

Sex Lies Politics Larry Flynt

Lincoln's Wrath - Jeffrey Manber 2006-11-01

In the blistering summer of 1861, President Lincoln began pressuring and ordering the physical shutdown of any Northern newspaper that voiced opposition to the war. These attacks were sometimes carried out by soldiers, sometimes by angry mobs under cover of darkness. Either way, the effect was a complete dismantling of the free press. In the midst stood publisher John Hodgson, an angry bigot so hated that a local newspaper gleefully reported his defeat in a bar fight. He was also firmly against Lincoln and the war--an opinion he expressed loudly through his newspaper. When his press was destroyed, first by a mob, then by U.S. Marshals "upon authority of the President of the United States," Hodgson decided to take on the entire United

States. Thus began a trial in which one small-town publisher risked imprisonment or worse, and the future of free speech hung in the balance. Based on 10 years of original research, Lincoln's Wrath brings to life one of the most gripping, dramatic and unknown stories of U.S. history.

Politics and Morality - Susan Mendus 2013-04-25

Public disenchantment with politics has become a key feature of the world in which we live. Politicians are increasingly viewed with suspicion and distrust, and electoral turnout in many modern democracies continues to fall. But are we right to display such contempt towards our elected representatives? Can politicians be morally good or is politics destined to involve dirty hands or the loss of integrity, as many modern philosophers claim? In this

book, Susan Mendus seeks to address these important questions to assess whether this apparent tension between morality and politics is real and, if so, why. Beginning with an account of integrity as involving a willingness to stand by ones most fundamental moral commitments, the author discusses three reasons for thinking that politics undermines integrity and is incompatible with morality. These are: the relationship between politics and utilitarian calculation; the possibility that the realm of politics is a separate realm of value; and the difficulty of reconciling the demands of different social roles. She concludes that, in the modern world, we all risk losing our integrity. To that extent, we are all politicians. Moreover, we have reason to be glad that politicians are not always morally good. Written with verve and clarity, this book provides students and general readers an accessible guide to the philosophical debates about the complex relationship between politics

and morality in the contemporary world.

Pornified - Pamela Paul
2007-04-01

"Strips porn of its culture-war claptrap . . . Pornified may stand as a Kinsey Report for our time."—San Francisco Chronicle
Porn in America is everywhere—not just in cybersex and Playboy but in popular video games, advice columns, and reality television shows, and on the bestseller lists. Even more striking, as porn has become affordable, accessible, and anonymous, it has become increasingly acceptable—and a big part of the personal lives of many men and women. In this controversial and critically acclaimed book, Pamela Paul argues that as porn becomes more pervasive, it is destroying our marriages and families as well as distorting our children's ideas of sex and sexuality.

Based on more than one hundred interviews and a nationally representative poll, *Pornified* exposes how porn has infiltrated our lives, from the wife agonizing over the late-

on 2021-05-26 by guest

night hours her husband spends on porn Web sites to the parents stunned to learn their twelve-year-old son has seen a hardcore porn film. Pornified is an insightful, shocking, and important investigation into the costs and consequences of pornography for our families and our culture.

A Hypersexual Society - K. Kammeyer 2008-11-10

As many can attest, the prevalence of sexual imagery has increased in modern society over the past half century. In this timely new study, Kenneth Kammeyer traces the historical development of sexual imagery in America and society's preoccupation with it, all within a firm theoretical and sociological framework.

Sexual Citizens - Brenda Cossman 2007

This book explores the relationship between sex and belonging in law and popular culture, arguing that contemporary citizenship is sexed, privatized, and self-disciplined. Former sexual

outlaws have challenged their exclusion and are being incorporated into citizenship. But as citizenship becomes more sexed, it also becomes privatized and self-disciplined. The author explores these contesting representations of sex and belonging in films, television, and legal decisions. She examines a broad range of subjects, from gay men and lesbians, pornographers and hip hop artists, to women selling vibrators, adulterers, and single mothers on welfare. She observes cultural representations ranging from Queer Eye for the Straight Guy to Dr. Phil, Sex in the City to Desperate Housewives. She reviews appellate court cases on sodomy and same-sex marriage, national welfare reform, and obscenity regulation. Finally, the author argues that these representations shape the terms of belonging and governance, producing good (and bad) sexual citizens, based on the degree to which they abide by the codes of privatized and self-disciplined

sex.

