Writing, Directing, and Producing Documentary Films and Videos, Fourth Edition - Alan Rosenthal 2007-06-26

As Alan Rosenthal states in the preface to this new edition of his acclaimed resource for filmmakers, *Writing, Directing, and Producing Documentary Films and Videos* is “a book about storytelling—how to tell great and moving stories about fascinating people, whether they be villains or heroes.” In response to technological advances and the growth of the documentary hybrid in the past five years, Rosenthal reconsiders how one approaches documentary filmmaking in the twenty-first century. Simply and clearly, he explains how to tackle day-to-day problems, from initial concept through distribution. He demonstrates his ideas throughout the book with examples from key filmmakers’ work. New aspects of this fourth edition include a vital new chapter titled “Making Your First Film,” and a considerable enlargement of the section for producers, “Staying Alive,” which includes an extensive discussion of financing, marketing, festivals, and distribution. This new edition offers a revised chapter on nonlinear editing, more examples of precise and exacting proposals, and the addition of a complex budget example with explanation of the budgeting process. Discussion of documentary hybrids, with suggestions for mastering changes and challenges, has also been expanded, while the “Family Films” chapter includes updated information that addresses rapid expansion in this genre.

Border Wars - Julie Hirschfeld Davis 2020-11-03

Two New York Times Washington correspondents provide a detailed, “fact-based account of what precipitated some of this administration’s more brazen assaults on immigration” (*The Washington Post*) filled with

never-before-told stories of this key issue of Donald Trump’s presidency. No issue matters more to Donald Trump and his administration than restricting immigration. Julie Hirschfeld Davis and Michael D. Shear have covered the Trump administration from its earliest days. In *Border Wars*, they take us inside the White House to document how Stephen Miller and other anti-immigration officials blocked asylum-seekers and refugees, separated families, threatened deportation, and sought to erode the longstanding bipartisan consensus that immigration and immigrants make positive contributions to America. Their revelation of Trump’s desire for a border moat filled with alligators made national news. As the authors reveal, Trump has used immigration to stoke fears (“the caravan”), attack Democrats and the courts, and distract from negative news and political difficulties. As he seeks reelection in 2020, Trump has elevated immigration in the imaginations of many Americans into a national crisis. *Border Wars* identifies the players behind Trump’s anti-immigration policies, showing how they planned, stumbled and fought their way toward changes that have further polarized the nation. “[Davis and Shear’s] exquisitely reported *Border Wars* reveals the shattering horror of the moment, [and] the mercurial unreliability and instability of the president” (*The New York Times Book Review*).

Reminiscences of a Canadian Pioneer for the Last Fifty Years - Samuel Thompson 1884

Artificial Hells - Claire Bishop 2012-07-24

Since the 1990s, critics and curators have broadly accepted the notion that participatory art is the ultimate political art: that by encouraging an

audience to take part an artist can promote new emancipatory social relations. Around the world, the champions of this form of expression are numerous, ranging from art historians such as Grant Kester, curators such as Nicolas Bourriaud and Nato Thompson, to performance theorists such as Shannon Jackson. *Artificial Hells* is the first historical and theoretical overview of socially engaged participatory art, known in the US as "social practice." Claire Bishop follows the trajectory of twentieth-century art and examines key moments in the development of a participatory aesthetic. This itinerary takes in Futurism and Dada; the Situationist International; Happenings in Eastern Europe, Argentina and Paris; the 1970s Community Arts Movement; and the Artists Placement Group. It concludes with a discussion of long-term educational projects by contemporary artists such as Thomas Hirschhorn, Tania Bruguera, Paweł Althamer and Paul Chan. Since her controversial essay in *Artforum* in 2006, Claire Bishop has been one of the few to challenge the political and aesthetic ambitions of participatory art. In *Artificial Hells*, she not only scrutinizes the emancipatory claims made for these projects, but also provides an alternative to the ethical (rather than artistic) criteria invited by such artworks. *Artificial Hells* calls for a less prescriptive approach to art and politics, and for more compelling, troubling and bolder forms of participatory art and criticism.

