The Truth about Dog and Cat Treatments and Anomalies - Robert L. Ridgway, DVM 2013-10-31

You don't have to be a veterinarian to prevent and treat many of the problems that might afflict your four-legged friend. Robert L. Ridgway, a doctor of veterinary medicine, helps you identify conditions and use home remedies and treatments to treat dogs and cats. Written in everyday language, this guide can help you • spot and treat skin infections in minimally invasive ways; • help your pet battle and beat heartworms and other parasites; • encourage good nutrition and address eating problems; and • help your pet overcome stomach problems, gas, and other ailments. While the guide focuses on tackling health problems, it can also help you improve your pet's behavior, avoid common household substances that can harm your pet, and weigh complicated issues involved with end-of-life care and decision making. This handbook covers more than 150 different subjects and includes dosage instructions based on a pet's weight so you can act with confidence. While veterinarians serve an important role, you can fix many problems on your own when you know *The Truth about Dog and Cat Treatments and Anomalies*.

Cat vs. Cat - Pam Johnson-Bennett 2004-07-06

From the author of *Catwise* and *Think Like a Cat*, the ultimate resource for managing a multi-pet household. Pam Johnson-Bennett, the award-winning author and feline behaviorist, shows how adding another cat to your home does not have to be the start of a kitty apocalypse. Although cats are often misunderstood as natural loners, Johnson-Bennett shows how to plan, set up, and maintain a home environment that will help multiple cats—and their owners—live in peace. *Cat vs. Cat* will help readers understand the importance of territory, the specialized communication cats use to establish relationships and hierarchies, and how to interpret the so-called “bad behavior” that leads so many owners to needless frustration. Offering a wealth of information on how to diffuse tension, prevent squabbles and ambushes, blend two families, or help the elder kitty in your family, *Cat vs. Cat* is a welcome resource for both seasoned and prospective guardians of cat families large and small.

Wild Cats of the World - Mel Sunquist 2017-05-15

Did you know that European royalty once used cheetahs to hunt deer, or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start? Have you ever wondered whether domestic cats really do land on their feet when they fall, or how Canada lynx can stalk their prey in the winter without falling through the deep snow? *Wild Cats of the World* is a treasure trove of answers to questions like these, and many others, for anyone who's interested in learning more about the world's felids, including the ones with whom we share our homes. Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source, many of them quite difficult to find, including scientific papers, descriptions of hunts, archeological findings, observations by naturalists and travelers, reports from government agencies, and newsletters from a wide variety of organizations. Weaving information from these sources together with their own experiences observing wild cats around the world, the Sunquists have created the most comprehensive reference on felids available. Each of their accounts of the 36 species of cat contains a description of the cat, including human interactions with it, as well as detailed data on its distribution, ecology and behavior, status in the wild, and efforts to conserve it. Numerous photographs, including more than 40 in full color, illustrate these accounts. Ranging from the two-pound black-footed cat to the five-hundred-pound tiger, and from the African

serval with its satellite-dish ears to the web-footed fishing cat of Asia, Wild Cats of the World will fascinate and educate felid fans of any stripe (or spot).