Sex, Lies & Politics - Larry Flynt 2005

The notorious pornographer and defender of the First Amendment rights, who is fed up with the current state of our government, shares his thoughts on a vast array of issues, including sex, the War on Terror, the Bush administration, religion, feminism, entrepreneurism, and privacy. Reprint. 25,000 first printing.

Focus On: 100 Most Popular 20Th-century American Politicians - Wikipedia contributors

The Encyclopedia of Sexism in American Films - Salvador Jimenez Murguía 2019-12-15

The treatment—and mistreatment—of women throughout history continues to be a necessary topic of discussion, in order for progress to be made and equality to be achieved. While current articles and books expose troubling truths of the gender divide, modern cinema continues to provide

problematic depictions of such behavior—with a few heartening exceptions. The Encyclopedia of Sexism in American Films closely examines the many, pervasive forms of sexism in contemporary productions—from clueless comedies to superhero blockbusters. In more than 130 entries, this volume explores a number of cinematic grievances including: the objectification of women’s bodies the limited character types available for female performers the lack of sexual diversity on the screen the limited range of desirable traits for female performers the use of gratuitous sex the narrow focus on heteronormative depictions of courtship and romance The films discussed here include *As Good as It Gets* (1999), *Beauty and The Beast* (2017), *The Devil Wears Prada* (2006), *Do the Right Thing* (1989), *Easy A* (2010), *The Forty-Year-Old Virgin* (2005), *Hidden Figures* (2016), *Lost in Translation* (2003), *Mulholland Drive* (2001), *Showgirls* (1995),

The Silence of the Lambs (1991), Star Wars (1977), Thelma & Louise (1991), Tootsie (1982), The Witches of Eastwick (1987), and 9 to 5 (1980). By digging deeply into more insidious forms of sexual/gender discrimination, this book illuminates one more aspect of women's lives that deserves to be understood. Offering insights and analysis from more than fifty contributors, *The Encyclopedia of Sexism in American Films* will appeal to scholars of cinema, gender studies, women's studies, and cultural history.

Men - Laura Kipnis 2014-11-18

From the notoriously contrarian author of *Against Love*, a witty and probing examination of why badly behaved men have been her lifelong fascination, on and off the page. It's no secret that men often behave in intemperate ways, but in recent years we've witnessed so many spectacular public displays of male excess—disgraced politicians, erotically desperate professors,

fallen sports icons—that we're left to wonder whether something has come unwired in the collective male psyche. In the essays collected here, Laura Kipnis revisits the archetypes of wayward masculinity that have captured her imagination over the years, scrutinizing men who have figured in her own life alongside more controversial public examples. Slicing through the usual clichés about the differences between the sexes, Kipnis mixes intellectual rigor and wit to give us a compelling survey of the affinities, jealousies, longings, and erotics that structure the male-female bond.

Bound and Gagged - Laura Kipnis 1999

An examination of how sexual fantasy and pornography are policed in contemporary American culture.

The Publishers Weekly - 2004

The Rise of Political Lying - Peter Osborne 2005

Tracing the history of political falsehood back to its earliest days but focusing specifically

on the exponential rise of the phenomenon during the Major and Blair governments, the author demonstrates that the truth has become an increasingly slippery concept in recent years.

A More Perfect Constitution

- Larry J. Sabato 2010-07-23

A More Perfect Constitution presents creative and dynamic proposals from one of the most visionary and fertile political minds of our time to reinvigorate our Constitution and American governance at a time when such change is urgently needed, given the growing dysfunction and unfairness of our political system . Combining idealism and pragmatism, and with full respect for the original document, Larry Sabato's thought-provoking ideas range from the length of the president's term in office and the number and terms of Supreme Court justices to the vagaries of the antiquated Electoral College, and a compelling call for universal national service-all laced through with the history

behind each proposal and the potential impact on the lives of ordinary people. Aware that such changes won't happen easily, but that the original Framers fully expected the Constitution to be regularly revised, Sabato urges us to engage in the debate and discussion his ideas will surely engender. During a presidential election year, no book is more relevant or significant than this.

Culture Wars - Roger

Chapman 2015-03-17

The term "culture wars" refers to the political and sociological polarisation that has characterised American society the past several decades. This new edition provides an enlightening and comprehensive A-to-Z ready reference, now with supporting primary documents, on major topics of contemporary importance for students, teachers, and the general reader. It aims to promote understanding and clarification on pertinent topics that too often are not adequately explained or discussed in a

balanced context. With approximately 640 entries plus more than 120 primary documents supporting both sides of key issues, this is a unique and defining work, indispensable to informed discussions of the most timely and critical issues facing America today.