The Complete Stories of Evelyn Waugh - Evelyn Waugh 2000-01-07
A "lavishly entertaining" (Publishers Weekly) distillation of Waugh's genius--abundant evidence that one of the twentieth century's most admired and enjoyed English novelists was also a master of the short form. Evelyn Waugh's short fiction reveals in miniaturized perfection the elements that made him the greatest satirist of the twentieth century. The stories collected here range from delightfully barbed portraits of the British upper classes to an alternative ending to Waugh's novel *A Handful of Dust*; from a "missing chapter" in the life of Charles Ryder, the nostalgic hero of *Brideshead Revisited*, to a plot-packed morality tale that Waugh composed at a very tender age; from an epistolary lark in the voice of "a young lady of leisure" to a darkly comic tale of scandal in a remote (and imaginary) African outpost.

Tabletop Role-Playing Games and the Experience of Imagined Worlds - Nicholas J. Mizer 2019-11-22

In 1974, the release of *Dungeons & Dragons* forever changed the way that we experience imagined worlds. No longer limited to simply reading books or watching movies, gamers came together to collaboratively and interactively build and explore new realms. Based on four years of interviews and game recordings from locations spanning the United States, this book offers a journey that explores how role-playing games use a combination of free-form imagination and tightly constrained rules to experience those realms. By developing our understanding of the fantastic worlds of role-playing games, this book also offers insight into how humans come together and collaboratively imagine the world around us.

The World of Caffeine - Bennett Alan Weinberg 2004-11-23

Caffeine is the world's most popular drug! Almost all of us start our day with a jolt of caffeine from coffee, tea or cola. And many of us crave chocolate when we're stressed or depressed. Without it we're lethargic, head-achy and miserable. Why? Why do we crave caffeine? How much do we really know about our number one drug of choice? Here is the first natural, cultural, and artistic history of our favorite mood enhancer--how it was discovered, its early uses, and the unexpected parts it has played in medicine, religion, painting, poetry, learning, and love. Weinberg and Bealer tell an intriguing story of a remarkable substance that has figured prominently in the exchanges of trade and intelligence among nations and whose most common sources, coffee, tea, and chocolate, have been both promoted as productive of health and creativity and banned as corrupters of the body and mind or subverters of social order. Some

Highlights From the World of Caffeine Balzac's addiction to caffeine drove him to eat coffee, as some schizophrenic patients are observed to do today, and may have killed him Mary Tuke breaks the male monopoly on tea in England in 1725 The ways caffeine functions as a smart pill Goethe's responsibility for the discovery of caffeine Did a mini Ice Age help bring coffee, tea and chocolate to popularity in Europe? What is the mystery of coffee's origin? As good as gold: the stories of how caffeine, in its various forms, was used as cash in China, Africa, Central America and Egypt What does the civet cat have to do with the most costly coffee on earth today? The World of Caffeine is a captivating tale of art and society -- from India to Balzac to cybercafes -- and the ultimate caffeine resource.

[In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back cover.

Goebbels - David John Cawdell Irving 1996

Height only five-foot four; a figure of Ghandi-like emaciation barely tipping the scales at one hundred pounds; a head too large for his body; a clubfoot for which he was taunted as both man and boy - all the cards seemed stacked against him. Goebbels blamed the world at large; he hated the human race, and he boasted of his hatred in his secret diaries. Historian David Irving is the first to make use of the entire 80,000 pages of the Goebbels diaries - diaries that lay unrecognized for fifty years in the Red Army's "Trophy" archives in Moscow. From this extraordinary trove, to which Irving has added six years' research into the archives of the Western World, he has written the first full-scale biography of Adolf Hitler's confidant and evil genius, Dr. Joseph Goebbels. Here for the first

time are Goebbels's secret, unpublished writings on the Reichstag Fire, the Night of the Long Knives, the Dollfuss murder, the Saar plebiscite, the invasion of Prague, Pearl Harbor, and scores of other turning points in modern history. Dr. Goebbels faithfully records Hitler's innermost councils, documenting the hidden methods and strategies of Nazi leadership.

Learning Spaces - Diana Oblinger 2006

El espacio, ya sea físico o virtual, puede tener un impacto significativo en el aprendizaje. Learning Spaces se centra en la forma en que las expectativas de los alumnos influyen en dichos espacios, en los principios y actividades que facilitan el aprendizaje y en el papel de la tecnología desde la perspectiva de quienes crean los entornos de aprendizaje: profesores, tecnólogos del aprendizaje, bibliotecarios y administradores. La tecnología de la información ha aportado capacidades únicas a los espacios de aprendizaje, ya sea estimulando una mayor interacción mediante el uso de herramientas de colaboración, videoconferencias con expertos internacionales o abriendo mundos virtuales para la exploración. Este libro representa una exploración continua a medida que unimos el espacio, la tecnología y la pedagogía para asegurar el éxito de los estudiantes.

