Safety and Security in Tourism C Michael Hall 2012-12-06 How will the travel and tourism industry respond to the terrorist attacks on America? The recent terrorist attacks in the United States and their repercussions for the travel and leisure industries have focused more attention on tourism safety and security issues than ever before. The impact on tourism destinations and businesses, as well as on traveler behavior, will be significant. Recent events require further analysis not only of how travel safety may be improved but also how security issues may be seen in terms of tourism marketing and management so that the industry is able to better respond to such challenges. In this, an era of turbulent global relationships, the need for destination marketing organizations to demonstrate that they are safe for tourists has become increasingly important. Negative publicity, often unrelated to on-the-ground reality, may also serve to affect tourist perceptions. *Safety and Security in Tourism: Relationships, Management, and Marketing* examines: the effects of the September 11, 2001 attacks on the tourism industry and how the industry is responding the importance of safety as a factor in destination or activity choice case studies of destination and business responses to past political instability and/or attacks against tourists safety, security and destination image the role of the media in influencing consumer perceptions of travel safety consumer awareness of travel advisories and their influence on behavior the role of insurance in the travel industry consumer awareness and acceptance of security measures in travel and tourism safety and security as a component in destination marketing crisis and risk management in the tourism industry cross-border security and visa controls and their implications for tourism safety and security measures for tourists in different sectors and in airports Tourism has often been cited as a force for peace, yet tourism is typically one of the first industrial casualties of war and political unrest. This book examines tourism safety and security issues to give you a better knowledge base from which to respond to future events.

Sakura's Cherry Blossoms Robert Paul Weston 2018-02-20 A warm, gorgeous exploration of a little girl's experience immigrating to a new country and missing her home and her grandmother, who still lives far away. Sakura's dad gets a new job in America, so she and her parents make the move from their home in Japan. When she arrives in the States, most of all she misses her grandmother and the cherry blossom trees, under which she and her grandmother used to play and picnic. She wonders how she'll ever feel at home in this new place, with its unfamiliar language and landscape. One day, she meets her neighbor, a boy named Luke, and begins to feel a little more settled. When her grandmother becomes ill, though, her family takes a trip back to Japan. Sakura is sad when she returns to the States and once again reflects on all she misses. Luke does his best to cheer her up - and tells her about a surprise he knows she'll love, but she'll have to wait till spring. In the meantime, Sakura and Luke's friendship blooms and finally, when spring comes, Luke takes her to see the cherry blossom trees flowering right there in her new neighborhood. *Sakura's Cherry Blossoms* captures the beauty of the healing power of friendship through Weston's Japanese poetry-inspired text and Saburi's breathtaking illustrations.

Narratives Unfolding Martha Langford 2017-07-18 Somewhere between global and local, the nation still lingers as a concept. National art histories continue to be written - some for the first time - while innovative methods and practices redraw the boundaries of these imagined communities. *Narratives Unfolding* considers the mobility of ideas, transnationalism, and entangled histories in essays that define new ways to see national art in ever-changing nations. Examining works that were designed to reclaim or rethink issues of territory and dispossession, home and exile, contributors to this volume demonstrate that the writing of national art histories is a vital project for intergenerational exchange of knowledge and its visual formations. Essays showcase revealing moments of modern and contemporary art history in Canada, Egypt, Iceland, India, Ireland, Israel/Palestine, Romania, Scotland, Turkey, and the United Arab Emirates, paying particular attention to the agency of institutions such as archives, art galleries, milestone exhibitions, and artist retreats. Old and emergent art cities, including Cairo, Dubai, New York, and Vancouver, are also examined in light of avant-gardism, cosmopolitanism, and migration. *Narratives Unfolding* is both a survey of current art historical approaches and their connection to the source: art-making and art experience happening somewhere.

The Great Cities in History John Julius Norwich 2016-07-21 A work of history, but also about art and architecture, trade and commerce, travel and exploration, economics and politics, this is above all a book about people and how, over the millennia, they have managed to live closely together. From the origins of urbanization in Mesopotamia to the global metropolises of today, great cities have marked the development of humankind. Babylon and Nineveh, Athens and Rome, Istanbul and Venice, Timbuktu and Samarkand, their very names are redolent both of history and romance. The Great Cities in History tells their story from early Uruk and Thebes to Jerusalem and Alexandria. Then the fabulous cities of the first millennium: Damascus and Baghdad in the days of the Caliphates, Teotihuacan and Maya Tikal in Central America, and Changan, capital of Tang Dynasty China. The medieval world saw the rise of powerful cities: Palermo and Paris in Europe, Benin in Africa and Angkor of the Khmer. In the early modern world, we journey to Islamic Isfahan and Agra, and Prague and Amsterdam in their heyday, before arriving at the phenomenon of the contemporary mega-city: London and New York, Tokyo and Barcelona, Los Angeles and São Paulo. A galaxy of more than fifty distinguished authors, including Jan Morris, Colin Thubron, Simon Schama, Orlando Figes, Felipe Fernandez-Armesto, Misha Glenny, Adam Zamoyski and A. N. Wilson, evoke the character of each place and explain the reasons for its success, seeing what each city would have been like during its golden age.
