Back Over the Sexual Contract - Lorenzo

Rustighi 2021-12-27

This book investigates the problem of patriarchy in modern social contract theories by analyzing the concept of "sexual contract" from Thomas Hobbes to Immanuel Kant. It sheds light on both the genesis and the logic of patriarchal relations in modern culture.

*Carole Pateman - Terrell Carver 2013-03*

Carole Pateman's writings have been innovative precisely for their qualities of engagement, pursued at the height of intellectual rigour. This book draws from her vast output of articles, chapters, books and speeches to provide a thematic yet integrated account of her innovations in political theory and contributions to the politics of policy-making. The editors have focused on work in three key areas: Democracy Pateman's perspective is rooted in a practical perspective, enquiring into and speculating about forms of participation over and above the 'traditional' exclusions through which

representative systems have been variously constructed over time. Her work pushes hard on theorists and politicians who make easy assumptions about apathy and public opinion, who bracket off the workplace and the home, and who see politics only in partisan activity, voter behaviour and governmental policy. Women Pateman's innovative and still-cited work on participation antedates the feminist revolution in political theory and many of the practical struggles that developed through the later 1970s. While woman-centred, her concerns were always worked through larger conceptions of social class, economic advantage, power differentials, 'liberal' individualism and contracts including marriage. Her feminism was innovative in political theory, and within feminism itself. As a feminist Pateman defies categorization, and her concepts of 'the sexual contract' and 'Wollstonecraft's dilemma' are canonical. Welfare Pateman's innovation here is an integration of welfare issues - in particular

the proposals for a 'basic income' or for a 'capital stake' - into her broad but always rigorous conception of democracy. This is argued through in terms of citizenship, taken as the result of a social contract. In that way Pateman puts liberalism itself through an imminent critique, drawing in the practicalities and risks of life in late capitalist societies. Her theory as always is political, taking in neo-liberal attacks on 'welfare states' and the stark realities of international inequalities. Pateman's career achievements in democratic and feminist theory are brought productively to bear on debates that would otherwise occur in more limited, and less provocative, academic and political contexts.

*The Racial Contract* - Charles W. Mills

2022-04-15

The Racial Contract puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. The Racial Contract argues that the society we live in is a continuing white supremacist state. As this 25th anniversary edition—featuring a foreword by Tommy Shelbie and a new preface by the author—makes clear, the still-urgent The Racial Contract continues to inspire, provoke, and influence thinking about the intersection of the racist underpinnings of political philosophy.

**The Sexual Contract** - Carole Pateman

2018-06-05

Carole Pateman is one of the foremost political theorists writing in English today. In this outstanding new work, she presents a major reinterpretation of modern political theory. She shows how standard discussions of social contract theory tell only half the story. The

sexual contract which establishes modern patriarchy and the political right of men over women is never mentioned. In a wide-ranging and scholarly discussion, Pateman examines the significance of the political fictions of the original contract and the slave contract. She also offers a sweeping challenge to conventional understandings - of both left and right - of actual contracts in everyday life: the marriage contract, the employment contract, the prostitution contract and the new surrogacy contract. By bringing a feminist perspective to bear on the contradictions and paradoxes surrounding women and contract and the relation between the sexes, she is able to shed new light on the fundamental problems of freedom and subordination. The Sexual Contract will become a classic text in the politics of gender and will be of major interest to students of social and political theory and philosophy, women's studies, sociology and jurisprudence.

*Women Writers and the Early Modern British Political Tradition* - Hilda L. Smith 1998-03-26

This collection of essays includes studies of women's political writings from Christine de Pizan to Mary Wollstonecraft and explores in depth the political ideas of the writers in their historical and intellectual context. The volume illuminates the limitations placed on women's political writings and their broader political role by the social and scholarly institutions of early modern Europe. In so doing, the authors probe legal and political restraints, distinct national and state organisation, and assumptions concerning women's proper intellectual interests. In this endeavour, the volume explores questions and subjects traditionally ignored by historians of political thought and little considered even by current feminist theorists, groups who give slight attention to women's political ideas or place women's writings within the social and intellectual structures from which they emerged and which they helped to shape. Contract and Domination - Carole Pateman 2007 Contract and Domination offers a bold challenge to contemporary contract theory, arguing that it should either be fundamentally rethought or abandoned altogether. Since the publication of John Rawls's A Theory of Justice, contract theory has once again become central to the Western political tradition. But gender justice is

neglected and racial justice almost completely ignored. Carole Pateman and Charles Mills's earlier books, *The Sexual Contract* (1988) and *The Racial Contract* (1997), offered devastating critiques of gender and racial domination and the contemporary contract tradition's silence on them. Both books have become classics of revisionist radical democratic political theory. Now Pateman and Mills are collaborating for the first time in an interdisciplinary volume, drawing on their insights from political science and philosophy. They are building on but going beyond their earlier work to bring the sexual and racial contracts together. In *Contract and Domination*, Pateman and Mills discuss their differences about contract theory and whether it has a useful future, excavate the (white) settler contract that created new civil societies in North America and Australia, argue via a non-ideal contract for reparations to black Americans, confront the evasions of contemporary contract theorists, explore the intersections of gender and race and the global sexual-racial contract, and reply to their critics. -- Back cover.

