The Which Way Tree Elizabeth Crook 2018-02-06 The poignant odyssey of a tenacious young girl who braves the dangers of the Texas frontier to avenge her mother's death. Early one morning in the remote hill country of Texas, a panther savagely attacks a family of homesteaders, mauling a young girl named Samantha and killing her mother, whose final act is to save her daughter's life. Samantha and her half brother, Benjamin, survive, but she is left traumatized, her face horribly scarred. Narrated in Benjamin's beguilingly plainspoken voice, *The Which Way Tree* is the story of Samantha's unshakeable resolve to stalk and kill the infamous panther, rumored across the Rio Grande to be a demon, and avenge her mother's death. In their quest she and Benjamin, now orphaned, enlist a charismatic Tejano outlaw and a haunted, compassionate preacher with an aging but relentless tracking dog. As the members of this unlikely posse hunt the panther, they are in turn pursued by a hapless but sadistic Confederate soldier with troubled family ties to the preacher and a score to settle. A Legend of the Future Agustín de Rojas 2014-10-28 A morally profound chamber piece, *A Legend of the Future* is a critique of morality. It takes place inside a spaceship after a crash takes place during a failed mission to Titan, one of the Saturn moons. The journey home forces the crew to face its innermost fears while coexisting with each other in a state of desperation. This mesmerizing novel, recalling Arthur C. Clarke's 2001: *Space Odyssey*, is a roman a clef about the intense pressures—economic, ideological, psychological—inside Socialist Cuba. Praise for *A Legend of the Future* "The best science fiction writer in Cuba; the only possible debate is which of his works is the best.... His trilogy of *Spiral*, *A Legend of the Future*, and *Year 200* is still the best of Cuban science fiction.... With a very refined style and well-established scientific-social background, Agustín's work surprises through its humanistic content. His concerns surrounding the meaning of life and the evolution of human beings put him in a privileged place among national writers." —Cuenta Regresiva "The best and most popular novelist of this genre that the Island has ever given.... He is considered one of the principal exponents of Cuban science fiction, and he was undoubtedly the one who knew how to best combine solid scientific formation as plots and attractive characters with a confidence well-based in humanity's socialist future." —Yoss "One of the best science fiction writers in Cuba—and, until [his death], one of the best Cuban story tellers alive.... Today Agustín de Rojas' work, from *Spiral* through *Catharsis and Society*, is admired by cult readers, pro-government thinkers, and elitists alike." —Félix Luis Viera, *Cubaencuentro*

"The most elevated figure in Cuban science fiction." —Axxón Agustín de Rojas (1949-2011) is the patron saint of Cuban science fiction. A professor of the history of theater at the Escuela de Instructores de Arte in Villa Clara, he is the author of a canonical trilogy of novels: *Espiral* (Spiral, 1982), for which he was awarded the David Prize; *La leyenda del futuro* (The Legend of the Future, 1985) and *El año 200* (The Year 200, 1990), all scheduled for publication in English translation by Restless Books. While influenced by Ray Bradbury and a translator of Isaac Asimov into Spanish, he aligned himself with the Soviet line of socialist realism defined by the brothers Arkady and Boris Strugatsky as well as by Ivan Antonovich Yefremov, author of *The Andromeda Nebula*, made into a movie directed by Yevgeni Sherstobitov and admired by de Rojas. In Cuban literature, he is said to have begun writing after reading Miguel Collazo's *El viaje* (The Journey). After the fall of the Soviet Union, de Rojas stopped writing science fiction and embraced other themes such as Christianity, about which he wrote a novel called *El publican* (1997), about the disciples of Jesus Christ, that was awarded the Dulce María Loynaz Prize. He spent his last years persuaded—and persuading others—that Fidel Castro did not exist. Nick Caistor is a British journalist, non-fiction author, and translator of Spanish and Portuguese literature. He has translated Cesar Aira, Paulo Coelho, Eduardo Mendoza, Juan Marsé, and Manuel Vázquez Montalban, and he has twice won the Valle-Inclán Prize for translation. He regularly contributes to Radio 4, the BBC World Service, the Times Literary Supplement, and the Guardian. He lives in Norwich, England.

Memories of the Future Siri Hustvedt 2020-03-31 A provocative, exuberant novel about time, memory, desire, and the imagination from the internationally bestselling and prizewinning author of *The Blazing World*. A young woman, S.H., moves to New York City in 1978 to look for adventure and write her first novel, but finds herself distracted by her mysterious neighbor, Lucy Brite. As S.H. listens to Lucy through the thin walls of her dilapidated building, she carefully transcribes the woman's bizarre monologues about her daughter's violent death and her need to punish the killer. Forty years later, S.H. stumbles upon the journal she kept that year and writes a memoir, *Memories of the Future*, in which she juxtaposes the notebook's texts, drafts from her unfinished comic novel, and her commentaries on them to create a dialogue among selves over the decades. She remembers. She misremembers. She forgets. Events of the past take on new meanings. She works to reframe her traumatic memory of a sexual assault. She celebrates the legacy of the wild and rebellious Dada artist-poet, the Baroness Elsa von Freytag-Loringhoven. As the book unfolds, you witness S.H. write her way through vengeance and into freedom. Smart, funny, angry, and poignant, Hustvedt's seventh novel brings together the themes that have made her one of the most celebrated novelists working today: the strangeness of time, the brutality of patriarchy, and the power of the imagination to remake the past.

Bumf Joe Sacco 2014-11-03 Joe Sacco is renowned for his non-fiction books of comics journalism like *Palestine*, *Safe Area Gorazde* and *Footnotes in Gaza*. Now in *Bumf* he returns to his early days as a satirist and underground cartoonist. In the vein of the old underground comix like *ZAP* or *Weirdo*, *Bumf* will be puerile, disgusting, and beyond redemption. It will go where it wants to go, and do what it wants to do. It will also be very funny.

