The Employment Relationship - Peter Herriot 2013-01-11

The Employment Relationship presents a controversial perspective on an area hitherto dominated by industrial relation experts and radical sociological theorists. Exploring some of the metaphors commonly used to describe the employment relationship, Peter Herriot argues that it is often their dark rather than their bright side which best expresses how employees really feel. Human resources sometimes feel like human discards! The main culprits in this situation, he suggests, are the top managers who fail to treat employment as a relationship and employees as individuals. He concludes that management rhetoric must be replaced by real dialogue and points to three issues where this is most crucial: employee compliance, contractual inequalities and the need for organisational change. The Employment Relationship will make essential reading for all managers and occupational psychologists. It will also be of interest to students of work psychology, human resource management or organisational behaviour.

Love Cycles - Linda Carroll 2014-08-31

In Love Cycles, veteran couples therapist Linda Carroll presents a groundbreaking model of the five natural stages of romantic relationships — the Merge, Doubt and Denial, Disillusionment, Decision, and Wholehearted Love — and a guide for navigating through them toward lasting love. Love Cycles helps readers understand where they are in the cycle of their relationship and provides a clear strategy for how to stay happy and committed, even in difficult times.

Love Stories of Later Life - Amanda Smith Barusch 2008-03-13

Even with baby boomers retiring and greater media and research attention being lavished on older people, most gerontologists have studiously avoided examining romance among the elderly. Love Stories

of Later Life is an appealing and eye-opening remedy to this neglect, as leading gerontologist Amanda Smith Barusch presents original research into what love and romance mean in seniors' lives. The result is a glimpse into a world many people didn't know existed - that of romantic love in later life. Unlike superficial guidebooks that purport to help seniors find a new mate, Love Stories of Later Life integrates theory and the latest research on love and the aging process. Drawing on a wealth of personal narratives collected during a landmark five-year study, the book presents the lived experiences of older adults from all walks of life. It addresses the impact of common age-related changes, both emotional and physical, on romantic relationships, and argues that love continues to sculpt our personalities and our lives, even in life's later decades. Each chapter includes practical tools for the serious student of love, including exercises designed to increase self-awareness and relationship-building as well as annotated lists of suggested reading that are at once comprehensive and accessible. Barusch's fresh perspective, engaging voice, and in-depth qualitative research make Love Stories of Later Life an important contribution to the study of individual lives and the aging process. This book will guide gerontologists, social workers, and counselors as they in turn help their older clients navigate love's challenges. Visit the author's website: Amanda Barusch

Lies We Tell Ourselves - Robin Talley 2016-01-26

In 1959 Virginia, Sarah, a black student who is one of the first to attend a newly integrated school, forces Linda, a white integration opponent's daughter, to confront harsh truths when they work together on a school project.

Stories We Tell Ourselves - Richard Holloway 2020-07-16

Throughout history we have told ourselves stories to try and make sense

of our place in the universe. Richard Holloway takes us on a personal, scientific and philosophical journey to explore what he believes the answers to the biggest of questions are. He examines what we know about the universe into which we are propelled at birth and from which we are expelled at death, the stories we have told about where we come from, and the stories we tell to get through this muddling experience of life. Thought-provoking, revelatory, compassionate and playful, *Stories We Tell Ourselves* is a personal reckoning with life's mysteries by one of the most important and beloved thinkers of our time.

Thinking, Fast and Slow - Daniel Kahneman 2012

In this work the author, a recipient of the Nobel Prize in Economic Sciences for his seminal work in psychology that challenged the rational model of judgment and decision making, has brought together his many years of research and thinking in one book. He explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. He exposes the extraordinary capabilities, and also the faults and biases, of fast thinking, and reveals the pervasive influence of intuitive impressions on our thoughts and behavior. He reveals where we can and cannot trust our intuitions and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives, and how we can use different techniques to guard against the mental glitches that often get us into trouble. This author's work has transformed cognitive psychology and launched the new fields of behavioral economics and happiness studies. In this book, he takes us on a tour of the mind and explains the two systems that drive the way we think and the way we make choices.