**The Disorder of Women** - Carole Pateman 2018-07-11

Carole Pateman is one of the leading political theorists writing today. This wide-ranging volume brings together for the first time a selection of her work on democratic theory and her feminist critique of mainstream political theory. The volume includes substantial discussions on questions of democracy and citizenship, including the construction of the concept of the political and complex, but largely unrecognized, problems surrounding women's participation and consent, and their relation to the social contract tradition. This work should be of interest to students and researchers in political theory, women's studies and sociology.

*Modern Motherhood and Women's Dual Identities* - Petra Bueskens 2018-05-28

Why do women in contemporary western societies experience contradiction between their autonomous and maternal selves? What are the origins of this contradiction and the associated 'double shift' that result in widespread calls to either 'lean in' or 'opt out'? How are some mothers subverting these contradictions and finding meaningful ways of reconciling their autonomous and maternal selves? In *Modern Motherhood and Women's Dual Identities*, Petra Bueskens argues that western modernisation consigned women to the home and released them from it in historically unprecedented, yet interconnected, ways. Her ground-breaking formulation is that western women are free as 'individuals' and constrained as mothers, with the twist that it is the former that produces the latter. Bueskens' theoretical contribution consists of the identification and analysis of modern women's duality, drawing on political philosophy, feminist theory and sociology tracking the changing nature of discourses of women, freedom and motherhood across three centuries. While the current literature points to the pervasiveness of contradiction and double-shifts for mothers, very little attention has been paid to how (some) women are subverting contradiction and 'rewriting the sexual contract'. Bridging this gap, Bueskens' interviews ten 'revolving mothers' to reveal how periodic absence, exceeding the standard work-day, disrupts the default position assigned to mothers

in the home, and in turn disrupts the gendered dynamics of household work. A provocative and original work, *Modern Motherhood and Women's Dual Identities* will appeal to graduate students and researchers interested in fields such as Women and Gender Studies, Sociology of Motherhood and Social and Political Theory.

**Dialogues with Contemporary Political Theorists** - G. Browning 2012-11-16

**The Contract and Domination** - Carole Pateman 2013-04-23

*Contract and Domination* offers a bold challenge to contemporary contract theory, arguing that it should either be fundamentally rethought or abandoned altogether. Since the publication of John Rawls's *A Theory of Justice*, contract theory has once again become central to the Western political tradition. But gender justice is neglected and racial justice almost completely ignored. This iconoclastic book

throws the gauntlet down to mainstream white male contract theory. It is vital reading for anyone with an interest in political theory and political philosophy, and the systems of male and racial domination.

*Manhood and Politics* - Wendy L. Brown 1998-09-20

**Rewriting the Sexual Contract** - Dench Geoff 2018-04-24

This book brings together a wide selection of viewpoints on what is happening to relations between the sexes and the sexual division of labor in contemporary society. The contributors look at the ways in which gender relationships are changing, the consequences of these changes for family life and society generally, and the part the state should play in future developments. *Rewriting the Sexual Contract* encompasses the views of people with widely differing orientations, stretching across the moral and political spectrum. The contributors provide varied interpretations of what the recent sexual revolution means and where it may be leading us. The questions discussed include: Are the life-styles of men and women converging or polarizing? Do men and women place the same value on family life? Do most mothers want to work full-time while their children are young? Are families strengthened by a sense of differentiation and interdependence between the sexes? Does social policy need to recognize sexual differences in order to maximize social equality? The contributors represent a wide range of viewpoints, but are all involved in analyzing and influencing public attitudes in this area. They include Carole Pateman, Roger Scruton, Ruth Lister, Fay Weldon, Michael Young, and Barbara Cartland, among others. *Rewriting the Sexual Contract* examines issues pertinent to the current social and political culture and will be of interest to sociologists, gender studies scholars, and political theorists. Geoff Dench is a senior research fellow at the Institute of Community Studies and a visiting

professor at Middlesex University. He is the author of *Transforming Men and Minorities in the Open Society: Prisoners of Ambivalence*.

