World Migration Report 2020 - United Nations 2019-11-27

Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

Providing for the Casualties of War - Bernard D. Rostker 2013-04-29

War has always been a dangerous business, bringing injury, wounds, and death, and--until recently--often disease. What has changed over time, most dramatically in the last 150 or so years, is the care these casualties receive and who provides it. This book looks at the history of how humanity has cared for its war casualties and veterans, from ancient times through the aftermath of World War II.

Crime in the Second World War - Penny Legg 2017-04-28

Was There Crime in the Second World War? At a time of national emergency, the average person could be forgiven for thinking that crime rates would go down as everyone tried to help the war effort. However, the reality was that criminals saw the war as an opportunity to exploit the emergency conditions and those with a previously unblemished reputation found themselves tempted off the straight and narrow. Criminal activity wasn't just a civilian occupation. The military services had its share of crime and the influx of foreign troops added to the

problem. American and Canadian troops found themselves transported to Britain in preparation for D-Day. Lonely and far from home, some rioted and many looked for other distractions with desertion being a significant problem and one which was often funded by crime. Heavily illustrated with both contemporary and modern photographs Penny takes you back to some of the most infamous wartime crimes such as the blackout ripper, the bath chair murderer and the last person to be prosecuted in Britain for witchcraft. She also delves into the murky world of Spivs, Gangs, prostitutes and Robbers. At a time when rationing, shortages and the blitz meant feeding the family became ever more difficult it was all too easy for the increasingly blurred line of criminality to be crossed. Penny Legg shows how and why crime was committed during the Second World War and what became of those Spivs, Scoundrels, Rogues and Worse who strayed into the underworld.

Britain's 'brown Babies' - Lucy Bland 2021-09

This book recounts a little-known history of an estimated 2,000 children born to black GIs and white British women in World War II. Stories from over 50 of these children, alongside many photographs, reveal the racism and stigma of growing up in what was then a very white country.

Every Mother's Son - Lyn Andrews 2010-05-27

Two young mothers fight to keep their families safe as the shadow of World War II falls over Liverpool. In the sequel to Friends Forever, Lyn Andrews writes a gripping wartime saga in Every Mother's Son - a tale depicting the power of love and the inner strength of the women of the Liverpool Blitz. Perfect for fans of Anne Baker, Joan Jonker and Kate Thompson. Molly and Bernie have been friends forever. As young girls

they left Ireland seeking new beginnings in Liverpool. Now they are marrying their sweethearts and looking forward to enjoying the lives they've worked so hard to build. But as the Liverpool Blitz begins, it seems as if their dreams are about to be destroyed. Night after night, horrific bombing tears the city apart. As wives and mothers, both women know that they could face great tragedy. But they also know that their friendship, and their love for their husbands and sons, will give them the strength to find the happiness they deserve... What readers are saying about Every Mother's Son: 'As with everything that Lyn Andrews writes it's a page turner, I could not put it down... you live the lives of the characters and cannot wait to read the final page, but don't want the novel to end' 'Andrews' writing on the war is vivid and remarkably realistic and the journey of the two main characters has an emotional truth and authenticity about it which I found very moving... a believable and heartfelt story'

The Myth Of The Blitz - Angus Calder 2012-06-30

The Myth of the Blitz was nurtured at every level of society. It rested upon the assumed invincibility of an island race distinguished by good humour, understatement and the ability to pluck victory from the jaws of defeat by team work, improvisation and muddling through. In fact, in many ways, the Blitz was not like that. Sixty-thousand people were conscientious objectors; a quarter of London's population fled to the country; Churchill and the royal family were booed while touring the aftermath of air-raids; Britain was not bombed into classless democracy. Angus Calder provides a compelling examination of the events of 1940 and 1941 - when Britain 'stood alone' against the Luftwaffe - and of the Myth which sustained her 'finest hour'.

The Scousers - Doreen M. Doyle 2019-12-01

One Liverpool family's struggle to survive the Second World War, as the city was flattened by German bombers, and the men were far away at sea fighting to save England.

