The Noble Art of Seducing Women - My Foolproof Guide to Pulling Any Woman You Want

Kezia Noble 2012-02-23 Have you ever dreamt of becoming an infallible seducer of women? This book tells you everything you need to know, courtesy of the world's only major female PUA (pick-up artist), Kezia Noble! Unknown until a couple of years ago, Kezia was approached by the organisers to attend a PUA class meeting. She gave it to the other attendees straight, not caring if she offended anyone; the men took it on the chin and took her constructive criticisms on board. Within days and weeks they were trying out her suggested techniques and starting to become more successful with women. Kezia returned to the PUA classes and started to make a name for herself. Kezia Noble is the first woman to offer the aspiring pick-up artist advice on how to attract women from a woman's point of view. She now runs many classes and a workshop, and even produces corporate videos on the chemistry of attracting women. Now, in answer to requests from her students, Kezia has written a book on the 15 steps to becoming a master seducer - which will also prove an invaluable aid to men who cannot afford her classes, who work too far away or don't have enough time. The Noble Art of Seducing Women is the first and only sure-fire pick-up guide to be written by a woman. It has the potential to transform a lonely man into someone who need never be single again . . . unless, of course, he wants to be. Kezia Noble works with her students instead of belittling them. As a sensitive and intelligent young woman, she is becoming known as the best PUA in the business...

Unprotected Miriam Grossman 2007-08-28 Our campuses are steeped in political correctness—that's hardly news to anyone. But no one realizes that radical social agendas have also

taken over campus health and counseling centers, with dire consequences. Psychiatrist Miriam Grossman knows this better than anyone. She has treated more than 2,000 students at one of America's most prestigious universities, and she's seen how the anything-goes, women-are-just-like-men, "safer-sex" agenda is actually making our sons and daughters sick. Dr. Grossman takes issue with the experts who suggest that students' problems can be solved with free condoms and Zolof. What campus counselors and health providers must do, she argues, is tell uncomfortable, politically incorrect truths, especially to young patients in their most vulnerable and confused moments. Instead of platitudes and misinformation, it's time to offer them real protection.

Love Her Well Kari Kampakis 2020-08-18 Now an ECPA Best Seller—Kari Kampakis's *Love Her Well* gives moms ten practical tips for how to build strong and lasting relationships with their daughters. For many women, having a baby girl is a dream come true. But as girls grow up, the narrative of innocence and joy changes to one of dread as moms are told, "Just wait until she's a teenager!" and handed a disheartening and too-often-true script about a daughter's teenage season of life. Author, blogger, and mom to four daughters Kari Kampakis thinks it's time to change the narrative and mind-set that leads moms to parent teen girls with a spirit of defeat instead of strength. *Love Her Well* isn't a guide to help mothers "fix" their daughters or make them behave. It's about a mom's journey, doing the heart-work necessary to love a teenager while still being a steady, supportive parent. Kari offers wisdom about how moms can: Choose their words and timing carefully. Listen and empathize with her teen's world. See the good, and love her for who she is. Take care of themselves and find a support system in the process. By working on the foundation, habits, and dynamics of the relationship; mothers can connect with their teen daughters and earn a voice in their lives that allows moms to offer guidance, love, wisdom, and emotional support. Kari gives

mothers hope, wisdom, and a reminder that all things are possible through God, who is the source of the guidance and clarity they need in order to grow strong relationships with their daughters at every age—especially during the critical teen years.

linguistics, stylistics, and conversation analysis to understand how language resources are used to enact stances in intersubjective space. While there are numerous studies devoted to youth language, the focus has been mainly on face-to-face interaction. Other types of youth interaction, particularly in mediated forms, have received little attention. This book draws on data from four different text types - conversation, e-forums, comics, and teen fiction - to highlight the multidirectional nature of style construction. Indonesia provides a rich context for the study of style and intersubjectivity among youth. In constructing style, Indonesian urban youth have been moving away from conventions which emphasized hierarchy and uniformity toward new ways of connecting in intersubjective space. This book analyzes how these new ways are realized in different text types. This book makes a valuable addition to sociolinguistic literature on youth and language and an essential reading for those interested in Austronesian sociolinguistics.

