Post-totalitarian Spanish Fiction - Robert C. Spires 1996

This study records an epistemic shift away from logocentric and totalizing approaches to reality by analyzing the links between the novelistic strategies used by Spanish writers from 1975 to 1989 and recent international events and theoretical trends in science, mathematics, communication studies, and art.

Tovarisch, I Am Not Dead - Garri S. Urban
2006-09-01

This is the true and striking story by a Jewish doctor of his struggle for survival when caught in 1939 between the evils of Nazi Germany and Stalin's Russia. After facing death from frontier patrols, a firing squad and torture, Urban arrives

at a position of considerable power in Soviet society in a medical post. He risks his life again, fighting epidemics. These fascinating memoirs give a rare glimpse of the Soviet Union in wartime, particularly into the exotic life of the Moscow elite, where beautiful women, diplomats and spies mingled at parties, and sex was used as a method of recruiting agents. Compassionate to the sick, defiant to authority, Garri S. Urban courageously insisted on his own way, even in the face of death. He tells his remarkable tale as boldly as he lived it. A most remarkable man a most enthralling book The Observer Written with the narrative skill of a professional, this book became an international best seller. The Times

From the Soviet Gulag to Arnhem - Nicholas Kinloch 2023-08-30

Caught Between Nazis and Soviets, Stanislaw Kulik was a man who dodged death. After the Russian occupation of Poland, Stanislaw Kulik, aged 15, was deported to the Soviet gulags and put to work. If you didn't work, you didn't eat. While many died, Stanislaw managed to survive. Following the Nazis' invasion of the Soviet Union in 1941, he was given an opportunity to join the Polish army being formed somewhere in the Soviet Union, but nobody knew where. After months traveling on his own through central Asia, through Kazakhstan and Uzbekistan, Stanislaw finally reached Iraq, where he worked in a camp which processed Polish refugees. Too young to join, the Army faked his age and eventually he was then taken by ship to Great Britain via India, where he joined with the Polish Parachute Brigade. After qualifying as a paratrooper in Scotland, he dropped at Arnhem, in Operation Market Garden, where he found

himself trapped behind enemy lines. Thanks to the Dutch underground he avoided capture by the Nazis. This thrilling memoir is an inspiring story of a triumph of resilience and courage against great odds.

The Music of Central Asia - Theodore Levin 2016-12-05

The Music of Central Asia surveys the rich and diverse musical life of a region that was once at the center of the trans-Eurasian Silk Road trade and that has now reemerged as a crucial arena of global geopolitics. This beautiful and informative volume offers a resource for Central Asians to learn about the musical heritage of their region and a detailed introduction to this heritage for readers and listeners worldwide.

"outsider" perspectives with contributions by 27 authors from 14 countries. A companion website provides access to some 175 audio and video examples, listening guides and study questions, and transliterations and translations of the performed texts. The generously illustrated text is supplemented with boxes and side bars, musician profiles, and an illustrated glossary of musical instruments. The Music of Central Asia targets a broad, non-specialist readership, while specialists will find it an indispensable resource. The book is divided into four parts: an overview of the region's music and musical instruments; sections on "The Nomadic World" and "The World of Sedentary-Dwellers," which explore music and musical life in the context of Central Asia's two great axes of civilization; and "Central Asia in the Age of Globalization," whose focus is the future of the past, or how musical heritage is being revitalized and reimagined in the contested cultural landscape of contemporary Central Asia. The Music of Central Asia can be

read systematically to build comprehensive knowledge about interlinked topics—or used as a handy reference on specific musical styles, repertoires, and traditions. For instructors, the book's 35 chapters offer ample material for a semester-long course, while groups of chapters can serve as a module in courses devoted to broader topics in music, history, and culture.

Tashkent - Paul Stronski 2010-09-19

Paul Stronski tells the fascinating story of Tashkent, an ethnically diverse, primarily Muslim city that became the prototype for the Soviet-era reimagining of urban centers in Central Asia. Based on extensive research in Russian and Uzbek archives, Stronski shows us how Soviet officials, planners, and architects strived to integrate local ethnic traditions and

socialist ideology into a newly constructed urban space and propaganda showcase. The Soviets planned to transform Tashkent from a “feudal city” of the tsarist era into a “flourishing garden,” replete with fountains, a lakeside resort, modern roadways, schools, hospitals, apartment buildings, and of course, factories. The city was intended to be a shining example to the world of the successful assimilation of a distinctly non-Russian city and its citizens through the catalyst of socialism. As Stronski reveals, the physical building of this Soviet city was not an end in itself, but rather a means to change the people and their society. Stronski analyzes how the local population of Tashkent reacted to, resisted, and eventually acquiesced to the city’s socialist transformation. He records their experiences of the Great Terror, World War II, Stalin’s death, and the developments of the Krushchev and Brezhnev eras up until the earthquake of 1966, which leveled large parts of the city. Stronski finds that the Soviets

established a legitimacy that transformed Tashkent and its people into one of the more stalwart supporters of the regime through years of political and cultural changes and finally during the upheavals of glasnost.

Women Musicians of Uzbekistan - Tanya Merchant 2015-08-15

Fascinated by women's distinct influence on Uzbekistan's music, Tanya Merchant ventures

into Tashkent's post-Soviet music scene to place women musicians within the nation's evolving artistic and political arenas. Drawing on fieldwork and music study carried out between 2001 and 2014, Merchant challenges the Western idea of Central Asian women as sequestered and oppressed. Instead, she notes, Uzbekistan's women stand at the forefront of four prominent genres: maqom, folk music, Western art music, and popular music.

Merchant's recounting of the women's experiences, stories, and memories underscores the complex role that these musicians and vocalists play in educational institutions and concert halls, street kiosks and the culturally essential sphere of wedding music. Throughout the book, Merchant ties nationalism and femininity to performances and reveals how the music of these women is linked to a burgeoning national identity. Important and revelatory, *Women Musicians of Uzbekistan* looks into music's part in constructing gendered national

prevention and sex education in the most conservative region of Central Asia. With humor and poignancy "Taxi to Tashkent" portrays a land little known in the West. Instead of a nation rife with Islamic extremists as portrayed in the Western media, Fleming discovers a land of Korean discos, where blue eyed Muslims listen to Shania Twain, and where shop owners break into applause at the mention of America. Fleming travels throughout Uzbekistan, from the ecological disaster site of the Aral Sea, to the ancient Silk Route cities of Bukhara and Samarkand. "Taxi to Tashkent" describes a little-known corner of the world where nothing appears as it seems.

As well as being a valuable and insightful study into the history, development and tenets of Islam, with particular reference to life in Uzbekistan, this study, which draws on a wide

personal network and extensive field research, is also in part a personal quest in support of women's position and aspirations in the modern world.

Migration and Identity in Central Asia - Rano Turaeva 2015-11-19

This book is an ethnographic and sociolinguistic study of Uzbek migrants in the capital city of Uzbekistan. The ethnographic details of the book represent post-Soviet urban realities on the ground where various forms of belonging clash and kinship ties are reinforced within social safety networks. Theoretically, it challenges the existing theories of identity and identification which often considered the relations between 'We and Them' taking the 'We' for granted. The book offers in-depth insights into the communication strategies of migrants, the formation of collective consciousness and the relations within the 'We' domain. Constructed

around contradictions regarding Uzbek identity and how various groups relate to one another as different ethnic groups, the theoretical argument of the book is built through such methods and analytical tools as strategic rhetoric and discourse analysis, communication and identity theories, and the analysis of power and dependence. The book will be of interest to students and scholars of Central Asian Studies, Migration Studies, and Central Asian Culture

and Society.
