Inducing Labour - Sara Wickham 2018-04-30

When is it better to induce labour than to let a woman's body or baby decide the best time for birth? What are the pros and cons of waiting and of being induced? What about after the due date? When the baby is thought to be bigger than average? When the woman is older? If she had IVF? Or when her waters have broken earlier than usual? Induction of labour is an increasingly common recommendation and more and more women find themselves having to decide whether to let their body and baby go into labour spontaneously or agree to medical intervention. This book explains the process of induction of labour and shares information

from research studies, debates and women's, midwives' and doctors' experiences to help women and families become more informed and make the decision that is right for them.

The Mirror - Margaret Safo (Mrs.) 2006-10-28

The Callaghan Green Series Books 1 - 3 - Annie Dyer

Meet the Callaghans in this box set containing the first three novels! Engagement Rate What happens when a hook up leaves you hooked? Jackson Callaghan isn't in the market for a romance, but he does need a marketing executive. Vanessa is looking to expand her business and buying out her partner. Neither are interested in anything that distracts them from work. But sometimes, you might not be looking for love - it finds you... Meet the Callaghans in this off the charts hot office romance! White Knight She has his heart; but she also has a secret Claire

Callaghan secretly loved Killian O'Hara, her older brother's best friend. He was her first love - her first everything - and would've been her last, had things been different. Years later, he's meant to be the man who can protect her when a case becomes deadly. But can she protect her heart - and his - this time? An achingly steamy second chance /brother's best friend romance. Compromising Agreements She's feisty. He's fiery. Compromising is going to be a problem. Maxwell Callaghan has a dozen problems and he doesn't have time for Victoria Esme Davies to be one of them. But the petite, glasses wearing, far-too-sexy to be a historian is waging a war over who gets his teaching room. But neither of them can compromise, and this war will rage all the way to the bedroom... This enemies-to-lovers romance is hot enough to melt your kindle. NSFW - or lecture theatres... This is the first volume, combining Books 1 - 3, along with exclusive content, including Seph v Max, A Callaghan Haunting, Seph as Sport, and a steamy cut scene from Compromising Agreements!

[WHO Global Report on Traditional and Complementary Medicine 2019](#) - World Health Organization 2019-05-16

This report is structured in five parts: national framework for traditional and complementary medicine (T&CM); product regulation; practices and practitioners; the challenges faced by countries; and finally the country profiles. Apart from the section on practices and practitioners the report is consistent with the format of the report of the first global survey in order to provide a useful comparison. The section on practices and practitioners which covers providers education and health insurance is a new section incorporated to reflect the emerging trends in T&CM and to gather new information regarding these topics at a national level. All new information received has been incorporated into individual country profiles and data graphs. The report captures the three phases of progress made by Member States; that is before and after the first WHO Traditional Medicine Strategy (1999?2005) from the first global survey to the second global survey (2005?2012) and from the second survey to the most recent timeline (2012?2018).

Edelman and Kudzma's Canadian Health Promotion Throughout the Life Span - E-Book - Shannon Dames 2020-07-23

Learn the ins and outs of health promotion and disease prevention in Canada with Edelman and Kudzma's Canadian Health Promotion Throughout the Life Span. This all-new, comprehensive text grounds you in the Canadian health objectives for promotion and prevention which aims to improve the health of the entire population and to reduce health inequities among population groups. Among the text's chapters you'll find extensive coverage of growth and development throughout the life span — including coverage of the normal aspects, the unique problems, and the health promotion needs that are found in each age and stage of development. Separate chapters discuss each population group — the individual, the family, and the community — and highlight the unique aspects of caring for each of these groups. In all, this comprehensive and culturally relevant text provides all the tools needed to stay up on the latest research and topics in Canadian health promotion.

[Best Practice in Labour and Delivery](#) - Sir Sabaratnam Arulkumaran 2016-11-24

Management of Unintended and Abnormal Pregnancy - Maureen Paul 2011-08-24

Access to high quality abortion care is essential to women's health, as evidenced by the dramatic decrease in pregnancy-related morbidity and mortality since the legalization of abortion in the United States, and by high rates of maternal death and complications in those countries where abortion is still provided under unsafe conditions. The past two decades have brought important advances in abortion care as well as increasing cross-disciplinary use of abortion technologies in women's health care. Abortion is an important option for pregnant women who have serious medical conditions or fetal abnormalities, and fetal reduction techniques are now well-integrated into infertility treatment to reduce the risks of multiple pregnancies resulting from assisted reproductive technologies. *Management of Unintended and Abnormal Pregnancy: Comprehensive Abortion Care* is the textbook of the National Abortion Federation, and serves as the standard, evidence-based reference text in abortion care.

