Jailed by Blood Quiet Storm 2008-11-19 This is an unbelievably true story about the author and a family member that allowed revenge and jealousy control his actions, which resulted in her false imprisonment.

It's Okay to Cry Lynne Jasames 2005-11-01 This book will provide readers with another perspective about how people deal with adversity in their life. The character, Special expressed herself a great deal throughout the book by crying. Crying helped Special heal. Special used crying as a way of lashing out, venting, and releasing stress. The reader will be able to relate to the circumstances and situations that the characters find themselves in. The reader will be able to relate to at least one, if not more, of the emotions expressed in the book. If the reader themselves have not had the experience they will know someone who has. The book expresses how spirituality helped Special get through all the adversity she experienced. Special had determination and the right attitude throughout the book. Special experienced adversity over and over again and held it together for her self and children. Special had her breaking point and still got through. Through talking to her children, family, friends and a therapist she succeeded in not breaking down or giving up. Special reflects back on her adversities and expresses how she made it through and what was going on in her life at that time. In the book several conversations are taking place that allows the reader to think and reflect on. The reader will be calling family and friends striking up conversations after they have read certain chapters or incidents in the book. The reader being able to relate and identify with several incidents and conversations is the main factor of the book. *The names of the characters are very symbolic in the book. Every woman or man has had a BUSTA in his or her life. A Busta that has made him or her cry.

Innocent Until Interrogated Gary L. Stuart 2012-08-12 On a sweltering August morning, a woman walked into a Buddhist temple near Phoenix and discovered the most horrific crime in Arizona history. Nine Buddhist temple members—six of them monks committed to lives of non-violence—lay dead in a pool of blood, shot execution style. The massive manhunt that followed turned up no leads until a tip from a psychiatric patient led to the arrest of five suspects. Each initially denied their involvement in the crime, yet one by one, under intense interrogation, they confessed. Soon after, all five men recanted, saying their confessions had been coerced. One was freed after providing an alibi, but the remaining suspects—dubbed “The Tucson Four” by the media—remained in custody even though no physical evidence linked them to the crime. Seven weeks later, investigators discovered—almost by chance—physical evidence that implicated two entirely new suspects. The Tucson Four were finally freed on November 22 after two teenage boys confessed to the crime, yet troubling questions remained. Why were confessions forced out of innocent suspects? Why and how did legal authorities build a case without evidence? And, ultimately, how did so much go so wrong? In this first book-length treatment of the Buddhist Temple Massacre, Gary L. Stuart explores the unspeakable crime, the inexplicable confessions, and the troubling behavior of police officials. Stuart’s impeccable research for the book included a review of the complete legal records of the case, an examination of all the physical evidence, a survey of three years of print and broadcast news, and more than fifty personal interviews related to the case. Like *In Cold Blood*, and *The Executioner’s Song*, *Innocent Until Interrogated* is a riveting read that provides not only a striking account of the crime and the investigation but also a disturbing look at the American justice system at its very worst.

[One Incredible Endurance](#) Beatrice Quainooh 2011-09 A unique story of survival through unimaginable proportions. The novel focus on dominance and control as well as greed and deception. It revealed a major concern about self-centeredness and how inaction and devotion could be mistaken for stupidity. The young couple's (main characters) diverging perspectives on life, stemming from their different childhood experiences makes it a compelling read and thought provoking. A journey of courage , self-discovery and freedom. Through the novel, the author found ways to reach out to the young and inspire those who seek to break free and focus on a new dawn. What others are saying about the book! The crazy spiral spun by Bea Quainooh is almost more than one can bear. The truth is indeed stranger than ction but Quainooh's generously and courageously steps forward to testify to one of the truths of women's experiences in the goings and comings of marriage, livelihood and solidarity in migration. Reading this book sucks you into an emotional roller coaster. Esi Sutherland-Addy, Professor of African Studies and Gender Activist. "Incredible Indeed" ___Mary Carr of Pearl Mississippi

"*Secrets Through Her Eyes* Alonese Crets 2010-08-26 "Secrets" - Thru Her Eyes is about a frightened girl who searches for love and attention in all the wrong places and find herself in a pool of misery before her time. She experiences at an early age what most grown women don't experience until they are well into their mid-lives. As the girl grows up her experiences doesn't become any lesser for her time spent aging. The girl learns valuable lessons throughout her life but only takes one with her to her adulthood. As a young girl she finds herself losing her way but eventually finds her way back on the right path. It takes many tribulations before she realizes only one thing can save her from a total road of destruction. Once she figured out what was in the mirror she might not be afraid anymore, or would learning the truth about someone so close to her make her run faster? She only hopes to figure things out quickly since life was running out of options.

