by a staggering number and variety of laws. This first concise compendium of the nation's sex laws brings together in one place and summarizes the laws regulating personal sexual activity. In doing so, it reveals gaps, anachronisms, anomalies, inequalities, and irrationalities, and provides an empirical basis for studies of sexual regulation. From Alabama to Wyoming, this informative and fascinating reference book will be an essential resource to a wide range of persons both within and outside the legal profession - specialists in the regulation of sexual behavior, students of the legislative process, lawyers involved in family and sex law, and anyone interested in social and political issues involving sexual orientation and sexual morality.

Caritas Coaching - Sara Horton- Deutsch
2018-03-15

Historically, nurses have been the source of heart and healing in the healthcare system. But today's care providers have little opportunity to

make sense of their own experiences[md]let alone be fully present for others. Nurses and other care providers are often ill-prepared for the heavy toll of their day-to-day workload and find themselves at a crossroads: accept things the way they are or search for a different way. Through stories of caring moments, transpersonal journeys, and ongoing evolution, Caritas Coaching provides nurses and other caregivers a deep, intimate look at how to integrate Caring Science into their practice. Caring Science offers a scientific and philosophical context to explore, describe, and research human healing - ultimately providing a path for bringing care back into healthcare. By integrating Caring Science into their practice, nurses can balance information and technology with the human side of healthcare.