This state-of-the-art textbook provides a comprehensive overview of the public health implications of unsafe abortion and reviews the best surgical and medical practices for pregnancy termination, as well as managing ectopic and other abnormal pregnancies. Management of Unintended and Abnormal Pregnancy: Comprehensive Abortion Care is the leading source for a comprehensive understanding of issues related to unintended and abnormal pregnancy. This textbook: is authored by internationally-known leaders in women's health care; addresses unintended pregnancy and abortion from historical, legal, public health, clinical, and quality care perspectives; includes chapters on pregnancy loss, ectopic pregnancy, gestational trophoblastic disease, and multifetal pregnancy reduction; covers treatment of pregnancies in the first and second trimester by both medical and surgical techniques; and provides resources for clinical, scientific, and social support for the abortion provider and patient.

[WHO Recommendations on Intrapartum Care for a Positive Childbirth Experience](#) - World Health Organization 2018-06-25

This up-to-date comprehensive and consolidated guideline on essential intrapartum care brings together new and existing WHO recommendations that when delivered as a package will ensure good-quality and evidence-based care irrespective of the setting or level of health care. The recommendations presented in this guideline are neither country nor region specific and acknowledge the variations that exist globally as to the level of available health services within and between countries. The guideline highlights the importance of woman-centred care to optimize the experience of labour and childbirth for women and their babies through a holistic human rights-based approach. It introduces a global model of intrapartum care which takes into account the complexity and diverse nature of prevailing models of care and contemporary practice. The recommendations in this guideline are intended to inform the development of relevant national- and local-level health policies and clinical protocols. Therefore the target audience includes national and local public health policy-makers implementers and managers of maternal and child health programmes health care facility

managers nongovernmental organizations (NGOs) professional societies involved in the planning and management of maternal and child health services health care professionals (including nurses midwives general medical practitioners and obstetricians) and academic staff involved in training health care professionals.

Never Shower in a Thunderstorm - Anahad O'Connor 2014-08-22

Ever been told that reading in bad light will damage your eyes? Or have you ever noticed that mosquitoes seem to attack some people more than others? Or perhaps you would just really like to know why on earth you shouldn't shower in a thunderstorm? For the reader of an inquisitive or sceptical bent, *Never Shower in a Thunderstorm* lays bare the truth behind the many myths about our health and the world we live in, including: Do tall people live longer than short people? Does celery have negative calories? Why you should never go to work on Mondays? Is chocolate really an aphrodisiac? Covering all aspects of health and human nature, including DNA, sex, exercise, food, the environment, germs, medicine, stress, and general wellbeing, *Never Shower in a Thunderstorm* is a fascinating look at the truth behind the myths.

Midwifery and Sexuality - Sam Geuens 2023-03-09

This first open-access book on midwifery and sexuality integrates sexual health into the care for the pregnant and postpartum couple. It addresses sexuality and intimacy from an education and prevention perspective instead of just focusing on treating problems, aiming to foster the development of sexual well-being and happy couplehood. Sexuality and intimacy are essential elements in the bonding of the couple and the parents-to-be. That process can be seriously hampered by sexual problems due to mutual misunderstanding, fear and sexual troubles (especially when the natural processes of conceiving, pregnancy and delivery are disturbed). In this phase of life, disruption of intimacy, sexuality and sexual relationship is a significant risk factor for developing couple and family problems. The need for such a book stems from the very limited attention given to this health area in the daily

practice of most midwives and related healthcare professionals. In building a close relationship with the couple through frequent, intense, longstanding contact, the midwife acquires a perfect position to address sexuality and intimacy. With 36 authors from 14 countries, the book comprises five modules: 1. Sexuality; 2. Sexual aspects of the various phases of reproduction when things develop without complications; 3. Sexual aspects when those same phases deviate from physiology; 4. Special topics on sexuality relevant to daily midwifery practice; 5. Teaching, learning, skills and competencies with regard to sexuality. This new practical textbook guides healthcare professionals such as midwives, obstetricians, gynaecologists, nurses, general practitioners, pelvic floor therapists, etc., by offering both basic knowledge and skills on sexual health and wellbeing, combined with modern sexological knowledge, like the entirely new topic of sexual aspects of preconception care.