An Autoethnography of Letter Writing and Relationships Through Time - Jennifer L. Adams 2023-06-27

An Autoethnography of Letter Writing and Relationships Through Time: Finding Our Perfect Moon is about love letters, stories, and the ability of words to bring people together across time and physical space. Weaving together edited and annotated letters between a young couple in the 1930s with interludes of autoethnographic reflection, the book relates

the author's experiences as she has negotiated this project over 20 years. Reading the letters is a sepia-toned window into the very private world of two young, well-educated Jewish-American people who lived their lives against the backdrop of the Jazz Age, the Great Depression, and Prohibition. The author uses reflective autoethnographic interludes to tell the story of finding the letters and to explore the significance of letters as a communicative genre. Adams considers the ethical implications of being a researcher eavesdropping on private moments in others' lives, and she explores the function of dialogue in the development of the romantic relationship that unfolds in the letters and between the letters and her. The author also advocates for the everyday relational communication practices that collectively comprise life's most important experiences. Students and researchers interested in letter-writing, autoethnography, and relationship development will find relevance in this book. It will also be of value to those interested in letter collections, the ethical implications of intimate research on people from the past who cannot offer consent, the role of nostalgia in interpersonal communication, and anyone who thrills at a love story told from primary documents from the past.

Fearful Avoidant Attachment - Janis Bryans Psy.D

Do you feel disconnected with your partner? Does their hot & cold attitude confuse you, leaving you feeling that you can't communicate your needs? Are you worried about drifting apart? Attachment styles are the way that we connect with other people. They are generally developed by infants and further refined by children, adolescents and adults. Many of the fears, beliefs and behavioral patterns you emulate as an adult are derived from how you felt in the first few years of life. People who develop a fearful avoidant attachment style often desire closeness. They seek intimacy from partners. However, they may be unable to achieve the deep connection that they long for. The reason for this is because their attachment experiences have taught them to be fearful of intimacy. In some cases, their personality leads them to reject close bonds. This can spur a cycle of rocky relationships and extreme emotional highs and lows. A person with a fearful avoidant attachment lives in an ambivalent state of being, afraid of being both too close to or too distant from others. Understanding fearful avoidant attachment can help you to understand why you react the way you do in relationships. If you believe that a loved one has this style of attachment, understanding where the instincts come from may also help you to respond to them. People with fearful avoidant attachment may show signs of: - Stormy, highly emotional relationships. - Conflicting feelings about relationships (desiring a romantic relationship and being fearful of being hurt or left by a significant other). - A negative view of themselves and elevated anxiety. - A tendency to seek out faults in partners or friends so that they can create an excuse to leave a relationship. - A fear or anxiety about being inadequate for a partner or relationship. - Withdrawing from relationships when things get intimate or emotional. - A resistance to commitment and intimacy. They attempt to keep their feelings at bay but are unable to; they can't just avoid their anxiety or run away from their feelings. Instead, they are overwhelmed

by their reactions and often experience emotional storms. The person who is close to a fearful avoidant may feel: - Unvalued. - Not good enough. - Tentative. - As though they are doing something wrong. - Emotionally deprived. - Unimportant. - Unable to truly connect. - Held at arm's length. - Confused. - Lonely. - Abandoned and depressed. Such feelings, if experienced too often or too intensely, may ultimately make a relationship non-sustainable. The good news is that you can change the attachment style. It may take time, work and a great deal of understanding from people in life. However, it is possible for to build intimate, secure relationships that fulfill and help you to feel safe. If you do not intervene immediately, those who have a relationship with a fearful avoidant person will end up having to settle for a relationship made up of distances, misunderstandings and conflicts until the relationship is totally broken. Everything that you have built together will be lost forever. Understanding and managing the wounds of attachment is the best gift that you can give to your relationship.

Mindful Relationships - B Grace Bullock 2016-10-01

Human existence depends on relationships. Our brains rely on interconnected neural networks to function. Our minds relentlessly encode complex matrices of meaning to make sense of the world. And our physical and psychological development is contingent on the social bonds we share with others. Mindful Relationships: The Seven Skills for

Success integrates the science of mind, body and brain to reveal how stress undermines these relationships, and what we can do about it. Chronic stress threatens our wellbeing and relationship success by creating systemic dysregulation of the mind, body and brain. This dysregulation leaves us relying on primal defense strategies like aggression and withdrawal, and inhibits key cognitive-behavioral capacities essential to relationship success such as accurate appraisal, effective coping, and coherent communication. The inspirational and accessible book introduces the BREATHE model - an evidence-rich approach that synthesizes the science of mind, body and brain to alleviate stress, increase self-awareness, self-regulation, and emotional intelligence, and cultivate resilient social bonds. These Seven Skills are essential tools for creating and maintaining a healthy, harmonious, and successful relationship with yourself and others. Filled with sound science, engaging stories and experiential exercises, this book is bound to change the way that you relate to your life and those in it.

