**Power of Love** Athanasius Yohan I 2021-04-26 His Holiness The Dalai Lama said, 'My religion is kindness.' Sounds so simple, yet so profound. Do we not read in the Bible, 'God is love'? And all of God's revelation is summed up in this: 'Love God and love others.' Regardless of caste, creed, nationality, colour of skin and religion, we are all created by God, and one of the reflections of that is love and kindness. We are living in the ice age of emotions. Believe it or not, the number one killer in this generation is loneliness. Why do millions die of starvation? In part, because love and kindness have been dying in the human heart, with selfishness and greed taking over. Think about it, the world is full of pain, violence, devastation, yet we can go on because there are some who are kind and compassionate. This collection of short stories, written by Athanasius Yohan I, tales from his encounters with people where small acts of kindness and goodwill have made changes in people's lives. A perfect read for those who yearn to experience the beauty of life and love.

**The Power of Love** Karin M. Neal 2015-08-14 My book is Holy Spirit inspired, prompting me on a journey from conflict to peace. Every psalm and poem reflects my inner most experiences through my turbulent life including many failures and triumphs. God has proven to me time and time again that His love, strength, and wisdom is present in every aspect of my life. He gave me hope when I had none. Jesus helped me start over and cast my burdens onto Him. The life I lead was long and hard and some of these psalms and poems tell my story of pain, loss, failure, and acceptance, giving me a much needed hard look at myself to make a drastic change in my life. I continue to face challenges on this journey being prompted by the Holy Spirit to excel and not lose faith, and He has opened my eyes and helped me to accept, forgive, repent, and share my experiences. I still have many weak moments, but Jesus shows me that in holding fast through faith He will never leave me. No matter how hard life gets or how long my journey is, until I'm called home, Jesus's love will never fail me.

The Power of Love: my victory over breast cancer Karla Icaza 2017-02-02 When I was diagnosed with breast cancer, almost immediately, I thought I should write a book about my experience. I began to write a few days after my surgery, when I was at home recovering. It is a book written while I battled the disease. Since I wrote it while things were happening, on its pages I poured my heart. In it are my weaknesses and my strengths; Is a book that provokes many emotions, to cry, to laugh, to reflect. I included photos that illustrate many of the things I talk about. There are testimonies of my husband, my children, and other relatives where they reflect the way they handled the battle. It is a book that conveys the love of God and the love of family and friends who accompanied me throughout my process. A book inspired by the Holy Spirit; I could not have written it without His help. It is my desire that every person who reads it receives hope, peace, love and faith to face any difficult circumstances and experience God's embrace.

**Love, Power, and Justice** Paul Tillich 1954 Speaking with understanding and force, Tillich offers a basic analysis of love, power, justice, and all concepts fundamental in the mutual relations of people, of social groups, and of humankind to God. His concern is to penetrate to the essential, or ontological foundation of the meaning of each of these words.

*Ways & Power Of Love* Pitirim A. Sorokin 2002-03-04 The Ways and Power of Love was originally published in 1954 when Pitirim Sorokin was in the twilight of his career and leading the Harvard Research Center in Creative Altruism. His elaborate scientific analysis of love with regard to its higher and lower forms, its causes and effects, its human and cosmic significance, and its core features constitutes the first study on this topic in world literature to date. Sorokin was the one absolutely essential twentieth-century pioneer in the study of love at the interface of science and religion. Bringing The Ways and Power of Love back into print allows a new generation of readers to appreciate Sorokin's genius and to move forward with his endeavor at a time when civilization itself continues to be threatened by a marked inability to live up to the ideal of love for all humankind. It is certainly right to hope, with Sorokin, that progress in knowledge about love can move humanity forward to a better future. Turning the sciences toward the study of love is no easy task, but it can and must be done.

Purpose and Power of Love and Marriage Myles Munroe 2005 Probably no other dimension of human experience has been pondered, discussed, debated, analyzed, and dreamed about more than the nature of true love. Love is everywhere -- in songs and in books, on televisions and on movie screens. Yet, for all of our thinking and talking, how many of us truly understand love and where can we turn for genuine insight in matters of true love?