Rapture of the Nerds - Cory Doctorow 2013-04-12

At the dusk of the twenty-first century, Welsh technophobe Huw is one of the billion or so hominids left on Earth, living in a preserve at the bottom of a gravity well. The rest have emigrated, uploading their consciousness to a vast cloud that fogs the inner solar system with a dust of molecular machinery, and occasionally spams Earth with plans for cataclysmically disruptive technologies. Wary of anything more sophisticated than his bicycle, Huw jumps at the chance to attend tech jury service and defend the Earth from the scum of the post-singularity patent office. But his long-awaited stint is cut short when he becomes infected with an itchy technovirus, and unwittingly becomes the last hope of the entire universe.

The Line of Beauty - Alan Hollinghurst 2014-12-15

CELEBRATING 50 YEARS OF PICADOR BOOKS Winner of the Man Booker Prize, *The Line of Beauty* is a classic novel about class, politics and sexuality in Margaret Thatcher's 1980s Britain. There was the soft glare of the flash - twice - three times - a gleaming sense of occasion, the gleam floating in the eye as a blot of shadow, his heart running fast with no particular need of courage as he grinned and said, 'Prime Minister, would you like to dance?' In the summer of 1983, twenty-year-old Nick Guest moves into an attic room in the Notting Hill home of the wealthy Feddens: Gerald, an ambitious Tory MP, his wife Rachel and their children Toby and Catherine. Innocent of politics and money, Nick is swept up into the Feddens' world and an era of endless possibility, all the while pursuing his own private obsession with beauty. *The Line of Beauty* is Alan Hollinghurst's Man Booker Prize-winning masterpiece. It is a novel that defines a decade, exploring with peerless style a young man's collision with his own desires, and with a world he can never truly belong to. Part of the Picador Collection, a new series showcasing the best of modern literature.

The Reckoning - Jacob Soll 2014-04-28

In *The Reckoning*, award-winning historian Jacob Soll shows how the use and misuse of financial bookkeeping has determined the fates of entire societies. Time and again, Soll reveals, good and honest accounting has

been a tool to build successful companies, states and empires. Yet when it is neglected or falls into the wrong hands, accounting has contributed to cycles of destruction that continue to this day. Combining rigorous scholarship and fresh storytelling, *The Reckoning* traces the surprisingly powerful influence of accounting on financial and political stability, from the powerful Medici bank in 14th century Italy to the 2008 financial crisis.

Photography and the Art of Chance - Robin Kelsey 2015

As anyone who has wielded a camera knows, photography has a unique relationship to chance. It also represents a struggle to reconcile aesthetic aspiration with a mechanical process. Robin Kelsey reveals how daring innovators expanded the aesthetic limits of photography in order to create art for a modern world.

To Begin To Know - David Leser 2014-07-01

Wasn't that the whole point of being alive? ... To ask the right questions, not just as a journalist but as a human being? To not just examine other people's dark, cold, self-hating, contradictory, disconnected places, but to examine one's own, given that this was possibly the most uncomfortable inquiry one could ever undertake? ... not to rush to one position or another, but to allow disparate ideas to co-exist, within ourselves and within others. To begin to know oneself, and to begin to know that we don't know. More than a decade ago, journalist David Leser started writing a biography of his famous father, legendary magazine publisher, Bernard Leser. But David couldn't finish the project because he didn't want to employ his investigative and forensic feature writer's skills to unmask his father - to do so seemed utterly at odds with his desire to be the loving son he wanted to be. But freed from the obligation of having to think of his father as a book project, David started seeing him as a man, as both a son and a father, as someone loved and familiar but also flawed and unknowable. And the harder he looked at his father, the more he saw himself and how his own life had been lived both in tribute to and rebellion from the legacy of his father. A lyrical, deeply moving and searingly honest memoir of two men, father and son, and their shared truths and burdens, *To Begin to Know* is a story of love and
