Heterophobia - Daphne Patai 2000

A scathing criticism of political and sexual correctness, this thought-provoking and powerfully argued book is sure to incite debate among all Americans concerned with the legacy and future of women's rights.

New Perspectives on Language and Sexual Identity - E. Morrish 2007-10-11

Presenting new and exciting data from lesbian and gay conversations, narratives, representations of lesbians in film and erotic fiction, and representations of prominent gay men in newspapers, this book looks at some of the ways lesbians and gay men construct identity from among the symbolic resources available within lesbian and gay communities.

New Literature on Women - 1997

Feminist Bookstore News - 1996

Revisions - Lisa Adkins 2002

In so doing it puts forward a distinctive thesis, namely that within late modernity gender and sexuality are being reworked in terms of categories of reflexivity and risk. It shows that this reworking places increasing significance on issues of mobility and identity in late modernity. It therefore outlines the politics of mobility in regard to identity, suggesting that mobility is an important but often neglected source of power in late modernity. Revisions: gender and sexuality in late modernity will be essential reading for advanced undergraduates, research students and academics working in the fields of feminist theory, social theory, sociology, women's studies and cultural studies."--Jacket.

International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences - 1996

Social Work and Sexuality - Helen Cosis Brown 1998-11-11

This important textbook offers clear and concise discussion of the key theoretical and practical issues that sexuality raises for social work. It examines how lesbian and gay politics have impacted on professional knowledge and practice and looks at the questions faced by social workers who identify as lesbian or gay. It discusses the importance of anti-discriminatory practice with lesbian and gay clients in a range of practice settings, looking specifically at work with children and families, vulnerable adults and offenders.

Sociological Abstracts - Leo P. Chall 1997

CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers.

Gender in Canada - Adie Nelson 2002

Work, Postmodernism and Organization - Philip Hancock 2001-05-02

Work, Postmodernism and Organization provides a wide-ranging and very accessible introduction to postmodern theory and its relevance for the cultural world of the work organization. The book provides a critical review of the debates that have shaped organization theory over the past decade, making clear the meaning and significance of postmodern ideas for contemporary organization theory and practice. Work, Postmodernism and Organization will provide valuable material to advanced undergraduate and postgraduate students of organization theory, organizational behaviour, industrial sociology, and more general business & management and sociology courses.

Pornography and Sexual Representation - Joseph W. Slade 2001

For better or worse, pornography and sexual representation suffuse American culture. This first comprehensive guide to the literature includes the history of pornography in the United States and discusses pornography in a vast range of media. It presents information regarding bibliographies and reference tools concerning pornography and reviews of references devoted to the histories of sexuality and its representations and on theoretical works on erotica and pornography. A chronology of

important dates in the history of American Pornography and a discussion of child pornography outline issues and events throughout its history. Dramatic, visual, and electronic media are gathered and arranged by topic. Pornography in all of its forms is explored in this three volume reference. Slade includes many avenues upon which pornography and sexual representation have had an impact including research and policy in the medical and social sciences, the law in the United States, and the economics of pornography. An invaluable tool for further research, this guide to the literature of pornography and sexual representation will appeal to scholars and students of popular culture, gender and women's studies, and gay and lesbian studies. It will also interest those in the field of American history and mass media.

Rethinking Gender and Therapy - Susannah Izzard 2001

This text brings together the contributions of psychoanalytic theory and sociological analysis to explore the interrelationship between the inner and outer worlds which impact on a woman's identity.

Erotic Performance and Spectatorship - Katy Pilcher 2016-11-10

Erotic dance is one of the most contentious issues in feminist debates today and a source of fascination in media and popular cultural representations. Yet, why is it that we currently know so little about those who perform erotic dance for female customers, or the experiences of these spectators themselves? The result of a unique investigation within two of the UK's leisure venues, Erotic Performance and Spectatorship seeks to rectify the aforementioned lack of insight.

Through vivid ethnographies of a lesbian leisure venue and a male strip show, Pilcher's research advances key debates about the gender and sexual politics of erotic dance, whilst simultaneously relating these to debates about the sex industry more widely. This book also subverts previous assumptions that only women perform erotic dance and only men spectate. Thus, this book stands out amongst other academic accounts, developing the debate beyond the established focus on erotic dance as either empowering or degrading. This new contribution to the study of erotic dance - which provides a fresh theoretical perspective combining queer and feminist theorising, in addition to rich empirical evidence - will appeal to academic researchers and both undergraduate and postgraduate students within the fields of sociology, gender studies, sexuality studies, gay & lesbian studies, feminism and other neighbouring disciplines. It will also be of interest to feminist and sex work activists, policy makers, and practitioners.

