Crush School - Oskar Cymerman 2016-07-28

DON'T READ THIS BOOK. USE IT. There are many zombies walking around your school. They sleepwalk through their classes hoping the information will magically seep into their brain. Then they complain when it doesn't. You see, these zombie students don't know what you are about to find out. It's that YOU CAN LEARN ANYTHING NO MATTER WHERE YOU START. But... You need to know how to learn. This book will show you how. "Crush School" is unique. It is not one of those stiff books that make you want to throw up after you read the first sentence. It's actually written in a conversational format. It feels like the author is talking to you when you read it. It uses stories and examples of classroom situations students often find themselves in. The book explains them from both the student and teacher points of

view. The learning strategies that help you crush school are straightforward but not "dumbed-down". Each chapter is short and straight to the point. The book is unlike anything out there. Seriously, the author googled it! While "Crush School" can be used by teachers, it was written for students specifically. It contains teen life, school jokes and humor, but most importantly the strategies to use at school and home to become an awesome student. "Crush School" is not a book. Well, it is... And it isn't... It's more of a GUIDE TO LEARNING ANY SUBJECT. The book is not designed to be read from beginning to end. You can, and it will be helpful, but it's better used by skipping around to the strategies you can use right away. You don't have to suffer through 200 pages of Blah before you get to the useful stuff, because this book is full of it. "Crush School" talks about how your brain learns best and gives you the strategies to do it. You know how some teachers tell you to do something or study something, but never explain why you need to know this stuff? Some even get all mad when you ask why. The author of "Crush School" doesn't stop at telling you WHAT TO DO. He explains WHY IT WORKS. "Crush School" is a game changer for students. USE IT AT YOUR OWN RISK.

together cutting-edge research and practices from the fields of theater and TESOL. After providing an overview of how drama can be used in the language classroom, Carmela Romano Gillette (a TESOL expert) and Deric McNish (an expert in actor training) present a collection of resources teachers need to begin using drama, including practical classroom-tested and evidence-based techniques. They show how theater, performance, and improvisation can help students build confidence, develop a deeper context for speaking, and create authentic opportunities for language use. In addition, they outline the para- and extra-linguistic techniques that can improve expression and meaningful communication. Each section includes sample activities, such as script analysis for improving fluency, and assessment suggestions. Readers do not need to have experience with performance or drama to learn how to incorporate these practices into the ESL classroom.

The Crush Dilemma - Susan Hatler 2016-07-13
Teen geek, Poppy Pinkleton, is adding some spice to her junior year of high school: A year of psychological experiments that will 1) Earn her three units of college credit; 2) Give her an

outlet to say what she wants, when she wants; and 3) Will NOT include her parents telling her to be the "bigger person." How, you ask? Poppy's gotten the green light from Ms. Peterson, the newspaper head, to write an online advice column for the school. She's found the perfect name for her alter ego: Aubrey. It means someone who rules with "magical wisdom." She'll be in control of her online experiment, online identity, and divvy her wisdom to the masses while tracking the results for her mini-thesis. Now, protected by a secret identity, she's got the popular crowd clamoring to know what she thinks about fashion, homework, and eek . . . even sex! And the best part is, her parents and best friends don't know anything about it. Finally, she can let loose a wild side and speak her mind—right or wrong, without having to meet anyone's expectations. Soon, however, dishing out advice leads to more than Poppy can handle on her own and she must make a choice. Hide behind her alter ego or take the chance that everyone, including the new boy at school, will like her for everything she is.

Easy Way to Recognize Your Crush - Jessica King 2023-02-07

Do you find yourself wondering who has a crush on you? If so, don't worry, you're not alone. In fact, according to a recent study, almost half of all people have wondered this at some point in their lives. So, if you're looking for a way to figure out who has a crush on you, here are ten best ways to do it. 1. Look out for signs that someone might be interested in you. This might include sending you romantic messages, being

overly affectionate, or pursuing you in a way that seems out of the ordinary. 2. Ask someone out. This might be the easiest way to figure out who has a crush on you, especially if the person is someone you know well. Just be sure to take things slow and be prepared for a response. 3. Watch for subtle clues. If someone repeatedly compliments you or pays attention to you in a way that seems too friendly, it might be a sign that they have a crush on you. 4. Be observant. If someone seems to be watching you or following you around, it might be a sign that they have a crush on you. 5. Check your social media profiles. If someone you know has been posting a lot of pictures or videos of you, it might be a sign that they have a crush on you. 6. Ask your friends. If they know who the person with a crush on you is, they might be able to give you a hint. 7. Pay attention to your feelings. If you're not sure whether the person with a crush on you is serious about them or not, it might be a good idea to take things slow. 8. Talk to a therapist. If you're not sure what to do or how to proceed, talking to a therapist might be a good idea. 9. Get a love reading. If you're feeling lost or unsure about what to do, getting a love reading might be a good solution. 10. Trust your gut. If you're certain that the person with a crush on you is interested in you, go ahead and let them know. After all, it might be the best thing for both of you.