The Mysterious Ship H. P. Lovecraft 2014-12-13 "The Mysterious Ship" is a story story by American horror fiction writer H. P. Lovecraft. Howard Phillips Lovecraft (August 20, 1890 - March 15, 1937) - known as H.P. Lovecraft - was an American author who achieved posthumous fame through his influential works of horror fiction. Virtually unknown and only published in pulp magazines before he died in poverty, he is now regarded as one of the most significant 20th-century authors in his genre. Lovecraft was born in Providence, Rhode Island, where he spent most of his life. His father was confined to a mental institution when Lovecraft was three years old. His grandfather, a wealthy businessman, enjoyed storytelling and was an early influence. Intellectually precocious but sensitive, Lovecraft began composing rudimentary horror tales by the age of eight, but suffered from overwhelming feelings of anxiety. He encountered problems with classmates in school, and was kept at home by his highly strung and overbearing mother for illnesses that may have been psychosomatic. In high school, Lovecraft was able to better connect with his peers and form friendships. He also involved neighborhood children in elaborate make-believe projects, only regretfully ceasing the activity at seventeen years old. Despite leaving school in 1908 without graduating - he found mathematics particularly difficult - Lovecraft had developed a formidable knowledge of his favored subjects, such as history, linguistics, chemistry, and astronomy. Although he seems to have had some social life, attending meetings of a club for local young men, Lovecraft, in early adulthood, was established in a reclusive 'nightbird' lifestyle without occupation or pursuit of romantic adventures. In 1913 his conduct of a long running controversy in the letters page of a story magazine led to his being invited to participate in an amateur journalism association. Encouraged, he started circulating his stories; he was 31 at the time of his first publication in a professional magazine. Lovecraft contracted a marriage to an older woman he had met at an association conference. By age 34, he was a regular contributor to newly founded *Weird Tales* magazine; he turned down an offer of the editorship. Lovecraft returned to Providence from New York in 1926, and over the next nine months he produced some of his most celebrated tales including "The Call of Cthulhu," canonical to the Cthulhu Mythos. Never able to support himself from earnings as author and editor, Lovecraft saw commercial success increasingly elude him in this latter period, partly because he lacked the confidence and drive to promote himself. He subsisted in progressively straitened circumstances in his last years; an inheritance was completely spent by the time he died at the age of 46.

The Secret History of Science Fiction James Patrick Kelly 2009 This ingeniously conceived anthology raises the intriguing question, If Thomas Pynchon's *Gravity's Rainbow* had won the Nebula award in 1973, would the future distinction between literary fiction and science fiction have been erased? Exploring the possibility of an alternate history of speculative fiction, this literary collection reveals that the lines between genres have already been obscured. Don DeLillo's "Human Moments in World War III" follows the strange detachment of two astronauts who are orbiting in a skylab while a third world war rages on earth. "The Ziggurat" by Gene Wolfe traverses a dissolving marriage, a custody dispute, and the visit of time travelers from the future. T. C. Boyle's "Descent of Man" is the subversively funny tale of a man who suspects that his primatologist lover is having an affair with one of her charges. In "Schwarzschild Radius," Connie Willis draws an allegorical parallel between the horrors of trench warfare and the speculative physics of black holes. Artfully crafted and offering a wealth of esteemed authors?from writers within the genre to those normally associated with mainstream fiction, as well as those with a crossover reputation?this volume aptly demonstrates that great science fiction appears in many guises.

fantasy fiction genres. His seminal novella "The Great God Pan" (1890) has become a classic of horror fiction, with Stephen King describing it as one of the best horror stories ever written in the English language. Other notable fans of his gruesome tales include William Butler Yeats and Arthur Conan Doyle; and his work has been compared to that of Robert Louis Stevenson, Bram Stoker, and Oscar Wilde. The Year 200 Agustín de Rojas 2016-07-12 The cult classic from the godfather of Cuban science fiction, Agustín de Rojas's *The Year 200* is both a visionary sci-fi masterwork and a bold political parable about the perils of state power. Centuries have passed since the Communist Federation defeated the capitalist Empire, but humanity is still divided. A vast artificial-intelligence network, a psychiatric bureaucracy, and a tiny egalitarian council oversee civil affairs and quash "abnormal" attitudes such as romantic love. Disillusioned civilians renounce the new society and either forego technology to live as "primitives" or enhance their brains with cybernetic implants to become "cybos." When the Empire returns and takes over the minds of unsuspecting citizens in a scenario that terrifyingly recalls *Invasion of the Body Snatchers*, the world's fate falls into the hands of two brave women. Originally published in 1990, just after the fall of the Berlin Wall and before the onset of Cuba's devastating Special Period, Agustín de Rojas's magnum opus brings contemporary trajectories to their logical extremes and boldly asks, "What does 'the greatest good for the greatest number' really mean?"

The Transition of Juan Romero H.P. Lovecraft 2021-01-08 "The Transition of Juan Romero" is a short story by American horror fiction writer H. P. Lovecraft, written on September 16, 1919, and first published in the 1944 Arkham House volume *Marginalia*. The story involves a mine that uncovers a very deep chasm, too deep for any sounding lines to hit bottom. The night after the discovery of the abyss the narrator and one of the mine's workers, a Latino called Juan Romero, venture inside the mine, drawn against their will by a mysterious rhythmical throbbing in the ground. Romero reaches the abyss first and is swallowed by it. The narrator peers over the edge, sees something - "but God, I dare not tell you what I saw!" and loses consciousness. That morning he and Romero are both found in their bunks, Romero dead. Other miners swear that neither of them left their cabin that night. The chasm has vanished as well.