Sex and the Body - Annie Potts 2004

Sex and the body presents an exciting showcase of original work by feminist scholars from Aotearoa New Zealand.

Lesbian Love and Relationships - Suzanna Rose 2013-09-13

Explore the broad range of healthy lesbian attitudes and behaviors in love, friendship, self-image, and society! This pioneering book makes a revolutionary assumption: that lesbian and bisexual women are normal, if not average. Instead of focusing on which family or genetic quirks might produce lesbians, these studies turn attention to describing the healthy ways lesbians interact with each other, with heterosexual women, and with society. The result is a significant exploration of uncharted territory. Lesbian Love and Relationships examines the lives of lesbian and bisexual women from adolescence to old age, addressing issues of class and race as well as sexual orientation. It encompasses theory, empirical research, and memoir on such diverse topics as physical appearance, cross-generational friendships, butch-femme issues, and lesbian sexuality. It also looks at such difficult and painful issues as lesbian domestic violence and the impact of homophobia on lesbian couples. Lesbian Love and Relationships asks personal, political, and psychological questions, including: how do young lesbians find each other? what makes successful lesbian relationships last? how does social class affect African-American lesbian relationships? what was it like growing up lesbian in the South during World War II? does "lesbian bed death" exist? This compendium offers exciting original research in a neglected field. Lesbian Love and Relationships is an essential resource for anyone interested in women's lives and sexuality as well as scholars in the field.

Heterosexism in Health and Social Care - J. Fish 2006-10-31

This interdisciplinary text develops a theory of heterosexism and provides everyday examples from health and social care environments. It engages with current debates, including intersecting identities, and presents a coherent analysis of the health and social care needs of lesbian, gay, bisexual and transgender people.

Social Work with Lesbians and Gay Men - Helen Cosis-Brown 2011
Social Work with Lesbians and Gay Men provides social workers and other professionals with an overview of a number of key challenges and concerns that play a significant part in the lives of lesbians and gay men. Despite positive changes in legislation, social work can still fail to meet the needs of lesbians and gay men, and remains a marginalized area in practice, research and teaching. This book promotes an understanding of these issues and proposes ideas for social work practice that are inclusive of lesbians and gay men in assessment and the provision of services. The book clearly links knowledge and practice and is structured in such a way so that theories relevant to social work practices with lesbians and gay men are covered before specific areas of practice are addressed. Key topics include the historical, legal, policy and theoretical context, a reappraisal of anti-discriminatory practice, religion, family and kinship, relationship-based social work, social work with adults, mental health and children and families.

On Freud's Femininity - Graciela Abelin-Sas Rose 2018-03-29
In this book a group of contemporary psychoanalytic authors dedicated to studies on women and the feminine have been assembled with the objective of displaying points of concordance and discordance in relation to Freudian proposals. Discourse on women has changed greatly since Freud's time. It coincides with deep changes experienced by women and the feminine position, at least in most of the Western world. It is common knowledge that contraceptives, assisted fertilization, advances in women's rights, growingly evident sublimational capacities and demonstrations of professional success have definitely changed ideas

regarding an eternal and immutable feminine nature. The authors are interested in illuminating ways in which these changes have or have not influenced psychoanalytic debate in relation to the feminine. This implies renewing the question of what is authentically feminine and whether there is any essential truth concerning the feminine.

Racialized Politics of Desire in Personal Ads - Neal A. Lester 2007
The essays in *Racialized Politics of Desire in Personal Ads* explore complex intersections among the social categories of race, gender and sexuality within personal ads, revealing a dynamic tapestry of power relations and hierarchies. The ephemeral nature of personal ads, their anonymity, the space limitations, and the linguistic encoding characteristic of the genre make it an interesting and important opportunity to witness the performative nature of identity politics.

The Good News of the Body - Lisa Isherwood 2000
God has assumed a significant role in the sex lives of believers. It is God who decrees which types of sexual expression are permitted, and which forbidden. Through the Church, a patriarchal sexual landscape has been enacted to control sexual bodies which exerts its influence even in our secular culture. *The Good News of the Body* is a wide-ranging anthology on feminist sexual theology. Noting that Jesus, while being declared divine, took human form, the volume questions what happens when the flesh, rather than the Word, is placed at the center of theological reflection. What happens when women's bodies form the incarnational starting point for sexual politics and theology? Contributors, including Rosemary Ruether, Mary Hunt, and Melissa Raphael, examine such topics as the possibility of a Roman Catholic approach to sexuality bringing together the three aspects of Christian love of eros, philia, and agape; Jewish sexual and mystical teaching; the de-sexing of the disabled; erotic celibacy; human sexuality and the concept of the goddess; and the sometimes surprisingly similar conclusions about contraception reached by feminists and popes.
