It is the duty of each partner to ensure that they are satisfying their lover, but it is also their duty to let their lover know how they are feeling. Humans are not mind readers, and often times do not know what you are thinking. You have to be open with your partner and allow your partner to be open with you. Otherwise, you will have some serious issues. A lot of times people are not open because their partners shut them down, and get angry at criticism, so they feel that they are not able to be open. You have to encourage communication both in and out of the bedroom. In the bedroom, make your partner feel comfortable with vocalization. If they are nervous, let them know that it is not silly, and you like knowing that what you are doing feels good, or if it doesn't feel good, you want to know so that you can make the proper adjustments. You should also lead by example. This book covers: Sex Position For Couples Sex In Pregnancy Oral Sex Anal Sex Kissing Premature Ejaculation Undressing Each Other And much more!!!

**Sex Positions Guide** Scarlett Hunter 2019-11-13 Looking for tips to spice up your sex life? Do you want to improve your relationship with your partner? Then keep reading... When it comes to the subject of sexual positions, the first thing that comes to mind is penetrative. Experimenting a little can, however, make a massive difference in your sex life. Be it adding dildos, lubricants, or even a bowl of fresh grapes, and molten chocolate can make the whole difference. When you change your mindset and address this topic of sexual positions from a different point of view, you can be able to achieve sensations that are way above their normal levels. A good example would be to make sure that you have set the lady's clitoris in such a manner that it cannot be missed; or if you have a lady who is more of the sensitive kind, an indirect stimulation will perform the magic. There are many books out there that claim to guide you on how you can improve your sex lives, the most; however, that they are only able to offer is a whole lot of portrayals and images; similar to a comic book. Other books and also pornographic films and other such materials, they tend to lean on more on the areas where people lack. They tend taking advantage of and consequently eroding people's self-worth and also sexual worth. These books mainly focus on the power of communication and taking advantage of our

**The Kama Sutra of Vatsyayana** Vatsyayana 2021-08-29 The Kama Sutra of Vatsyayana Vatsyayana - The Kama Sutra of Vatsyayana by Richard Francis Burton is an edition of the ancient Indian text on sexuality and emotional needs. Vatsyayana was an ancient Indian philosopher who lived during the second or third century. Although it is often thought of as a sex manual, it is much more, with guides on living well, the nature of love, and finding a partner. Indeed, Vatsyayana says himself: 'This work is not to be used merely as an instrument for satisfying our desires'. Burton did not in fact translate the Kama Sutra - it was translated by the Indian scholar Bhagwan Lal Indraji. It was edited by

Burton to suit prevailing British attitudes to sex, but was still banned in England and the United States until 1962. Other criticisms levelled at Burton's translation is that instead of using English words for the sex organs, he uses the words 'lingam' and 'yoni', despite those words not appearing in the original work. This was seen as an attempt to distance them and make them 'other', rather than about English people's sexual organs. He also removes the agency of women, and where in the original, women's words are direct quotes, in the Burton translation, women's words are removed and put into the passive state (i.e., A woman saying 'Stop!' becomes 'She continually utters words expressive of prohibition'). Despite all this, it has been such an influential translation that even modern editions in the Hindi language are re-translations of the Burton version. The Kama Sutra is an ancient Indian Hindu text widely considered to be the standard work on human sexual behavior in Sanskrit literature written by Vaatsyayana. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual. Contrary to popular perception, especially in the western world, Kama sutra is not exclusively a sex manual; it presents itself as a guide to a virtuous and gracious living that discusses the nature of love, family life and other aspects pertaining to pleasure oriented faculties of human life.

