without the genre. By viewing the novel as much more than an aesthetic form, this landmark collection demonstrates how the genre has transformed human emotions and behavior, and the very perception of reality. Historical, statistical, and formal analyses show the novel as a complex literary system, in which new forms proliferate in every period and place. Volume 1: History, Geography, and Culture, looks at the novel mostly from the outside, treating the transition from oral to written storytelling and the rise of narrative and fictionality, and covering the ancient Greek novel, the novel in premodern China, the early Spanish novel, and much else, including readings of novels from around the world. These books will be essential reading for all students and scholars of literature.

Peter in the Gospels - Timothy Wiarda 2000

Originally presented as the author's thesis (Ph. D.)--Brunel University (London Bible College), 1999.

Dirty Love - Tim Whitmarsh 2018

Where does the Greek novel come from? This book argues that whereas

much of Greek literature was committed to a form of cultural purism, presenting itself as part of a continuous tradition reaching back to Homer, the novel revelled in its hybridisation with Persian, Egyptian and Jewish culture.

Collected Ancient Greek Novels - B. P. Reardon 2019-05-07

Prose fiction, although not always associated with classical antiquity, flourished in the early Roman Empire, not only in realistic Latin novels but also and indeed principally in the Greek ideal romance of love and adventure. Enormously popular in the Renaissance, these stories have been less familiar in later centuries. Translations of the Greek stories were not readily available in English before B.P. Reardon's first appeared in 1989. Nine complete stories are included here as well as ten others, encompassing the whole range of classical themes: romance, travel, adventure, historical fiction, and comic parody. A foreword by J.R. Morgan examines the enormous impact this groundbreaking collection has had on our understanding of classical thought and our concept of the novel.

The Recollections of Encolpius - Gottskálk Jenson

Supplementum 2 of the series Ancient Narrative

*Foucault's Virginit*y - Simon Goldhill 1995-01-26

The sexy, witty and often bizarre novels, poetry and dialogues of the first centuries of this era (works such as Longus' *Daphnis and Chloe*, Achilles Tatius' *Leukippe and Cleitophon* and Plutarch's *Amatorius*) were being composed at the same time as fundamental ideas about the body, gender and sexuality were being set in place with the rise of Christianity and the Church to dominate the pagan world. Modern writers on the history of sexuality have largely ignored this literature in favour of prose treatises, philosophy and Christian homilies. Simon Goldhill, writing with the same

wit and verve as the ancient writers with whom he engages, sets out to put these texts back into the history of sexuality. The result is a dazzling celebration of sex and sexuality in the Greek literature of the first centuries CE.

[Ancient Narrative Volume 8](#) -

[The Oxford Encyclopedia of Ancient Greece and Rome](#) - Michael Gagarin 2009-12-31

The Oxford Encyclopedia of Ancient Greece and Rome is the clearest and most accessible guide to the world of classical antiquity ever produced. This multivolume reference work is a comprehensive overview of the major cultures of the classical Mediterranean world--Greek, Hellenistic, and Roman--from the Bronze Age to the fifth century CE. It also covers the legacy of the classical world and its interpretation and influence in subsequent centuries. The Encyclopedia brings the work of the best classical scholars, archaeologists, and historians together in an easy-to-use format. The articles, written by leading scholars in the field, seek to convey the significance of the people, places, and historical events of classical antiquity, together with its intellectual and material culture.

Broad overviews of literature, history, archaeology, art, philosophy, science, and religion are complimented by articles on authors and their works, literary genres and periods, historical figures and events, archaeologists and archaeological sites, artists and artistic themes and materials, philosophers and philosophical schools, scientists and scientific areas, gods, heroes, and myths. Areas covered include: · Greek and Latin Literature · Authors and Their Works · Historical Figures and Events · Religion and Mythology · Art, Artists, Artistic Themes, and Materials · Archaeology, Philosophers, and Philosophical Schools · Science and Technology · Politics, Economics, and Society · Material Culture and Everyday Life

Ancient Narrative Volume 7 -

The Cambridge History of Classical Literature: Volume 1, Greek Literature - P. E. Easterling 1985-05-09

This volume looks at literature of the Hellenistic period.

