

Dude You're A Fag Masculinity And Sexuality In High School

Everything In Its Path - Kai T. Erikson
2012-04-10

The 1977 Sorokin Award-winning story of Buffalo Creek in the aftermath of a devastating flood. On February 26, 1972, 132-million gallons of debris-filled muddy water burst through a makeshift mining-company dam and roared through Buffalo Creek, a narrow mountain hollow in West Virginia. Following the flood, survivors from a previously tightly knit community were crowded into trailer homes with no concern for former neighborhoods. The result was a collective trauma that lasted longer than the individual traumas caused by the original disaster. Making extensive use of the words of the people themselves, Erikson details the conflicting tensions of mountain life in general—the tensions between individualism and dependency, self-assertion and resignation, self-centeredness and group orientation—and examines the loss of connection, disorientation, declining morality, rise in crime, rise in out-migration, etc., that resulted from the sudden loss of neighborhood.

An Education in Sexuality and Sociality - Frank G. Karioris 2018-11-28

This book addresses the imbricated nature of sociality and sexuality and the entanglements this has with the university as an educating institution. Addressing these through empirical research, this book pushes for a more nuanced understanding of relations on campus.

Manhood Acts - Michael Schwalbe 2015-11-17
In *Manhood Acts* Michael Schwalbe offers a new perspective on the social construction of manhood and its relationship to male domination. Schwalbe argues that study of masculinity has lost touch with its feminist roots and has been seduced by the politically safe notion of 'multiple masculinities'. *Manhood Acts* delineates the practices males use to construct 'women' and 'men' as unequal categories. Schwalbe reclaims the radical feminist insights

that gender is a field of domination, not a field of play, and that manhood is fundamentally about exerting or resisting control. *Manhood Acts* arrives at the conclusion that abolishing gender as a system of oppression will require more than transgressive self-presentation. It will be necessary to end the exploitive economic relationships that necessitate manhood itself.

Gender Play - Barrie Thorne 1993

You see it in every school playground: the girls play only with girls, the boys play only with boys. Why? And what do children themselves think about this? This book develops fresh insights into the everyday social worlds of kids in schools.

Dude, You're a Fag - C. J. Pascoe 2007-06-04
High school and the difficult terrain of sexuality and gender identity are brilliantly explored in this smart, incisive ethnography. Based on eighteen months of fieldwork in a racially diverse working-class high school, *Dude, You're a Fag* sheds new light on masculinity both as a field of meaning and as a set of social practices. C. J. Pascoe's unorthodox approach analyzes masculinity as not only a gendered process but also a sexual one. She demonstrates how the "specter of the fag" becomes a disciplinary mechanism for regulating heterosexual as well as homosexual boys and how the "fag discourse" is as much tied to gender as it is to sexuality.

Being Boys; Being Girls: Learning Masculinities And Femininities - Paechter, Carrie 2007-07-01

This book is about how boys and girls learn to be men and women. Drawing on a wide range of studies, the author examines how masculinities and femininities are developed and understood by children and young people, in families, in schools, and with their peers.

Black Boys Apart - Freedren Blume Oeur 2018-08-07

How neoliberalism and the politics of respectability are transforming African American

manhood While single-sex public schools face much criticism, many Black communities see in them a great promise: that they can remedy a crisis for their young men. *Black Boys Apart* reveals triumphs, hope, and heartbreak at two all-male schools, a public high school and a charter high school, drawing on Freedom Blume Oeur's ethnographic work. We meet young men who felt their schools empowered and emasculated them, parents who were frustrated with co-ed schools, teachers who helped pave the road to college, and administrators who saw in Black male academies the advantages of privatizing education. While the two schools have distinctive histories and ultimately charted different paths, they were both shaped by the convergence of neoliberal ideologies and a politics of Black respectability. As Blume Oeur reveals, all-boys education is less a school reform initiative and instead joins a legacy of efforts to reform Black manhood during periods of stark racial inequality. Black male academies join long-standing attempts to achieve racial uplift in Black communities, but in ways that elevate exceptional young men and aggravate divisions within those communities. *Black Boys Apart* shows all-boys schools to be an odd mix of democratic empowerment and market imperatives, racial segregation and intentional sex separation, strict discipline and loving care. Challenging narratives that endorse these schools for nurturing individual resilience in young Black men, this perceptive and penetrating ethnography argues for a holistic approach in which Black communities and their allies promote a collective resilience.

