**Breaking Dad** - James Lubbock 2019-04

In December 2009 the national newspapers reported the arrest of a 'drug baron' with the biggest haul of crystal meth yet seen in this country. The accompanying photo was a mugshot of a scrawny, seedy looking bloke - the archetypal lowlife, a career crook, no doubt. And yet behind the headlines was a story the newspapers never discovered, a story more sensational than they could ever have wished for. This lowlife, this drug baron was in fact, just a few years before, a meek law-abiding suburban family man ... He was my dad. James was a normal student - insecure, smelly, geeky and a virgin to boot - at a normal university on his way home to his normal family at the end of a normal term. His father picked James up in his old Cortina - his middle class, middle-aged father, a respected Jewish coin dealer - and they travelled back to their suburban house in northwest London. Here, James's teetotal dad liked nothing more than to relax at the end of a long 9-5 by listening to some Taverner or Handel with a nice cup of Earl Grey, musing with delight on the highlight of his day: finding a great parking space near the entrance to Tesco. Never in his worst nightmares could James know that in the next few days not only would his parents separate; not only would they both reveal to him they were gay; not only would his fifty-something father ditch Taverner for Trance, Handel for Hard House and hit the gay club scene of London harder than James had ever hit the student union bar in Bournemouth; not only would his father trade in coin dealing for drug dealing to a catalogue of A list celebrities in his new London flat, which was transformed to a hangout for addicts of sex and drugs alike; not only would James lose his mother to cancer in the ensuing months; not only

would his father develop a debilitating addiction to crystal meth; but James's dad would eventually be arrested with that biggest haul of crystal meth in UK history.

**Integrity Restored: Helping Catholic Families Win the Battle Against Pornography (Revised and Expanded Edition)** - Peter C Kleponis, Ph.D. 2019-11-01

Alarming numbers of men, women, and teens struggle with frequent or habitual pornography use today. Among them are many faithful Catholics desperate for hope and healing. In *Integrity Restored: Helping Catholic Families Win the Battle Against Pornography*, clinical therapist Dr. Peter Kleponis equips readers to embark on a path of recovery. Drawing heavily from Catholic teaching on human sexuality, Kleponis provides resources and insight for parents, educators, pastors, and all struggling to overcome an addiction to pornography. In this newly updated edition, Kleponis looks at new technologies, apps, and services that pose the biggest threat to Catholics today.

[Promiscuity in Western Literature](#) - Peter Stoneley 2020-02-13

Poet and novelist Charles Bukowski described promiscuity as "feast and feast and feast." The promiscuous person is having fun, getting away with it, and showing no signs of stopping. More often, though, promiscuity has been seen as demonic, as the sign of an uncivilised race, or as a symptom of mental disorder. *Promiscuity in Western Literature*

capitalises on the fact that literature gives us deep and varied resources for reflecting on this controversial aspect of human behaviour. Drawing on authors from Homer to Margaret Atwood, it explores recurrent ideas and scenarios: Why does the literature of promiscuity evoke ideas of the animal? Why does it so often turn upon the image of the "excessive" woman? How and why does promiscuity feature in comic writing? How does the emergence of the modern city change representations of promiscuity? And, in the present day, what impact have ecological concerns had on the way writers depict promiscuity?

Substance Abuse Recovery in College - H. Harrington Cleveland  
2010-04-15

Substance Abuse Recovery in College explains in authoritative detail what collegiate recovery communities are, the types of services they provide, and their role in the context of campus life, with extended examples from Texas Tech University's influential CSAR (Center for the Study of Addiction and Recovery) program. Using data from both conventional surveys and end-of-day daily Palm Pilot assessments as well as focus groups, the book examines community members' experiences. In addition, the importance of a positive relationship between the recovery community and the school administration is emphasized. Topics covered include: The growing need for recovery services at colleges. How recovery communities support abstinence and relapse prevention. Who are community members and their addiction and treatment histories. Daily lives of young adults in a collegiate recovery community. Challenges and opportunities in establishing recovery communities on campus. Building abstinence support into an academic curriculum. This volume offers clear insights and up-close perspectives of importance to developmental and clinical child psychologists, social workers, higher education policymakers, and related professionals in human development, family studies, student services, college health care, and community services.

*Rogue Clerics* - Anson Shupe 2017-09-08

During the past several years the mass media in the United States has been awash with reports of priestly pedophilia, ecclesiastical cover-up,

and clerical intimidation or financial settlements intended to silence victims. Based on journalistic accounts, or scholarly research, it might be assumed that this is a recent phenomenon. Journalist reports began only within the past few years. Similarly, most sociologists of religion and particularly specialists in deviance and criminology did not reflect awareness of clerical misbehavior in their work. Despite this, Anson Shupe shows that clergy deviance, whether it is sexual or otherwise, is not merely a recent problem. It is as old as the church itself and is inevitably bound to recur due to the nature of religious groups. This comprehensive analysis offers the first up-to-date analysis of sexual, economic, and authoritative clergy malfeasance across faiths and denominational authority structures. Drawing on examples taken from antiquity up until the present day, and using reports by historians, theologians, church spokespersons, therapists, social scientists, and journalists, Shupe critically evaluates clergy deviant behavior, dividing it into various types. He also makes use of the therapeutic literature, addressing victimization at the level of the individual, church, and community at large. In this way, he compares the response of the clergy to victims' attempts to mobilize movements calling for church reform. Perhaps most controversial, this book considers the possible relationship of homosexuality in the clergy to the occurrences of scandals in all religious traditions across the board. As an overview of clergy misconduct, this book is singular. There is simply no other comprehensive serious examination of this subject. Written by a sociologist for a wide range of readers, its multi-disciplinary nature, vivid examples, and wealth of research, will make the volume of interest to sociologists of religion and crime, historians and theologians, as well as a general public.