The Cambridge History of Classical Literature: Volume 1, Greek Literature, Part 4, The Hellenistic Period and the Empire - P. E. Easterling 1989-05-04

The emphasis of this volume is on Greek literature produced in the period between the foundation of Alexandria late in the fourth century B.C. and the end of the 'high empire' in the third century A.D. Here we see a shift away from the city states of the Greek mainland to the new centres of culture and power, first Alexandria under the Ptolemies and then imperial Rome, Greek literature, being traditionally cosmopolitan, adapted to these changes with remarkable success, and through the efficiency of the Hellenistic educational system Greek literary culture became the essential mark of an educated person in the Graeco-Roman world.

[Callirhoe](#) - Chariton Aphrodisiensis 1995

Chariton's Callirhoe, subtitled Love Story in Syracuse, is a fast-paced historical romance of the first century CE and the oldest extant novel.

Ancient Narrative Volume 1 (2000-2001) -

[Encyclopaedia of Midrash](#) - Jacob Neusner 2022-11-07

The Encyclopedia of Midrash provides a systematic account of biblical interpretation in Judaism. While emphasizing the Rabbinic literature, it also covers interpretation of Scripture in a number of distinct canons, ranging from the Targumic literature and Dead Sea Scrolls to the New Testament and Church Fathers. The Encyclopedia of Midrash provides readers with a depth and breadth of treatment of Midrash unavailable in any other single source. Through the writings of top scholars in each of their fields, it sets out the current state of the question for each of the many topics discussed in its pages. The print edition is available as a set of two volumes (9789004141667).

Desiring Conversion - B. Diane Lipsett 2011-01-27

Lipsett's approach is theoretically versatile, drawing on the writings of Foucault, psychoanalytic theorists, and the ancient literary critic Longinus. Lipsett offers close readings of each story, while advancing

discussions of ancient views of desire, masculinity, virginity, and the self.
--Book Jacket.

A Conclusion Unhindered - Troy M. Troftgruben 2010

Revision of author's thesis (Ph. D.)--Princeton Theological Seminary, 2009.

History of Ancient Greek Literature - Franco Montanari 2022-05-09

This book offers the most comprehensive and up-to-date history of ancient Greek literature from Homer to Late Antiquity. Its clear structure and detailed presentation of Greek authors and their works as well as literary genres and phenomena makes it an indispensable reference work for all those interested in Greek Antiquity, particularly well-suited for use in the classroom.

Ancient Narrative Volume 9 -

Greek Fiction - Longus 2011-08-25

A trio of tales offering an eye-opening alternative view of ancient Greece's literary culture. A fascinating counterpoint to the monumental epics of ancient Greece, Greek Fiction features three novelistic works written between the first and fourth centuries AD. Chariton's "Callirhoe"--perhaps the first novel ever written--is the stirring tale of two star-crossed lovers who are torn apart when Callirhoe is kidnapped and sold into slavery. Longus's "Daphnis and Chloe" tells the story of a boy and girl--both abandoned at birth--who grow up to fall in love and battle pirates. "Letters of Chion" is an early thriller about tyranny and political assassination. Together these works open a welcome window onto ancient Greece's little-explored legacy of prose fiction.

Literature - David Damrosch 2022-06-20

LITERATURE A WORLD HISTORY An exploration of the history of the

world's literatures and the many varieties of literary expression
Literature: A World History encompasses all the world's major literary traditions, emphasizing the interrelationship of local and national cultures over time. Spanning global literature from the beginnings of recorded history to the present day, this expansive four-volume set examines the many varieties of the world's literatures in their social and intellectual contexts. Its four volumes are devoted to literature before 200 CE, from 200 to 1500, from 1500 to 1800, and from 1800 to 2000, with four dozen contributors providing new insights into the art of literature, and addressing the situation of literature in the world today. Organized throughout in six broad regions—Africa, the Americas, East Asia, Europe, South Asia, Southeast Asia, and Oceania, and West and Central Asia—Literature: A World History offers readers a clear and consistent treatment of diverse forms of literary expression across time and place. Throughout the text, particular emphasis is placed on literary institutions within different regional and linguistic cultures and on the relations between literature and a spectrum of social, political, and religious contexts. Features work by an international panel of leading scholars from around the globe, in Africa, the Middle East, South and East Asia, Australia and New Zealand, Europe, and the United States Provides a balanced overview of national and global literature from all major regions of the world from antiquity to the present Highlights the specificity of regional and local cultures throughout much of literary history, together with cross-cutting essays on topics such as different writing systems, court cultures, and utopias Literature: A World History is an invaluable reference work for undergraduate and graduate students as well as scholars looking for a wide-ranging overview of global literary history.