**Love Big** Rozella Haydée White 2019-05-07 Love has the power to transform us In the words of Mother Teresa, "We have forgotten that we belong to each other." This lapse in memory has caused deep fractures and allowed fear, hatred, and division to infect our lives together. We've become disconnected from each other and from our very selves. In Love Big, leadership coach Rozella Haydée White introduces readers to the power of revolutionary relationships. Modeled after the image of God as a lover, these relationships can heal the brokenness of our lives by crossing over the dividing lines of race, gender, religion, orientation, ability, identity, and class to provide relief and inspiration. Revolutionary relationships will usher us into a reality marked by love, connection, and a belief in abundance. Revolutionary relationships lead us to love big--to love despite hardships and fear; to love in the face of despair; to love ourselves and others deeply and passionately; to love in ways that change us all.

**The Power of Love** Osho 2016-07-19 Explore the emotional sensations of the many facets of love and affection that bring people together with one of the twentieth century's greatest spiritual teachers. One of the most important life events is falling in love, yet we never learn about it in school. Societies and religions force us into models and thought-forms that are often in opposition to an organic model of love, which is instead institutionalized by marriage, religious affiliations, and nationalism. This results in love that is, for most people, a painful challenge in one form or another throughout life. In these modern days, where the focus shifts more and more to realizing one's individual potential, Osho's The Power of Love: What Does It Take for Love to Last a Lifetime? helps us to direct our search for love by widening our view—showing us that love has many manifestations and is not limited to the "other". One manifestation of love is meditation, a life-changing experience that allows the flowering of real love within oneself and toward others. Osho challenges readers

to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the "1000 Makers of the 20th Century" and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

**Enchanted Love** Marianne Williamson 2013-12-17 Three of Marianne Williamson's previous bestsellers -- *A Return to Love*, *A Woman's Worth*, and *Illuminata* -- explored the issue of relationships. Now, in this deeply personal collection of essays, prayers, and self-reflection, she turns to romantic love. In *Illuminata*, Williamson wrote that "we experience God to the extent to which we love, forgive, and focus on the good in others and ourselves." Now, in *Enchanted Love*, she writes that "enchanted partnership begins with the conscious understanding, on the part of two people, that the purpose of their relationship is not so much material as spiritual, and the internal skills demanded by it are prodigious." High romance, she says, "is not about past or future. It is not about practicality. It is not about society or worldly routines. It is an audacious ride to the center of what is, at the heart of every person. It is a bold and masterful inquiry into what two people really are and how we might become, while still on earth, the angels who reside within us."

**The Subversive Power of Love** Mary Shawn Copeland 2009 "Henriette Delille was born into a nineteenth-century American society that condoned the attitude that women of color existed for white male use whether they were enslaved or free. Repudiating prevailing societal norms and customs, Delille founded a religious congregation, the Sisters of the Holy Family, for free women of color, and thereby asserted black women as fully capable of chastity and of possessing, choosing, and disposing of themselves and their own bodies. Delille's vision challenged commonly held readings of those bodies; contravened slavery's vicious stereotypes of black women as impious, promiscuous, and lewd; and constructed an alternative to Louisiana's system of *plaçage*, or concubinage between a white man and a free black woman. Drawing on her own research as well as a range of historical and theological resources, Shawn Copeland paints a compelling portrait of an intrepid woman who is being considered for elevation to sainthood in the Catholic Church"--

**Power, Love and Evil** Wayne Cristaudo 2008-01-01 Love and evil are real – they are substances of force fields which contain us as constituent parts. Of all the powers of life they are the two most pregnant with meaning, hence the most generative of what is specifically human. Love and evil stand in the closest relationship to each other: evil is both what destroys love and what forces more love out of us; it is, as Augustine astutely grasped, privative (requiring something to negate) but it is also born out of misdirected love. Breaking with naïve realist and post-modern dogmas about the nature of the real, this book provides the basis for a philosophy of generative action as it draws upon examples from philosophy, literature, religion and popular culture. While this book has a sympathetic ear for ancient and traditional narratives about the meaning of life, it offers a philosophy appropriate for our times and our crises. It is particularly directed at readers who are seeking for new ways to think about our world and self-making, and who are as dissatisfied with post-Nietzschean and post-Marxian 20th century social theory as they are by more traditional philosophical and naturalistic accounts of human being.
