*Cybersex Unplugged* - David L. Delmonico

experience in sexual compulsivity to focus on the nuances of Internet sexual compulsivity. We break down the complex elements of treating cybersex problems into the basic elements for the individual to address. We also highlight issues unique to cybersex including topics such as: psychology of the Internet, cybersex user categories, and understanding, assessing, and managing your Internet use. The three of us represent over 50 years of clinical and research work. One way to help determine if a behavior is problematic is to take a self administered screening test. The Internet Sex Screening Test (included in the workbook) has been taken by thousands of individuals and can be used to help gauge how problematic your online sexual behavior may be. People who exhibit problematic sexual behavior on the Internet tend to fall into one of the three groups: Discovery Group: those who have no previous problem with online sex or any history of problematic sexual behavior. Predisposed Group: those who have

had their first out-of-control sexual behavior on the Internet while obsessing over unacted-on sexual fantasies and urges. Lifelong Sexually Compulsive Group: those whose out-of-control sexual behavior on the Internet is part of an ongoing and severe sexual behavior problem. Through this book, you will have opportunities to examine your online sexual behaviors and assess the level of compulsiveness, address related treatment issues to your cybersex behaviors, and develop plans to find sexual health in an electronic world. We hope you find this workbook useful as you strive to find sexual health in an electronic world. One of the major goals of this workbook is to assist you in clarifying healthy sexual behavior, both offline and online. We believe that in order to be healthy online, sexually or otherwise, you must develop healthy sexuality offline as well

**The Opioid Crisis** - Sabine Cherenfant

2019-07-15

Opioids are pain relievers that include legal drugs like morphine, fentanyl, and oxycodone and illegal drugs like heroin. In 2017, the U.S. Department of Health and Human Services declared the opioid epidemic a public health crisis after 42,249 people in the United States died of opioid overdoses in 2016. Opioid prescription has been on the rise since the 1990s, when pharmaceutical companies asserted that the pain relievers were not addictive, though the tragic consequences have proven otherwise. This volume explores the history of the opioid crisis and solutions that have been proposed to fight this increasingly deadly epidemic.

*Overcoming Sex Addiction* - Thaddeus Birchard

It is designed for those who are not yet ready to seek professional help or who live in a place where little help is available and can be used in conjunction with general psychotherapy. Written by a leading expert in the field, the book offers an insight into the origins of sex addiction, before going on to explain the cycle of addiction and how to break it. The book has a do-it-yourself week-by-week programme of action to tackle compulsive sexual behaviour, and provides extensive advice on relapse prevention to help the reader move forward in recovery. *Overcoming Sex Addiction* will provide clear, informed guidance for sex addicts and those professionals working with them.

**White Savior Projects** - Jennifer A. Cheek 2022  
For this dissertation, I conduct an ethnography of three antitrafficking programs; interview 38 activists and survivors of trafficking; and analyze

organizational texts, websites, and social media. I examine the history of the antitrafficking movement. Among the three organizations, activists provide housing; food, clothing, and hygiene items; medical services; mental health services and counseling; mentorship; education for survivors; a 24-hour hotline; outreach; case management and referrals; training for law enforcement; a drop-in center; and education and awareness events. I examine activists' diagnostic, prognostic, and motivational framing of sex trafficking, and other framing tactics, such as frame alignment, frame diffusion, frame resonance, and cycles of protest. Activists within the three organizations connect sex trafficking to the Atlantic Slave Trade, referring to human trafficking as "modern-day slavery." Activists also frame trafficking as happening in "our own backyards;" happening primarily to girls and women; and conflate sex work and sex trafficking. Activists believe that sex trafficking is caused by childhood sexual abuse,

pornography and pornography addiction, and systems of oppression. I find that evangelical Christianity influences the organizations through services for survivors, training for staff and the public, the recruitment of staff and volunteers at church, and the practice of Christianity in front of and with survivors. I also find that evangelical activists employ language and strategies that cast them as white saviors seeking to 'rescue' survivors. There are several factors that have contributed to the success of the antitrafficking movement, such as increased political opportunities, resource mobilization, effective leadership, strategic use of grievances, and cultural context. Activists face several challenges in their work, namely lack of funding and resources, like housing. For the future, activists would like to see increased punishment of clients and traffickers; reductions in pornography and pornography addiction; increased education and awareness about trafficking; installation of survivors in

leadership; and increased funding. I conclude by recommending that sex work and sex trafficking be distinguished in research, legislation, policies, and practice; rehabilitation of traffickers and clients; and make systematic changes to lessen the factors which contribute to trafficking.

*Voices Lost, Spirit Found* - Colee Q. Bethany  
2021-03-16

One of my mother's favorite lines is "if you don't have anything nice to say, don't say anything at all." The principle still rings true, but there's a difference between being nice and being taken advantage of. We sometimes find it difficult to say no. Whatever the reason we can't say no, I'm here to tell us that we can. We can change our situations if we determine that we are ready to. If you are ready for change, I hope that you will engross yourself on this journey of finding your voice. This workbook is meant for anyone who feels beaten down by life. Jesus knows all about you. He is calling you to draw closer to Him and

receive His Spirit. He will fill you with a boldness that you have never known (Ephesians 1:18). He already gave you the strength to go through this process (Isaiah 41:10). You are never alone. God is everything you need. During this process, God will reveal things to us that we couldn't see before. We all have mountaintop and valley experiences. He promises to be with us through them all. This workbook will also help us to understand the people around us but use this workbook to understand you first. We need to be able to heal in order to help others. *Voices Lost, Spirit Found* takes you through a journey of discovering some reasons for repressed emotions. Revealing some unhealthy coping mechanisms is the next step. The final step is to give some healthy coping mechanisms to replace the unhealthy ones. I know you don't like where you are because you're looking for answers. I pray you find the answers through this workbook and prayer. This workbook gives you food for thought and space
