As she tries to make sense of her recent past, she recalls very little. But she still remembers wartime in Yugoslavia. There she and her lover risked everything to carry out dangerous work resisting the Germans--a heroic campaign in which many brave comrades were lost. After that, the trail disappears into confusion. How did she come to be trapped in a living nightmare? As she struggles to piece together the missing years of her life, she will have to confront the harrowing experiences of her special-operations work and peacetime marriage. Only then can she hope to regain the vital memories that will uncover the truth: is she really a violent criminal...or was she betrayed?

Half a million copies sold! The breakout novel from the New York Times bestselling author of *The Orphan Collector*, *What She Left Behind* weaves together riveting stories of past and present, exploring the strength of women in two different times as they face adversity in two very different ways. Go inside the horrifying walls of a 1920s New York asylum as a wrongly imprisoned woman fights for what is most important to her—and meet the young woman confronting the pain and mystery of her own family's mental illness two generations later. Ten years ago, Izzy Stone's mother fatally shot her father while he slept. Devastated by her mother's apparent insanity, Izzy, now seventeen, refuses to visit her in prison. But her new foster parents, employees at the local museum, have enlisted Izzy's help in cataloging items at a long-shuttered state asylum. There, amid piles of abandoned belongings, Izzy discovers a stack of unopened letters, a decades-old journal, and a window into her own past. Young flapper and suffragette Clara Cartwright is caught between her overbearing parents and her desire to be a modern woman. Furious when she rejects an arranged marriage, instead finding love with an Italian Immigrant, Clara's father sends her to a genteel home for nervous invalids. But when his fortune is lost in the stock market crash of 1929,

he can no longer afford her care—and Clara is committed to the public asylum. Even as Izzy deals with the challenges of yet another new beginning, Clara's story keeps drawing her into the past. If Clara was never really mentally ill, could something else explain her own mother's violent act? Piecing together Clara's fate compels Izzy to re-examine her own choices—with shocking and unexpected results. With the help of Rob, a local landscape architect, she plans a backyard labyrinth as a memorial to Luke—a place to find peace and solace. The Woman Left Behind - Linda Howard 2018-03-06

Jina Modell works in Communications for a paramilitary organization, and she really likes it. She likes the money, she likes the coolness factor—and it is very cool, even for Washington, D.C. She likes being able to kick terrorist butts without ever leaving the climate-controlled comfort of the control room... But when Jina displays a really high aptitude for spatial awareness and action, she's reassigned to work as an on-site drone operator in the field with one of the GO-Teams, an elite paramilitary unit. The only problem is that she isn't particularly athletic, to put it mildly, and in order to be fit for the field, she has to learn how to run and swim for miles, jump out of a plane, shoot a gun . . . or else she'll be out of a job. Team leader Levi, call sign Ace, doesn't have much confidence in Jina—whom he dubbed Babe as soon as he heard her raspy, sexy voice—making it through the rigors of training. The last thing he needs is some tech geek holding them back from completing a dangerous, covert operation. In the following months, however, no one is more surprised than he when Babe, who hates to sweat, begins to thrive in her new environment, displaying a grit and courage that wins her the admiration of her hardened, battle-worn teammates. What's even more surprising is that the usually very disciplined GO-Team leader can't stop thinking about kissing her smart, stubborn mouth . . . or the building chemistry and tension between them. Meanwhile, a powerful congresswoman is working behind the scenes to destroy the GO-Teams, and a trap is set to ambush Levi's squad in Syria. While the rest of the

operatives set off on their mission, Jina remains at the base to control the surveillance drone, and the base is suddenly attacked with explosives. Thought dead by her comrades, Jina escapes to the desert where, brutally tested beyond measure, she has to figure out how to stay undetected by the enemy and make it to her crew before they're exfiltrated from the country. But Levi never leaves a soldier behind, especially the brave woman he's fallen for. He's bringing back the woman they left behind, dead or alive.