Exploring Masculinities - C. J. Pascoe 2016
Exploring Masculinities: Identity, Inequality, Continuity, and Change is a comprehensive and contemporary reader for the growing field of men's and masculinities studies. It takes a conceptual approach by covering the wide range of scholarship being done on masculinities beyond the model of hegemonic masculinity. C.J. Pascoe and Tristan Bridges extend the boundaries of the field and provide a new framework for understanding masculinities studies. Rather than taking a topics-based approach to masculinity, *Exploring Masculinities* offers an innovative conceptual approach that enables students to study a given phenomenon

from a variety of perspectives. It divides up the field in ways that provide accessible introductions to complex debates and key intra- and interdisciplinary distinctions. The book provides a portable set of conceptual tools on which scholars and students can rely to analyze masculinities in different contexts, time periods, and embodiments.

There Goes the Gayborhood? - Amin Ghaziani 2015-11-24

An in-depth look at America's changing gay neighborhoods Gay neighborhoods, like the legendary Castro District in San Francisco and New York's Greenwich Village, have long provided sexual minorities with safe havens in an often unsafe world. But as our society increasingly accepts gays and lesbians into the mainstream, are "gayborhoods" destined to disappear? Amin Ghaziani provides an incisive look at the origins of these unique cultural enclaves, the reasons why they are changing today, and their prospects for the future. Drawing on a wealth of evidence—including census data, opinion polls, hundreds of newspaper reports from across the United States, and more than one hundred original interviews with residents in Chicago, one of the most paradigmatic cities in America—*There Goes the Gayborhood?* argues that political gains and societal acceptance are allowing gays and lesbians to imagine expansive possibilities for a life beyond the gayborhood. The dawn of a new post-gay era is altering the character and composition of existing enclaves across the country, but the spirit of integration can coexist alongside the celebration of differences in subtle and sometimes surprising ways. Exploring the intimate relationship between sexuality and the city, this cutting-edge book reveals how gayborhoods, like the cities that surround them, are organic and continually evolving places. Gayborhoods have nurtured sexual minorities throughout the twentieth century and, despite the unstoppable forces of flux, will remain resonant and revelatory features of urban life.

Seduction - Rachel O'Neill 2018-06-28

Within the so-called seduction community, the

ability to meet and attract women is understood as a skill which heterosexual men can cultivate through practical training and personal development. Though it has been an object of media speculation – and frequent sensationalism – for over a decade, this cultural formation remains poorly understood. In the first book-length study of the industry, Rachel O’Neill takes us into the world of seduction seminars, training events, instructional guidebooks and video tutorials. Pushing past established understandings of ‘pickup artists’ as pathetic, pathological or perverse, she examines what makes seduction so compelling for those drawn to participate in this sphere. Seduction vividly portrays how the twin rationalities of neoliberalism and postfeminism are reorganising contemporary intimate life, as labour-intensive and profit-orientated modes of sociality consume other forms of being and relating. It is essential reading for students and scholars of gender, sexuality, sociology and cultural studies, as well as anyone who wants to understand the seduction industry’s overarching logics and internal workings.

Living and Learning with New Media - Mizuko Ito 2009-06-05
This report summarizes the results of an ambitious three-year ethnographic study, funded by the John D. and Catherine T. MacArthur Foundation, into how young people are living and learning with new media in varied settings—at home, in after school programs, and in online spaces. It offers a condensed version of a longer treatment provided in the book *Hanging Out, Messing Around, and Geeking Out* (MIT Press, 2009). The authors present empirical data on new media in the lives of American youth in order to reflect upon the relationship between new media and learning. In one of the largest qualitative and ethnographic studies of American youth culture, the authors view the relationship of youth and new media not simply in terms of technology trends but situated within the broader structural conditions of childhood and the negotiations with adults that frame the experience of youth in the United States. The book that this report summarizes was written as a collaborative effort by members of the Digital Youth Project, a three-year research effort funded by the John D. and Catherine T. MacArthur Foundation and conducted at the University of California, Berkeley, and the University of Southern California. John D. and Catherine T. MacArthur Reports on Digital Media and Learning

Just One of the Guys? - Kristen Schilt 2011-01-15

The fact that men and women continue to receive unequal treatment at work is a point of contention among politicians, the media, and scholars. Common explanations for this disparity range from biological differences between the sexes to the conscious and unconscious biases that guide hiring and promotion decisions. Just One of the Guys? sheds new light on this phenomenon by analyzing the unique experiences of transgender men—people designated female at birth whose gender identity is male—on the job. Kristen Schilt draws on in-depth interviews and observational data to show that while individual transmen have varied experiences, overall their stories are a testament to systemic gender inequality. The reactions of coworkers and employers to transmen, Schilt demonstrates, reveal the ways assumptions about innate differences between men and women serve as justification for discrimination. She finds that some transmen gain acceptance—and even privileges—by becoming “just one of the guys,” that some are coerced into working as women or marginalized for being openly transgender, and that other forms

of appearance-based discrimination also influence their opportunities. Showcasing the voices of a frequently overlooked group, Just One of the Guys? lays bare the social processes that foster forms of inequality that affect us all.