A Liverpool Legacy - Anne Baker 2013-11-21

A mother's love is a force to be reckoned with... Set in Liverpool at the end of the Second World War, Anne Baker's saga, A Liverpool Legacy,

will move you to tears of sadness and joy. Perfect for fans of Lyn Andrews and Dilly Court. On a spring day in 1947, Millie and Pete Maynard take their daughter Sylvie on a boat trip that is to end in tragedy. Poor Sylvie blames herself for the accident and Millie needs all her strength to comfort her children and overcome her grief. Then Pete's will is read and further heartache lies in store... Meanwhile, Pete's younger brother and his good-for-nothing sons try to take control of the family business, but they've underestimated Millie's indomitable spirit. She's worked in Maynard's perfume laboratory for eighteen years and is determined to protect her husband's legacy no matter what obstacles are thrown in her way... What readers are saying about A Liverpool Legacy: 'Anne Baker is one of my favourite authors and I have read all her books. A Liverpool Legacy is up there amongst her best - a really well written, gripping story, with believable characters' 'Anne Baker never ceases to amaze me, another brilliant read'

How Churchill Waged War - Allen Packwood 2018-10-30

An analytical investigation into Prime Minister Winston Churchill's decision-making process during every stage of World War II. When Winston Churchill accepted the position of Prime Minister in May 1940, he insisted in also becoming Minister of Defence. This, though, meant that he alone would be responsible for the success or failure of Britain's war effort. It also meant that he would be faced with many monumental challenges and utterly crucial decisions upon which the fate of Britain and the free world rested. With the limited resources available to the UK, Churchill had to pinpoint where his country's priorities lay. He had to respond to the collapse of France, decide if Britain should adopt a defensive or offensive strategy, choose if Egypt and the war in North Africa should take precedence over Singapore and the UK's empire in the East, determine how much support to give the Soviet Union, and how much power to give the United States in controlling the direction of the war. In this insightful investigation into Churchill's conduct during the Second World War, Allen Packwood, BA, MPhil (Cantab), FRHistS, the Director of the Churchill Archives Centre, enables the reader to share the agonies and uncertainties faced by Churchill at each crucial stage of

the war. How Churchill responded to each challenge is analyzed in great detail and the conclusions Packwood draws are as uncompromising as those made by Britain's wartime leader as he negotiated his country through its darkest days.

London Belles - Annie Groves 2011-03-31

London Belles is a tale of four very different young women thrown together by war. Finding freedom and independence - as well as love, passion and heartbreak - for the very first time, a unique bond is formed as the hostilities take their toll on Britain.

Wartime Girls - Anne Baker 2014-12-18

A tragic accident throws a young woman's life into disarray, as the storm clouds of war begin to loom... Set in Liverpool during the Depression and the Blitz of the Second World War, Anne Baker's dramatic saga, *Wartime Girls*, brings a close-knit community vividly to life. Perfect for fans of *Dilly Court* and *Nadine Dorries*. It is the day of the Grand National, 1933, when Susie Ingram's fiancé, Danny, is killed in a tragic accident. In a cruel twist of Fate, Susie discovers she is carrying Danny's child and, shunned by his parents, she turns to her mother for support. Louise Ingram, widowed during the First World War, knows how hard it is to bring up a family alone, but with the help of her eldest daughter, Martha, who lives next door, they manage to survive. When little Rosie is born there is no doubt that she is Danny's daughter, but it is destined to take many more years of heartache before the two families are united again... What readers are saying about *Wartime Girls*: 'Definitely recommend this book. Excellent story - wouldn't hesitate to give five stars' 'Another excellent Anne Baker novel, and fans will not be disappointed.

Characters come to life in this family war story'

When the Children Came Home - Julie Summers 2011-03-03

A moving and revealing insight into the real experiences of children evacuated during WWII and the families they left behind On 1 September 1939 Operation Pied Piper began to place the children of Britain's industrial cities beyond the reach of the Luftwaffe. 1.5 million children, pregnant women and schoolteachers were evacuated in 3 days. A further 2 million children were evacuated privately; the largest mass evacuation

of children in British history. Some children went abroad, others were sent to institutions, but the majority were billeted with foster families. Some were away for weeks or months, others for years. Homecoming was not always easy and a few described it as more difficult than going away in the first place. In *When the Children Came Home* Julie Summers tells us what happened when these children returned to their families. She looks at the different waves of British evacuation during WWII and explores how they coped both in the immediate aftermath of the war, and in later life. For some it was a wonderful experience that enriched their whole lives, for others it cast a long shadow, for a few it changed things for ever. Using interviews, written accounts and memoirs, *When the Children Came Home* weaves together a collection of personal stories to create a warm and compelling portrait of wartime Britain from the children's perspective.