No More Nice Girls - Ellen Willis 2012

Originally published: Hanover: Published by University Press of New England [for] Wesleyan University Press, c1992.

The Death of American Virtue - Ken Gormley 2010-02-16

Ten years after one of the most polarizing political scandals in American history, author Ken Gormley offers an insightful, balanced, and revealing analysis of the events leading up to the impeachment trial of President William Jefferson Clinton. From Ken Starr's initial Whitewater investigation through the Paula Jones sexual harassment suit, to the Monica Lewinsky affair and Brett Kavanaugh's role in the subsequent inquiry, *The Death of American Virtue* is a

gripping chronicle of an ever-escalating political feeding frenzy. In exclusive interviews, Bill Clinton, Ken Starr, Monica Lewinsky, Paula Jones, Susan McDougal, and many more key players offer candid reflections on that period. Drawing on never-before-released records and documents—including the Justice Department's internal investigation into Starr, new details concerning the death of Vince Foster, and evidence from lawyers on both sides—Gormley sheds new light on a dark and divisive chapter, the aftereffects of which are still being felt in today's political climate.

Prosperity without Growth - Tim Jackson 2016-12-08

What can prosperity possibly mean in a world of environmental and social limits? The publication of *Prosperity without Growth* was a landmark in the sustainability debate. Tim Jackson's piercing challenge to conventional economics openly questioned the most highly prized goal of politicians and economists alike: the continued pursuit of

exponential economic growth. Its findings provoked controversy, inspired debate and led to a new wave of research building on its arguments and conclusions. This substantially revised and re-written edition updates those arguments and considerably expands upon them. Jackson demonstrates that building a 'post-growth' economy is a precise, definable and meaningful task. Starting from clear first principles, he sets out the dimensions of that task: the nature of enterprise; the quality of our working lives; the structure of investment; and the role of the money supply. He shows how the economy of tomorrow may be transformed in ways that protect employment, facilitate social investment, reduce inequality and deliver both ecological and financial stability. Seven years after it was first published, Prosperity without Growth is no longer a radical narrative whispered by a marginal fringe, but an essential vision of social progress in a post-crisis world.

Fulfilling that vision is simply the most urgent task of our times.

Financial Disclosure Reports of Members of the U.S. House of Representatives for the Period Between January 1, 2004 to December 31, 2004 - United States. Congress House 2005

Not for Sale - Rebecca Whisnant 2004

As pornography and prostitution increasingly saturate our lives and our communities, they become normalised and accepted as harmless entertainment for men and legitimate, even liberating forms of work for women. Bringing together research, testimony and theory by more than 30 writers and activists from different countries and generations, including a number of courageous industry survivors, 'Not for Sale' is a vital contribution to ongoing debates and a call to action and resistance.

Blood in the Soil - Carole

Townsend 2016-04-12

Blood in the Soil is the first book about the investigation into the shooting of Hustler magazine publisher Larry Flynt and his country attorney in Gwinnett County, Georgia, in 1978. But this book is not primarily about Larry Flynt, or even his shooter (the serial killer Joseph Paul Franklin), though both men are of course important characters in the story. This true account is told alternately from the perspective of Detective J. Michael Cowart and by following Franklin's life from childhood through his execution. The monster that was Joseph Paul Franklin was the result of a perfect storm of circumstances, which included poverty, cruel abuse as a child, the detestation and mistrust between blacks and whites, integration, and the hate groups that operated and

recruited openly. Detective Cowart tells the story of his first introduction to Franklin, and the cat-and-mouse game that ensued. A self-proclaimed truth-seeker, the detective had to appear to befriend Franklin to get him to provide enough information to prosecute him in the Flynt shooting. In the course of developing this rapport, Cowart gains astonishing insight into many of Franklin's other cold-blooded killings and crimes, and his twisted justification for them. This book tells of a very real struggle between right and wrong. It details with stark honesty the terrible truths that characterized the South during the volatility of the sixties and seventies, and of the ugly reality that lies just beneath the veneer of a beautiful region known for its warm hospitality. Along the way, it examines some hard lessons about life, trust, and compromise.
