Child Maltreatment Surveillance - 2008

The purpose of the child maltreatment uniform definitions and recommended data elements is to present a definition of child maltreatment, its associated terms, and recommended data elements for voluntary use by individuals and organizations in the public health community. The definitions and data elements are intended to promote and improve consistency of child maltreatment surveillance for public health practices. It is designed to be used by state and local health department staff to assist in and provide a framework for the collection of public health surveillance data on child maltreatment. The definitions included in the document draw upon definitions that are currently in use in the literature and were adapted in collaboration with a panel of experts on child maltreatment and public health surveillance. The definitions and data elements are designed to be flexible tools for developing an ongoing surveillance system. Agencies that use the document can modify data elements to fit their system. This document is the third in a series of Uniform Definitions and Recommended Data Elements which includes: Intimate Partner Violence Surveillance: Uniform Definitions and Recommended Data Elements and Sexual Violence Surveillance: Uniform Definitions and Recommended Data Elements.

Complications of Abortion - Organisation mondiale de la santé 1995

Sets out guidelines that can help reduce the high levels of maternal morbidity and mortality associated with abortion whether spontaneous or induced. Recommendations and advice are backed by extensive practical experience and rooted in the principle that emergency care for the complications of abortion should be available 24 hours a day in every health care system. In view of the need to prevent life-threatening complications the book also establishes standards of safe abortion practice for use in those countries where abortion is permitted by law. Prevention of abortion through education and family planning is likewise discussed. Addressed to health managers administrators and care providers the book follows a step-by-step approach to the provision of emergency and preventive care. The first three chapters describe the magnitude of mortality and morbidity caused by unsafe abortions define the essential components of abortion care at each level in the health system and discuss the ways in which legal and societal factors affect abortion behaviour and care. Against this background the remaining eleven chapters provide technical and managerial guidelines for each component of service at each level of the health system needed to ensure that all women have access to care 24 hours a day. A chapter on planning is followed by three chapters outlining the clinical elements of emergency abortion care. Of particular value is a chapter on patient information and counselling which emphasizes the importance of providing information in a supportive manner. Other chapters offer detailed guidance on the facilities equipment and drugs needed for abortion care on the training and supervision of staff and on ways to overcome several obstacles that make it difficult for women in remote rural areas to receive timely care.

Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia - Camille Louise Pellerin 2023-07-15

In 2014-15, the Ethiopian government, together with many academics and observers, was surprised by the outbreak of anti-government protests, as large-scale public contestation of the Ethiopian People's Revolutionary Democratic Front (EPRDF) had been largely absent in the regime's history. The dominant narrative about the EPRDF regime was that it was a top-down government, using authoritarian methods to ensure the population abided by its visions and directives, and describing its role in paternalistic ways, such as being the protector and guardian of the people. Changing this narrative, *Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia* considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting. Focusing on the EPRDF regime over a period of three decades up to 2019, the book explores civic activism in Ethiopia, presenting diverse examples of how citizens have (re)shaped the country. Challenging state-centric readings of state-society relations under EPRDF governance, this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society. The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors (co-optation, co-operation, coexistence, and contestation) and captures the ways in which civil society actors make their voices heard. At a time when authoritarian forms of governance are increasingly prevalent across the world, this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top-down contexts.

Essential Tuberculosis - Giovanni Battista Migliori 2021-07-26

This textbook covers the full spectrum of tuberculosis-related topics in a comprehensive yet easy-to-follow, readily accessible format. Filling a significant gap in tuberculosis literature, it addresses tuberculosis sensu lato, mirroring the content of the London Queen Mary University tuberculosis Diploma. Covering all

aspects related to this condition, from prevention, diagnosis and treatment to public and global health, the book provides a broad overview of tuberculosis management. Further, it includes a wealth of case studies and exercises, making it an essential guide for all staff involved in tuberculosis management. Written by an international and interdisciplinary panel of experts, the book appeals to a broad readership including students, postdoctoral fellows, clinicians, researchers, and nurses, as well as public health officers working in tuberculosis control programs.

Marcus Off Duty - Roy Finamore 2014-10-21

Unwind with 150 relaxed, multicultural dishes from the award-winning celebrity chef and New York Times-best-selling author! Born in Ethiopia, raised in Sweden, and trained in European kitchens, Marcus Samuelsson is a world citizen turned American culinary icon—the youngest chef ever to receive three stars from the New York Times, a five-time James Beard Award recipient, a winner of Top Chef Masters, and a judge on Chopped. He was even chosen to cook President Obama’s first state dinner. In *Marcus Off-Duty*, the chef former president Bill Clinton says “has reinvigorated and reimagined what it means to be American” serves up the dishes he makes at his Harlem home for his wife and friends. The recipes blend a rainbow of the flavors he has experienced in his travels: Ethiopian, Swedish, Mexican, Caribbean, Italian, and Southern soul. With these recipes, you too can enjoy his eclectic, casual food—including Dill-Spiced Salmon; Coconut-Lime Curried Chicken; Mac, Cheese, and Greens; Chocolate Pie Spiced with Indian Garam Masala; and for kids, Peanut Noodles with Slaw . . . and much more. “Highly recommended for adventurous and well-traveled home cooks, as well as fans of Susan Feniger’s Street Food.” —Library Journal