**Come As You Are: Revised and Updated** - Emily Nagoski 2021-03-02  
A revised and updated edition of Emily Nagoski's game-changing New York Times bestseller *Come As You Are*, featuring new information and research on mindfulness, desire, and pleasure that will radically transform your sex life. For much of the 20th and 21st centuries, women's sexuality was an uncharted territory in science, studied far less

frequently—and far less seriously—than its male counterpart. That is, until Emily Nagoski's *Come As You Are*, which used groundbreaking science and research to prove that the most important factor in creating and sustaining a sex life filled with confidence and joy is not what the parts are or how they're organized but how you feel about them. In the years since the book's initial publication, countless women have learned through Nagoski's accessible and informative guide that things like stress, mood, trust, and body image are not peripheral factors in a woman's sexual wellbeing; they are central to it—and that even if you don't always feel like it, you are already sexually whole by just being yourself. This revised and updated edition continues that mission with new information and advanced research, demystifying and decoding the science of sex so that everyone can create a better sex life and discover more pleasure than you ever thought possible.

*Forgiveness and Health* - Loren Toussaint 2015-10-05

This volume collects the state-of-the-art research on forgiveness and mental and physical health and well-being. It focuses specifically on connections between forgiveness and its health and well-being benefits. Forgiveness has been examined from a variety of perspectives, including the moral, ethical and philosophical. Ways in which to become more forgiving and evolutionary theories of revenge and forgiveness have also been investigated and proposed. However, little attention has been paid to the benefits of forgiveness. This volume offers an examination of the theory, methods and research utilized in understanding these connections. It considers trait and state forgiveness, emotional and decisional forgiveness, and interventions to promote forgiveness, all with an eye toward the positive effects of forgiveness for a victim's health and well-being. Finally, this volume considers key moderators such as gender, race, and age, as well as, explanatory mechanisms that might mediate links between forgiveness and key outcomes.

*When Texas Prison Scams Religion* - Michael G. Maness 2023-05-22

When Texas Prison Scams Religion exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that "buys faith with favor" from prisoners. The state veritably ordains the prisoner a "Field Minister" that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ's executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his "100,000 Mothers' 1% Certainty Parole Texas Constitutional Amendment," which would

revolutionize prison culture and save Texans millions of the dollars.

Following Jesus in a Culture of Fear (The Christian Practice of Everyday Life) - Scott Bader-Saye 2007-06-01

Through politics, marketing, news programming, and popular culture we are taught to fear, often in ways that profit others. But what does all this fear do to our moral lives as it forms (or deforms) our character and our judgment? Drawing on Christian scripture and tradition, *Following Jesus in a Culture of Fear* articulates a response to fear that resists an ethic of security in favor of fostering an ethic of risk. The Christian virtues of hospitality, peacefulness, and generosity are presented as the way to defeat the counter-virtues of suspicion, preemption, and control. Pastors, students, and lay people will find this unique book both accessible and intriguing. EXCERPT Do not be afraid. We live in a time when this biblical refrain cannot be repeated too often. Both John Paul II in 1978 and his successor, Benedict XVI, in 2005 used these words to begin their papacies. Among all the things the church has to say to the world today, this may be the most important. No one has to be convinced that we live in fearful times, though we are not always sure what we should be afraid of and why. We suspect that our fears make us vulnerable to manipulation, but we find it hard to quell the fear long enough to analyze how it is being produced and directed for the benefit of others. One reason we are a more fearful culture today, despite the fact that the dangers are not objectively greater than in the past, is because some people have incentives and means to heighten, manipulate, and exploit our fears. Fear is a strong motivator, and so those who want and need to motivate others--politicians, advertisers, media executives, advocacy groups, even the church--turn to fear to bolster their message. I call this the "fear for profit" syndrome, and it is rampant. We have become preoccupied with unlikely dangers that take on the status of imminent threats, producing a culture where fear determines a disproportionate number of our personal and communal decisions. The sense of ever-

increasing threats can overwhelm our ability to evaluate and respond proportionately to each new risk, thus we allow fear to overdetermine our actions.

**Clinical Supervision Activities for Increasing Competence and Self-Awareness** - Roy A. Bean 2014-04-07

Cultivate self-awareness, empathy, and clinical competence in the mental health professionals you supervise Providing tested guidance for clinical supervisors of mental health professionals, editors Roy A. Bean, Sean D. Davis, and Maureen P. Davey draw from their own backgrounds in training, private practice, and academe, as well as from an international panel of experts representing various mental health fields to provide activities and best practices that allow therapists to better serve an increasingly diverse set of clients and issues. While clinical skills are easily observed, the more subtle areas of self-awareness, or exploring unexamined judgments are more difficult to spot and to provide supervision and guidance for. The numerous experiential activities included will help supervisors and the mental health professional they supervise develop their skills and techniques around: Intuition Empathy Self-awareness Mindfulness Multicultural awareness Perspective taking The book covers both clinical as well as diversity-focused competence and awareness, and suggests various forms of activities, including research exercises, reflection, journaling, and more. Each activity includes measurement metrics as well as additional resources that help clinicians identify the best activity for a given situation. Appropriate for clinicians at every level and from a multitude of backgrounds, these tried and tested best practices can be used in clinical supervision, as a class assignment, or to facilitate professional growth.