**Feminist Interpretations of Thomas Hobbes**

- Nancy J. Hirschmann 2015-06-29

*Feminist Interpretations of Thomas Hobbes* features the work of feminist scholars who are centrally engaged with Hobbes's ideas and texts and who view Hobbes as an important touchstone in modern political thought. Bringing together scholars from the disciplines of philosophy, history, political theory, and English literature who embrace diverse theoretical and philosophical approaches and a range of feminist perspectives, this interdisciplinary collection aims to appeal to an audience of Hobbes scholars and nonspecialists alike. As a theorist whose trademark is a compelling argument for absolute sovereignty, Hobbes may seem initially to have little to offer twenty-first-century feminist thought. Yet, as the contributors to this collection demonstrate, Hobbesian political thought provides fertile ground for feminist inquiry. Indeed, in engaging Hobbes, feminist theory engages with what is perhaps the clearest and most influential articulation of the foundational concepts and ideas associated with modernity: freedom, equality, human nature, authority, consent, coercion, political obligation, and citizenship. Aside from the editors, the contributors are Joanne Boucher, Karen Detlefsen, Karen Green, Wendy Gunther-Canada, Jane S. Jaquette, S. A. Lloyd, Su Fang Ng, Carole Pateman, Gordon Schochet, Quentin Skinner, and Susanne Sreedhar.

*A Companion to Hobbes* - Marcus P. Adams 2021-09-28

*Offers comprehensive treatment of Thomas Hobbes's thought, providing readers with different ways of understanding Hobbes as a systematic philosopher As one of the founders of modern political philosophy, Thomas Hobbes is best known for his ideas regarding the nature of legitimate government and the necessity of society submitting to the absolute authority of sovereign power. Yet Hobbes produced a wide range of writings, from translations of texts by Homer and Thucydides, to interpretations of Biblical books, to works devoted to geometry, optics, morality, and religion. Hobbes viewed himself as presenting a unified method for theoretical and practical science—an interconnected system of philosophy that provides many entry points into his thought. A Companion to Hobbes is an expertly curated collection of essays offering close textual engagement with the thought of Thomas Hobbes in his major works while probing his ideas regarding natural philosophy, mathematics, human nature, civil philosophy, religion, and more. The Companion discusses the ways in which scholars have tried to understand the unity and diversity of Hobbes's philosophical system and examines the reception of the different parts of Hobbes's philosophy by thinkers such as René Descartes, Margaret Cavendish, David Hume, and Immanuel Kant. Presenting a diversity of fresh perspectives by both emerging and established scholars, this volume: Provides a comprehensive treatment of Hobbes's thought in his works, including *Elements of Law*, *Elements of Philosophy*, and *Leviathan* Explores the connecting points between Hobbes' metaphysics, epistemology, mathematics, natural philosophy, morality, and civil philosophy Offers readers strategies for understanding how the parts of Hobbes's philosophical system fit together Examines Hobbes's philosophy of mathematics and his attempts to understand geometrical objects and definitions Considers Hobbes's philosophy in contexts such as the natural state of humans, gender relations, and materialist worldviews*

Challenges conceptions of Hobbes's moral theory and his views about the rights of sovereigns Part of the acclaimed Blackwell Companions to Philosophy series, A Companion to Hobbes is an invaluable resource for scholars and advanced students of Early modern thought, particularly those from disciplines such as History of Philosophy, Political Philosophy, Intellectual History, History of Politics, Political Theory, and English.

*Participation and Democratic Theory* - Carole Pateman 1975-12-04

Shows that current elitist theories are based on an inadequate understanding of the early writings of democratic theory and that much sociological evidence has been ignored.

*Three Women, Two Spheres, and A Contract: A Comparative Study of Mary Astell and Mary Wollstonecraft Through the Lens of Carole Pateman's "The Sexual Contract"* - Robyn Burke Dabora 2017

This project examines the writings of Mary Astell (1666-1731) and Mary Wollstonecraft (1759-1797) regarding women in light of ideas articulated by Carole Pateman (1940- ) in her book, *The Sexual Contract* (1988). In her work, Pateman critiques the prescriptions for the management of society suggested by classic

contract theorists such as Thomas Hobbes (1588-1679) and John Locke (1632-1704) and cites that their solutions focus solely on men in the public sphere of society. Pateman illuminates the condition of women in the private sphere of the home, and asserts that this realm operates by mechanisms radically different from those of the public sphere. Pateman contends that the inequities experienced by women in Western society will not be eliminated by prescriptions simply reforming the operation of the public sphere, but requires solutions that address the particular circumstances of women in the home. Astell's and Wollstonecraft's depictions of the plight women in society are quite similar. However, as they articulate their prescriptions, their ideas diverge. Wollstonecraft's recommendations are radical and seek to include women in the public sphere as free and equal workers and citizens. Astell, loath to criticize society's institutions, calls for individuals to reform. Pateman's lens exposes the limitations of Wollstonecraft's radical reform, and reveals that Wollstonecraft, like her conservative predecessor Astell, clings to certain societal norms and structures that she believes important to the functioning of the private sphere and society.
