The Kerr/Haslam Inquiry [report] - Kerr/Haslam Inquiry 2005-07-18

This report sets out the findings and recommendations of the private inquiry into how the NHS dealt with complaints relating to the practice and conduct of two consultant psychiatrists, William Kerr and Michael Haslam, who worked in the same psychiatric hospital in North Yorkshire during the 1970s and 1980s, and who were both later convicted of the indecent assault of female psychiatric patients. The two-volume report examines a range of issues including: i) background events including the range of concerns considered in the provision of mental health services, the conduct of the inquiry and the report in context; ii) detailed examination of the complaints against William Kerr and Michael Haslam, the NHS procedures then in place for raising concerns about healthcare professionals and actions taken in response to concerns; iii) the actions of particular GPs and the response of the GP community at large; iv) contributing factors which acted as a barrier to appropriate investigation and action, including organisational and structural issues, the prevailing medical culture and lack of a governance process, problems of professional practice and individual failings; and v) changes since the 1990s and recommendations for improvements in future practice.

HM Government: Serious Organised Crime Strategy - Cm. 8715 - Great Britain: Home Office 2013-10-07

This is a new strategy to deal with the challenges we face from serious and organised crime. It is published to coincide with the launch of the new National Crime Agency (NCA) and reflects changes to the threats faced and the lessons learned from previous work. Organised crime includes drug trafficking, human trafficking, and organised illegal immigration, high value fraud and other financial crimes, counterfeiting, organised acquisitive crime and cyber crime. The aim of the strategy is to substantially reduce the level of serious and organised crime affecting the UK and its interests. The strategy uses the framework developed for our counter-terrorist work and has four components: prosecuting and disrupting people engaged in serious and organised crime (Pursue); preventing people from engaging in this activity (Prevent); increasing protection against serious and organised crime (Protect); and reducing the impact of this criminality where it takes place (Prepare). The strategy lists strategic objectives under each of the four areas of work. Tactical operational objectives (e.g. priority crime groups) will be set by the NCA with law enforcement agency counterparts. Our immediate priority is the work set out under Pursue to prosecute and relentlessly disrupt organised criminals and reduce the threat they pose. Like other threats to our national security, serious and organised crime requires a response across the whole of government, and close collaboration with the public, the private sector and with many other countries

Rage/hate/assault and Other Forms of Violence - Denis J. Madden 1976

Case Studies in Sexual Deviance - William T. O'Donohue 2013-10-08

The assessment and treatment of sexual deviance can be very difficult tasks, and it can be hard to find mentors to provide initial skills training and help in navigating the many complexities of a particular case. This book presents a series of case studies from international experts in the field that depict the evidence-based assessment and treatment of a variety of paraphilias. Intended as learning tools readers can use as models and from which they can gain insight, these case studies are offered as exemplars of clinical problem solving. The authors of each chapter provide research evidence that justifies treatment decisions, explain their assessment strategies and case formulations, and provide information about how to navigate common problems a clinician will encounter, such as denial, poor motivation, and co-morbid problems. A variety of assessment instruments and treatment strategies are also illustrated. Both new and experienced clinicians will find this book to be an invaluable resource in their own work.

Sexual Assault of Young Children as Reported to Law Enforcement - Howard N. Snyder 2000

Parliamentary Debates (Hansard). - Great Britain. Parliament. House of Commons 2013

Evils in Disguise - John Schall 2010-05

When Beth Renner, secretary to deceitful Preacher Elroy Perkins, marries Officer Vince Powers, she believes heaven is just around the corner. However, when Vince becomes a suspect in a murder, she must go through hell to get there. The ensuing murder investigation tests the resolve of two female detectives as they pursue the killer. Meanwhile, a mega church is in the planning as Perkins and his cohort initiate a strategy to fleece members of the congregation.

Policing the Lucky Country - Mike Enders 2001

Policing The Lucky Country addresses key challenges of contemporary Australian policing, and places them within the context of Australia's particular culture and history. The book's approach is to combine policing case studies with an analysis of the wider social and political environment. Policing students are given information which enables them to think critically about contemporary policing practice and to understand the factors behind pervasive attitudes in the forces and the community. In this way, it aims to increase each officer's range of responses, leading to appropriate policing practices and increased safety for the officer. One of the key strengths of the book is the discussion of policing and indigenous persons, with articles on policing indigenous peoples and indigenous participation in policing. Specific police-indigenous clashes are examined and situated within the Aboriginal policies of the day. This historical perspective illuminates the discussion of current police force relationships with, and responsibilities towards, indigenous persons. Other issues considered - the use of technology, the

enforcement of drug laws, the maintenance of public order, the role of police in industrial disputes, the social construction of crime - are studied in similar fashion, and provide a useful source of information and discussion about areas of policing relevant to contemporary police work. This book is designed for first year policing students, but will also be useful in criminology courses.

