**The Place-Names of Sussex (Classic Reprint)** R. G. Roberts 2015-08-04 Excerpt from The Place-Names of Sussex The following work was originally written as a dissertation for the degree of B. A. with Honours in English Language and Philology in the University of Liverpool. It has since been completely revised and brought up to date. The scope of the book is purely linguistic; no attempt has been made to describe geographical or topographical features, although these have naturally been taken into account in determining etymologies. My source for the modern forms of the names has been Kelly's Directory of Kent, Surrey and Sussex, amplified by reference to Bartholomew's Survey Gazetteer of the British Isles and to the Times Atlas. Besides the Introduction, the work falls into two parts. Part I contains in alphabetical order all Sussex names for which early forms have been found, with a discussion concerning their meaning and history; Part II presents classified lists of the elements occurring in Sussex names. Many names which through lack of early spellings do not appear in Part I will thus be found in Part II under their separate elements. **Surrey Place-names** Gavin Smith 2005 Every village or town has a name. We use them every day, even though most were created at least 1,300 years ago. Yet, until now, we knew little about how these names were given and even less about the people who originally used them. The innovative research in Surrey Place-names brings to life this little-known era of the past, the so-called 'Dark Ages' when Britons and Anglo-Saxon peoples coexisted and arrangements for administering the land evolved. Gavin Smith shows that geography is key to understanding these arrangements as river crossings, soil types and the need for trade at recognised places are all important. His work reveals that many parishes reflect patterns established in the Iron Age. There were many influences on the naming of Surrey's places: early paganism, multicultural mixing, economic development, land management, ecclesiastical history, regional politics, the influence of London, ...