My Life Now and Then Dana Hawkins Jr. 2011-01-04 This book is about a boy raised in the streets of East Cleveland, one of the most impoverished city's in the country, with out either parent that had been incarcerated since he was 3 and did over 10 years a piece. Adapting to the criminal elements that surrounded him at an early age, forced him to grow up fast and see a lot of things that gave him different views then the average street guy. Through trials and tribulation he began to see the light at the lowest point of his life being incarcerated, and dedicated his life to changing for the better. Forced back in the streets, witnessing deaths, family members turning against him, people snitching, going through the average street problems he got tired of the game and came up with a plan to help his people. From him being in the streets so long and being apart of the problem he was able to fix it, and save our children from the same underprivileged living that most predominantly black communities are forced in.

How a useless startup burns 25 millions in 3 days Michael Wenkart 2014-04-10 Did you observe new Startups burning Millions in just a few days? This is what happened more than once in recent years, however sometimes startups are successful. If you are seriously thinking about starting your own business you need to give deep consideration to a lot of factors before taking the plunge. A very high percentage of start-ups fail - often in a very short space of time. And the reasons for failure are numerous and wide-ranging. If you don't give sufficient thought and planning to your new venture it is very likely that you will be among them. It is always helpful to know of other people's experiences in these sort of areas. What they did - or didn't do - can provide you with clear pointers as to how you should proceed. Many people have been down the road and many have failed. Their failures might contain the seeds of your success if you are able to understand where they went wrong and use that information to your benefit. Running your own business takes guts and stamina - among lots of other qualities. If you are thinking of taking the plunge you will need - and deserve - a lot of luck. Good hunting!

Forward Iulia Dobre-Trifan 2021-09-18 Iulia Dobre-Trifan, author of "Provocari si echilibru in coaching executiv pragmatic" and co-author of "A Calendar of Realistic Smiles", creates a novel about becoming, healing and courage, which spans over 40 years, interweaving complex characters from different worlds, all gravitating around a common timeless axis: the desire for happiness. Lia, a tenacious woman who has been working successfully on her own for many years, starts a new project, one that is very dear to her: A teahouse where tired people would be able to rest and to find their balance. Having faced several challenges that had tested her will and her confidence in her own path, Lia now wants to help other people who are in need of support. She surrounds herself with talented people, together with whom she turns her dreams into reality, and, day after day, the teahouse becomes a sanctuary for innocence. But not everything is as it seems... some visitors hide dark intentions. Attracted by the brightness and the beauty of the teahouse and giving in to their predatory nature, they attack in subtle and ferocious ways. "We are taught to view the world in black and white, good and bad, just or unjust. The author shows us a world full of nuances under constant change, which challenges us and makes us (re-)discover it with every step." Ciprian Dobre-Trifan "An exciting story that evokes the intertwining of different destinies. A closed, withdrawn lifestyle, filled with shadows, collides with the harmonious development of a bright destiny filled with pragmatic magic." Andrei Cristian How will Lia manage to defend the harmony of the present from these disturbing forces? "When I was young, I thought I could save them all. All those who would ask to be saved and who would impress me with their poor victim stories, seemingly oppressed by adverse circumstances they were not able to handle. And I would get mixed up into their sad stories, taking onto myself the responsibility of helping them to see the light, to find the way out from their own labyrinths of bad luck and helplessness. It took some badly ended relationships for me to understand it is impossible to save someone who does not want to be saved, or, even more, who is not willing to pull their weight for being saved. " "The more people, the more fantasies about happiness. Unfortunately, most of these fantasies rarely get to happen, in the real world. And this is how the inner conflict that troubles each and everyone of us appears. To want to live in a certain way, fully benefiting from that emotion, and to have reality be very different from your fantasy. And, still, you talk yourself into believing that things are as you want them to be. As you fantasize about them. As you wish to know happiness. Or balance. Happiness and balance are the same thing."

Alzheimer Discourse Vai Ramanathan 2013-11-05 This book deals with the narrative discourse--specifically lifestories--of 16 patients suffering from Alzheimer's disease (AD). It attempts to understand the discourse of these patients in contextual terms. Thus far, the dominant explanation for "incoherence" in AD speech has been largely provided by research in psycholinguistics, much of which has understood AD speech in terms of the progressively deteriorating nature of the disease. This study provides a complementary view by examining ways in which some social factors--audiences, setting, and time--influence the extensiveness and meaningfulness of AD talk. By offering both an examination of interactions across the data as well as analyzing particular cases in detail, this unusual study attempts to juxtapose some general insights regarding AD discourse with case-specific ones. Sociolinguistic analyses of the data demonstrate how certain audiences and particular settings set in motion discourse activities that either facilitate the patients' ability to recall their pasts or impede it. This analysis also includes a critical look at the researcher's contribution in negotiating and reinforcing these activities. Ethnographic details about the social worlds of some of these patients shed light on how larger social contexts at least indirectly contribute to exacerbating the patients' conditions or stabilizing them. The analyses of both context and language provides a more global understanding of the Alzheimer experience. This study also discusses some interactional strategies by which professionals can begin to engage AD patients in meaningful talk as well as ways by which they can better "hear" AD patients' cues at narrating. Throughout, this book underscores the need to factor in social factors when making assessments regarding AD patients' communicative abilities.