A Treatise on the Police of the Metropolis - Patrick Colquhoun 1806

Apprehended Violence Orders - New South Wales. Law Reform Commission 2003

The World Rose - Richard Brittain 2014-09-14

An epic fairytale romance set in a semi-fictional ancient world, containing elements of action, adventure, poetry and comedy. The title has a triple meaning: the central character is a renowned beauty - 'the rose of the world' - while the rose flower features heavily in the plot, and it also implies that the world rose up. When Ronwind Drake discovers treasures in a distant paradise, a new golden age seems set to begin, but Ella Tundra will find that all which glitters is not gold as she faces many obstacles in her quest for true love.

When Scotland Was Jewish - Elizabeth Caldwell Hirschman 2015-05-07

The popular image of Scotland is dominated by widely recognized elements of Celtic culture. But a significant non-Celtic influence on Scotland's history has been largely ignored for centuries? This book argues that much of Scotland's history and culture from 1100 forward is Jewish. The authors provide evidence that many of the national heroes, villains, rulers, nobles, traders, merchants, bishops, guild members, burgesses, and ministers of Scotland were of Jewish descent, their ancestors originating in France and Spain. Much of the traditional historical account of Scotland, it is proposed, rests on fundamental interpretive errors, perpetuated in order to affirm Scotland's identity as a Celtic, Christian society. A more accurate and profound understanding of Scottish history has thus been buried. The authors' wide-ranging research includes examination of census records, archaeological artifacts, castle carvings, cemetery inscriptions, religious seals, coinage, burgess and guild member rolls, noble genealogies, family crests, portraiture, and geographic place names.

The Dark Side of Samuel Pepys - Geoffrey Pimm 2018-02-28

This historical biography reveals how the famous diarist of Restoration England used his professional position to act as a sexual predator. Samuel Pepys is popularly known as the founder of the modern navy, a member of the Royal Society and, most of all, as a unique and frank diarist. Less well known is that he was a serial sexual offender by modern standards; a voyeur, a groper, and a rapist. Set against the London society of Charles II's restoration, and extensively using Pepys' own words, this book concerns his numerous extramarital affairs. It

demonstrates how he used his position of power and influence to advance the careers of his subordinates—in return for the sexual favors of their wives. With his own descriptions, translated from the strange mix of languages and the seventeenth-century shorthand he used to camouflage the content, the reader witnesses in graphic detail how Pepys set about achieving his lascivious objectives - on occasion resorting to physical force where persuasion or bribery failed. Whether she be wife, daughter, mother, or humble maidservant, no woman was safe from his rapacious sexual appetite.

Clinical Assessment of Malingering and Deception, Third Edition - Richard Rogers 2008-05-21

Widely regarded as the standard reference in the field, this book provides essential tools for understanding and assessing malingering and other response styles in forensic and clinical contexts. An integrating theme is the systematic application of detection strategies as conceptually grounded, empirically validated methods that bridge different measures and populations. Special topics include considerations in working with children and youth. From leading practitioners and researchers, the volume reviews the scientific knowledge base and offers best-practice guidelines for maximizing the accuracy of psychological and psychiatric evaluations.

Witchcraft - Marion Gibson 2023-06-22

Salem, King James VI, Malleus Maleficarum. The world of witch hunts and witch trials sounds antiquated, relics of an unenlightened and brutal age. However, 'witch hunt' is heard often in the present-day media, and the misogyny it is rooted in is all too familiar today. A woman was prosecuted under the 1735 Witchcraft Act as recently as 1944. This book uses thirteen significant trials to explore the history of witchcraft and witch hunts. As well as investigating some of the most famous trials from the middle ages to the 18th century, it takes us in new and surprising directions. It shows us how witchcraft was decriminalised in the 18th century, only to be reimagined by the 1780s Romantic radicals. We will learn how it evolved from being seen as a threat to Christianity to perceived as gendered persecution, and how trials against chieftains in Africa stoked anger against colonial rule. Significantly, the book tells the stories of the victims - women, such as Helena Scheuberin and Joan Wright - whose stories have too often been overshadowed by those of the powerful men, such as King James VI and I and "Witchfinder General" Matthew Hopkins, who hounded them. While this will be a history of witchcraft, the subject cannot be consigned to the history books. Hundreds of people, mostly women, are tried and killed as witches every year in Africa. 'WITCH HUNT!' is as common in our language today as ever it was, and witches are still on trial across the world.
