Treatment of Opioid Use Disorder, Second Edition - John A. Renner Jr., M.D. 2017-12-05
Bulleted clinical pearls at the end of each chapter, as well as specific clinical recommendations and detailed case discussions throughout the book, make it easier for readers to retain knowledge and integrate it into their practice.

Scripting Addiction - E. Summerson Carr 2010-10-18
Gaming the language of addiction treatment Scripting Addiction takes readers into the highly ritualized world of mainstream American addiction treatment. It is a world where clinical practitioners evaluate how drug users speak about themselves and their problems, and where the ideal of "healthy" talk is explicitly promoted, carefully monitored, and identified as the primary sign of therapeutic progress. The book explores the puzzling question: why do addiction counselors dedicate themselves to reconciling drug users' relationship to language in

order to reconfigure their relationship to drugs? To answer this question, anthropologist Summerson Carr traces the charged interactions between counselors, clients, and case managers at "Fresh Beginnings," an addiction treatment program for homeless women in the midwestern United States. She shows that shelter, food, and even the custody of children hang in the balance of everyday therapeutic exchanges, such as clinical assessments, individual therapy sessions, and self-help meetings. Acutely aware of the high stakes of self-representation, experienced clients analyze and learn to effectively perform prescribed ways of speaking, a mimetic practice they call "flipping the script." As a clinical ethnography, Scripting Addiction examines how decades of clinical theorizing about addiction, language, self-knowledge, and sobriety is manifested in interactions between counselors and

clients. As an ethnography of the contemporary United States, the book demonstrates the complex cultural roots of the powerful clinical ideas that shape therapeutic transactions— and by extension administrative routines and institutional dynamics—at sites such as "Fresh Beginnings." *PANDEMIC - WHAT WILL BE THE NEXT?* - Willard Lipsey

Counseling Criminal Justice Offenders - Ruth E. Masters
2021-04-13

"Excellent book, the best I have read." —John McCullogh, South Hills Business School
Counseling Criminal Justice Offenders, Second Edition

takes a practical view of offenders, their problems, and the difficulties counselors face working with them in criminal justice settings. Author Ruth E. Masters examines criminal justice counseling on an individual and group basis and in a variety of settings such as prisons, probation and parole agencies, diversion programs, group homes, halfway houses, prerelease facilities, and U.S. jails. The book also explores the many faces of offenders — young, old, male, female, and across many cultures. The Second Edition of Counseling Criminal Justice Offenders recognizes that individuals who counsel offenders in the criminal justice system often have not had the extensive training of a licensed psychologist and this text is designed to provide readers with an understanding of the counseling process. The book explores practical knowledge of legal principles, appropriate and effective counselor attitudes, and the past and present protocols of American corrections. Features and

Benefits: Each chapter begins with Chapter Highlights and Key Terms and ends with corresponding exercises and discussion questions. A section at the end of each chapter lists relevant Internet sites and suggested readings. The book includes Counselor/Offender role-play scenarios that prepare students for situations such as how to restore order over a group counseling session, handle their own personal feelings about an offender, and much more. An Instructor's Manual including test items and skill-building exercises is available. New to the Second Edition: Chapters have been reorganized to emphasize the importance of counselors creating an alliance with offenders. Discussions have been updated on topics such as multicultural counseling, counseling victims, counseling paraprofessionals, cognitive-behavioral counseling, multimodal counseling, brief counseling, and counseling outcome effectiveness. New chapters have been added on counseling

criminal psychopaths, the role of emotions in the counseling process, counseling male and female offenders, and the relationship between trauma, addiction, and human behavior. Primarily designed for criminal justice students taking correctional counseling courses, *Counseling Criminal Justice Offenders, Second Edition* is also a vital resource for any Criminal Justice, Social Work, Psychology, or Counseling practitioner interfacing with offenders.

The Root of All Healing - Misa Hopkins 2009-05

Within each of us there is a core discovery that needs to be made if we are going to become well. In a direct yet compassionate style, Misa Hopkins reveals the reason so many of us don't get well-even though we have tried a variety of treatments and solutions. There is a growing acknowledgement in contemporary spiritual thought that we are the creators of our own reality, including our health. Hopkins shares real-life stories demonstrating that

healing is not just the result of finding the right cure, but rather a personal opportunity to create wellness by engaging the sacred flow of Divine consciousness. Without promoting any particular healing methodology or spiritual practice, she provides us with simple steps-a guidebook-for accessing the healing power and wisdom that already lives inside. Hopkins candidly takes us into the successes of her own healing as she uncovered and transformed secret needs being met through her life-challenging illnesses. She shows us how illness can actually meet profound subconscious emotional needs, causing us to remain sick, and then she teaches us how to invite our subconscious worlds into alignment with our conscious desires. The result of this alignment is the ultimate root of all healing-a new level of our own Divine awareness and power awakened. "If everyone seeking medical and holistic help read this and addressed the hidden barriers

to healing, they would get healthier faster and with less struggle. I want all my patients to have this book!" -Valerie Olmsted, NMD, Host of The Enlightened Medicine Show "Misa, after witnessing the results of your healing steps several times in my life and in the lives of clients you've helped, I know miracles can be created." -Kevin Hooey, Transformational Coach "This book is absolutely brilliant! Misa puts important concepts together in a way that makes you go...'Oh I get it!' It's a first aid handbook for the new 21st century consciousness." - Cheryl McDaniel, LPN "The 7 steps provide practical ways any of us can develop grass roots self-mastery in our journey of Divine awareness and healing." -John Brown, Minister "I have fewer migraines, less back pain, and sleep better! I am so much more upbeat and happy; trusting myself and my process, and enjoying ordinary life now!" -Arleahna, Spiritual Healer