even read it together as you journey towards better sex like a team. In order to ensure that you are getting the most out of sex, the partner whom you choose must be sexually compatible with you. Deciding whether you are sexually compatible with a person involves looking at your ability to communicate your desires, wants, and needs with them. As you have seen over and over in this book, being able to communicate your needs to a person with whom you are having sex is very important in ensuring that you are receiving pleasure. It is also important to ensure that you are working towards your goals. For example, if you decided that you hope to gain a higher level of fitness and a lower level of stress through having regular sex, you must be able to communicate this to your partner. This would come in the form of telling them that you wish to have long and slow thrusts instead of short and fast ones so that you can de-stress as much as possible. It could also be communicating with them which positions you wish to have sex in so that you can work on your fitness. This book covers the following topics: What is intimacy? Orgasm Sex toys Oral sex Masturbation tricks Sex positions for beginners Romance Sex position for male and female sexual satisfaction Practical an erotic massage advice Man on top Woman on top Sex positions for powerful orgasms Spicy sex positions ... AND MORE!!! There are so many possible positions in which to have sex, and this book aimed to narrow that down for you by providing a variety of positions that will bring you different benefits. If you wish to achieve a higher level of fitness, you can choose several positions that are best for weight loss and choose to have sex in these positions primarily. By choosing these over positions that are better for stress reduction, you will be sure that while enjoying sex, you are also accomplishing what you hope to gain from it. *Sex Positions* SelfHelpstar Media 2015-11-02 Sex Position Top Sex Positions. Enhance Your Sex Life With The Best Sex Positions Guide. Is your relationship going stale? Do you think that there's just nothing interesting about your partner anymore and maybe it's time to move on to the next one? Before you do that, have you ever looked into giving what you have a booster shot and saving the relationship you have with your partner? Well, the first thing you both need to do is talk about the things that matter first and why your relationship is worth saving. After that, you need to look into what's happening inside your bedroom. Sometimes, the root cause for a relationship failing is because over the course of time, as more responsibilities come your way and in between you and your partner, you overlook the basics of making a relationship work. One of the things that can make or break a relationship is the level of intimacy you give to one another—and yes, we're talking about sex. Physical interaction and intimacy are highly important to keep your relationship going. It's a very basic human trait to want to be with someone and to have physical contact. Some people may say "We are still having sex, so why isn't our relationship working?" Well, have you asked yourself if you're having sex just for the heck of it leading to boredom? Good news for you then! This book, "Sex Positions: Top Sex Positions. Enhance Your Sex Life With The Best Sex Positions Guide," is all about giving you and your partner new things to experiment on to keep things interesting in and out of the bedroom. This book will list the basics of sex and what you need to understand before you can tackle the more risqué sex positions included. Also, if you're really kinky enough, go on to using the things around you and

your environment to make hot and steamy sex possible again. Furthermore, another chapter tackles the use of toys which will allow you to engage in your sexual fantasies without jeopardizing your relationship with your partner. Not only will this make your life better with more knowledge about sex positions and instructions on how to do each one, but it can lead to more interaction with your partner. For example, since some of the positions listed in this book require a certain level of athleticism and flexibility, you and your partner can engage in physical activity that will improve your muscles, cardio vascular activity, and endurance. The end result is you will become healthier and thus definitely more capable of performing the sexual acts listed in this book. Not only does this book aim to improve your sex life but it will also improve the way you talk to your partner as some of the positions may need a little bit of discussion to see if your partner is open to the idea of performing them. So there you have it—all of the benefits that you can derive from this book not just sexually but also on an emotional and social scale! So limber up and start reading and pick a position to engage in everyday to give your relationship that much needed jolt that will bring it back to life! The sad truth is that most women end up faking an orgasm to avoid the awkward tension when her male knows he hasn't got her there. But not anymore. You now finally understand that the female orgasm is about more than just the physical act and you now know pretty much all you're going to need to get to that wonderful place." "I want you to remember exactly that. The orgasm isn't purely physical; the emotional and psychological elements are still so, so important. It's possible for a person to orgasm without even being touched. It's hard, sure, but it is certainly possible. I just need to demonstrate to you the significance of the mind here. It's a key part of getting a female to her ultimate climax. Think about tantric sex. Now, you might not know a lot about tantric sex, but the idea is that sex is considered virtually spiritual in nature - it's linked to a higher state of being. So clearly sex is more than the mere physical act of stimulating the nerves." "If you're successful here, then the chances are that she won't have anything to say - she will quite literally become speechless! When a female experiences such a hard orgasm she physically won't be able to say anything! She will be so overwhelmed by the sensation that there is no need for words. If you accomplish this then well done, you've done what very few guys ever manage to accomplish because they simply don't know or

*Sex Positions for Couples* Eva Harmon 2023-01-17 Do you want to spice up your sex life and improve your relationship? Are you tired of the same old positions night after night? Have you always been a little intrigued by the idea of kama sutra? If you answered yes to any of these questions, then you are going to want to continue reading. Sex has always been a hush-hush subject because of outdated beliefs and such. This has led to couples getting stuck in a rut when it comes to their sex life. They don't feel that it is "right" to talk to people about their sex life. Times are changing, and more and more people are comfortable talking about their sex life, and that is a good thing. This makes sex less taboo and enables couples to expand their sex repertoire. This new awakening doesn't necessarily mean that couples will find the answer they want or need from people they talk to, though, and that's what this book is here to do. This book has been brought together to provide information about sex to help couples who are tired of the same old thing every night. Foreplay, that's is the one word most couples dread. For some reason, this is the area where couples end up failing, yet we all know that it is extremely important, especially for women. It helps to place people in the right state of mind and gets things warmed up, so to speak. This isn't the only problem some couples have in their sex life. Sometimes it's simply that things have turned monotonous. This is understandable, especially when you and your partner have been together for a while. It is very easy to stick with the same things because you know what one another likes, or because it is easy. But you both likely feel bored and can easily pass on sex due to the boredom. But things don't have to stay that way, though. You can easily bring the spark back into your life,

Even if you have tried new things to try and spice up your sex life without success, this book can teach you things that you may not have thought about.
