"In this new translation the strangeness of the original Greek and its enduring human truth come alive in language that is remarkable for its unrelenting poetic intensity, its rich metaphorical texture, and a verbal density that can at times modulate into the simplest expressions.

Democratic Swarms - Page duBois 2022-05-04
Considers how ancient Greek comedy offers a model for present-day politics. With *Democratic Swarms*, Page duBois revisits the role of Greek

comedy in ancient politics, considering how it has been overlooked as a political medium by modern theorists and critics. Moving beyond the popular readings of ancient Greece through the lens of tragedy, she calls for a revitalized look at Greek comedy. Rather than revisiting the sufferings of Oedipus and his family or tragedy's relationship to questions of sovereignty, this book calls for comedy—its laughter, its free speech, its wild swarming animal choruses, and its rebellious women—to inform another model of democracy. Ancient comedy has been underplayed in the study of Greek drama. Yet, with the irrepressible energy of the comic swarm, it provides a unique perspective on everyday life, gender and sexuality, and the utopian politics of the classical period of Athenian democracy. Using the concepts of swarm intelligence and nomadic theory, duBois augments tragic thought with the resistant, utopian, libidinous, and often joyous communal legacy of comedy, and she connects the lively anti-authoritarianism of the ancient comic chorus with the social justice movements of today.

A Discourse of Wonders - Stephen M. Wheeler 1999-05-13

Wheeler proposes instead that Ovid represents himself in the poem as an epic storyteller moved to tell a universal history of metamorphosis in the presence of a fictional audience.

Bibliography of North American Invertebrate Paleontology - Charles Abiathar White 1878

A Web of Fantasies - Patricia B. Salzman-Mitchell 2005

"Drawing on recent scholarship in art, film, literary theory, and gender studies, *A Web of Fantasies* examines the complexities, symbolism, and interactions between gaze and image in Ovid's *Metamorphoses* and forms a gender-sensitive perspective. It is a feminist study of Ovid's epic, which includes many stories about

change, in which discussions of viewers, viewing, and imagery strive to illuminate Ovid's constructions of male and female. Patricia Salzman-Mitchell discusses the text from the perspective of three types of gazes: of characters looking, of the poet who narrates visually charged stories, and of the reader who "sees" the woven images in the text. Arguing against certain theorists who deny the possibility of any feminine vision in a male-authored poem, the author maintains that the female point of view can be released through the traditional feminine occupation of weaving, featuring the woven images of Arachne (involved in a weaving contest in which she tried to best the goddess Athena, who turned her into a spider) and Philomela (who had her tongue cut out, so had to weave a tapestry depicting her rape and mutilation)." "The book observes that while feminist models of the gaze can create productive readings of the poem, these models are too limited and reductive for such a protean and complex text as *Metamorphoses*. This work brings forth the pervasive importance of the act of looking in the poem which will affect future readings of Ovid's epic."--BOOK JACKET.

KE-RA-ME-JA - Joann Gulizio 2014-12-31

Ke-ra-me-ja is a woman's name that appears on a Linear B tablet from Knossos. It means "potter" (Κεράμεια, from Greek κέραμος, "potter's clay") and combines two major strands of Cynthia Shelmerdine's scholarly pursuits: Mycenaean ceramics and Linear B texts. It thereby signals her pioneering use of archaeological and textual data in a sophisticated and integrated way. The intellectual content of the essays presented to her in this volume demonstrate not only that her research has had a wide-ranging influence, but also that it is a model of scholarship to be emulated.

