2012-06-13

Winner of the 1974 National Book Award “A screaming comes across the sky. . .” A few months after the Germans’ secret V-2 rocket bombs begin falling on London, British Intelligence discovers that a map of the city pinpointing the sexual conquests of one Lieutenant Tyrone Slothrop, U.S. Army,

corresponds identically to a map showing the V-2 impact sites. The implications of this discovery will launch Slothrop on an amazing journey across war-torn Europe, fleeing an international cabal of military-industrial superpowers, in search of the mysterious Rocket 00000, through a wildly comic extravaganza that has been hailed in *The New Republic* as “the most profound and accomplished American novel since the end of World War II.”

The Pandemic Century - Mark Honigsbaum
2019-03-09

Like sharks, epidemic diseases always lurk just beneath the surface. This fast-paced history of their effect on mankind prompts questions about the limits of scientific knowledge, the dangers of medical hubris, and how we should prepare as epidemics become ever more frequent. Ever since the 1918 Spanish influenza pandemic, scientists have dreamed of preventing catastrophic outbreaks of infectious disease. Yet, despite a century of medical progress, viral and bacterial disasters continue to take us by surprise, inciting panic and dominating news cycles. From the Spanish flu and the 1924 outbreak of pneumonic plague in Los Angeles to the 1930 'parrot fever' pandemic and the more recent SARS, Ebola, and Zika epidemics, the last 100 years have been marked by a succession of unanticipated pandemic alarms. Like man-eating

sharks, predatory pathogens are always present in nature, waiting to strike; when one is seemingly vanquished, others appear in its place. These pandemics remind us of the limits of scientific knowledge, as well as the role that human behaviour and technologies play in the emergence and spread of microbial diseases.

Spin the Dawn - Elizabeth Lim 2019-07-09

Project Runway meets Mulan in this sweeping fantasy about a teenage girl who poses as a boy to compete for the role of imperial tailor and embarks on an impossible journey to sew three magic dresses, from the sun, the moon, and the stars. And don't miss Elizabeth Lim's new novel, the instant New York Times bestseller, *Six Crimson Cranes!* "All the cutthroat competition of a runway fashion reality show and the thrilling exploits of an epic quest." —The

Washington Post Maia Tamarin dreams of becoming the greatest tailor in the land, but as a girl, the best she can hope for is to marry well. When a royal messenger summons her ailing father, once a tailor of renown, to court, Maia makes the ultimate sacrifice and poses as a boy to take his place. She knows her life is forfeit if her secret is discovered, but she'll take that risk to achieve her dream and save her family from ruin. There's just one catch: Maia is one of twelve tailors in a cutthroat competition for the job. Backstabbing and lies run rampant as the tailors compete in challenges to prove their artistry and skill. Maia's task is further complicated when she draws the attention of the court magician, Edan, whose piercing eyes seem to see straight through her disguise. And nothing could have prepared her for the unthinkable final challenge: to sew three magic gowns for the emperor's reluctant bride-to-be, from the sun, the moon, and the stars. With this impossible task before her, she embarks on a

Punk 57 - Penelope Douglas 2016

"MISHA I can't help but smile at the lyrics in her letter. She misses me. In fifth grade, my teacher set us up with pen pals from a different school. Thinking I was a girl, with a name like Misha, the other teacher paired me up with her student, Ryen. My teacher, believing Ryen was a boy like me, agreed. It didn't take long for us to figure out the mistake. And in no time at all, we were arguing about everything. The best take-out pizza. Android vs. iPhone. Whether or not Eminem is the greatest rapper ever... And that was the start. For the next seven years, it was

us. Her letters are always on black paper with silver writing. Sometimes there's one a week or three in a day, but I need them. She's the only one who keeps me on track, talks me down, and accepts everything I am. We only had three rules. No social media, no phone numbers, no pictures. We had a good thing going. Why ruin it? Until I run across a photo of a girl online. Name's Ryen, loves Gallo's pizza, and worships her iPhone. What are the chances? F*ck it. I need to meet her. I just don't expect to hate what I find. RYEN He hasn't written in three months. Something's wrong. Did he die? Get arrested? Knowing Misha, neither would be a stretch. Without him around, I'm going crazy. I need to know someone is listening. It's my own fault. I should've gotten his phone number or picture or something. He could be gone forever. Or right under my nose, and I wouldn't even know it. *Punk 57 is a stand alone New Adult romance. It is suitable for ages 18+."-- Amazon.com

Eleanor & Park - Rainbow Rowell 2012-04-12
'Reminded me not just what it's like to be young and in love, but what it's like to be young and in love with a book' John Green, author of The Fault in our Stars Eleanor is the new girl in town, and she's never felt more alone. All mismatched clothes, mad red hair and chaotic home life, she couldn't stick out more if she tried. Then she takes the seat on the bus next to

Park. Quiet, careful and - in Eleanor's eyes - impossibly cool, Park's worked out that flying under the radar is the best way to get by. Slowly, steadily, through late-night conversations and an ever-growing stack of mix tapes, Eleanor and Park fall in love. They fall in love the way you do the first time, when you're 16, and you have nothing and everything to lose. Set over the course of one school year in 1986, Eleanor & Park is funny, sad, shocking and true - an exquisite nostalgia trip for anyone who has never forgotten their first love.

Women Writers and Old Age in Great Britain, 1750-1850 - Devoney Looser 2008-08-01

This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women

Red Skies A Sexy Romantic Suspense Novel Miamis Danes Sexy Suspense English Edition

wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward

retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.