spread information and shape opinions. After the Arab Spring of 2011, many pointed to the liberating potential of platforms like Facebook and Twitter. Yet five years later, as many Americans reeled in shock from the election of an authoritarian bullshit artist (using philosopher Harry Frankfurt's technical definition of the term), a few perceptive observers began looking at new at the social and political effects of dominant social media platforms, particularly Facebook. And they did not like what they saw. The media studies and IP scholar Siva Vaidhyanathan is one of those sharp observers, and in *Anti-Social Media* he argues that our descent into dystopia stems in no small part from trends that have developed in the online world. The 2016 election saw a remarkable and dispiriting increase of people living themselves off within ideological echo chambers and treating fake news as real. Vaidhyanathan provides a structural explanation of why this happened, and he has located a culprit: social media, and more specifically Facebook. The founders of Facebook may have had (some) good intentions, but he contends that they have created a Frankenstein's monster that they have neither the will nor capacity to rein in. Fake news abounds, and the algorithms that undergird the platform drive people inexorably to news sites that conform to their ideological predilections - which Facebook can figure out with ease. Serious news reporting, already in a parlous state, has suffered even more as people on platforms like Facebook (meaning most people) are bombarded by both snippets of news from multiple sources and ads that look like news. Deliberative democracies require informed citizenries able to distinguish facts and falsehoods. By weakening those skills, social media is eroding the very foundations of our democratic republican culture. Social media-driven false news campaigns and ideological echo chambers are not only visible in the US, either - they are clearly on the rise in Europe and across the developing world too. Vaidhyanathan closes by offering offers a number of smart policy proposals that attack the problem, but they will undoubtedly

be hard to enact. But the first order of business when facing a significant new crisis is to recognize its existence and explain what it is. Anti-Social Media promises to be that path-breaking initial step toward understanding how social media is quickly undermining not only centuries of democratic progress, but civil society itself.

We Are All Armenian Aram Mrjoian 2023-03-14 A collection of essays about Armenian identity and belonging in the diaspora. In the century since the Armenian Genocide, Armenian survivors and their descendants have written of a vast range of experiences using storytelling and activism, two important aspects of Armenian culture. Wrestling with questions of home and self, diasporan Armenian writers bear the burden of repeatedly telling their history, as it remains widely erased and obfuscated. Telling this history requires a tangled balance of contextualizing the past and reporting on the present, of respecting a culture even while feeling lost within it. We Are All Armenian brings

together established and emerging Armenian authors to reflect on the complications of Armenian ethnic identity today. These personal essays elevate diasporic voices that have been historically silenced inside and outside of their communities, including queer, multiracial, and multiethnic writers. The eighteen contributors to this contemporary anthology explore issues of displacement, assimilation, inheritance, and broader definitions of home. Through engaging creative nonfiction, many of them question what it is to be Armenian enough inside an often unacknowledged community.

Parenting for a Digital Future Sonia Livingstone 2020 "In the decades it takes to bring up a child, parents face challenges that are both helped and hindered by the fact that they are living through a period of unprecedented digital innovation. Drawing on extensive research with diverse parents, this book reveals how digital technologies give personal and political parenting struggles a distinctive character, as parents determine how to forge new territory with little precedent, or support. The book reveals the pincer movement of parenting in late modernity. Parents are both more burdened with responsibilities and charged with respecting the agency of their child-leaving much to negotiate in today's "democratic" families. The book charts how parents now often enact authority and values through digital technologies-as "screen time," games, or social media become ways of both being together and setting boundaries. The authors show how digital technologies introduce both valued opportunities and new sources of risk. To light their way, parents comb through the hazy memories of their own childhoods and look toward varied imagined futures. This results in deeply diverse parenting in the present, as parents move between embracing, resisting, or balancing the role of technology in their own and their children's lives. This book moves beyond the panicky headlines to offer a deeply researched exploration of what it means to parent in a period of significant social and

Revolution 2.0 Wael Ghonim 2012-01-17 The former Google executive and political activist tells the story of the Egyptian revolution he helped ignite through the power of social media. In the summer of 2010, thirty-year-old Google executive Wael Ghonim anonymously launched a Facebook page to protest the death of an Egyptian man at the hands of security forces. The page's following expanded quickly and moved from online protests to a nonconfrontational movement. On January 25, 2011, Tahrir Square resounded with calls for change. Yet just as the revolution began in earnest, Ghonim was captured and held for twelve days of brutal interrogation. After he was released, he gave a tearful speech on national television, and the protests grew more intense. Four days later, the president of Egypt was gone. In this riveting story, Ghonim takes us inside the movement and shares the keys to unleashing the power of crowds in the age of social networking.
