

Nap Time The True Story Of Sexual Abuse At A Suburban Day Care Center

Sexual Abuse of Children and Adolescents - William E. Prendergast 1996

"In this, his third volume, Dr. Prendergast focuses on preventing the sexual abuse of so many of our young children and adolescents. After 34 years of experience in the "cesspool" of sexual offenses, he is convinced that naivete, denial, and complacency by not only the children/adolescents but by adults as well are essential factors in these abuses and that the sexual predator utilizes these elements to successfully achieve his or her perverted needs." "Prendergast's proposed solution is knowledge for all concerned. He presents a thorough understanding of the makeup of the sexual predator, the personality traits of the ideal victims, the needs and reasoning of children and adolescents, the opportunities and locations of sexual molestations, and the mistakes that parents, teachers, religious leaders, and even professional counselors make. Through this knowledge, Prendergast maintains that at least 90 percent of seductive molestations can be prevented and a smaller but significant percentage of assaultive molestations can be avoided as well."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Everyday Irrationality - Robyn Dawes 2018-02-19

Robyn Dawes defines irrationality as adhering to beliefs that are inherently self-contradictory, not just incorrect, self-defeating, or the basis of poor decisions. Such beliefs are unfortunately common. This book demonstrates how such irrationality results from ignoring obvious comparisons, while instead falling into associational and story-based thinking. Strong emotion—or even insanity—is one reason for making automatic associations without comparison, but as the author demonstrates, a

lot of everyday judgment, unsupported professional claims, and even social policy is based on the same kind of "everyday" irrationality.

The Parent's Desk Reference - Irene M. Franck 1991

An encyclopedia about parenting with over 2,000 entries covering all aspects of child rearing from A to Z.

House of Cards - Robyn Dawes 2009-11-24

Robin Dawes spares no one in this powerful critique of modern psychotherapeutic practice. As Dawes points out, we have all been swayed by the "pop psych" view of the world--believing, for example, that self-esteem is an essential precursor to being a productive human being, that events in one's childhood affect one's fate as an adult, and that "you have to love yourself before you can love another."

Profit Pathology and Other Indecencies - Michael Parenti 2015-11-17

From market crisis to market boom, from welfare to wealth care, from homelessness to helplessness, and an all-out assault on the global environment--these are just some of the indecencies of contemporary economic life that Profit Pathology takes on. Here, Michael Parenti investigates how class power is a central force in our political life and, yet, is subjected to little critical discernment. He notes how big-moneyed interests shift the rules of the game in their favor while unveiling the long march by reactionaries through the nation's institutions to undo all the gains of social democracy, from the New Deal to the present. Parenti also traces the exploitative economic forces that have operated through much of American history, including the

mass displacement and extermination of Native Americans and the enslavement of Africans. Parenti is a master at demonstrating the impact of monomaniacal profit accumulation on social services-especially health care-and human values. Here he takes us one step further, showing how unrestrained capitalism ultimately endangers itself, becoming a "self-devouring beast" that threatens us all. Finally, he calls for a solution based on democratic diversity and public ownership-"because it works."

Nap Time - Lisa Manshel 1991

The story of sexual abuse at a suburban New Jersey day-care center. Based on undocumented interviews and trial testimony, and lacking context as well as theory, this entire project looks as sleazy as the title. The Myth of Moral Panics - Bill Thompson 2013-09-11

This study provides a comprehensive critique - forensic, historical, and theoretical - of the moral panic paradigm, using empirically grounded ethnographic research to argue that the panic paradigm suffers from fundamental flaws that make it a myth rather than a viable academic perspective.

The Witch-Hunt Narrative - Ross E. Cheit 2014-04-28

In the 1980s, a series of child sex abuse cases rocked the United States. The most famous case was the 1984 McMartin preschool case, but there were a number of others as well. By the latter part of the decade, the assumption was widespread that child sex abuse had become a serious problem in America. Yet within a few years, the concern about it died down considerably. The failure to convict anyone in the McMartin case and a widely publicized appellate decision in New Jersey that freed an accused molester had turned the dominant narrative on its head. In the early 1990s, a new narrative with remarkable staying power emerged: the child sex abuse cases were symptomatic of a 'moral panic' that had produced a witch hunt. A central claim in this new witch hunt narrative was that the children

who testified were not reliable and easily swayed by prosecutorial suggestion. In time, the notion that child sex abuse was a product of sensationalized over-reporting and far less endemic than originally thought became the new common sense. But did the new witch hunt narrative accurately represent reality? As Ross Cheit demonstrates in his exhaustive account of child sex abuse cases in the past two and a half decades, purveyors of the witch hunt narrative never did the hard work of examining court records in the many cases that reached the courts throughout the nation. Instead, they treated a couple of cases as representative and concluded that the issue was blown far out of proportion. Drawing on years of research into cases in a number of states, Cheit shows that the issue had not been blown out of proportion at all. In fact, child sex abuse convictions were regular occurrences, and the crime occurred far more frequently than conventional wisdom would have us believe. Cheit's aim is not to simply prove the narrative wrong, however. He also shows how a narrative based on empirically thin evidence became a theory with real social force, and how that theory stood at odds with a far more grim reality. The belief that the charge of child sex abuse was typically a hoax also left us unprepared to deal with the far greater scandal of child sex abuse in the Catholic Church, which, incidentally, has served to substantiate Cheit's thesis about the pervasiveness of the problem. In sum, The Witch-Hunt Narrative is a magisterial and empirically powerful account of the social dynamics that led to the denial of widespread human tragedy.

Lost Daughters - Reinder Van Til 1997

The practice of recovered memory therapy (RMT) and the resulting accusations of childhood sexual abuse have polarized the psychotherapy community and crowded the courts. This book depicts the human toll exacted by the practice of RMT. Combining first person stories of families devastated by RMT-inspired memories with a critical cultural analysis, this book provides a unique glimpse into a catastrophically misguided therapy.

In Pursuit of Satan - Robert D. Hicks 1991

Synopsis: Mutilated animals. Defaced tombstones. Sexual abuse in daycare centers. Is America threatened by a satanic conspiracy? In this book, Robert D. Hicks exposes law enforcement's obsessive preoccupation with Satanism as a model for criminal behavior. While satanic belief has played a part in crimes ranging from petty vandalism to serial murders, Hicks avows that there is no substantial evidence for the existence of a nationwide

satanic crime continuum. Hicks points out that the satanic criminal model is expedient largely due to its simplicity and economy, reducing to simple formulas such complex problems as drug abuse, teen suicide, and sexual molestation. His research utilizes a unique blend of law-enforcement methodology, anthropology, folklore, history, sociology, psychology and psychiatry. He attributes the cult conspiracy theory to beliefs fueled by Christian fundamentalist sects and to the ungovernable mechanisms of rumor-panics, subversive mythology, and urban legend. In Pursuit of Satan documents examples of rumor-panics in which the police have fomented fear by attributing crimes to Satanists, indulging in sheer speculation and promulgating misinformation through the sensationalist news media. Hicks examines the construction of the satanic ideology among law enforcement officials, focusing on the exploitation of Satanism as a new scapegoat for public fears and addressing the phenomenon of credulity among police forces and allied professionals in social work, psychiatry, and psychology.