Gender and the Poetics of Excess - Karen Jackson Ford 2011-02-25

The argument posed in this analysis is that the poetic excesses of several major female poets, excesses that have been typically regarded as flaws in their work, are strategies for escaping the inhibiting and sometimes inimical conventions too often imposed on women writers. The forms of excess vary with each poet, but by conceiving of poetic excess in relation to literary decorum, this study establishes a shared

motivation for such a strategy. Literary decorum is one instrument a culture employs to constrain its writers. Perhaps it is the most effective because it is the least definable. The excesses discussed here, like the criteria of decorum against which they are perceived, cannot be itemized as an immutable set of traits. Though decorum and excess shift over time and in different cultures, their relationship to one another remains strikingly stable. Thus, nineteenth-century standards for women's writing and late twentieth-century standards bear almost no relation. Emily Dickinson's do not anticipate Gertrude Stein's or Sylvia Plath's or Ntozake Shange's. Yet the charges of indecorousness leveled at these women poets repeat a fixed set of abstract grievances. Dickinson, Stein, Plath, Jayne Cortez, and Shange all engage in a poetics of excess as a means of rejecting the limitations and conventions of "female writing" that the larger culture imposes on them. In resisting conventions for feminine writing, these poets developed radical new poetics, yet their work was typically criticized or dismissed as excessive. Thus, Dickinson's form is classified as hysterical, and her figures tortured. Stein's works are called repetitive and nonsensical. Plath's tone is accused of being at once virulent and confessional, Cortez's poems violent and vulgar, Shange's work vengeful and self-righteous. The publishing history of these poets demonstrates both the opposition to such an aesthetic and the necessity for it.

New Feminist Art Criticism - Katy Deepwell 1995

This text reviews feminist art strategies as they emerged in the late 1980s and early 1990s in America and the UK. It draws together the views of prominent practitioners, critics, academics and curators on a broad range of controversial issues. The central focus of the book is feminism's engagement with psychoanalysis and post-modernism and its aim of deconstructing the borders between art and craft, and theory and practice. Feminist politics in the art world are also investigated through discussion of the negotiations of feminist curators, responses to feminist exhibitions, issues surrounding pornography and the censorship of women's work, and the role of feminist teaching on fine

art and design degree courses. The book covers a variety of art work, including installation work, painting, textiles and photography.

Medieval Monstrosity and the Female Body -

Sarah Alison Miller 2010-07-02

The medieval monster is a slippery construct, and its referents include a range of religious, racial, and corporeal aberrations. In this study, Miller argues that one incarnation of monstrosity in the Middle Ages—the female body—exists in special relation to medieval teratology insofar as it resists the customary marginalization that defined most other monstrous groups in the Middle Ages. Though medieval maps located the monstrous races on the distant margins of the civilized world, the monstrous female body took the form of mother, sister, wife, and daughter. It was, therefore, pervasive, proximate, and necessary on social, sexual, and reproductive grounds. Miller considers several significant texts representing authoritative discourses on female monstrosity in the Middle Ages: the Pseudo-Ovidian poem, *De vetula* (The Old Woman); a treatise on human generation erroneously attributed to Albert the Great, *De secretis mulierum* (On the Secrets of

Women), and Julian of Norwich's Showings. Through comparative analysis, Miller grapples with the monster's semantic flexibility while simultaneously working towards a composite image of late-medieval female monstrosity whose features are stable enough to define. Whether this body is discursively constructed as an Ovidian body, a medicalized body, or a mystical body, its corporeal boundaries fail to form properly: it is a body out of bounds.

Images of Traumatic Memories - Anja Meyer 2020-12-14

By employing the lens of the most recent critical studies on intermediality, the author analyses the interaction between literature and photography in three contemporary hybrid novels (*Miss Peregrine's Home for Peculiar Children* by Ransom Riggs, 2011, *Extremely Loud and Incredibly Close* by Jonathan Safran Foer, 2005, and *The Dark Room* by Rachel Seiffert, 2001) sharing the narration of traumatic historical events. The intermedial dimension realised by the confluence of the two media devices offers new ways to create meaning and to reflect upon the nature of collective and individual trauma, by re-enacting the distortion and the inaccessibility to the memories of those experiences. In this context, the reader emerges as an active participant in the process of fiction-making, as the act of reading becomes a renewed act of witnessing.