Torpedoed - Deborah Heiligman 2019-10-08

From award-winning author Deborah Heiligman comes *Torpedoed*, a true account of the attack and sinking of the passenger ship *SS City of Benares*, which was evacuating children from England during WWII. Amid the constant rain of German bombs and the escalating violence of World War II, British parents by the thousands chose to send their children out of the country: the wealthy, independently; the poor, through a government relocation program called CORB. In September 1940, passenger liner *SS City of Benares* set sail for Canada with one hundred children on board. When the war ships escorting the *Benares* departed, a German submarine torpedoed what became known as the *Children's Ship*. Out of tragedy, ordinary people became heroes. This is their story. This title has Common Core connections.

The People's War - Angus Calder 2012-07-31

The Second World War was, for Britain, a 'total war'; no section of society remained untouched by military conscription, air raids, the shipping crisis and the war economy. In this comprehensive and engrossing narrative Angus Calder presents not only the great events and leading figures but also the oddities and banalities of daily life on the Home Front, and in particular the parts played by ordinary people: air

raid wardens and Home Guards, factory workers and farmers, housewives and pacifists. Above all this revisionist and important work reveals how, in those six years, the British people came closer to discarding their social conventions than at any time since Cromwell's republic. Winner of the John Llewellyn Rhys prize in 1970, *The People's War* draws on oral testimony and a mass of neglected social documentation to question the popularised image of national unity in the fight for victory.

A Mother's Joy: A Short Story Collection In Celebration Of Motherhood - Lynda Page 2015-02-26

Four of our most-loved saga authors invite you to join them on a journey through motherhood in this collection of heart-warming short stories. *Daisy's Day* by Anne Baker It's 1920s Liverpool and Daisy must do everything she can to protect her children from poverty and disease. A mother's love is limitless... *The First Strawberry* by Pam Evans Bombs are falling over London and times are hard for Rose and her family. That is until six-year-old Sydney and a little miracle restore all hope... *The Birthday Surprise* by Jennie Felton Somerset, 1898. Can two daughters ease their mother's sorrows and bring her a birthday full of joy? *How Memories Are Made* by Lynda Page Ginnie Owens is facing a devastating decision. But she's about to discover that just when all seems lost a mother's dreams can finally come true.

The Blitz Companion - Mark Clapson 2019-04-02

The *Blitz Companion* offers a unique overview of a century of aerial warfare, its impact on cities and the people who lived in them. It tells the story of aerial warfare from the earliest bombing raids and in World War 1 through to the London Blitz and Allied bombings of Europe and Japan. These are compared with more recent American air campaigns over Cambodia and Vietnam in the 1960s and 1970s, the NATO bombings during the Balkan Wars of the 1990s, and subsequent bombings in the aftermath of 9/11. Beginning with the premonitions and predictions of air warfare and its terrible consequences, the book focuses on air raids precautions, evacuation and preparations for total war, and resilience, both of citizens and of cities. The legacies of air raids, from

reconstruction to commemoration, are also discussed. While a key theme of the book is the futility of many air campaigns, care is taken to situate them in their historical context. The *Blitz Companion* also includes a guide to documentary and visual resources for students and general readers. Uniquely accessible, comparative and broad in scope this book draws key conclusions about civilian experience in the twentieth century and what these might mean for military engagement and civil reconstruction processes once conflicts have been resolved.

Waste into Weapons - Peter Thorsheim 2015-08-31

During the Second World War, the United Kingdom faced severe shortages of many essential raw materials. To keep its armaments factories running, the British government enlisted millions of people in efforts to recycle a wide range of materials for use in munitions production. Recycling not only supplied British munitions factories with much-needed raw materials - it also played a key role in the efforts of the British government to maintain the morale of its citizens, to secure billions of dollars in Lend-Lease aid from the United States, and even to uncover foreign intelligence. However, Britain's wartime recycling campaign came at a cost: it consumed many items that would never have been destroyed under normal circumstances, including significant parts of the nation's cultural heritage. Based on extensive archival research, Peter Thorsheim examines the relationship between armaments production, civil liberties, cultural preservation, and diplomacy, making *Waste into Weapons* the first in-depth history of twentieth-century recycling in Britain.

Material Cultures of Childhood in Second World War Britain - Gabriel Moshenska 2019-04-01

How do children cope when their world is transformed by war? This book draws on memory narratives to construct an historical anthropology of childhood in Second World Britain, focusing on objects and spaces such as gas masks, air raid shelters and bombed-out buildings. In their struggles to cope with the fears and upheavals of wartime, with families divided and familiar landscapes lost or transformed, children reimagined and reshaped these material traces of conflict into toys, treasures and

playgrounds. This study of the material worlds of wartime childhood offers a unique viewpoint into an extraordinary period in history with powerful resonances across global conflicts into the present day.
