Person-to-Person Astrology - Stephen Arroyo 2011-06-21

Using a new language of energy based on the ancient “four elements” and in harmony with that used by the more advanced healing arts, renowned author Stephen Arroyo here explores how astrology as a language of energy can be astoundingly accurate and useful in illuminating individuals’ energy exchange in all close relationships. The preface, author’s note, introduction, and early chapters of *Person-to-Person Astrology* lay the groundwork for serious consideration of astrology as a significant discipline. The following chapters detail the influence of the four elements—Fire, Earth, Water, Air—on the 12 signs, with a particular emphasis on the rising sign (Ascendant). The author shows readers how to experiment by comparing birth charts, and explains, through detailed descriptions, people’s psychological motivations and needs based on the positions of their Moon, Venus, and Mars. Appendices include astrological definitions, keywords, and sign tables that allow readers quick access to the basics. Written in the author’s trademark clear, accessible style, *Person-to-Person Astrology* presents a new approach to finding fulfillment in any kind of relationship.

Planets in Synastry - E. W. Neville 1990

At its simplest level, synastry is the examination of the interaction of two astrological charts. Since questions about the relationship are perhaps the ones most often asked of the astrologer, the art of synastry is a basic skill to practice astrology at any but the most casual level. *Planets in Synastry* takes the reader through the steps of this complex process. Individual phases of a relationship are set out and a method for analysis of each phase is described. It focuses not only on the analysis of synastry, but on the translation of the insights into real life applications.

Love and Sex Signs - Joanne Madeline Moore 1998

This astrological guide goes beyond the astrology of Sun signs to examine the implications for people's love and sex lives, derived from the positions of Venus and Mars at their birth-times.

Cosmic Coupling - Stella Starsky 2009

The Practice and Profession of Astrology - Stephen Arroyo 1984

Experiments & Experience with Astrology - Stephen Arroyo 2020-10-13

In this eBook original, numerous practical as well as philosophical issues are explored. In an in-depth, wide-ranging interview appearing in book form for the first time, Stephen Arroyo answers questions about his early years in astrology, how he came to write some of his classic works, and his views on various central issues in astrology’s current practice and potential future development. In another chapter, he provides concise new observations and guidelines that provide more insightful ways of understanding many factors in both individual birth charts and chart comparisons. In the other sections of this book, he discusses what

astrology can contribute to psychology, how to understand the Ascendant, and possible explanations of transits’ powerful effects. And importantly, this is the only book currently available that describes and explores his unique theory of “subtones” as an incisive, psychologically revealing method of achieving greater depth in understanding any birth chart. In short, utilizing “subtones” is a method of synthesizing the major chart factors in any person’s chart in a simple, quick way that people at any level of astrological knowledge can easily learn and reliably use.

Relationships and Life Cycles - Stephen Arroyo 2020-08-04

In this breakthrough book, Stephen Arroyo discusses the two subjects that people most often want to understand through astrology: Relationship Compatibility and the Cycles that Shape Our Lives. The spontaneous quality of this book makes it especially informative and valuable, since it includes numerous insights and observations not found in more conventional presentations. As many reviewers have observed, the sections on precisely how to compare charts to analyze relationships and how to use the houses in such comparisons are completely unique and original contributions to the field of astrological psychology.

The British National Bibliography - Arthur James Wells 2009

And there are 41 delineations of the Moon's nodes as well.

Planets in Aspect - Robert Pelletier 1974

Every major aspect (conjunction, sextile, square, trine, opposition, inconjunct) is covered, 314 aspects in all, 300 words per aspect, thumb indexed for easy reference. *Planets in Aspect*, the first volume published in Para Research's *Planets* series, is undoubtedly the most thorough in-depth study of planetary aspects (including the inconjuncts) ever written. It's intelligent, yet easy to read. It's personal, yet objective. It's astrology that really works... and keeps on working for you.

Astrology, Psychology & the Four Elements - Stephen Arroyo 2013-03-25

It clearly presents a language of energy that enables astrology to be reliably used by those in the helping professions as well as by the general public. As *Library Journal* stated, "Transcending the boundaries of separate disciplines, this work represents a major distillation of astrological principles."

Pagan Polyamory - Raven Kaldera 2005

How to Practice Vedic Astrology - Andrew Bloomfield 2003-07-14

A comprehensive guide to understanding and practicing Vedic astrology, the art of jyotish. • Teaches beginners how to read and interpret Vedic astrology charts, based on their own birth chart as well as the birth charts of 112 notable people. • Shows how to use Vedic astrology to anticipate upcoming events and direct the cosmic energies of one's life toward a positive future outcome. For over 5,000 years the people of India have used jyotish, or Vedic astrology, to anticipate future influences and make major decisions. Now Andrew Bloomfield brings this increasingly popular tool to the West in an easy-to-follow, comprehensive format, providing the reader with everything needed to practice the Indian art of predicting the future.

Vedic astrology was codified by the ancient Maharishis to help people achieve the four basic goals of human existence: kama (desire), artha (wealth), dharma (life purpose), and moksha (spiritual growth). Unlike other forms of astrology, Vedic calculations focus more on the primal, unconscious, driving forces linking our thoughts and actions. How to Practice Vedic Astrology shows how to make accurate predictions

on when to expect life's changes concerning one's career, love life, children, or spirituality.