All About Love - bell hooks 2018-01-30

A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a

nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

The Routledge Handbook of Property, Law and Society - Nicole Graham 2022-11-14

This handbook brings together diverse perspectives, major topics, and multiple approaches to one of the biggest legal institutions in society: property. Property touches on many fundamental human questions. It involves decisions about power, economy, morality, work, and ecology. It also involves ideas about where humans fit in the world and how humans relate to more-than-human life. This book will ask in myriad ways such questions as: what property means, what kinds of property there are, what is and should be the relationship between owned and owner, and what is the impact of different forms of property on life in this world? Drawing on a range of socio-legal and empirical methodologies, renowned scholars and rising stars in property from around the world present current issues and map future directions in research. Coming from the place of law but reaching out through cognate disciplines, this handbook provides a comprehensive and accessible survey of current research at the interface of property, society, and the environment. This handbook will appeal to students and researchers across a range of disciplines, including law, sociology, geography, history, and economics.

The Stories We Tell Ourselves - J. Mark Thompson 2013-09-23

The Stories We Tell Ourselves: Mentalizing Tales of Dating and Marriage is about the dynamics of intimate interpersonal relationships (dating and marriage) - how and why human pairings occur, what helps them function optimally and how therapists can intervene when they don't. J. Mark Thompson and Richard Tuch employ a multidimensional perspective that provides a variety of "lenses" through which intimate relationships can be viewed. The authors also offer a new model of couples therapy based on the mentalization model of treatment developed by Peter Fonagy and his colleagues. This book is aimed at those interested in the nature of intimate relationships as well as those

wishing to expand their clinical skills, whether they are conducting one-on-one therapy with individuals struggling to establish and maintain intimate relations or are conducting conjoint treatment with troubled couples who have sought the therapist's assistance. Thompson and Tuch view relationships from a wide array of different perspectives: mentalization, attachment theory, evolutionary psychology, psychoanalysis, pattern recognition (neuroscience), and role theory. A mentalization based approach to couples therapy is clearly explained in a "how to" fashion, with concrete suggestions about how the therapist goes about clinically intervening given their expanded understanding of the dynamics of intimate relations outlined in the book. *The Stories We Tell Ourselves: Mentalizing Tales of Dating and Marriage* will appeal to psychoanalysts, psychotherapists, psychiatrists, psychologists, clinical social workers, marriage therapists, and all those interested in both learning more about the dynamics of one-on-one intimate relationships (dating and marriage) from a truly multidimensional perspective and in learning how to conduct mentalization-based couples therapy.

Unsent Letters - B. J. Muirhead 2014

Unsent Letters is an excerpt of an early novel draft. A homeless man witnesses a man falling from a fifteen-story building in New York's financial district. The fact that the victim, Ian Blue, was the subject of a recent fraud investigation and mostly likely facing jail time, leads Detective Finnegan O'Leary to assume he is dealing with a straightforward suicide, but information soon comes to light that indicates otherwise. Money was found under and nearby Blue's body, and Mia Blue, the victim's wife just happened to disappear on the very same day, April Fools' Day, fifteen years earlier. Her body was never found, and the crime, if there was one, never solved. Detective O'Leary, not one to believe in coincidences, sets out to solve what happened to Ian Blue and why, which ultimately leads to the reopening of a seductive fifteen-year-old cold case, and the exposure of long-buried family secrets.

The Stories We Tell Ourselves - R. Scott Gornto 2014-10-21

Change the story. Change your life. From imagined catastrophes to play-by-play interpretations of others' behavior, we are expert storytellers,

quick to fill in the blanks. Unfortunately, all too often our behavior is determined by baseless suspicions, which trigger needless pain. Real life passes us by as we fall for powerful fantasies of our own creation. It doesn't have to be this way. In *The Stories We Tell Ourselves*, author and therapist Scott Gornto shows us how to break the cycle of false assumptions that lead to unnecessary anxiety. By taking control of our reactions to the people around us, we can learn how to be truly present in our lives as we nurture the relationships that matter most. Based on more than 20 years of research and experience, Gornto demonstrates how family narratives, media, and past experiences shape compelling story lines that blind us to reality and wreak havoc on our relationships. Through persuasive examples, he models fresh, life-enhancing approaches to engaging with friends, business associates, and loved ones alike. Don't waste your life making up stories. *The Stories We Tell Ourselves* is a wake-up call and a compassionate, accessible guide to transforming your relationships-and your life.

Kant's International Relations - Seán Molloy 2019-01-14

Why does Immanuel Kant (1724-1804) consistently invoke God and Providence in his most prominent texts relating to international politics? In this wide-ranging study, Seán Molloy proposes that texts such as *Idea for a Universal History with Cosmopolitan Intent* and *Toward Perpetual Peace* cannot be fully understood without reference to Kant's wider philosophical projects, and in particular the role that belief in God plays within critical philosophy and Kant's inquiries into anthropology, politics, and theology. Molloy's broader view reveals the political-theological dimensions of Kant's thought as directly related to his attempts to find a new basis for metaphysics in the sacrifice of knowledge to make room for faith. This book is certain to generate controversy. Kant is hailed as "the greatest of all theorists" in the field of International Relations (IR); in particular, he has been acknowledged as the forefather of Cosmopolitanism and Democratic Peace Theory. Yet, Molloy charges that this understanding of Kant is based on misinterpretation, neglect of particular texts, and failure to recognize Kant's ambivalences and ambiguities. Molloy's return to Kant's texts forces devotees of

Cosmopolitanism and other 'Kantian' schools of thought in IR to critically assess their relationship with their supposed forebear: ultimately, they will be compelled to seek different philosophical origins or to find some way to accommodate the complexity and the decisively nonsecular aspects of Kant's ideas.

