[Bite Back](#) - Molly Likovich 2021-11-06

"A sensual plunge and worship of ancient creatures, that thrills the mind and races the beatings of the heart. Likovich's romance will lure you in and sink its teeth" -Marcia Ruiz, co-author of 'Not a Myth' Henrietta (Henry) Richards is just trying to make it through her senior year at the prestigious (and pretentious) Davidson College, but her plans are thrown way off course when she meets Dorian. Dorian is handsome, alluring, and almost as smart as she is. There are only two problems: One, he's her new Classics professor, and two, he's a centuries old vampire who wants Henry to join him and his lovers in eternal life. As if that weren't enough to chew on, The Homeric's, Davidson's (not so) secret society, might actually be a front for ancient vampire hunters, thereby putting Henry, her friends, and her vampire lovers in grave danger. Senior year is turning out to be a lot harder than she thought. CONTENT WARNING: this book contains explicit sexual content intended for readers 18+ proceed with caution.

**Sharks** - Miriam Forster 2022-05-10  
An epic, oversize nonfiction picture book in the vein of Bees: A Honeyed History—all about sharks and their prehistoric predecessors Sharks are some of the oldest creatures on the earth (or, rather, in its waters). This epic survey follows sharks from their earliest appearance in the Paleozoic era up through the challenges they

face today. Along the way, readers will meet many different sharks from different points in history. They will get an up-close evolutionary look at what makes a shark a shark—like their skin, their teeth, their fins, and more. And they will get a crash course in archeological time, as the book mostly covers prehistoric sharks or modern-day sharks who have been around much longer than humans. Like the hammerhead, who has been patrolling tropical coastlines for more than 20 million years! With lush illustrations from Gordy Wright and meticulous research from author Miriam Forster, *Sharks: A Mighty, Bite-y History* is sure to delight shark lovers, science fans, and any reader who loves to discover new wonders about the world around them.

**Love Poems with an After-bite!** - Julia M. Busch 1996

**The Beloved Does Not Bite** - Debra Dudek 2017-07-06

In this new monograph, author Debra Dudek defines a new era of vampire texts in which vampires have moved from their iconic dark, feared, often seductive figure lingering in alleys, to the beloved and morally sensitive vampire

winning the affections of teen protagonists throughout pop culture. Dudek takes a close look at three hugely-popular vampire series for young adults, drawing parallels between the TV series *Buffy the Vampire Slayer*, the *Twilight Saga* novels/films, and *The Vampire Diaries* TV series/book series. By defining a new era of vampire texts and situating these three series within this transition, *The Beloved Does Not Bite* signals their significance and lays the groundwork for future scholarship on the flourishing genre of paranormal romances for young adults.