Public Relations as Activism - Derina R. Holtzhausen 2013-06-17

This volume applies postmodern theory to public relations, providing an alternative lens to public relations theory and practice and developing public relations theory within the context of postmodernism. Author Derina R. Holtzhausen focuses on two key issues and their application to public relations theory and practice: the postmodernization of society, and the possibilities postmodern theories offer to explain and understand public relations practice in today's changing society. Holtzhausen's argument is that existing theory should be evaluated from a postmodern perspective to determine its applicability to postmodernity. Utilizing practitioner perspectives throughout the volume, she explores the practice of public relations as a form of activism. The volume is intended for scholars and students in public relations. It may be used as a supplemental text in advanced courses on public relations theory, PR management, organizational communication, and related areas.

The Appreciative Inquiry Summit - James Ludema 2003-08-09

Over the past decade Appreciative Inquiry (AI) has rapidly emerged as one of the most significant advances in the field of organization development and change. This book is the first to provide a comprehensive practitioner's guide to the AI Summit-the preferred method when applying whole-scale change to large groups. The authors-four of the leading experts on Appreciative Inquiry-explore the theories of organization change and large-group process on which the AI Summit is based; walk the reader step-by-step through the process of planning, conducting, and following up on an AI Summit; provide a series of case studies of the AI Summit in action; and share essential success factors-what they have learned in their work with AI and large-group processes that contributes to success in large-scale efforts. This book is an essential resource for anyone who works with Appreciative Inquiry, large

group interventions, or whole-system change processes.

Avoidant Attachment - David Lawson PhD

Does your partner experience their relationship with you through a certain detachment? Do you feel coldness and distance within the relationship that is difficult to explain? Do you strive to grow your relationship, but have been stuck in the same spot for months or even years? A partner with an avoidant attachment style of emotion can build walls and create distances in any couple relationship, can show strict communication limits and undermine a romantic relationship. The detached attitude of the avoidant attachment personality can be frustrating for a partner, who will find him or herself experiencing feelings of uselessness and/or neglect, even to the point of feeling completely abandoned. Those who in a relationship with an avoidant partner can, justifiably, take a few steps back and question the entire relationship. Similarly, in adult life, people with avoidant attachments fear losing their self-reliance. They come to think that forming a partnership with another person will lead them to lose something of themselves. They approach the relationship in a conflictual way. On the one hand, they seek it because they desire intimacy and closeness, but on the other, living the relationship as a couple forces them to confront the painful memory of primary relationships that were emotionally deficient or sources of suffering. You may already have started a family with an avoidant person and made huge efforts to try to make it all work, out of love for your partner, family and children (as well as for your own happiness!). The mechanisms of distancing the avoidant partner have very deep roots. Only knowledge of these 'protection systems' can overcome the distances with the person you love. There is no other way. I recommend that you read this book if your partner: - Has a shy, detached, elusive personality or seems impervious to love and emotions. - Struggles to think as a couple and to build a sense of 'US'. - Obstructs, or deviates from any attempt to communicate your hurt feelings. - Cannot - or will not - accept help from others. - Shows boundless love for a pet but can be cool and aloof with you. - Regards any request for intimacy from you as pressurising. - Shows difficulties in living the sexual life of a

couple in a natural way, sometimes even avoiding intimacy in their relationships. - Is not aware of these dynamics, so can come to question love, to the point of thinking that they are a difficult person. Not everyone wants or has time to physically sit down with a couple counsellor. They are often not prepared for this type of specific attachment. Instead, you might feel: - Empty and confused when you are close to your partner. - Like an invader of their privacy and put aside. - That there is something wrong and you feel that somehow, it's your fault.

- As if you are playing a constant game of 'hide and seek' in the relationship. - That sometimes, you are insecure and unworthy of love. If you do not intervene soon, those in a couple relationship with an avoidant person will end up having to settle for a relationship that consists of distances, until the relationship eventually fragments. Everything you have built together will have been in vain. Understanding the wounds of attachment is the best gift you can give to your relationship, and grow and nurture intimacy.
